

Records of Fort St. George

DESPATCHES FROM ENGLAND

1681-1686

MADRAS
PRINTED BY THE SUPERINTENDENT GOVERNMENT PRESS
1874

PREFACE.

THIS volume is a compilation of all letters and papers received from the East India House during the period 1681—1686. As far as possible the text follows the original papers contained in Vols. III to VII of Despatches from England; and the documents are printed in the order in which they are found in the manuscript volumes. Wherever documents are omitted as being duplicates of letters appearing elsewhere, notes have been inserted giving the necessary references and particulars as to where those documents are printed. Of the five manuscript volumes III to VII included in this compilation, volumes IV and VI are apparently contemporary copies made in Fort St. George, and the other three are files of original letters and papers bound as they were received here at the time. The only volume affected by age is Vol. III containing documents for the years 1680—1683. The paper having become brittle, portions of these documents are missing in many places. The other four volumes are in a good state of preservation.

4th April 1916.

H. DODWELL,
Curator, Madras Record Office.

OUR CHIEF & FFACTORS
 AT MADAPOLLAM.

Wee have yours of the 5th : May by the Eagle, but she arriveing so late with us, that her Goods are not yet landed, we can pass no approba^on or Censure of them, Of that you shall hear from us hereafter.

But upon perusall of the Copy of your Consulta^ons as you call them we observe great sligh^tnes and deficiency, as you will hear more particularly from our Agent and Council, whom we ordered to see all things kept up to that good method as was observed in the begining of M^r Hattons Chiefship there.

Inclosed we send you a List such goods as are to be provided at your place, & Metchlepatam concerning which we require your exact pursuance of all Such orders as you shall receive from our Agent and Council, and particularly that your Cloth be well sorted, and the full quantities of every kind provided.

If you know or can discover any persons belonging to the Dutch East India Company that do in any kind Countenance or assist the English Interlopers, whether they be Dutchmen or Natives belonging to that Comp^y : give us an acco^t, of their names, We being well assured, That the Committees in Holland, will do us and themselves right, in ruining any such treacherous servants of theirs in India (the English Interlopers being not less prejudicial to their Interest than to ours) Of which the Dutch Ambassador here, and the Bewinthebbers in Holland are sufficiently Sensible.

And if you Suspect any belonging to the Dutch, you may acquaint them beforehand, of what we have writt in the foregoing Paragraph that they do not

LONDON, Y^e 1st. MAY 1682.

OUR AGENT & COUNCILL AT
FORT S^t. GEORGE.

You cannot but have heard y^e Rumors that have of late been spread abroad of the attempts made against this Company by y^e Levant Merchants & others that favour y^e Interlopeing Trade, and of the great subscriptions for a new East India Stock to be managed by other hands, in order to y^e desolveing of this present Company. All w^{ch}. matters haveing been debated before his Majesty, and the Lords of the Privy Councill yesturday at Windsor, His Ma^{ty}. has been pleased So farr grātiously to incline to y^e support and maintenance of this Company as now established by his Royall Charter, and so well to approve of o^r. managem^t. of the India Trade, as will for the future Silence all clamors & pretences, That can be alledged to o^r. prejudice, In somuch as there is nothing that Wee can modestly aske for y^e encouragem^t. of our Commerce in India, which his Ma^{ty}. will not be pleased readily to grant us, So high an Esteeme & acceptance have o^r. indeavors mett wth. from his Majesty; who will by noe meanes check y^e present flourishing

condiçon of o^r. affaires, unto which y^e Almighty has been pleased to cowne [sic] with success, This Wee thought fitt to acquaint you withall, & would have you by the first conveniency to comunicate y^e same to all o^r. Factories on y^e Coast & Bay, and Bantam, as also to all subordinate Factories, and likewise to o^r. Command^r. and officers.

Wee received yours of y^e 29th. of August last overland, and are glad to hear of the safe arrivall of our Agent & co ffactors & doe promise o^r. selves wth. Goods [sic] blessing extraordinary Success from yo^r. prudent & faithfull managery, y^e wrather, for y^t it pleased y^e divine Providence to arrive you in so seasonable time. Wee would have you write to Hugly & order them to send us over & above o^r. former list 10000 p^a. of broad blew Ginghams of y^e ordinary sort. Wee remaine

OUR AGENT & COUNCILL AT
FORT [S^t] GEORGE.

LONDON, 25th : MARCH 1682.

Wee have this day mett with an Informaçon that We can rely uopn. That all y^e Interlopers that will trouble us in India this year are but 4 Viz^t : Macock, & Foster ; Masters of a Pinck, & a small Shipp about 120 tons each, and Dorrell Command^r of the Crown. Tho. Pitts Sup^r Cargo of all those three, and all intended for the Bay, Soe that you will be troubled wth. none on y^e Coast of Choromandell or Porto Nova, wherefore our express order is, That you imediately on receipt of this, Send Cap^t. Wilshaw to y^e Bay, being a man of hon^r & integrity, of whose faithfullness, Wee have a more than ordinary confidence, and know to be too honest & too wise, to be suborned or braved, by that huffing Knave Pitts ; Write to our Agent at Hugly to dispatch Cap^t. Wilshaw soe early, that he may be sure to save his Monsoones home, and that if some Shipp must stay to make a Winter Voyage besides the Society, it be sure not to be y^e Resolution whereof y^e said Cap^t. Wilshaw is Command^r.

If alley should returne againe for Porto Nova, it will not be but only for a Winter Shipp, 4 or 5 months hence ; Long before w^{ch}. wee hope you will have settled a Factory there in honest hands.

OUR AGENT & COUNCILL AT
FORT ST. GEORGE.

LONDON, THE 5TH JULY 1682.

Herewith you have copies of our last letters to you : Now we have only to acquaint you that Alley hath brought a great Irish Ship, and intends this winter to saile for your Coast againe, hoping for better Success then he had last time ; but we are of opinion, it will prove much worse if you have well settled Porto Nova and the adjacent places, which we Cannot doubt. Wee have Seriously Considered the advantage of our ffort and Towne of Madrasspatam, and all that numerous people under our Governm^t: there, and upon a serious Consideraçon, we being their Governo^r: and Legislato^r: doe hereby constitute and ordaine that noe persons liveing or residing within our Govern^t: there shall aske demand or receive directly or indirectly from and after Six months from the promulgation of this lawe, from & any person liveing or resideing within our said towne or governm^t: above y^e rate of 9 p Cent p ann^o: for the Interest or loan, of any money or goods upon the pain or penalty of extortian : which is forfeiture of money or goods soe sent to the borrower and a moderate fine to us for the offence, and [wee] doe hereby order you to promulge this law in such usuall manner as in like cases, that none of our people may pretend Ignorance thereof, And we recommend it to your Assideous Care to cause this law to be put in effectuall Execution ; there being nothing in our opinions, that can more highly Conduce to the making of any place great rich populous and consequently powerfull, tho' it may run counter to the private Interest of some p ticular persons, whoe being but a handfull with respect to the multitude are not to be regarded in the making of lawes.

Wee shall send you one or two early Ships, this year which are to depart Gravesend by the 14th: of August next, Soe that you would doe well to be provided for them.

Wee wrote you earnestly last year to sett affoote some linen manufacto^r: which we doe still desire for the reason then given you, some have tould us, that yo^r people cannot weave linen cloth [because] the heate of y^e country by y^e working of y^e loomes will sett [there] webb on fire, if that be soe, you may however provide linen yarne of Severall sorts & degrees off finest & coursest it would [much] help to fill up our Ships and sett our Weavou^r: on worke hear and may in time prove, benefiffshall Comodity, if your people weare once in the way off it, it cannot be Imagined what vast quantityes thereof would vent in this Kingdome. M^r Jollife deceased, who was much Conversant in framing the booke of rates in the parlim^t Soone after his Ma^{ties}. most happy restoration was wont to Compute the fforeigne linen imported into this Kingdome and expended only in Shifts and sheetes at two Millions of pounds sterling besides the other uses of tabling and Sayle cloth &c^a. send us however for the present a hundred bales of linen yarne of all sorts yearly for a tryall if you can procure soe many.

Wee are in dayly expectation of our Surrat & Coast Ships God sending them to arrive you shall beare againe from us over land. Wee remaine

POSTSCRIPT.

You having effectually stopped the Interlopers out of that hold of Porto Novo & parts adjacent, there are but two places upon your Coast w^{ch}. we have cause to doubt they may find some trade at, Viz^t. Trincombar and Gingerlee of which we have writt you something by our last Shipping. At the former fail not to make such Contract with the Danish Chief and Council or the Chief Merchants of that place or otherwise find a way to bribe or gratify them that no Interlopers Shalbe able to get a peece of goods there.

At Gingerlee we understand the dutch did not long since settle a ffactory, if you find it for our Service to establish an English ffactory there likewise for prevention of the Interlopers & purchase of goods to inlarge our Investments, We give you leave to do it, with this also that you may for the future expect more favour & Compliance from all the Dutch Companies Servants in India, then ever you formerly had, We being near an Agreem^t. with y^e. Dutch Ambassador to unite their power to our Wealth in India for the totall Subdueing or at least preventing the desires of all Interlopers & Competitors of our trade in East India.

OUR AGENT & CUNOILL AT
FORT S^t. GEORGE.

LONDON, 28 AUG. 1682.

With o^r three Suratt Ships arrived the Fleece and this day the George Anne and Cæsar, for which God be praised she brought us your Generall Letter of y^e [lacuna in the original] January which was greatly to our Statisfaction, in which You give us just Cause not only to approve but to applaud all yo^r Proceedings since yo^r arrivall in that Place, & are in very good hopes You have finished that Phirmaund for Coyning of Rupees, w^{ch} we hope may prove well worth its Cost.

We can say Little of o^r Concerns in the Bay, because we have yet seen neither Letter nor Paper from M^r Vincent, but hope the best upon the arrival of y^e other 4 Ships w^{ch} we should be exceedingly glad to hear of and hope we shall in Gods due time.

We are sending to you the London w^{ch} we hope may be with You a month or Six weeks before y^e ordinary time of o^r Ships arrival there we shall order her to be Loaded directly back from your Place, and we hope You will be so well prepar'd for her, as you may be able to give her a present dispatch so as making a Winter Voyage she may be at home here time enough for o^r Spring Sale.

We shall be very glad to hear that in Pursuance of o^r former order you have found as much incoragem^t to settle a Factory at Gingerlee as at Porto Novo & other Places in y^e Ginge Country.

We shall likewise be glad to hear that You have created a Banke of Loan, & can take up money for time at 5 or 6 % cent, engaging to keep it for 12 months certain, at Interest, or as much Longer as yo^r Lenders please not exceeding so many Years as You shall agree, but this We cannot expect Should be done upon a suddain, or just when You want it, but by degrees & at all Seasons when You abound as well as when You want, otherwise it will not answer to all Peoples occasions nor become a constant Usage w^{ch} is o^r Aime.

We do p^{er}mit to o^r Servants All Kind of Trade in India, not exclud^{ing} fformosa or China so it be done with their own stocks and duly registered, and o^r duties justly paid.

And upon consideration that a Trade to y^e Manillae wth Phillippin Islands, may in time create a greater Vent of English Manufactures, We do not only p^{er}mit o^{ur} Servants to trade thither but give Leave to you & yo^r second M^r Bigrig or whomsoever else shall be yo^r Second in case his of Discease to send for o^{ur} acco^{unt}. to the Value of 8 or 10,000£ p^{er} Annum in English Manufactures Long Cloth Sallampores and other proper Goods of that Place to y^e Said Manillae or Phillippin Islands, for wth upon the Return thereof God sending it Safe back to you, We shall for yo^r further encoragem^{ent}. allow You to take to yo^r selves 5th p^{er} Cent Commission.

We are very Sensible that English names will not pass in those Spanish Islands much less y^e Comp^{any} and therefore, must leave it to yo^r Discretion to contrive Disguise and cover that as shall be most for o^{ur} Advantage & Security.

We are likewise sensible that under such disguises & by Tradesmen may have greater advantage of deceiving us, then when the Goods return to o^{ur} own Views in England, but we have confidence in yo^r Integrities & do intend to make You richer in Time by fair just and righteous means than any of yo^r Predecessors have attained to, by corrupt and ungodly Gains.

We shall send You as You desire 20 or 30 soldiers & take care that they be lusty Young Fellows, not above 24 years of Age.

We must necessarily and absolutely injoin You, by one means or other to put off all our English Cloth Lead & other Goods, though you do abate something considerable of their Comon Prices, because we shall send You great new stores this Year, being a thing most acceptable to his Ma^{ty}: & y^e Parliament & indeed to y^e Generality of the People of England.

But that which is most materiall to come to yo^r Hands, by this overland Conveyance is the enclosed List of Goods to be provided wth in yo^r Agency, this ensuing Year, at sight of y^e Quantity whereof, you will be surprized, and must needs be greatly encouraged to see o^{ur} Resolution of carrying on o^{ur} Trade fully, though it may be somewhat to o^{ur} Loss, but will certainly prove in y^e Conclusion to the confusion of o^{ur} unjust and unreasonable Emulators and therefore we must desire you strenuously to set yo^r. Inventions on Worke how to make a full provision of what we do hereby Order; for wth You shall neither Want Stock nor shipping to bring it way.

By the Society We sent You a List of the Shipping we [intend for] Your Port this Year, but y^e late coming of o^{ur} shipping [. . .] may a little change or discompose those Lists, however we shall take care to send You, not less but rather more Tonnage, in y^e whole, & the Proporcon between the Agen^t in y^e Bay & Yours will be much y^e same For Answer to y^e other Particulars of yo^r Letter; we must refer You to o^{ur} shipping.

[Endorsed:] Copy of the Comp^a Generall to ffort S^t. George, Dated 28th August 1682—Ex^d.—Rec^d y^e 7th June 1683 ¶ ship new London.—N^o.3—Ent^d p^r E.D[utton].

OUR AGENT AND COUNCILL AT
FORT S^t. GEORGE.

LONDON, SEPTEMBER. 6th. 1632.

1. Besides sending you the above said duplicate of o^r Last, we have little to write, save the enclosed List of our designed outward Ships this Year which by the arrival of the three Last wee have been enabled to make more perfect than any formerly sent You.

2. The two first ships will be the London, directly to Yo^r Place, and the Herbert, directly to the Bay; and we shall expect that without sending the London any farther down then to Metchlepatam and Metapollam (if there be cause) You do immediately Load her home to Us from the Fort, that she may be with us an early Ship ag^t our Spring Sale, the like we shall expect to be done by the Herbert in the Bay.

3. By o^r Ships we shall likewise give You notice which of them We would have to stay with You to be a very late ship home, for one very late and very early we shall expect from You ev^{ry} year hereafter, and the Consort ship or Company home to be made only of o^r midle Ships, between those two Extreame of the very first, and the very Last Ships. In order to y^e more effectually compliance with this Purpose of ours, you must order yo^r affairs so, as never to be without 500 tons of Petre, in yo^r Warehouses, if you Lessen that store at any time, reckon not yo^r selves at ease till You have fully replenished it. Keep likewise the full enordered store of Calliature wood &c^a. according to former Advices.

4. And as you have any Remains of Stock in yo^r. Hands, or can borrow money at low Interest, be allwaies throughout the whole year, buying providing and imbalng Callicoos and other Goods, that yo^r Weavers being constantly kept in Worke throughout the whole Year, may serve You the cheaper as we know they will.

5. But buy most in the cheapest Seasons of the year wth we take to be in the time of the Rains & the absence of o^r Shipping.

6. Give the like order to all yo^r Subordinate Factories.

[Endorsed:] Copie of the Companies Generall to ffort S^t. George Dated 6th. September 1682—Rec^d y^e 7th June 1683 & Ship new London.—N^o 4—Ent^d & E. Dutton.

OUR AGENT AND COUNCILL AT
FORT S^t. GEORGE.

LONDON, 20th SEPTEMBER 1682.

1. We have now before us yours of the 20th of October 5th. 12th : and 19th. of January 1st : 6th : 8th : and 10th of February 1681 wth we shall answer in order and send you with this Copies of all we have writt you this year overland.

2. We would have no ffactory settled at Pegu but cherish y^e. trade of that place to the ffort all that possibly you can.

3. We approve of the Warehouses you are building & would have no conveniences wanting for store of goods because we are resolved to be buying and providing all the year throughout, but vain pompous expences we shall never think to be necessary or beneficiall to our Interest, A famous instance whereof we have now of the ffrench at Surrat, who We are assured live at 3 times the expence wth. Our President & Council are at, and yet can scarsly be trusted for a small sume of money at double the Interest We pay.

4. We continue of the same mind we were for imploying the Pettipolee Merchants and imbalng the goods apart, well knowing the Infallibility of that old Rule, Competition of the Sellers turns to the advantage of the Buyers.

5. We cannot think it necessary to our Service to have any Stock before hand at the ffort, where, by our long & great trade We have raised and enriched a Comp^y. of black Merchants to such a Sufficiency of Estate, that they have

wherewith to set themselves on worke and to keep all the people doing in the Country at all times of the year before our Treasure arrives, but if you can raise by degrees a bank of Loane money to the value of £100000 at the interest of 6 $\frac{1}{2}$ Cent $\frac{1}{2}$ Annū. We Shalbe content that you do it and keepe that as a Standing Stock to be alwayes imployed in the Country in providing goods at the best hand all the year throughout, especially before and after the arrivall of our Ships.

6. We hope you have and alwaies will keep Our Merchants exactly up to their Musters, which is a matter of great & indispensible Concern to Us.

7. We Shall alwaies indempnify you in the performance of whatever We give you order for.

8. As in all things else that We have yet observed, So in not Suffering any goods to be loaden besides our owne upon our Ships for the Bay you did exceeding well.

9. We are Satisfied Mr. Masters had a private end in most of his Contrivances and do well approve of all you have done in relation to him.

10. Your Intimaçons likewise concerning our affairs in the Bay are very good and your intençons in all you write thither we judge reall & Cordiall for our Interest but having been necessitated to make that an Agency w^{ch}. is now the greatest place of our Investments in India we shall say no more to you concerning it but that when Our other Ships Shall arrive with you, and our affairs are ripe enough to determine w^{ch} of our ships shall go downe to the Bay & returne back to you, you do as you did this last year, let our Agent & Councill know what quantity of Tonnage you shall have to loade upon those Ships that are to returne to you.

11. We have perused Mr. Bigrig's returne to your Comission from Metchlepatam and Madapollam by w^{ch}. we see things are much amiss yet in both those ffactories and find by our Bookes this year and the two last that they are run again at those places into an abominable profligate way of expence, w^{ch}. if you cannot correct by admoniçon you must cure by sharp remedies and never leave changing till you have rooted out the Spendthrifts from being either Chiefs or of Our Councill there, that being a place the most apt to runn into extravagancy of any we have knowne in India.

12. We observe what you write about Red Sanders and would have you never to be without 4 or 500 tons thereof lying in Some Safe place near the Sea Side and by our first Ships, that Shall arrive wth you to go downe to the Bay, Send 2 or 300 tons thereof to Ballasore to ly there for Kintlage of Such Ships as they Shall send directly home to us from the Bay and upon every ship that you loade home directly or otherwise load 6 tons for every 100 tons of each ships burden which we have agreed for the freight of at £ 6. s18. d4 $\frac{1}{2}$ ton as you will perceive by the Copies of the Charter parties Sent you herewith and if any Comānder refuse to take Such quantity thereof on board Send a Certificate of it and we Shall make the Owners pay our loss out of their freight.

13. You do well to be incessant for getting in our old debts, w^{ch}. we would have you never to give over till y^a. have made Something of it.

14. Build what Godownes you find necessary at Madapollam or elsewhere we being upon a very great increase of Our trade and more Secure in our apprehensions of Our station than ever we were.

15. Make your buildings strong especially the ffoundaçons & prevent our being cheated as we were in our Sloopes.

16. Our meaning as to the Revenue of that towne is, that one way or other by Dutch Portugeese or Indian methods it Should be brought to defray at least the whole constant charge of the place w^{ch}. is essentiall to all Government in the world, people protected ought & do in all parts of the Universe in Some way or other defray the charge of their protection and preservaçon from wrong and violence, the manner of raising w^{ch}. revenue we shall leave to your discreçons as may be most agreeable to the humors of that People.

17. Your Agency being now reduced to Governable limits We hope you will the more easily compell all under you to keep precisely to all our rules and orders.

18. We will not possitively determine but propose it to you whether it be not adviseable for us in case of our Revenue that upon the death of any one of your 100 Merchants you put another in his stead, He paying us 200 Pag^o. for a fine or Income, and that by degrees yⁿ. add others to their number, paying Us each the said fine and continue on foot the old constitution, for We are not so much concerned, whether old Merchants or new ones do our busines, So as they be kept exactly and fully to the goodnes of their Musters, and be obliged once a year to clear our Warehouses of all Europe Commodities, w^{ch}. is of mighty Concernm^t. to us, that which incensed us So much against the old Merchants formerly, was their falling off from the goodnes of their Cloth, w^{ch}. was as much M^r. Masters & M^r. Bridgers fault as their owne, tho' between them all We suffered extreamly, and Shall now get what reparaçon we can, the best whereof will bear no proporçon to our loss.

19. We Shall comply with your request of entertaining W^m. Probee a Writer, altho' we suppose his Unckle Probee might importune you to recomend him, as he hath done us to accept him.

20. We approve of your keeping a fair Correspondence w^{ch}. Lingapa, & of your purchasing a Phyrmaund for coyning of Rupees & could wish you had put Pice and ffannams into the same Phyrmaund, whether we had coyned any or not.

21. Your modest application to us about the trades of Tonqueen and fformosa, we like well and are content you should have the liberty of those places as well as all others in India.

22. We observe the excess of M^r. Masters injustice to the Natives and shall do them full right, when that matter is ripe for our determinaçon, which yet we have not had time to enter upon, and he will find himself extreamly deceived in his notion, that Indians are not good Witnesses in Our law, their Testimony having bin admitted in former hearings before my Lord Chancellor, He will find himself under the like mistake if he thinks any of this Comitteé can or will Support him in any acco^t. of ffraud or Injustice.

23. But we see no Shadow of reason why any of those people Should expect or hope that We will return any of the 10,000 Pago^t. paid us, Since they know by the naturall light of their owne Consciences, that they injured us of ten times that Suffie by delivering goods for 3 years together 20 $\frac{1}{2}$ Cent worse than y^e Contract.

24. We Shall send you a large Supply of ffactors and Writers and 20 or 30 Souldiers none exceeding 24 years old except they deceive us.

25. We approve of your granting Peddavincatadry's petiçon.

26. We shall send you Some Toyes for Metchlepatam and Some Cloth also. 60 barrells of tarr and 20 barrells of Pitch w^{ch}. we hear are Comodities in severall places of your Agency, and shalbe glad you may write us for a farr greater quantity hereafter, because it helps to fill up our ships, and is to us (now we send so many) as it were freight free, this we desire you to put off to our most advantage, and the sooner the better because the latter ships may probably bring you greater Supplies.

27. We approve of all you have done about Diamonds not doubting but you will have the opportunity to do much better for us next year.

28. Turn Verons's Gold Chain & Medall into Pag^o.

29. Now the Bay is made an Agency, it wilbe a needless charge to continue Patamars going so constantly betweene you.

30. We approve exceedingly of the Settlement you have made of the Chingey Countryes and would have you nourish it by all means possible, and if you can

obtaine the liberty of building a ffort and all the Priviledges which you enjoy at Madrass, and if you can have Such liberty you may go in hand with erecting a ffort of 30 or 40 Guns, as soon and with as much frugality as you can but however if you cannot have all you would, Settle there upon the best terms you can at present to prevent the Interlopers.

31. In all the Ships you loade home whether directly or otherwise it wilbe convenient you take it for a rule to send off your oldest Turmerick and oldest Peter first.

32. We have not had time yet to discourse much with M^r. Lucas but he shalbe assisted by us in any thing that is just, and before his returne Shall reap Some fruit of your recomendacion to us for his preferment.

33. We desire you to Secure the remaining ballance of our debt from M^r. Wynne, and the 303 Rupees due to us for freight from M^r. Tivill and M^r. Hatton.

34. Having now fully answered all we find materiall in yo^r : letters aforesaid We proceed to acquaint you that We design this Ship the London to come to us directly from your place with what goods you have and can provide of a Sudden to dispatch her a full Ship, and that She may come the richer if the winds favour her passage either way, you may send her to Metchlepatam, Madapoll Gyngerlee or Porta Nova to take in whatever goods you have or can of a sudden provide in any of those places within your Agency to w^h. the Winds shall favour her passage at the time she happens to be with you or depart from you out of yo^r Agency but we would not have her go out of your Agency before she returns to us.

35. We have mett with a Report (we cannot say whether true or not) that the Danish Comp^y. is like suddenly to break up, but exceeding low We know they are, if there Should be any truth in the said report, We would willingly buy the ffort of Trincombarr towne and all the priviledges if it can be obtained upon reasonable terms; and if it be to be Sold it will follow in consequence, that it must be Sold a good penniworth, because the Dutch have fforts enough, if not to many for their stock, and the natives care not for such a Bargaine.

36. It wilbe too blunt a Question to propound to the Danes whether they will Sell their Settlement there, and therefore you must contrive to make your enquiry in some private by-way with Civility & good manners and if there be no probability of any Such purpose or intent in them with their Masters consent nor any order or direccons from Denmark for their so doing. We would however have you make a fast friendship and Correspondency with the Danish Chief & Councill at Trincombarr, to prevent their aiding any English Interlopers and if you think it necessary for our Service Send Some Skilfull person thither at as small a charge as you can to buy up all the goods that are proper for our market, which if you can do in truck for Lead Cloth or any English Commodities it wilbe so much the better, but by all meanes avoid making of any bad debts.

37. Let no loose ignorant expensive idle or debauched persons continue in our Service of what quality or condiçon Soever they are, and that you may be the better able to root out Such weeds, We have sent you so large a Supply of ffactors and Writers of whose names &c^y. you shall have a list apart with this paquet.

38. We would have you make a full provision of all the goods contained in the List sent you herewith, Some of which We hope you may provide in the Chingey Countrey and peradventure Some at Gingerlee where we would have you Settle a ffactory if you can obtaine good terms, and find it for our Service.

39. The bill of loading and Invoice will informe you what goods & Bullion we have sent by this Ship which is all in Gold that you may be coining of it, by the Ships that follow you Shall have a full Stock with what you have already there to answer the quantity of goods We have demanded by our List, and We hope the early Sending of this Ship and the liberty we have given you of taking up money at moderate Interest, when ever you can meet with it may conduce much to the enabling you to make So large provision of goods for us.

40. Our Secretary will inclose to you the Indulgences and Orders We have made for permissive trade this year to which We have been led by some politick consideration and a decree of like nature (to what we have done lately) made by the french King.

41. But We are resolved for the future that whatever Commodity we permit to others, We will never wholly omitt trading in any one Commodity of India our selves, for that Such omission would turn as much to the Benefit of the Interlopers, as of Our private Adventurers Serv^{ts}. or friends, And therefore We do hereby order you to provide & send us that 30000 pounds we have appointed by our List in Diamonds. The Commission whereof (since We have now opened that trade again) We will have now taken and divided, two thirds to our Agent, and one third to our Second of that Council, and not otherwise.

42. We would have you alwaies send exact and entire Copies of all our Letters to every ffactory within your Agency, out of w^{ch}, certainly they must needs pick Something, for their owne good and our Service, w^{ch}. we order not to elate or puff them up to any stiffnes or Restynes against their Superiors but onely for their better instructiō in our busines and Conduct of their lives.

43. ffor we have Such Confidence in Our present Agent & Council at the fort, that we will have intire and absolute Obedience paid them by all our Servants in every Subordinate ffactory, and therefore We do hereby enlarge that power We formerly gave of Suspending any person from our Service, that should not in their Judgements behave themselves faithfully and dilligently as they ought to do, and We do hereby give authority to our said Agent & Council when they shall think in their Consciences, it is for our Service to remove any Chief or other of our Servants of what quallity or Condiōn soever they be and to send them home to us by our next Shipping, placing in their stead Such as they shall reasonably think may serve us better.

44. Long experience with variety of persons and humors hath convinced us of these following truths :—

1st. That long tedious and cross examinaōns in India with bundles of attestations, accusaōns, Defences, Apologies Certificates and other Such like Trumpery (of w^{ch} We have had loades in our time) do Signify just nothing but Chime as many Changes as the best Ringers in London can make with Seaven Bells, and that the Worst of men will contrive their Busines so, as to furnish themselves with the largest ffardle of Such Sophisticated Ware.

2^d. That without Such a Bussle a Wise Agent and Council will easily after a few admonitions discerne w^{ch} ffactory doth well, and w^{ch} not, and may shrewdly guess, whether it be depraved by the Malignant Influence of the Chief, or whether the Chief be good and those under him idle or obstinate which seldome happens.

3^d. That great abuses unfaithfulnes or neglect can hardly hold long in any ffactory where the Chief is tollerable, nor be ever possibly cured, till at least the Chief be changed.

4th. That in a ffactory totally corrupt & depraved as Metohlepatam was many yeares, the change of the Chief may make a partiall but can never make a thorow Cure without displacing the Chief and every person of the Council.

5th. That a person once habituated to and contaminated wth Infidellity, Sloth or Luxury will never mend to that degree as is fitt for us to trust him again.

45. These Results of our experience We note to you as Marks to Steere by in the conduct of those great affairs We have comitted So intirely to your care & management, and great they are indeed, for that courage and Spirit w^{ch}. the Interlopers have raised in us, have putt us to a Vye not onely with them but with all others that are competitors with us for the trade of the East Indies, and without vanity may Say, that we agonise, Strive and labour, not So much for our Selves as for our Country and posterity, well knowing (whatever weak or malicious men think or say) that the value of the land of England Our Common Mother depends as much upon the carrying on Our trade of India, and that in this very

Comp^a. and this joynt Stook now established as upon any externall accident or cause whatsoever: which God Almighty hath enabled us to make plain and evident to his Ma^{ty}. and his most hon^{ble}: Privy Councel; And we doubt not but the Same good providence that hath So wonderfully blessed this Kingdom and this Company, and which usually attends all good actions and intençons, will enable us to make out this truth as clear to the Parliament both Lords and Commons when ever this Affair shall fall under a Nationall consideraçon.

46. Our aimes are Sincere good and publique and We do endeavour to proceed with exact truth and Justice aswel as Courage, and where the end is good and the meanes good, it pleaseth God for the most part to give a blessing, and therefore while We keep to Our Integrity and publique Spiritedness, as God Almighty hath blessed us already, So we have full confidence, that he will yet bless and prosper our Affairs to the astonishment of all Such as ignorantly or maliciously wish us ill.

47. You say in Some of your letters you could have Security for the Pettipolee Merchants, if So it will certainly be convenient, to take the best you can get.

48. We think it likewise necessary for our Servants ut Metchlep^a. and Madapollam to be reduced to one Comon table at each place and to have no allowance for diett or otherwise out of our owne houses. We have not yet Seen our goods from thence So as to pass a true Judgment on them, but before hand We do not expect that proporçonably to what We have had in former years they should hold equall in goodnes with yours, long experience having instructed us, that it is a vain thing to expect to wash a Blackmore white, as to expect good and cheap cloth from a vitiated and expensive ffactory, Such as we have cause to fear, that yet is.

49. If you should buy many goods at Pettipolee, consider, whether it be not convenient to order one of Our Ships to Stop there, to take them in, and do in that what you shall think best for our Service.

In all yo^r managery since Agent Gyffords arrival, We find nothing to com-
plaine of, but o^r Mint Affaires, which are now at a worse Pass than ever, since o^r.
Settlement there, as you will more particularly understand by the enclosed Report
w^{ch} We received from the Com^{tees} of the Treasury which We send You a Copy
of, from whence We draw these certain Conclusions Viz^t: That part of o^r Loss hath
come from making yo^r alloy with Copper instead of silver which would have been
less to o^r Prejudice 2^{ly}. That yo^r Sherroffs are undoubtedly cheating rascalls and
do daily increase their Deceipts upon you, 3^{ly}. That the English intrusted with
Superintendency of that Business have ill discharg'd that Trust, either through
want of Skill, or worse.

The way to remedy this abominable mischief We must leave to yo^r discretions,
but cannot apprehend how you can effect it, without turning out some of yo^r
Chiefe Sherroffs, and advancing in their stead osme of y^r most ingenious of the.

Inferior's, and by all y^e means You can contrive obtain from some of themselves a discovery of y^e Cheate.

Yo^r Diamonds were monstrously ill bought, which We do not impute to y^e want of Care for Us, but to some want of Skill, & y^e ill Circumstances of y^e Competition You had with Cholmley & Masters, but we hope in future years We shall speed better in that Commodity, & that you may know how We have sped this year, We send you the printed appraizement, and Sale, by which You will see that though we valued them only at y^e first Cost, & bare Interest, Yet few from the Fort would Sell, though all from Surratt in generall sold competently well.

LONDON, 9TH : OCTOBER 1682.

S^r :

You will find in a List of Goods one article for shifts of all sorts which I would have you looke upon as a matter of great concerment to the Company, being the onely way I know to introduce the using of Callicoe for that purpose in all these Northern parts of the world, & therefore I most earnestly recommend to you to provide 200,000 shifts ready made of the strongest sorts of Callicoes some finer & some courser, & be sending them as fast as you can.

Lett some of the coarsest sort for Seamens & ordinary peoples use be strong blew Cloath, & some white for the like ordinary use, others white Midling, for Citizens & Midle sort of People & some fine enough for Ladies, & Gentlewomen ; if some be wrought on the brests, & on the sleeves, & in the Coller with needle worke, the price here will sufficiently pay for the worke, & cost there, where labour & art are so cheap ; take especial care that the sowing be very good & all the Cloth strong in its kind, as well fine as course.

Wee promise our selfs much advantage by great variety of goods which is the more necessary because elce by this great encrease of our trade, we shall glut the Market in many things which will not beare such an encrease, therefore find out all the sorts of Callicoes both white & colloured that yo^r : Agency affords, & send us at least 10 bales of a sort ; & in all other things relating to perticular Comodities, I shall referr you to M^r : John Cudworth, one of our Comittees who hath a great stock among us to the value of above £. 40,000 & resolves (as I do) to abide all fortunes that shall attend the Company, he is a constant resident in the City, & capable of giving you the best advice of what is proper for this Market, of various & new sorts, pray receive whatever shall come from him of that nature, & give the same respect & observance to it as if it come from my self, & I am sure the Comittees will give you thanks, especially myself who shall thereby be eased of a great deale of writing worke of which I have more than enough for one man at all times, so comending you to the protection of God almighty, I rest

S^r:

Being desired by our worthy Gov^r: S^r: Josiah Child (my highly hon^d: freind) to hold a correspondence with you I take the first opportunity to begin it & shall frequently venture the troubling of you with a few lines when ever I can hint any thing to you that may somway promote the Interest of the Company wherein myself & many of my Relations & freinds are so deeply concerned; I was but just coming into the stock at the time you went from hence, so had not the happiness to be knowne to you but do intend to lay a foundation of future acquaintance the main end of which being to gain an opportunity to further what in me lies the encrease of the Companies trade in all parts of yo^r: Agency, a thing they are so intent & resolved upon, and for divers reasons is so absolutely necessary at this time makes me presume it will be acceptable to one who I am so well satisfied hath so great a zeale for their Interest; & because by so great an encrease of trade there will be danger of glutting the markets here, & that nothing can more effectually prevent the ill consequence thereof nor encourage an enlargement, as yo^r: providing all the variety & improving of the usual sorts of Callicoes, so also by finding out all the new kinds that yo^r: parts affords; I shall therefore make it my business from time to time to give you all the light I can therein. It is a great fleet & Stock we sent last & design this yeare to send you; We doubt not but you will performe yo^r: part, & fully answer the great expectations we have of yo^r: good managm^t: & are confident that by yo^r: prudent, vigorous & faithfull conduct of the weighty affaires comitted to yo^r: government that Interlopers will be defeated, full Investments made, & the Companies publick Interest carried on at another rate then ever it was by any of yo^r: predecessors.

At present shall mention a few things that will eminently advantage our stock, & encrease the esteeme & value we have for you.

1. The cheape & well buying of goods, & making a considerable abatement of the prises at Madopollam.

2. The seasonable dispatch of the ships with rich & wel sorted Cargoes both as to quantity as wel as to quality, for quantity that there be a due proportion of every sort of goods, & not much of some, & few or none of others, for quality that every kind of goods be exactly sorted & not different sorts & goodness mixt together in the same bale.

3. Making a full returne of this years shipping of all the Stock you will receive, what you had remaining former years, & of all that you can take up at Interest.

4. Sending as large quantities you can possible of the finest sorts of Long Cloath, Sallampores, Morees, Bettellees, Percallaes, Neccloaths, Gingham, & a good quantity of finer sorts then ever yet sent, & some as fine as possible can be made.

5. Finding out & sending at least 10 bales of each of the kinds & sorts of goods that are to be had in yo^r: Agency of which I am informed there are great numbers especially at Metchlepatam & Madapollam, some of every sort, tho the fewest of those you judge deare.

6. Effectually putting in Execution the Companies orders about the taking up all the money you can at Interest.

7. Putting the Merchants & Weavers upon inventing all the variety of new sorts that can be, especially for paintings, & that they be of full, brisk, & lively colours.

I cannot now enlarge but at the next Ship Shall give you a perticular Account of the Sorts of Callicoes that sell to best profit, & in which an enlargement will be to the advantage of the Company; as also of divers new Sorts. In the meantime please to accept of my hearty wishes of all prosperity, & Success in yo^r: great undertakings, & the tender of my Service & kind respects, remaining

Yo^r: real freind to serve you

OUR AGENT AND COUNCILL
AT FORT ST: GEORGE.

LONDON, 27th OCTOB^r 1682.

1. By this Ship y^e London we send you in bullion and other Goods ^{107/120: 1. 4} as you will see by o^r Invoices & bills of Loading which is to make a beginning of o^r Investments.

2. Our Design is to have as many goods home this year as you can possibly provide for Us, that We may at once put an end to this interloping Trade.

3. To which purpose get yo^r Chief merchants to forestall the Interlo^r & in all small Ports and Creeks, in which M^r Lucas assures us, they may and will do us good Service.

4. That the natives for ever hereafter may be better used & have equal Justice, with any of our na^{cion} We have enclosed to you a Law which We would have published & perpetually observ'd in all o^r Courts within that Agency.

5. Seise and send home any English that you shall but suspect may aide the Interlop^r. and if any in o^r Service intermarry with any women that go over in any Interlo^r & dismiss forthwith such persons so marry'd from our Service and send them home with their Wives.

6. Increase o^r Investments all you can in fine goods of y^e Citty of Golcondah and in y^e Gingee Country and in all other Places.

7. We understand there is a house in which M^r Herris & M^r Cholmly formerly lived which now belongs to M^r Masters, w^{ch} We would have you by Process out of o^r Courts there to attach for Padavincatadry, on acco^t. of y^e Debts M^r Masters owes him; which now that We have admitted y^e natives to give evidence you cannot want means to do, and before o^r Later Ships go, We hope to send you our Award touching those Differences, but in Courts when We have not Witnesses Vivâ voce, you know the Law is chargeable and tedious.

8. We have appointed M^r Lucas to be chief of o^r Factory at Porto Novo in Case you have not allready Setled M^r Yale there, if M^r Yale be settled Chief there and desire to continue in that imployment you are in such Case to receive M^r Lucas, into o^r Councill, upon his arrival next after M^r Elihu Yale.

For which end we have hastned him away upon this Ship that he may be at y^e beginning of o^r Investments.

9 We shall order the Josiah and y^e next Ship that goes after him to stay at Porta Nova untill they have yo^r Orders to come to the Fort, to Countenance our new Factory there and also to hinder any interloper from trading there or afrighting y^e Natives.

10. The like order We have given to this Ship and shall continue doing so to all others that We send to y^e Fort, but the two next after this are most like to meet with Ally at Porto Novo, and you may do well to stay them both there, as long as Our business will admit of their Stay without prejudice and if you can so contrive it, Order two ships to follow Ally down to Metchlepatam: And to dog him continually with two or three Ships at Sea as you can make it correspond with our business, and with two or 3 Merch^t: at land to buy the Goods from him whatever he gives.

11. And in all Places use those methods We formerly gave you forgetting away y^e Interlo^r & seamen and otherwise destroying their Voyages by all means within yo^r Power.

12. And in regard o^r Councill will be over numerous, by y^e Addi^{cion} of M^r Nicks and M^r Lucas to our first establishment We would have you place out

some of y^e Council to be Chiefs of other Factories in the room of those you will find Cause to dismiss from o^r Service and send home for their negligence or Infidelity.

13. And now that o^r Council is so full We will have none added thereunto, untill We shall o^rSelves give order, for so doing nor shall We like that any should think themselves more eased of business by having y^e hono^r of being of o^r Council but the more obliged to be forward and industrious to assist o^r Agent in any writing work or other business in o^r Service.

14. Whatever occasion you may have of imploying any of o^r Council out of Madrass We would have our Agent M^r Bigrig constant Resident at our Fort.

15. If any of y^e Interlo Ψ s offer Violence or Force to any of the Natives who are o^r Allies and Friends (as all are with whom We have Trade) We would have you command o^r Captains Officers and Seamen to rescue and protect y^e Natives, and to resist such violence and Force by Force of Arms whatever y^e Consequencies be.

16. And if in such Case any o^r Command^r shall disobey You Protest against them, and Load no goods upon such refractory Command^r Ships homewards but leave them to come home empty and Seek their Remedy here at Law.

17. In all yo^r Protests ag^t. them You must intimate to Them that we have Freight^d their Ships to Serve us in peace and Warfare as you may see in the Copies of their Charter Ψ ties.

18. We would have You send down to y^e Bay on y^e Golden Fleece 300 tons of Calliatore which We have ordered our Agent & Council at Hughly to put on board y^e Ships which they dispatch for England in the propor^on men^oned in each Ships Charterparty, being 6 Ψ Cent of their Tonnage which they are oblig^d to bring us home at halfe Freight.

19. We do hereby order you to seiz upon and attach by due process out of your Courts, all such goods and Effects as you shall meet with in the Country belonging unto M^r Streynsham Masters, Our late Agent towards y^e Repara^on of y^e Damages y^e Natives have sustein^d by his unjust dealings with them.

20. We have besides M^r Lucas entertained y^e following persons to serve Us in yo^r Agency, who take their passage on this Ship y^e London, or on y^e following Ships Viz^t M^r Benj: Bloome M^r [lacuna] Shales as Factors and [lacuna] Charlton & [lacuna] Stubbs, Writers. We remaine

LONDON 27TH OCTOB^R: 1682.

The Governour and Committee of the East India Company taking into their considera^on the great and unreasonable abuses inflicted upon Pedda Vincatadry, China Vincatadry, Allingal de Pilla and other of our native Indian People of our Towne of Madrasspatam by our late unjust and tyrannicall Agent Streynsham Master, Do for preven^on of Such oppressions for the future, Ordain and appoint for a Standing law and Rule in all places within the jurisdiction of our Agency of Fort S^t George.

1st. That no person in our Service Shalbe Suffered to depart home for England, till he have paid all just debts to the Natives of India, or given bail to their Actions.

2^{dly}. That the Oaths of all native Indians of good fame & credit within the Agency of ffort S^t George Shalbe admitted in all trayalls of law and Equity, aswel betwixt Natives and Natives, as Natives and Englishmen, they Swearing by the living and Eternall God who created the Heavens and the Earth, in whom they believe, & from whom they expect reward or Punishment in another world for the good or evil actions they do in this life.

3^{dly}. That in case of great concernment their Oaths be likewise taken in their owne Pagodes, for afirma^on or discovery of y^e trnth.

4^{thly}. That this Law be published in most Solemn manner by Beat of Drum, and Sett upon the gates of Madrass, in the English, Portugeez, Gentue and Malabar languages. To the intent that all Persons may take notice of it.

OUR AGENT & COUNCILL
 IN THE BAY OF BENGALL.

LONDON 2^o. APRILL 1683.

The inclosed is Copie of our last by the Herbert Since w^{ch}. many adverse accidents have happened to the affairs of this Comp^{ss}. not onely in the loss of Bantam to the Dutch, & the Johanna outward bound to your place with her Stock

of £70,000 most Bullion, but more especially by an extraordinary & unparalleled fail of credit, in all the publique Fo[n]ds of this City, which hath caused the failure of divers of the Goldsmiths in Lombard Streete, whose names probably you will have an acco^t. of in private letters: This unusuall occurrence did so affrighten all people, that many demanded at once their money at Interest from the Company, to Satisfy whom we were necessitated to publish these three following resolutions. Viz^t.—

1st. That all the money arising upon March Sale Should intirely be disposed of towards the Satisfying of the Comp^a. debts.

2. That no Bullion Should be Sent out upon our Ships untill all the Companies debts due by or before 31 March were fully Satisfied.

3. That the Comp^a. would make no division of any money or goods to y^e. Adventurers untill all the debts now owing by them were fully paid.

These resolutions & the necessity that compelled us to them are the causes why we Send you no more Bullion by these Ships.

What goods we have on board each of them you will understand by the Invoices and Bills of loading.

And we do very well hope that considering how great a Stock was left in the Countrey when our last years Shipping came away, together with the early Stock [we sent you this] year, that you may wth: the help of money taken up at Interest in the Country, (and that little pittance we now send you) dispatch these Ships the George and Golden fleece fully loaden home to us, which as our affairs have fallen out are the last Ships you are to expect from us this year.

The Sampson departed for Surrat the 7th. of February 1681 and the ffaulcon 22th. March following, both these Ships we hope may be early with us this Spring, having long since received letters overland from our President & Councill there that they were ready to load them.

And if the Resolution from the Coast, and the Defence from you should likewise prove early Ships home, they would be very [Welcome].

The Josia we have ordered for the Coast, hoping that with the [stock already] Sent them, and what Stock they had in money and goods when our last Ships came away, and what they now carry, they may load that Ship within that Agency, but in regard that it is much more difficult, to take up any great Sum of money at Interest in those parts, then it is with you We have sent the George and Golden fleece directly to you, having at first designed the George also for the ffort.

In this conjuncture of affairs you will do us a Singular Service in disposing of all our old remains concerning which we have wrote you very much & very earnestly in our former letters, and we hope you will now have an extraordinary opportunity for doing it, and that your just Sence of the state of our affairs will be a great incentive to provoke yo^r more then ordinary care & diligence in this matter.

Our old Guns and every thing else that hath lain by the walls, Sell now, or truck of in the best manner you can.

We do expect home great effects and better markets then we had last year (although those markets were very good, God be praised) but the ground of our hopes that this ensuing year may be better, is the very low estate of our Neighbors the Dutch in India, who can have very few Ships home this year, having weakened themselves So exceedingly with this attempt upon Bantam, and the Warrs they are engaged in with the Tarnatta's.

Our King doth highly resent the affront offered to himself and other Christian Kings by the Dutch in their Surprize of Bantam & treacherous expelling the English and other Europeans out of the trade of that place, and we believe they will very Suddenly find themselves the greatest Sufferers by reason of it, which seems to be no Singular opinion of ours, but the concurrent voice of both Nations, for that our stock which hath been very low lately doth now dayly advance in estimation, and their's as much declines.

Mr. Charles Chambrelan acquainting us that there were 12 Corge of silk longees & 70 pieces of gold and Silver Stuffs, being unprohibited, were provided and in a readines to be Sent by the last Ships that came from the Bay, but the Comander refused to take them in, which upon examinacon of the invoice produced unto us We find to be true, We have thought fitt upon his desire to order and direct that you order the Comander of one of those Ships to take them in and bring them home for his accompt.

And it appearing by the said Invoice, that there was provided for his acco^t: 30 Corge of Herba Longees and 30 p^a. of Atlases which are both of them prohibited, and which he declares he is willing should be delivered to you Our Agent & Councell in the Bay, upon yo^r bill of Exch^a. at 2 ^d/₆ a Rupee, upon the prime cost with the charge and Comission, but in case the Said goods Shalbe laden on the expected Ships, before any new order Shall arrive with you, he is willing we Shall have them at the prime cost at 2 ^d/₇ a Rupee, We running the hazard of them, if it Shalbe proved by him they were laden on the expected Ships this year, which we have consented to. And there being also as he informs us 50^{oz} of Gold more sent by him to his correspond in the Bay, Of w^{ch}. (he Saith) he hath had no accompt what investment hath been made thereon, for which he is willing to do according to the said Invoice, as they Shalbe invested. We have accepted of the said proposiçon & do hereby direct y^e you proceed therein accordingly, & advise us of what you shall do therein.

We having received a satisfying character of the Prudence, integrity & good abilities of Mr. Thomas Ley, we have elected him to serve us as one of Our Councill at Hughly upon his arrivall there, whom we doubt not but you will find industrious & active in our Service, in managing Such affairs as you shall comitt to his trust. And we have chosen Richard Watts Writer at the Sallary of £5 per annu to be employed in Such of o^r ffactories as you shall thinke fitt.

We have sent you two presses for the packing of Cotton, which may be of great use to us, and Mr. Ley hath seen how the Same is to be managed and the particular direcçons are in a paper apart herewith, Sent you.

Our Accomptant Generall hath written to you at large concerning your bookes of acco^u. which we desire may be seriously considered, and his desires therein fully complied with.

Mr Samuel Meverell one of our ffactors at Pattana, having given us [addiçonall] Security of £500. We have caused new Coveñts to be drawn [and a bond] for performance thereof, which We desire you will see [executed] and returne to us.

We send you [here] with Copies of the Charterparties of the George & Golden fleece that [you] may see what agreement We have made with them, both as to the time of their arrivall with you and dispatch from you.

In 1678/9 We shipped on board of the George Cap^t. Nehemiah Earning 5 bales of Broad cloth N^o. 13. 14. 15. 16. 17 containg [*sic*] 30 p^a. according to the particulars herewith, all which 5 bales were omitted in the Invoice and bill of lading. but Soon perceiving the Errour, they were charged to your ffactories acco^t. being intended for your parts, and not finding any credit for them in your books X rec^d. in January 1681/2 We charged them to the acco^t. of the Owners of that shipp, but they making proof of the delivery of the said individuall 5 bales, the 8th. of September 1679 as by the Copy of the Boatswains booke herewith, We recharged them back to your acco^t. And now we must recomend to you a criticall examinacon of this matter, for we have reason to fear that there is down right knavery in it, and if so, We would not onely require due Satisfaccon, but also punish it with Severity. Wherefore we expect a full and plain acco^t. how you find it, with your Sentiments thereon.

And if it should so happen that by the Loss of Bantam the Surratt Merchant or Kempthorne should be necessitated to come to yo^r port for all or part of her lading then in Such case We would have you to take the like care in their

We have not else to ad but commending you and o^r Affairs to the protection of the Almighty remain

We have omitted in o^r last to advise you about what Sorts of Carpetts we would have you to send Us which are according to the following Sizes Vizt.

For Tables, 3 yds long & 2½ yds wide

For Side boards, 2 yds long & 1½ yds wide

For Beds, 5 yds long & 3½ yds wide, & some 4ths wide

of which We would have you send Us to the value of 500£ and that they be most of them of that sort of goodness which were Invoiced by the Bengall to cost 29½ faⁿ, the Guzz. The large Carpetts which came by that ship selling for more pro Rato than the finest ones sent by her that cost double the price, and so did

all of that sort that cost 29½ fa: the Guzz, though none of them did yeild any great profit; but not being willing to loose any commodity, We hope yo^r endeavours will be the more to buy them cheaper, that We may increase their Vent. We remaine

[Endorsed:] Deal the 6th Aprill 1683.—John Holland.— Ψ Josia. Ψ ^{mo}. November 1683.—N^o. 21.—Ent^d Ψ G. Luckyn.

CONCERNING THE MINT AT FORT ST. GEORGE, AND TREASURY.

The Agent and Councell in their General Letters of the 5th. Jan^y: 6th: and 8th. feb^y. 168/12 acknowledge the receipt of y^e. Comp^a. Informations, and Instructions in that affair, w^{ch} they have seriously considered, and well with their utmost care and endeavours observed, and put in execution for the Comp^a. advantage.

They say that our Pag^o. pass in the Golcondah Countries, as well as those of Pollicot, & in some places 1 Ψ C^t better, but the Dutch have maliciously endeavoured to depretiate them by advising Madana to Coyn great quantities of our Stamp and Shape, but a fanam less in value w^{ch}. accordingly was done, before they could prevent it, and only distinguished by a small pinch on the reverse, this they hoped to remedy by their further applications at Court and had allready gained Maha Rajahs promise to cause o^r. pag^o. (Since they are equall in Weight and value) to pass currantly & equally with those of Pollicot in the Chengy, and Vizapore Countries, where of late they have not been admitted for less then 2 or 2 $\frac{1}{2}$ Ψ C^t. loss, these two Services should be acceptably owned by the Comp^a. for their encouragem^t. to proceed in this, and to prevent any other such like cunning underminings hereafter.

It may be this undervaluing our Gold pag^a. (if indeed it be So as they Say hath been in part the cause of raising the value of R^{rs} of 8^t in these parts, but We are otherwise informed there is no such difference as 2 $\frac{1}{2}$ or 2 Ψ C^t or any difference at all either in the Chingy or Vizapore Countries, or to our Knowledg hath there been for many years past.

They take notice that 110^{oz}. 4^{dt}. 4^{gr}: (it should [be] 5 : gr : and answers to 9 $\frac{1}{2}$ new pag^a. to one ounce Troy Should produce exactly 1000 pag^a. but their charging the Comp^a. Acco^t. with what is wanting thereof and Saying that what is over therein is their Loss needs an explanation.

We do not remember to have found any Acco^t. to have rendred more but almost all to come Short of that Number, w^{ch}. must of Necessity arise from the mistakes of y^e. invoyced report from the Tower here, or the ignorance or dishonesty of the Sherofs there.

We have oftentimes heretofore weighed and assayed Policat Pag^a. (of w^{ch}. they have sent none this year) and have found some of them $\frac{1}{2}$ a gr : lighter, and $\frac{1}{2}$ gr : worse in fineness then ours Seldom So much heavier or finer, but y^e. most part equall Viz^t: 2. 4 $\frac{1}{2}$ gr : in weight, and 1. Car. 1 $\frac{1}{2}$ gr : worse then Standard.

Notwithstanding their Saying this business was never So narrowly observed heretofore the Success hath not answered for We never had a worse, nor so bad

an acco^t of our gold, from that place as this year, for the medium of those 11 Chests produces but 987½ new pag^a. for 100^{oz}. Standard gold, w^{ch} exactly should be 936. 26 fanams, and the least product that hath ever hapned to our remembrances hath been 947½ pag^a. w^{ch} was in S^r. Edward Winters time, and that not on all but Some few Chests We have Lately some Chests (though not y^e whole years quantity) render 963 pag^a and none less in the medium then 953½ pag^a and that was Anⁿ 1677, But before and ever Since till now, Viz^t. Anⁿ 1678—956 pag^a. 1679—958½, 1680—956, and 1678—957: 83 fan: So as y^e Comp^a loss is nearer 3. upon y^e whole then 1½ P C^t as they advise and is above 300£ Sterling more then any other year, and more then 4000^{oz}, of what our Gold Should duly and exactly produce.

They are very sensible of this great want or Shortness in the produce of y^e aforesaid 11: Chests of gold, and seem to have taken more particular notice of one of them, N^o. D and of one particular Ingot N^o. (38) in that Chest then of the rest howbeit We find by their Mint book, 2 other Chests, Viz^t. N^o. A, and N^o. B to produce Less then that for N^o. A yields but 930 and N^o. B. but 931 pag^a. for 100^{oz}: Standard gold, whereas N^o. D. renders 932½ notwithstanding the great diminution in that one Single Ingot therein N^o. 38. W^{ch} alone they Say Came Short 139 pag^a. these 3 Chests contained only Ingots, Some of y^e rest w^{ch} had pistols, and Sovereigns and Ducats produced a little better, though all of them very short of their due, for We have allways heretofore found the Ingots to produce a little better then the Coyns, because a few false pieces amongst them would debase y^e whole Mass. when melted together, of w^{ch} We have allways made some discoveries here (as this year allready considerably) they are Sometimes Small German Coyn & Medals, but chiefly quadruple pistols, and seldom or never Ducats.

They have sent their Mint book wth acco^{ts}. of the Coynage of 11. Chests of gold, & 9. small pieces, (for assays) of so many Ingots duplicated in Chest N^o. D. as also. 6: 10: 12: gr: in another piece of gold taken from Ingot N^o. 38 of the Same Chest, w^{ch} together with 5 pag^a new of their own mint, and other 5 of Madana's Coyn, We have caused to be doubly assayed, and We find them reported Viz^t the 5 Fort S^t. George pag^a. Waighing just 11^{dt}. to be 1: carrot worse, and the 5 of Madana's Coyn that weighed 11^{dt}. 1: gr: but 3½ gr: worse then Standard w^{ch} renders them ¾ of a fanam better instead of being a fañ worse then ours, as the Agent and Councell advise them to be, the 9 assays prove some exact, some a little better, and some worser then when they were sent out, but no considerable difference or detriment upon y^e whole (no not on N^o. 38 itself) except in one part of that misterious piece of 6. 10. 12. gr: w^{ch} went Invoiced at ½ gr: better, but is now reported 1: 2½ gr: worse then standard We mean y^e whole Ingot that weighed 33: 5: 7^{dt}: w^{ch}. yet by another assay taken from y^e opposite side of y^e said peice, they report from y^e Tower to be just y^e same as when it was sent out, namely ½ gr: better, so as upon 4 assays, we have 8 different reports. This whole Ingot N^o. 38 is owned by M^r Cook to have been melted and cast in his own house, and without any fraud or such suspicious Circumstances as now appears in y^e piece of 6^{oz}. & w^{ch}. is of severall colours, and seems to be of two meltings.

By all this it may be justly Suspected, y^e the greatest abuse is done by those cunning Gentues that manage y^e Mint at Madrassapatam, w^{ch} y^e Agent and Councell by this intimation, & their own further experience may make enquiry into and possibly prevent for y^e future & recover Some Satisfaction for w^t past.

It seems they continue their tedious, troublesome & needless, chargeable manner of assaying and adjusting the fineness of our gold to their mat, of w^{ch}. the Agent and Councell have again given a p^{ar}ticular relation. It would be well if they could prevail wth. their Sherofs to alloy y^e pag^a. wth all copper as they do here and every where else) instead of 4/5 Silver it would save y^e Comp^a a considerable sum every year in regard our gold, goes out much finer then their pag mat, and y^e quantity sent out is now much greater then heretofore.

They would have all y^e Ingots first melted and then reassayed at y^e Tower, w^{ch} cannot conveniently be done by y^e Comp^a. nor without charge and trouble to

the Goldsmiths, Notwithstanding for what they melt themselves they may avouch, and for Such Ingots as they buy already melted they may (especially any such as they Suspect) cut them in y^e middle as we have done barrs of Silver, for this kind of cheat is allways done at ye^e ruñing y^e mettle into y^e mould, when they Sink Copper, Iron, or whatever it be into the middle of y^e Ingot, w^{ch} if done before would melt and be diffused into y^e whole mass and so become discovered by y^e assay.

If they will reduce y^e English standard from y^e Compⁿ. Invoices to their Mat by y^e pen [s] they may not only discover but prevent any such great Mistake or abuse as hath now fallen out.

They advise to have disposed 14 Chests of R^{ls}. 8^t at 16½ & 16½ & 16½ for 10 pag^a and the R^{ls}. to be full 8 pag^a. in weight, w^{ch}. none of o^r. Cherts, & but very few baggs do reach to, so 'tis likely they make abatem^t, (as they do at Surratt) for want of weight, they went y^e year before at 15½ without y^e allowance for weight, they say not what species of R^{ls}. are most or least in esteem, nor have we any acco^t. or advice at all of y^e values or disposall of any sort of Treasure at Metchlepatam, or Bay of Bengall, only from y^e latter place they have formerly desired R^{ls}. 8^t rather than barrs of Silver, because of ye great loss of time and hazard in sending them as far as Rajamal to be coyned into Rupees, nor have they of late years discouraged the sending of Gold & therefore We are of opinion there may be now at least one Chest of Gold, (as there was y^e last year) sent thither.

We cannot discern the mark of distinction they mention to be put between Madana's pag^a. and ours, by a pinch on y^e reverse, We find only y^e rim, or a circle on the reverse of those broader and larger then ours.

They hoped to obtain a phirman for coyning Silver Rupees at y^e cost of 2000 pag^a. w^{ch}. will be well given if they can procure it, but they must be very carefull to make them exact, both in weight and fineness to y^e Current of that Country, for We find much difference in all We have tryed here as well in weight as fineness, between those of y^e Bay, and those of Surratt, as also of those of Sojohans Coyn at Surratt, and those of Oremzebs y^e present Mogull, of w^{ch}. by 2 new ones We now received from Surratt, We find both to weigh 7^{dt}. 10: gr: each and is reported 14^{dt}. better then standard.

They think it unnecessary to Coyn fanams, because they pass not above 10 miles about that Town, nor any pice at all in any of those parts, but if there be no loss to y^e Compⁿ. or other inconveniency in coyning fanams, it may be necessary to continue them whereby to make change, for we know as yet of no Smaller Coyn they have there then Cashees, whereof 6 make a fanam, & 36 fanams a pag^a. in their book of rates.

They desire some Beams, Scales, and severall Setts of Weights, w^{ch} are made ready to be sent to them.

This discourse becomes more large then it was intended or may be thought necessary, but the Govern^r. may abbreviate or alter it both in Stile Substance and Method, as he thinks fitt, or S^r. Jer: Sambrooke.

We understand that y^e Sherofs employed in y^e Mint are in confederacy or Some kind of partnership wth Pedda Yenkatadry, and Chena Yenkatadry, who manage y^e affairs in y^e Town, and were brothers to Temana, and one of them partners with Verona, they are of one (but a mean) cast, and not at all imposed by y^e King of Golcondah, and so may be at any tyme put out, and others more honest and faithfull employed in their places.

DIRECTIONS HOW TO USE Y^e PRESSES FOR PACKING COTTON.

First lay the peece of Timber which y^e Screwes go through, on one side, then winde in the Screwes up as farr as you can, then lay the Bedd on one side, and put in the Bolts & Keyes, and soe fasten them together, and when you have soe done, raise it altogether, and lay the lower Bedd as levell as possible can be, and

see that y^e Screwes stand upright, then put on the head Board with two holes, on to y^e topp of the Screwes, and from thence fasten Shores to y^e side of the Warehouse to keep them steady & fix'd, & Keep the heads of the Bolts cleare from any thing that shall clogg or hinder them, by putting 5 peeces of Timber of about halfe a foot thike, & about 2½ foot long under the Bed, and then lay upon the Bed the great Planke, after that y^e Ropes & Gunnies, and then y^e great Box. then draw your Ropes to a convenient length, and put one Man or two into y^e Box to tread the Wooll as hard as they can, after that is either full or neare full, put on y^e second and tread it likewise, so unto y^e last, than lay on Canvas againe, after that put on y^e Planke with Ledges, the ledges downewards, because they answer y^e lower Ropes to binde the Pack. Note that you must strike off every Box after the ledges has clear'd it, and then sett it downe & cleare y^e next, till you have sett it as hard as you thinke convenient, after that take off all y^e rest, & you may goe 8 or 10 turnes at an end wth. great ease, & then sew the Gunnies & binde y^e Pack.

Upon y^e edge of each Box you will finde the numbers how to put them together.

TO THE WORSHP^l: THE AGENT

& COUNCELL AT FORT S^t GEORGE.

S^r.

By the Metchlepatam books I find their charge for servants wages to be unreasonable. 1309 pag^s. in one year it's insufferable and that after such positive directions from our Masters, that the expence of y^t Factory should not be above 5 or 600 Pagodas *W^m annū* at most: as you will find by y^e Generall Letter dat^d. 3^d. Januar^y. 1678/9. by their books X they make their charge & expence to amo^t to above 3400 pag^s. I doubt the Cheif must pay for his extravagancies.

They intitule the acco^t of houses at Metchlepatam Factory Metchlep^m w^{ch} ought to be houses at Metch^m & houses at Pettipole.

You mistake in the Golden Fleeces Cargo outward w^{ch} you made amount to £70002: 4: Sterl. whereas our invoice made it but £69988.14 [it's. . . . 3 pare] of Tryangles, w^{ch} yoⁿ charge at pag^s 33. 12:—being 15 whereas we charge but £1: 10:—Differs just £ 13: 10.

By the Berkly Castle 80 Sallampores N^o [7] in lieu of 80 N^o. 20 and 80 Salampores N^o. 8 in lieu of 20 *ps* Long cloth br. differs in price 22½ pag^s. w^{ch} ought to be rectified by yo^r Warehousekeeper.

Metchlepatam in their Last Invoice *W^m y^e Eagle* charge us wth a bale of Musters N^o. 26 contⁿ 25 *ps* w^{ch} they make to amount unto pag^s. 25. 2. 3. but y^t. bale was not rec^d here. See y^t the Owners have paid for it.

You differ very much from Huglys remains but the Bay being made a distinct Agency I shall here only object against such Artickles as may tend either to y^e P or [Loss] of the Comp^y. or any *pticul^r*. person. And upon examination I find but one in y^t. nature, & y^t Soe inconsiderable y^t it is hardly worth yo^r trouble to take notice of it, You differ wth. Bengale [Rup^s: 513: 4, w^{ch} you give y^m short Credit for y^t. Years 4 Shipp's Cargoe from thence (*viz^t*) the Sampson, President, Eagle & Berckly Castle, but of y^t I find 400 rup^s. they charge for 100 baggs Salt peter sent more then Invoiced by the Berkley Castle. w^{ch} I conclude to be their Mistak and I soe suppose y^e remaind^r is. . . .

In the last Hugly books Y fol 48, they charge yo^r acc^t. wth rup^s. 303.10. as owing [by] Maurice Winn for Freight of 200 Baggs of Sugar sent to the Fort *W^m Eagle*: I hope you have rec^d it but I doe not find it made rec^d. in yo^r last books if it be not rec^d. procure y^e Payment out of his Estate if you cann for elce it may be lost, & in answer to y^e advize what is or can be done in it wth you.

You differ both from Metchlepatam & Madapollam's remains. Met [oh^m] according to their last books W. make their remains but pag^s. 64,826. 24. and by yo^r last books you charge y^m wth pag^s 92643.24.1. and Madop^m. [yⁿ] charge wth but pag^s. 30,948 :- 1 & their last books make remaining, pag^s. 51,088: 24: 4 both these differences are Occasioned by not comparing yo^r subordinate Factories Books wth their accounts in yo^r books, being the Old fault, w^{ch} I did not [.....] any more in the Fort books, [& hope this will be the last].

Madapollam ought no to remaine a D^r of pag^s 416-3-4. it ought either to be charged to Fleetwoods Acco^t. as I wrote in Janu^{ry}. 1678/9 or discharged by P & Loss.

George Chamberlaine & Thomas Radcliffs [debts] ought to be recovered at Metchlep^m. or at least they ought to write what Likelyhood of recovering Chamberlains great Debt.

W^m. Ayliff & W^m. Cullins Credit in Metchlepatam books ought to be carried to y^e Acco^t Curr^t. & not alwayes remain there to make good demands: if there be any let it be decided y^t: we may [acc^t:] wth their relations here, and the demands on the Ship Recovery ought likewise to be ended. John Coopers C^r. ought to be carried to our acco^t. Curr^t.

They have at Metch^m. as in all other Factories [positive] orders not to charge any Factors acc^t. wth. goods delivrd to him. Yet I find in their last Jourⁿ y^t they charge Maurice Wynn wth pag^s. 8. 18. 4 for petty goods w^{ch} I take to be a great contempt of y^e Company's orders & ought not be past by wth you, but examn^d: & checked, they have been desired several years since not to make Fractions of their cash. Yet they will doe it, though Little Sence or reason for it: no fraction of pence kept here & yo^r cash is but the one halfe of a penny. pray give y^m yo^r orders about it.

What y^e meaning is that they charge 200 pag^s. for a Standart I know not. See Metchl^m. Jourⁿ fol [24].

I know no reason why y^e acco^t of Japan Copangs should continue in the Metchlepatam books to no purpose I think it is proper they should be sent to you & there either coined in pagathos or otherwise disposed of.

The Receiver of yo^r Customes remains a D^r of pag^s 1,784: 19 :-w^{ch} ought to have bin paid into the Treāry or at least the major part of it.

I have rec^d Mr. Samuel Wallis answere to the 8 [p^s] Izarees wanting in his bale, w^{ch} remain a charge on his acco^t. but I never understood y^t the money was to be recovered of him in India. When he returns for England he may dispute the paym^t. here. & for tyme to come all Warehouse keepers, will doe well to have their ticketts of y^e [cont^s:] of y^e. bales attested by one or two of y^e factors or writers there resid^t: w^{ch}: will more or less excuse them.

I rec^d yo^r answere dat^d. Febr^{ry}. 1681/2 whereby I perceive you cannot easily get that small additionall debt. And I think it is not Mr. Jersey's interest to dispute it. However you will doe well to have a care y^t he doth not runn farther in debt, & accordingly You may give a charge to yo^r Subordinate Factories.

We have rec^d Metchlepatam & Madapollams answere about Mr. Fleetwoods acco^t. w^{ch} is very full, but find not a penny more recovered of him w^{ch} ought to be done if possible but if nothing can be recovered then you or they ought to give a reason for [it] that the Company may recover it of their Sureties here.

We still want the first pare of Madapollam books N^o. A: they were never sent us if they are in being as I suppose they are, pray let us have a Coppie of them.

1. Wee have recd Yo^r: of the 11th: 15th: and 18th: Janu^{ry}: by y^e: Resoluçon, and Chino Merch^t: w^{ch}: gives us abundant satisfacçon & irrefragible proofoe as well of your fidelity at your sufficiency and therefore wee can doe noe less then give you our hearty thanks for your great care and sincerity in our business.

2. Wee allow your reasons for not sending home M^r: Jearsey but whither he be able or not wee cannot suffer him to stay there if his Acco^{ts}: be not cleared, Therefore whither he be able to pay or not make presently a finall and cleare Acco^t wth him gett w^t you can in part, and take his obligaçon for y^e rest, upon w^{ch}: give him a full discharge from us, and take y^e like from him, if afterwards he prove insolvent, wee shall be content to loose the remainder but whatever you doe make an end of it, that wee may not be troubled to fill our Letters, and keep our books open upon such old, confused occasions.

3. The increase of the town revenue is certainly a most reasonable thing to be not onely attempted but constantly proceeded in by all the methods you can invent, w^{ch}: wee doe y^e more earnestly press for y^e good of our Common Country and posterity, for certainly y^e Dutch would never have arrived to y^t Grandeur, nor done halfe y^e great thinges they have done in India if they had not bin expert in y^t: kind of Policy (viz^t) Makeing places conquered or fortify'd, to pay y^e: charge of theire future preservaçon, as well as y^e first Cost of their Settlem^t: in somuch (as wee are well assur'd) y^t: notwth: standing theire vast charges & Guards at Batavia, y^e Revenue of y^t place, renders them now 90000 pounds sterl^d & an^d over and above all theire annuall expences, But you are so Just prudent & carefull of our Interest, y^t wee shall not possitively enjoyn you any Method or tyme for y^e: doeing this necessary Worke, but leave it to yo^r discretions to effect it gradatim.

4. Wee approve of yo^r: addiçonall buildings, and would have you use all meanes to Strengthen y^e ffort & Town, and likewise to enlarge y^e place, & as neare as you can keep all persons to build regularly y^t it may in tyme be a decent as well as a great and strong Citty. There is in all parts of y^e World (y^t wee know) a duty, w^{ch}: wee in England call Murage w^{ch}: is a Contribuçon from y^e people towards walling, and makeing ffortresses to defend y^e place, something of that kind wee think you might perswade y^e heads of y^e people to consent to, for their & their posterity's security, but tho: wee give you this hint, & would have you in raising of Revenues (as neare as you can) imitate y^e Dutoh methods yet wee will not expose you to any thing, y^t may put you into y^e disaffecçon of y^e People.

5. Wee have not yet opne'd any of yo^r. goods but doubt not of their proveing to our full Content, & you must be restless in yo^r. endeavours till you have com- pell'd the Sorting to be as honestly perform'd in all Subordinate Factory's, w^{ch}: is of great & continuall concernm^t. to us, If y^e be done it is morrally impossible (God sending our Ships safe home to us) but wee must thrive notwth: standing y^e great increase of our Trade for all goods of India grow dayly more in use in Europe.

6. Wee see you still incourage y^e Settlement of a Factory at Pegu and suppose our Ag^t: may remember y^t wee had formerly a Factory there, & in many other places, w^{ch}: we were forc't afterwards to wth draw, because y^e Trade of such places did not maintaine y^e Charge of y^e Factory Presents, &c: but wee must confess Wee think y^e fault might not altogether be in y^e places, but in y^e men, Management and direcçon of them. Now wee are so well satisfied y^t you will truly weigh & consider y^e Cost wth y^e conveniency for us as cordially as for yo^r. Selves, Wee shall permitt you to settle there in such manner & upon such termes as you shall thinke most for our advantage, & y^e rather because a disoblig'd Dutchman y^t was formerly many yeares Cheife of y^t place hath given us hyper- bolicall comendaçons of it, He sayth (if he may be believ'd) he made 40 Tonn of

Gold profit there for y^e Dutch Camp^a: in a few yeares, And now you have so many Subordinate Factory's it must be yo^r: great care not to continue any of them, y^t: you shall not find turne us well to Acco^t: another use you may likewise make of y^e variety of Factory's Viz^t: to subdue those most expensive, to y^e measure of those more frugall Factory's, & y^e deare goods of some places to y^e price of cheaper in others.

7. Wee doe never intend to give over tradeing in Dyamonds or any Commodity wee have once begun wth but when wee loose out of Purse after all our Care & hazard, it's absolutely necessary wee should slack our hand till at least y^e price there abates to such a degree y^t wee may see our own againe here wth y^e advance of plaine Interest & assurance.

never to give over trading in any Commedite begⁿ.

8. Wee are very glad to heare there is flax & Hemp at Madap^m: & would have you pursue y^e makeing of flaxen Coth of all sorts as great & Naçonall Interest to England and if you could make some as fine as y^e finest Holland it must certainly turne well to Acco^t. pursue likewise industriously y^e makeing of y^t sort of Indicoe.

y^e: makeing of Flaxen Cloth at Madap^m: of all sorts pursue y^e: makeing Indicoe. the making Comp^d of Merchants & making each of y^m, jointly oblig'd for all they receive.

9. One great thing y^t: confounded and ruined us formerly in our New settled ffactorys was our makeing of bad debts, to prevent w^{ch}: there never was so good an Invençon as y^t: of makeing entire Comp^m: of Merch^m: and makeing each of them joyntly & severally oblige for all they receive w^{ch}: method wee would have y^r: promote and establish in all Subordinate ffactorys as neare as possibly you can after y^e manner of the ffort.

10. The Acco^t. you give us of the disposall of our Stock is like the rest of yo^r proceedings greatly to our satisfacçon and wee shall governe our affaires accordingly this yeare but when you find yo^r: selves so well in Cash, wee would never have you refuse a very good bargaine of Dyamonds, after you have reduced these People to moderate rates for indeed (considering y^e quality of those you sent us last yeare) wee cannot think but y^t: they were bought dearer by 30 % Cent then those wee had y^e same yeare from Surrat in w^{ch} notwth: standing wee doe excuse you, because wee conclude you did yo^r best altho: most certainly wee know you were surprised and overreached in their value upon yo^r: first arrivall.

approve of the Disposall of o^r: Stock. we would never have you when well in Cash refuse a good bargaine of Dymonds.

11. You need not have put yo^r: selfe to y^e trouble of Apologes for turneing out M^r. Davis for wee have confidence in your Integrity and will have you intirely obey'd by all y^t: eat our bread, let them have w^t freinds they will here.

you need not make appollige for turning out M^r: Davis for wee will have you intirely

12. You may make a Strong Counterscarpe to y^e: Seaward of y^e ffort as you propose and our Ships shall all bring you Stones from Johanna for y^t and other purposes, but not Slaot lyme from hence, but instead thereof y^t w^{ch}: is better and cheaper to us Viz^t Coles and Chalke great store, of w^{ch}: Chalke you may burne w^t you want into Lyme y^e rest is as good filling for yo^r Walls, as any Stone you can have.

may make a Counter-scarpe to the Seaward, ships shall bring Stones from Johanna.

13. Wee are sending 6 Smacks or Sloops fitted to Sayle and Rowe as Tenders to our Bantam fleet, Armed each with 12 or 16 Raretackers of brass 31: w^t: each. One of w^{ch} wee shall order for yo^r: use at y^e ffort but wee have found by wofull experience y^t Shipps or Vessells of our own in India are a monstrous eating charge to us and therefore it must be yo^r great and constant Study to keep our small Vessells in India so imploy'd as y^t: they may move then earn y^e: cost and charge.

ships are a great charges, there to keep or Vessells employ'd Continually.

14. Wee are still of opinion y^t you should procure y^e Phirmaund for coying of Rupees not doubting in y^e least but y^t wee shall procure y^e passing in y^e Bay and all our Affaires will soon be settled there in a farr better condiçon then ever they were yett and if it can be had at y^e same Charge, wee see noe reason why you should not gett pice & ffanams incerted in y^e same Phirmaund.

THE GOVERN^r : & COMPANY OF MERCHANTS OF LONDON TRADING TO Y^r : EAST INDIES.

TO HIS HIGHNESS THE ILLUSTRIOUS AND FAMOUS VICE KING OF TYWAN.
 S^r :

It cannot be unknowne to you y^t : wee have long had a peaceable Trade at Tywan, & our ffactors have resided there in y^e : managem^t : of our Trade, for above twelve years without intermission, to y^e : enriching y^e : Inhabitants of y^t : place, Which although they were at Enmity wth : y^e : Tartars, Neither our Ships nor our Serv^{ts} : did ever interpose in y^t : quarrell : but only follow their trade quietly as Merchant Strangers, w^{ch} : have a right of being protected by all Nations, where they meddle not wth : any thing but theire owne Affaires.

desire to

 have their
 Liberty &
 trade.

But wee have lately understood, that Island is conquered by y^e : Successful Armes of y^e : great Emperour of Tartaria & China whose prosperity Wee doe congratulate, & desire y^t : our Serv^{ts} : at Tywan may not only have their liberty, But may continue therein y^e : Exercise of their trade as ffrriends, w^{ch} : you will find not only beneficiall to y^e : Inhabitants, but a means to make them y^e : more satisfied in y^e : late change of y^e : Governm^t :

If this Request may be admitted, Wee have ordered a small Present to be made yo^r : Highness, & although this comes by a small Vessell, when wee have yo^r : Honourable assurance of a free trade, Wee shall send you greater Ships, wth : better Cargoes, & a better Present praying yo^r : acceptance of this in y^e : mean time.

But if you shall not thinke fitt to admitt us to a free trade, w^{ch} : certainly would be for y^e : Interest of y^t : great Emperour of China, & Tartaria, Wee pray you then to give leave to our Serv^{ts} : to returne wth : their goods & effects to our President and Govern^r : of ffort S^t : George upon y^e : Coast of Chormandell, Who will write yo^r : Highness what else shall be necessary upon this occasion, Soe we commend yo^r : Highness to y^e : Protection of Almighty God y^e : Creator of y^e : Heavens & y^e : Earth & desire to be alwais esteemed

TO HER HIGHNESS THE MOST FAMOUS AND RENOWNED

PRINCESS QUEEN OF ATCHEEN.

May it please yo^r : Maj^{tie} :

Wee had many yeares since received Letters from yo^r : Majestie inviteing us to a Settlem^t : at yo^r : Port of Atcheen, wth : promise of doing us Great Hon^r : & giving us great Priviledges, But whilst we had a Residence at Bantam it was

inconvenient for us, to make another Settlement: for our affaires upon y^e: Island of Sumatra, That ffactory at Bantam serveing us sufficiently for all y^e: trade of Pepper, Notwithstanding upon yo^r: Majesties great incouragem^t: Wee did indolge our Serv^{ts}: to trade at yo^r: Majesties Port of Atcheen, w^{ch}: they have yearly frequented wth: their private Ships.

But now since y^e: Dutch have betrayed Bantam, & subjected y^t: whole Kingdom under their power by their usuall Subtilty of setting y^e: Sonn against y^e: ffather (as yo^r: Maj^{ties}: hath heard) Wee thinke it may be our Interest, as most certainly it is y^e: Interest of yo^r: Majesties Subjects, y^t: Wee should settle a standing ffactory at or neer Atcheen, If yo^r: Maj^{ties}: will grant us such a Settlement: & such priviledges y^t: we may be in a condition to defend our selves against y^e: practises & designes of y^e: Dutch, & to preserve our trade in case y^e: Dutch should hereafter make any attempts of blocking up y^t: Majesties Port of Atcheen as they have formerly done, w^{ch}: they can never doe wth: any hopes of advantage to themselves, if wee be permitted to have a fortified Settlement: upon some of those Islands in y^e: Road of Atcheen except they should presume to make Warr upon us, w^{ch}: is no less than makeing Warr wth: our Sovereigne Lord y^e: King of England, Scotland, ffrance, & Ireland, w^{ch}: we presume they will never dare to attempt, nor would ever have attempted at Bantam, if wee had been settled upon any Island y^t: wee may justly call our owne, though it had been fortified only wth: six Gunns, Whereas when we settle otherwise in any Kings Dominions their Way is (as yo^r: Majesty knows) by art or force first to subdue y^t: King, & then compell him against his Inclination to command us out of his Dominions, The want of foreseeing w^{ch}: Stratagem, was y^e: ruine of y^e: King of Macassar & y^e: two Kings of Bantam, & many other Princes in y^e South Seas, Concerning w^{ch}: wee ordered our President & Councill of Fort S^t: George, to make some Overtures to yo^r: Maj^{ties}: last yeare, And now we doe impower him to send some persons of Eminence to yo^r: Maj^{ties}: y^t: may make a finall agreem^t: wth: yo^r: Maj^{ties}: concerning this affaire, Unto whom we pray yo^r: Maj^{ties}: to give credence, & such Reception as is due to Envoyes from

WANSTED Y^r 26th JULY 1683.

OUR AGENT AND COUNCILL
AT FORT S^t GEORGE.

Our Court being not now assembled I think it necessary you should know y^t the first ship we intend you is y^e defence Cap^t Heath whom we hourly Expect & God sending Her in resolve she shall sayle from y^e Downes in Octo^r next for yo^r place to be loaden immediatly home for Europe. We shall likewise send wth her a small ship of about 300 Tunns reserving in chart^r P^{ty} liberty of employing her in India 18 months upon demurrage in w^{ch} time of demurrage for yo^r encouragem^t we shall Interest you Our Agent $\frac{1}{8}$ & M^r Bigrig $\frac{1}{8}$ the oy^r $\frac{3}{4}$ for y^e Comp^a: Our meaning is not to concerne y^e Comp^a in y^e trade of y^e Countrey upon her but y^t you should lett y^e ship to freight for any Voyage or Voyages to y^e Southward Viz Siam, Johore Acheene Pegu Cuddah Bengalus (upon y^e Coast of Sumatra) Colong upon a River (where Tinn is plentiful) or any oy^r place for w^{ch} you may obtaine y^e best freight concerning w^{ch} I shall write you more at large very suddenly.

You or the freighters whoever they shall be will consider whether it be not convenient or necessary if you designe a trade to any place up Rivers you should not send a small sloop with y^e Ship.

My aime in this is not to deprive you of any benefite you make by letting yo^r own ships out at freight neither is it to gett much for y^e Comp^a but my Aime is more Noble & Nationall viz to contrive all y^e wayes I can to Employ great numbers of English Ships in India So far as it is possible without Losse to y^e Comp^a or you; and I hope y^t haveing this timely intimation of our Purpose before hand you will provide such a freight as may be beneficiall to y^e Comp^a & yo^r selves w^{ch} if you can we shall arrive at a Private advantage while we designe only y^e Publick good, w^{ch} often falls out through y^e Good providence of God & his blessing upon upright and Just intentions.

That w^{ch} may possibly make this designe more advantageous is a breach or quarrell y^t may happen between y^e French and y^e Mogull w^{ch} y^e Presid^t of Surr^t Expects Suddainly & hath given me Private Notice of it & if y^t should happen English Ships must needs be in great request.

Anoy^r encouragem^t is, the present circumstances of y^e dutch are certainly very low in Europe and we shall certainly fill their heads & hands with trouble & warr at Bantam & Battavia likewise if they do not pay us our dammages and restore o^r possessions & wthdraw all their forces from y^t Place. All w^{ch} they have Already Agreed to do and do only stand upon having an Article from us y^t we will not fortify & have an English Garrison there. The King refers them intirely to us and y^e Ambassadour hath been with me, & sent me word yesterday he desired to speak with me again at Wansted to w^{ch} I returnd y^t it was my duty alwayes to bid him Welcome wth respect to his Exo^{ve} quality But must intreat him not to mention our not fortifying of Bantam being a Proposition we despise & in plain termes would fertify wth or without their leave, y^t our Servants hereafter might not be Exposed to Dutch tricks or Java Assassimates.

We have a strong Fleete of 12 Sayle & 6 tenders w^{ch} may all be going to y^e Rendezvous on y^e southside of Java before y^e end of 7^{br}. The forerunners of w^{ch} fleete I hope may saile y^e first Week in August but I really find y^e dutch so affrighted & so weake y^t I think verily, they will through meer necessity give us all we ask before y^e Fleete goes. But its next to death to you to think of an English garrison at Bantam, well knowing y^t y^e liberty of our settlem^t will draw their own freemen from Battavia as well as Chineses and oy^r strangers.

I have sayd nothing of yo^r letting this ship for Persia p^{ty} because I think she will arrive with you too late for y^t & p^{ty} because we shall send one ship directly thither with Jamaica Suggars and two from the Bay with Bay Suggars, and it may be one from Surrat upon freight to Persia in w^{ch} y^e President, Agent, & second of Hughly M^r Beard are concerned as I propose you & M^r Bigrig should be in y^e Ship to be freighted from y^e fort.

Hereafter if you can think of any other voyages In India y^t English ships may be employed upon in y^e manner of this now designd wth out loss to y^e Comp^a or yo^r selves we shall send you as many & of such burdens as you shall write for and y^e more y^e Greater will y^e honnour be to our Nation in India y^e more good we shall do to our Countrey in our Generation & y^e more Secure to our selves & Posterity, our Priviledges and security of y^e Companies Servants & Estates in India.

This letter I hope will be acceptable to you and y^t before a fourthnight be Expired I may write you something y^t will be yet more acceptable. The Comp^a Affaires being in a very prosperous condition if it please God to Send in our ships to whose protection I commend you & rest,

Yo^r assured freind

Jos^a CHILD.

P.S.—We have intercepted Pestilent letters & papers by y^e Resolution to Masters from y^t Rogue Sarappa and a disoblidged Portuguese (whose name I forget but shall give you in my next) & shall send you y^e Originall papers by our ships y^t you may deale wth such rascalls in y^e Course of law there according to their deserts. The designe of all y^e Papers & Certificates is to detract from our Agents Justice but renders him more Just in our impartiall opinions I believe y^e poor Natives have been drawn in to sign dutch & portuguese papers w^{ch} they do [not?] understand. So I would not have you reflect too Severely upon their ignorance.

served for
ye Comps.]

This Addi^{cion} is to order You to proceed in the Settlement of a Factory at Atcheen with more Expedi^{cion} (tho^t with no less Caution) than We intimated to you in our former Letter by this Ship, for the more Wee think of it the more Wee are confirm^d that a Speedy Settlement at that place is absolutely necessary for o^r service as o^r Affairs now stand, but wee are very sensible the charge of a Factory there will never be answered to the Company, except We do reserve to o^r selves the intire trade of all Callicoes, Pepper, & Benjamin & therefore We do hereby prohibit All o^r Factors, & Servants from trading to or from Atcheen in any of those comodities; & having made the afores^d Prohibi^{cion}, Wee think it may be convenient for o^r Serv^{ts} that you send thither as soon as ever you can prepare things for that purpose, to carry with them a proper Cargo of Goods of yo^r parts, w^{ch} you may make up wth mony to the am^o of 10,000 £ Sterl & order those you

intrust in that Business to be selling, & providing Pepper by degrees as they can, & to give us & You by all opportunities [Advice] of their doings & proceedings there.

2. Our Agent & Council at Bantam did never give us satisfaction in the discharge of their trust at that Place, while they were there, & have done it less since their Removal to Batavia where tho' they have nothing to do they delay our Accoⁿ. on p^tence of want of time & keep one of o^r Ships & a great stock of o^r mony & goods useless Wee do therefore order that if any of them or other of o^r Servants now or late at Batavia shall come to any place wthin yo^r Agency you give them no imploim^t in o^r Service but send them by the first ship home, to make up their Accoⁿ with Us here, taking into yo^r possession whatever mony or goods they have of ours.

The Agent & Council at Bantam to be sent home; all their effects to be seized upon.

3. And if before this shall come to yo^r hands you have imploy'd or taken into o^r Service any of those Persons from Batavia Wee do hereby order you forthwith to dismiss them o^r Service & Send them home as afores^d.

4. Those of our Servants which Wee shall find upon their Arrivall here to have deserved well of Us shall find their Advantage by their Seing Us here, in some future and more honorable imploiment then they formerly had. A List of the Names of those at Batavia & Intended to be sent for England by this Letter you have in the Margin * of it Wee remain

OUR AGENT GOVERN^R & COUNCILL
OF FORT S^T GEORGE.

LONDON, [19th] OCTOBER. 1683.

Reasons why the ships of war designed for Bantam were diverted into a course of trade.

1. The cause of o^r Sending these 3 Ships the Royall James, Beaufort & Rochester with the 3 Sloops attending them earlier than We intended, is such as We do not much rejoyce in. But so it is upon Assurance given to Our Ministers of state by the Dutch Ambassador that in a very short time there will come full & authentig orders for withdrawing all the Dutch forces from Bantam, and restoring Us to o^r ancient Rights in that place as well as making Us full Satisfacção for our damages, And in regard it is not thought convenient at this time that Wee should engage the King or Kingdom in a Warr with the Dutch, which in all probability would ensue, if We should proceed for the S^e Sea as Wee intended. Upon these Reasons We have thought fitt to divert that warlike Fleet We were fitting for the S^e Sea, into a Course of Trade.

Fort to be built at Achin to secure the pepper trade, if good terms be granted.

2. And in regard the Dutch have so often failed of their former promises, that We cannot much rely upon their performance now, and being unwilling to omitt any thing that in Us lyes for the good of this kingdom in securing a place for the Pepper trade without a present War, that it may not wholly fall into Dutch hands Wee have thought most requisit to build a Fort at or near Atchein, if you can obtain Leave and as good priviledge for doing thereof or better than you have or

ought to have at Fort S^c George, so as in a short time to make it bear its whole Charge, & be of further Advantage to Us. To accomplish this if leave can be obtained We can never have a better opportunity, these ships being laden as you will perceive by their Invoices with many things fitt for raising and furnishing a good Fort.

3. What o^r. Purposes were of this nature in the S^c Seas you will See by the Copies of o^r. Instruções which We intended for Our Agent & Council [design'd thither] out of which you will pick some Observaçons [fitt to be] noted by you if you find it requisit to proceed upon this [design].

4. These 8 ships and the [Sloopes] attending are all new and fitted for a long Voyage full of Men & consequently very chargeable to Us & therefore you must imploy yo^r thought Seriously and Speedily to put them upon some imployment or letting some of them to Freight that may at least defray The Charge of their Demorage.

ye : 8 : ships
to be let out
upon freight
to help to
defray their
charges.

5. If there be (as hath been supposed by Private Advices from the President of Surratt) a War commenced between the French & the Mogull at Sea Wee hope it will be no difficult Matter for you to obtain very good imployments for any of these ships which you shall not be ready to load home.

if wars with :

The first you do load home Wee would have to be the Royall James S^c John Wettwang Command^r, because he is least acquainted in the trading Voyages of India.

Sr : Jno :
Wetwang to
be first
dispatcht for
England.

6. Whether the Queen of Atoheen, & her Council will be willing to Countenance and assist Us in building of a Fort is uncertain, but that it is her Interest is evident. For doubtless the Dutch intend to ingross all Pepper & inhance its price in Europe as they have Cloves & Nutmegs &c.

And therefore it will be one of their next attempts to destroy the Freedome of her Port, and in probability cannot be prevented but by an English Garrison, which if the King of Bantam had admitted the Dutch could never have become M^r of that place, as now they are Wee doubt to the enslaving of him & his posterity for ever, notwithstanding all the fair promises made to o^r King's Minist^{rs}.

The Queen of
Achoen's
interest to
permit the
English to
build a Fort
there, the
reasons.

7. We would not willingly be at a great Expence in making this Attempt for a fortify'd Settlement at Atoheen, least it should prove fruitless through the ignorance of those people who know not their proper Interest, & benefitt by Trade, and an English Settlement.

but noe great
expence to be
for y^e : pro-
cure thereof.

8. Whither if leave could be obtained, it were better for Us to settle upon some small Island or the Main of Sumatra in the Queen of Atcheens Territories is likewise a great doubt, and cannot be determined but upon the place, or by such as know it better than possibly We can. Because many Consideraçons, Such as the goodness of the Road or Harbour in both Monsoons, the disposition of the people [unto] truth or falsehood in their Contracts, health or sickness [of y^e : place,] Scarcity & plenty of provisions, wood & water, the [nature] of the trade whither it comes immediately out of the [Queen's Territories] or by [Proes &] other Vessells from the [Territories] of other Princes on the West Coasts of Sumatra, there may be Conveniences & Inconveniences in either Case. As for instance if Wee should [fear a] difference in time to come with the Natives Such as you have had wth Lingapa it would be best for Us to be upon an Island of o^r own, Or if in time to come the Dutch should quarrell with the Queen of Atoheen, and get the better of her they might compell her to expell Us as they did the Young King of Bantam if Wee should not be strong enough to defend o^r Selves against both the Dutch and the Queens Subjects. But on the other hand, If Wee should come to have a Quarrell wth the Dutch, and be at the Same time in peace with the Queen her People would be more able to assist Us on the Main, than they could in an Island. The Result of all this Discourse is, That Wee must leave it intirely to yo^r Discretions to resolve of the most fitting place for such a fortified Settlement, after you have considered all conveniences & inconveniences with the Contingences that may probably fall out in process of time & the difference in the present Charge of each place.

& upon what

mes the Set-
tlement is to

10. The next point to be well considered is the Terms, whether Wee shall be permitted to Settle upon an Inheritance (which is certainly the best as We are at Bombay) or upon a kind of Leasehold as you are at Madrass, Whether it be best to agree for an Annual Rent, or to pay all at first in Mony or presents, which likewise must be left to your discretion to make the best and wisest terms you can.

There is another doubt which We may start but cannot resolve here, Vixt Whither there be not Some uninhabited Island, healthy well scituated for Trade & convenient for o^r purpose that We may take possession of, and fortify wth the Queens Consent, for if the Queen will not permit Us to do it, Wee will not attempt it.

if the advan-
tage of this
Settlement
doe prepon-
derate with
y^e charge
then a Fort to
be built, if
not only a
Factory.

11. By what We have writ you see the weight of this Affair and will be able to weigh the Charge with the prospect of future Benefit. If you find the latter do preponderate by the hopes of a future Advantage We give you leave to proceed to make Such a Fortification as may protect our trade in that [country] but if in yo^r Judgm^t you shall conclude that the Charge doe overballance not only the present, but such future benefit as Wee may expect to reap thereof, Wee will [be content] with [Settling] Such a Factory as may answer [the trade of] the [Place].

left to y^e
Agent & co^o;

12. Whether those you imploy in this Attempt shall for the better Countenance of this Affair, go to Atcheen with one or two of o^r Great ships and the Tenders or with the 3 Sloops only, We leave to yo^r determination; As also what Present to make to the Queen and her Courtiers.

not for a
small charge
to neglect
this design if
beneficial
terms are
procurable.

13. You know We are allways for Saving Charges & never had more Reason to be so than at this time; But yet Wee would not for a Small-charge Neglect any thing that might be of future great Advantage to the Comp^a: and the kingdom, especially if by an enlargement of o^r Expence, you can obtain beneficial Terms for Securing such an English Colony as you have at Fort St George & as We intended at Hippins, that may in time grow up to a Revenue, that will more then defray the Charge of the Settlem^t & future governm^t.

Mr. Freeman
or Mr. Lucas
to proceed on
this design, &
the Agent
likewise if 'tis
found con-
venient.

14. The persons you principally trust in this Affair must be such as have formerly been there, and know the People and Country well, as Wee Suppose Mr Freeman, & Mr Lucas do, and if you think o^r Agents personal presence would facilitate or meliorate this great Design (tho' Wee will not direct o^r Agents going thither, yet if he in his own Judgment thinks it may be Serviceable to Us, Wee will & do consent to his going upon this Affair himself, as he did Wee hope wth good success at Porto Novo, hoping he may return to the direction of o^r Affairs at the Fort in 8 or 10 weeks time at the furthest For longer Wee cannot dispense with his Absence from thence where his Conduct hath been more to o^r Satisfaction than any Agents that ever preceeded him.

resolutions in
this affair
must be
speedy.

15. What you resolve upon in this whole Affair must be speedily that you may have the Benefit of the Monsoon for Our ships to go and return to the Fort or Bay of Bengⁿ in fitting time for o^r other occasions hereafter discoursed.

& what am-
munition &c^o.
to be lan-
ded at y^e:
Fort if any of
y^e: great
ships goe to
Acheen.

16. If you resolve to put Us to the Charge of sending to Atcheen any of o^r great ships you must consider well before hand, what of their Ammunition or Provision & soldiers to take on shore at the Fort and what to Send forward by o^r ships.

upon what
terms Mr:
Fowle y^e:
Gunner
came out.

17. There is on board the Beaufort one Edw^d Fowle whom Wee have [entertained] for an Engineer & M^r Gunner to Serve for Seaven years in Such place as Wee Shall direct at the following Terms viz^t.

(1) The [Comp^a to pay the passage of his] Wife & Children & to advance [him 5th at his going] out.

(2) His pay to begin at his arrival at such place as shall be directed and to be allowed 50 ^Ɔ Month for the first two years & 5 £ ^Ɔ Moneth for the last 5 years.

Him you may keep at the Fort or send him with those you employ in the Affair at yo^r discretions.

18. If you shall think it needless to put Us to the charge of sending any of o^r great Ships to Atcheen, in Such Case Wee desire you in the first place as afore-said to send home the Royall James, S^r John Wettwang, Command^r forthwith that he may be early enough back to arrive timely to o^r Spring Sales. The Beaufort and Rochester you may lett to Freight upon any hopefull Voyage, that presents or in default thereof Send one of them with half the Calliatore wood to Ballasore to leave the wood there for Kintlage to o^r Bay Shipping, & to load full with Petre Paddy, Rice, Butter, Oyl, & what else you think fitt to write for that may turn Us to acco^t at the Fort.

if ye: great ships don't goe to Acheen then how they are to be disposed of.

19. Wee have been told by a Dutch Captain whom Wee have now taken into o^r Service that excellent Rice is to be had in the River of Raccan, sometimes so cheap as 30 \$ ^{per} Last which is not above 18 or 20 \$ ^{per} Ton; If you think that Navigation Safe, and this Relation true you may send the Rochester with one of o^r Sloops attending her to load Rice for o^r Sales at the Fort where and at the Bay We Suppose the Difference of Price in that Commodity may more than defray the charge of Demorage, and that o^r Ships plying their Voyages may be back with you time enough to load home & save their Monsoons about the Cape.

if Rice is procurable at Raccan at 30 \$: ^{per} last, then to send ye: Rochester thither.

20. We give you these and such other hints for the better employment of o^r ships and to prevent the biting Charge of Demorage, But Wee will not confine you to any of these methods having an intire Confidence in yo^r integrity, being also in some hopes that you may provide [more] profitable Voyages for them, and therefore Wee [leave them] wholly to yo^r disposall from the time of their first arrivall [untill] you shall be ready to load them home for England, desiring you only to take Care [that they do not Wast] time and [Mony] in lying still at any [place.]

but the disposall of ye: ships wholly left to ye: Agent & Councell.

21. The like we say with respect [to o^r 4] Sloops that sail wth these ships and those two [on board Captⁿ] Nicholson which he hath promised to sett up and [launch] at Sea, as soon as he is about the Cape in Fair weather.

the sloop likewise.

22. There was lately here one Spar. That was formerly Chief for the Dutch at Pegu. Some of Us by his Royall Highnesses Direc^{on} have had discourse with him he seems to be a knowing experienced but an ill natured boysterous, prating fellow, & therefore Wee thought not fitt to trust him. He sayes Pegu after the Loss of Bantam is the best place of India to build a Fort at, to command Our Chyna Trade, and that the Proes of Sumatra may easily and safely bring their Pepper thither without hindrance of the Dutch, We told him there was nothing there besides Sticklack towards the Loading of a ship, though there be some Gold, Rubies, Ambergreece, and other fine Goods, accidentally, And that the King of Pegu was a great & proud Prince and would not admitt of Building a Fortifica^{on} nor the Trade of that Place be worth it, But he abounded in his own sence and would be persuaded to no other. Wee have told you this Story that being nearer & better acquainted with the place you may consider of it, (tho' Wee think there is little encouragem^t in it being much more remote from the Pepper Trade than Atcheen) and give Us yo^r opinion thereof.

about prating Spar & his story concerning Pegu.

23. There is on board o^r ships a Quantity of the best Chesshire Cheeses put up in strong Cask filled with olive oyl, what of that you do not Use in o^r intended Garrison, Wee hope you may dispose to a good Acco^t, and that the Oyl if it prove not eatable may Sell for Lamps. The like Care We desire you to take of all o^r other Stores & Provisions.

about ye: Chesshire Cheese & disposall of ye: Oyle or lamps.

And now Wee have said all this of a Fortifica^{on} at or near Atcheen Wee must for caution add, That if upon sound Reason & mature Considera^{on} you shall judge that the Pepper Proes from Sumatra can never be induced to frequent that place as they did Bantam, and that the Trade of the Place, & convenience for o^r Chyna Trade will never answer the charge of raising & maintaining such a fortify'd English Garrison & Settlement in such Case Wee will content o^r Selves

with the Settlement of a [Factory] only at that place and you must otherwise provide [for the imployment] of the vacant time of o^r ships & sloops [aforesaid.]

about y^e: 3

to foregoing
directions.

24. Wee send you inclosed a List of the 23 ships Wee do intend for all parts of India [this year of] which S^r Tho: Grantham [is already gone upon his Voyage] These 3 Great ships [afores^d we intend] shall be [laden intirely] from the several Precincts [of your agency.] After two [of them] have made a short Trip [to spend y^e time while you] are providing Goods for them whereof one if not both Wee [conclude must] be for the Bay to Stock you with Petre for Kintledge, and Rice for Sale the other at yo^r discretion after you have considered the hints We gave you before.

if more ships
come out &
they cannot
be laden

25. If Wee shall Send you any other ship or ships after these and you be not in Condition to load them it shall be all one to Us if you can contrive Matters so as to keep them imployed till you have goods provided to dispatch them for England, Wee thinking it o^r Interest as well as for the hono^r of o^r Country, & Our and yo^r Reputa^on to have rather too many ships in India than too few to bring home o^r Effects, (as it happened these two last years.)

27. If Wee can possibly Wee will Send you by these Ships a List of the Goods Wee would have provided against next year, In the mean time you may go on providing the usuall Sorts and Quantities especially of fine Goods, Ordinary Longcloth & Sallamp^s being but in mean Esteem at present of which Send but $\frac{3}{4}$ the Quantity this year of what Wee bespoke in o^r last years List, they not selling but from 20 to 22^s p^s which wth Interest of o^r Mony Freight & Custome &c^a charges paid with Discompt of $6\frac{1}{2}$ p^s Cent deducted, do not produce above the prime Cost.

commended.

29. All yo^r Cloth generally from the Fort was so well & better sorted than [for] some years past that We can do no less than acknowledge the Care and Fidelity of M^r Bigrig and his Assistant therein, and greatly blame the Neglect and Infidelity of those that did that work at Metchlepat^m Medapollam & other Places, whose Cloth were not only very ill Sorted, but dearer by 15 p^s Cent than Our ordnary L. cloth, and Sallamp^s from the Fort, so that Wee loose thereby

31. And Since Bede Vincatadry Allingall &c^a & their Partners have performed So well this year Wee think it but just that Wee should take Notice of it, to their Commenda^on, & encouragem^t wishing heartily that they were able to take upon them a greater share of o^r Investments, none in other places having to o^r observa^on hitherto performed So well, & as Wee hope they will further do in the Abatement of their prices on such goods as do not turn Us to Acco^t and keeping their Merchants strictly to the goodness of their Musters, that so Wee may not be forced to lessen o^r Investm^t in them, and of this Wee would have you to acquaint them, and read this Clause to them.

32. Of o^r. new Sloops now Sent out you may keep as many belonging to the Fort as you can make Use of to o^r Advantage & yo^r own Security, But where and when there is no great occasion of Force We see no Reason, (since o^r Bantam design for the present is at a Stand) you should continue so many Guns on board each of them wherefore take out so many as you judge Superfluous & dispose of them by Sale to o^r most advantage, or to mount on board some Medapollam Sloops of greater burthen & less Charge that you shall think fitt to build or imploy in voyaging for o^r Benefitt, Or if you shall find it for o^r Advantage to Use Such Medapollam Sloops without Guns one of these may be a Convoy to 2 or 3 of them, If you have no occasion for them you may Send one or two of them to be employed constantly in the Bay and 2 to Bombay to be constantly employed there in voyaging for Pepper &c^a to and again the Coast of Mallabar & India as well as for the Guard & Security of o^r Island, but you may do well wherever you Send them to lett them to Freight or contrive the putting of somthing on board of them for o^r Acco^ts that may defray the charge of their Passage.

concerning the new Sloops & the disposall of their guns & how they are to be imployed.

33. Wee have found so great inconvenience by the Permissive Trade [from] and to England as well amongst o^r selves as [. . . Extra that] Wee have thought fitt totally to forbid all manner of Private Trade for Europe reserving only what We do indulge, wholly appropriated to o^r Command^rs Officers and Seamen,

Permissive trade denyd the Compas servts:

34. Of which when We have fully Settled you shall have a further Acco^t. of (Diamonds and other precious stones only excepted,) Notwithstanding which We intend to continue the Trade of Diamonds our Selves in which Commodity We would have you provide & Send Us, 20 or 50,000£ value as soon as you can reduce them to o^r limited price, for hitherto We have not made o^r first Cost of all that ever We received from the Fort.

[Diamonds] excepted. £ 20 or 50,000 : to be sent home in Diamonds but ye : price to be reduced.

35. If you do not Settle a Garrison at or near Atcheen as affores^d We would have you send half the Soldiers you receive by these three ships to Bombay by any Vessells that first sail from the Fort thither or by one or two of o^r sloops. If you can put anything on board for Surratt or Bombay that may defray the Charge of her time you writing to o^r President, and Councell to return her to you if procurable with a loading of what you think may turn Us to acco^t or goods upon Freight, if o^r President & Councill at Surratt shall not think fitt to keep the said Sloops at Bombay for the Service of that Garrison and other o^r Affairs on the Coast of India.

if a garrison is not settled at Achin half ye : Soldiers that came by the ships to be sent to Bombay.

36. Wee would have you incourage Portuguez and any other shipping belonging to o^r Town of Madrass to go to Sillebar, Lampoon Polumbam, Johore, Jambec, Borneo or any other parts of the S^o. Seas, (where Pepper is to be had) to buy that Commodity and bring it to the Fort, For which you may promise to give them upon delivery a Fanham or rather than fail 3½^d. p^r lb and in probability they may upon Such yo^r incouragement make very good voyages, For that all Callicoos in those parts of the world will be extreamply advanced in price, now that the Dutch have beat of all other Europeans, and it will be a difficult thing for them so constantly to guard all those Places but that Small Vessells may gett their Loading tho' We think it below the hono^r of o^r Nation to appear to make Such little Attempts o^r Selves untill Wee appear with a Force Sufficient to make good o^r Settlement, For which next year it may be the publique [circumstances] of the Kingdom may be more agreeable.

37. There is at the Entrance of the River going up to Atcheen 2 or 3 Ancient Castles with Guns that Seem to be of Portuguez or other European Structure, [If you obtain] a Grant of them from the Queen or of the [fitters of them] for Our purpose for ever or for 100 or 200 years [paying her] the same or such like Rent as you pay to the King of Golcondah & conditioning for a Competent Circuit of Land thereabouts to be accompted parcell of the English leased Ground, possibly o^r Trade there might occasion in some years the building of a Towne like Madrass the Revenue whereof might defray o^r Charge, of which Consider.

38. Tho' We think fetching Rice from the River of Raccan to Sell at the Fort may be convenient for small ships of 2 or 300 tons, Wee doubt these ships are too big & too chargeable to be hazarded upon that Coast and that therefore it will be necessary as soon as you receive this Pacquet that you write to o' Agent and Councill in the Bay to provide at least 1000 tons of Rice and Paddy each in such proporçons as you think best and what other Oyl, Butter, Corne, Pork or other provision you think fitt to be ready at Ballazoar to load these ships assoon as they return from Atcheen into the Bay which Wee think may best be in August or beginning of September to depart from Atcheen if you can dispatch them there Soon enough which would be very requisit, And if you resolve thus and should not be in a Condiçon to load S^r John Wettwang at the Fort p^rsently Wee can See no damage it would be to Us if for the better Grace of o' Affair you take him likewise with Our Agent to Atcheen, provided you bespeak in such Case all the 3 ships [Loading] of Rice &c^a as afores^d to be ready at Ballazoar or but two of them if the Agent thinks best to keep S^r John Wetwangs Ship for his direct Return to the Fort.

quin.

42. One great Reason why We would have you purvey all you can for a Store of Pepper to be allways lying by you is, because We have thoughts of bringing our China & Tonqueen Ships hereafter to come from thence to the Fort & proceed a second Voyage from the Fort back to Tonqueen, & Chyna. In doing whereof advantageously it will be requisit you should have pepper and other S^e Sea goods to fill up our ships bound to those places on their second Voyages, which We intend in their first outward Voyages they shall take in at Atcheen.

Reasons why
'tis better
keeping a
store of pep-
pers at y^e:
Fort than in
England.

43. Another Reason why We would have you Stored with Pepper is because if the Dutch can quietly carry off their Conquest of Bantam, they will doubtless raise the price of Pepper in Europe, and it will be cheaper for Us to keep a Store in India (before Freight & Custome is added to its Cost) then to keep it here against a Rise, especially considering that at 12 months after landing [it] cannot be exported from hence to any forreign Markett without the Loss of $\frac{1}{4}$ d \mathfrak{P} . lb Impost which is 15 or 16 \mathfrak{P} Cent upon the First Cost.

44. Wee have Superscribed this Letter only to o^r Agent and Second, because Wee [would have] yo^r Resolucons concerning the Atchein Affair [kept as] Secret as the Nature of it will admitt, But you may take to yo^r [Conference] such of our Council as you shall think fitt.

45. Besides the Ships that go directly for yo^r place Wee have Ordered the Amoy Merchant Cap^t Robert Bibey, now ready to Sail from the Downes That if he meet not with S^r Tho: Grantham at S^a Helleua he should (after he hath delivered his Loading of Provisions there) immediately Sail with the empty Ship for yo^r place, And in regard he may probably arrive with you time enough to Sail to the S^o Seas We would have you put on board him a small Cargo of 4. or 5000£ in proper Goods for the S^o Sea Trade and 2 or 3 Chests of \$^a consigning the same to two such Factors as you shall think best with the Comand^r Cap^t Robert Bibey one Portugues of good Repute in yo^r Town and that have been used to Such Voyages, And altho' We shall leave it to you to give the s^d 3 or 4 persons Such fitting instruccōs for the Voyage hereafter menconed as you shall think best, We must tell you Our purpose is the s^d Ship with Such her Cargo & Consignaçon shall proceed directly from the Fort for Sillebar upon the West Coast of Sumatra to procure there a Loading of Pepper which We hope may be had quickly upon reasonable Terms, and that o^r Cargo of Goods may yeild double the Usual Rates for the Reasons beforemenconed. But in Case Pepper should not be to be had at Sillebar you may order them to try at some other of the usuall places, for Pepper before menconed.

46. But We must expressly caution and injoyn you to command and require the persons aforesaid trusted with the Cargo; not to go any further than Sillabar if they can possibly procure their Loading there, and that they do not stay Spending any time in those parts more than that in probability this Ship may not be above [Six months] in the whole from the Day of her departure [from] Fort S^t. 47. We do reasonably Suppose that the hopes of beneficial Sales at Sillebar &c^a may induce Severall of o^r Servants and other Portuguez &c^a to send small adventures by the ship which We are not against provided the Company be not wronged thereby in the detayning of o^r ship for such private Jobs at Sillebar or other places near, Or that the full Freight of such private Adventures should not be honestly accompted to the Comp^a which two foreseen damages it must be yo^r great Care to prevent.

50. Wee would have you if you can invent any hopefull Voyage for Macassar or any of the Spice Islands or other Islands near unto them to send one of o^r best Sailing Sloops with a small Cargo of about 1000£ value consigning it to two such Factors as you shall approve of with the Command^r & one trusty Portuguez as afores^d to try to get Cloves Macé or Nutmegs in Returne, This We conceive can never be effected Safely by the ordⁿary way of going through the Streights of Sunda, least the Dutch too early observe yo^r Motion, But must be done by passing through the Streights of Ballio, which they can never observe, of which some of yo^r Madrass Portuguez may possibly give you better intelligence than We can learn here, they having an Island inhabited by Portuguez between Java

& the Spice Islands, and Cap^t Nicholson can inform you what discourse We have had with him about this Affair.

51 : By the Articles of peace with the Dutch in 1674 you will see that it is no breach of peace for Us to trade to any place in India altho' the same be blockt up or invested by the Dutch by Sea and land, except in Amuniçon and warlike provision usually called Contraband Goods.

52 : Wee suppose none of the afores^d Spices do cost the Dutch above a penny $\frac{1}{2}$ lb in Truck for proper Goods, viz' Rice, Powder a little Rack and some Callicoes proper for Clouts, the Sorts whereof Our [Agent knowes well] and may learn more particularly from [some ancient] Portuguez.

53 : And altho' Wee know it is no breach of peace to Seek such a trade especially at Such Islands where the Dutch have no Forts yet We take it for granted the Dutch (the Spice Trade being to them as the Apple of their Eye) will oppose this little design or discovery if they have the least foresight of it. And therefore if you shall resolve to proceed upon any Such design Wee would have it so carryed, that no person living may know yo^r Resoluçons except Our Agent & M^r Bigrig, and Such one or two more of o^r Council as you two shall think fitt to take into the Consultaçon of this and the other secret Affairs, hereby committed unto yo^r Management, And if you do find that this first voyage do Succeed to Our Advantage Wee would have you proceed on a second or third attempt of the like Nature with one or more of the Sloops at a time without any further order from us.

54 : That which gives encouragement to this Adventure is that the Charge is not like to be great that the Sloops being clean and Sailing so well as Wee hope it's not likely any Vessell she shall meet in the East Indies will be able to fetch her up especially she having the benefitt of Oars in a calm, & drawing so little water, and that being so well armed if any small vessell should come up with her it's improbable they should be able to Surprise her.

Another encouragement is That Wee hear the Macassars and Turnattaes are in rebellion against the Dutch, and We hope likewise the Old King of Bantam will keep them continually allarmed in those parts.

55 : The greatest difficulty you will meet with is to find experienced Men for that Eastern Navigaçon. There is on board the James Sloop a Master put in by S^r John Wettwang that is a very great Artist and carefull man, If you could help him to some Assistance that know the severall Islands when they see them Wee think he might be the fittest person to intrust in this Novile Navigaçon. The Cargo outwards with the help of Rice though it be of small value will be Sufficent to fill the Sloop and if they can meet with Trade will be Competent to load her with Nutts or Cloves.

56 : But We must give you, and you those you imploy upon this undertaking Caution to beware of the Inhabitants of that Island that makes the Straights of Ballio, they being s^d to be an inhuman murdering People, if they can catch any Strangers upon an [advantage] by Sea or Land, of which the experienced [Portuguez will] inform you more exactly.

57 : Now Wee have given you all the light we can into this Affair. Wee leave it to yo^r discretion to proceed upon it or not as you shall upon better Informaçon judge most for o^r Advantage, and to Consign the Cargo to such as you think fitt.

58 : And if any of yo^r Inhabitants English Portuguez or Natives can invent any other Voyages, for Spice or otherwise to bring a new Trade to yo^r Place We would have you give them encouragement, having a great Mind to try some Experiments of this Nature either by o^r own Sloops or by some of o^r Inhabitants in Madrass.

incouragement to be given to any that can invent any other voyages for Spice.

59 : The great Recruit of Soldiers We have now Sent you is a further Increase of o^r Charge in that place as well as a further Security to the Inhabitants, which you must invent Methods to reimburse Us for, by raising Our Customes 1 ^p Cent or otherwise as you shall Judge least Offensive. For o^r Confidence in you is such that you see Wee limitt you in nothing presuming yo^r Understandings are sufficiently enlightened to See that it is not Avarice that moves Us to put you so oft in Mind of this Affair but a reall Care and Love for o^r Country It being a folly for any man to think the English can ever be Strong enough at any place in India to withstand any violent Assault or Shock of the Dutch till We are as wise as they in Creating Revenues that shall not only Sustain the charge of a Great power to Maintain their possessions as well as the Cost of their first Acquisiçon & Fortifi- caçon.

The Compe: at great charge new methods to be invented, to reimburse them.

60 : Of the Factors and Writers by these Ships, We do hereby constitute and appoint M^r John Gray to be last of Councill at Fort S^t George he being a Man of years and Business, and personally known to Some of Us, And one that Wee hope will prove not only faithfull but Zealous for the generall good of the Company All the rest you may dispose of as you think best for Us.

Mr. Gray to be last of Councill at y^e: Fort y^e: Factors & writers to be dispos'd of as y^e: Agt: & ca think fit.

61 : If you contrive a Voyage for any of o^r ships for Syam that you reasonably think may turn Us to Acco^t in the Expençe of 6 or 8 mo^s time while you are providing o^r Manufactures to lade her home for Europe, We give you permission to do it and that Such Ship may Stay three days (but not longer) at Bantam to water, hear News of the [old] and Young King and to see if either of them will give Us any Pepper, in part of the great Debts [that both of them] owe Us.

63 : Our Book keep^r informs Us that o^r Law Courts are a Charge to Us which ought to bring Us in a Revenue, as they do in all other governments, Pray rectify this Method & contrive to settle the Processes of Our Courts upon Such moderate Fees as may at least defray o^r Charge of keeping them.

concerning y: Law Courts being a charge instead of a revenue.

64 : You may send Us any Lacquered or Chyna Ware or other Chyna Commo- dities that you can buy cheap at the Fort.

China Com- modities if cheap at y^e: Fort to be sent home.

65 : Wee have aboard these ships 4 men extraordinary upon eve^ry 100 tons, Any of them you have occasion of for o^r Sloops or otherwise to increase the Trade of Madrass you may keep in the Country We having no occasion of them on board the ships now, since We have no prospect of a War while these ships are abroad.

4: men extra- ordinary upon every 100: tons.

66 : Cap^t Goldsbrough in the Bengall going along with or soon after o^r afore- said three great Ships for the Fort, you must dispose of his ship as of the rest, by contriving some Voyage for him till you are ready to load him from the Fort that may save Us his charge of Demorage.

Cap^t: Golds brought to be dispos'd of as ye: rest of ye fleet.

67 : Consider whether it may be worth while for the enlargement of yo^r pepper Investment to Settle a small Factory of three English only at Cudda, or in some part of Jahore with a small Stock, for we doubt much is not to be trusted in either of those places, nor much to be had from them except you have grounds to beleive, that a little English Factory resident may bring a greater Trade to the place where it shall be settled, as Wee hope it will do at Atcheen.

y^e: settle- ment of a Factory at Cudda for pepper offer'd to considera- tion.

68 : It would be We think of mighty Concernment to the Comp^{as} Benefitt, if you could by the small Vessells that Voyage from yo^r place into the S^e Seas, draw some Chyna Men to inhabit at the Fort, who usually create a great Trade where- ever they come, and tho' We know it will be next to impossible for you to draw their Junkes to Navigate so far as the Fort, yet probably if you had Chyna Men living with you they might go to Japan in freighted English ships, Sailed mostly by Las[c]ars and some of their own Countrymen.

70: You are under a very good Regulaçoon for y^e monthly return of your Diaries, acco^{ts} of Cash, Consultaçon books, &c w^{ch} by reading over all yo^r books sent home this year we find you have kept yo^r subordinate factories to y^e observance of as wel as we could expect, considering y^e scarcity you had of English help. But we have observed in several of o^r factories, y^t many below y^e degree of o^r Councils, & some of o^r Councils in subordinate factories thro' a lazy supine disposiçon, have not performed so much writing work as has been comanded them by o^r Agent & Council ffor w^{ch} we have not yet provided any proper remedy; but find it now absolutely necessary. We doe therefore order y^t whoever of o^r Serv^{ts} below y^e Council shall any day without reasonable excuse in y^e judgm^t of o^r Agent & Council neglect to perform any work y^t shall be reasonably required of them, shall forfeit for every such neglect, one Doll^r p^ddiem towards y^e publique buildings & ornam^{ts} of o^r Town of Madrass, to be deducted out of y^t part of their salary w^{ch} is to be paid them in India: Of which forfeitures you are to keep a distinct acco^t.

71: If you employ any small Vessel for Jahore or Andragera with Callicoos to truck for Gold or Pepper, let it not be known to y^e M^r or Ships comp^a y^t we have any concern therein, tho you should think fit to interest us for encouragem^t of such a design, & may enter o^r interest duly in yo^r books: But we think it's best such attempts at first should look as if they did wholly belong to private persons.

72: Such goods as you sent formerly to Bantam, are very proper in all those places of y^e s^o Seas, & y^e Dutch Factors are y^e more willing to be participants of a litle private trade in India, since they see we indulge all maⁿer of trade to Ours.

73: Since y^e Dutch have served us y^t deceitful contrivance at Bantam, we shall not hereafter be so careful to return their Runawaies; & y^e rather because some of them may hereafter be useful to us in places where y^e English are not so well acquainted: but you may give them good words. LONDON, SEPTEMB^r. 5th 1683.

OUR AGENT & COUNCILL
AT FORT S^t. GEORGE.

We have yo^{rs} of 29th January, 5th 15th & 17th February last to the Several paragraphs whereof Wee shall give a particular Reply by our shipping. This being principally to give you the wellcome Newes of the Arrival of the Defence, Society, Willmson & Nathaniel; y^e Dragon from Surratt, and y^e Tonqueen from Tonqueen and Batavia, for which God be praised.

M^r Jersy is certainly very much in our debt, but the Proofs are so mislay'd that its hard to make out a full charge ag^t him but in regard he is so Sickly as not fitt to voyage for England you may make a final End with him without paying any thing out of o^r Cash.

24th. Augt.

You did exceeding well in ordering the Goods from Pettipolee, that o^r ships could not take in, to be brought to the Fort, The like Wee would have you observe in all other Cases of that nature.

Wee shall be very glad That you may ev^{ry} year have as great an overplus of Goods lying by you at the coming away of o^r ships as you had this year, for which you shall not want early ships to take them off yo^r hands.

Wee highly approve of yo^r Indeavo^r against the Interlopers at Porto Novo and do not think much of o^r charge, but now you have o^r Second Charter, & o^r Captains have the Kings Commission if there be further occasion Wee would have you proceed against them to the full Extent of those Authorities granted Us by his Ma^{ty} whatever the Consequence be.

As We did in Justice to yo^r Merit declare o^r satisfac^{on} in all yo^r proceedings the last year, to do you the same Right now, Wee must tell you that not only o^r Agent and yo^r selves but all under yo^r Agency have done better for Us (for ought Wee can yett see) than any of their Predecessors.

M^r Freeman and M^r Brown Wee know are able to serve Us and they have given Us a good proof that they intend to do it well [and] Sincerely, in which good Mind Wee hope they will persevere, and Wee shall accordingly respect and favour them.

Seeing yo^r Portugall Merch^{ts} are unwilling to bring you Pegu Sticklack, if you think it for o^r Service you may make a Tryall of Freighting a Small vessell, and trust some honest Portuguez that hath a good Fond in Madrass to buy up a Loading upon Commission which is cheaper than Settling a Factory. This Wee say if in yo^r discretions you shall think it for o^r Advantage but not [otherwise].

Wee shall send you a full Supply of Factors & Writers.

Doubtless you are at greater leisure now you are freed from the Incumbrance of Interlopers, and may make a greater Advantage of yo^r new Factorys which hitherto as you well observe do not defray the Charge of their Settlement and maintain Presents &c^s.

Of all Sorts of Goods in the Generall, Wee would have you go on providing according to o^r Lists and Advices last year, altho' Wee intend you a particular List by Our first ships, and for tonnage you shall be Sure to have more next year than you can load home for that Wee shall depend upon yo^r Care and wisdom to gett Freights or find imployment in the Country for all Such ships as you shall not have Effects ready to load for Europe.

Upon view of o^r Cloth r^{ed} & the Resolu^{on} We do find all the Cloth in Generall from Pettipole Metchlept^m and Medapollam to be very ill drest and from 18: to 20 % C^t dearer than the Cloth from the Fort, & in particular the Cloth from Medapollam very ill Sorted by o^r ships We shall write you more fully herein. We remain

OUR AGENT AND COUNCILL
AT FORT S^t: GEORGE.

1. Wee have writt you largely by these Ships, but whilst they are in the Downs something new will daily occur, fit for you to know, which you shall be accordingly advised of.

2. Wee have lately mett with a sort of Romalls, of which y^e: Dutch brought only two Bales this year, they are wove after an easier manner than any sort wee have formerly had, being strook through with y^e: Shuttle at once, your Workmen upon sight, will shew you y^e: difference, which difference in workmanship, render's y^m: in India, one quart^r: part cheaper than those wee have formerly had, and therefore besides those of y^e: former Sorts now desired by our General List, wee would have you send us Ten Thousand peeces of such as this enclosed Pattern.

10,000 Pcs:
Romalls to
be sent
according to
ye: Inclosed
Patterne.

3. Considering, that you have good flax at Madapollam, and that your people are excellently well skilled in Whitening, & y^t: this Kingdom pays to Dutch & other Forreigners at least 150000^{lb}: ann: for white thread, Wee have thought fit to put you upon that experiment, & y^e: rather, because there is no fine thread that wee know of, made in any of our Kings dominions. For your better commencement of this publick good work, wee have sent you some patterns of thread enclosed by which you will see at what excessive rates that Commodity is sold here, Wee hope y^t there when you'r workmen are well entred, you may procure as fine sorts for one third of these prices, but give what you think fit to encourage them at first, you may afterwards abate as you see Cause, you must observe by y^e: Patterns, what skeins y^e: thread is made up in, and how soft it is twisted, and imitate [both as] near as you can, putting not above one pound in a paper, [& number] every paper of y^e: same sort with y^e: same number.

Patterns for thread.

Noe more the more 1 lb. in a paper.

4. Of y^e: severall sorts of this Commodity, you may send us at first 2000^{lb}: value.

2,000 lb: Value to be sent. flaxdressers dont care to travill.

5. Our Agent & Councill in y^e: Bay, have writt to us often for [Hemp] and Flax dressers, but they being an Inland sort of people, and not used to travell out of England, wee cannot yet perswade any to goe for India.

But out of y^e: great number of English Soldiers you have, & those wee have now sent you, doubtless you may find some of y^t: Trade or that have some Inspection into y^e: way of it, which wee would have you enquire strictly for & send one or two of them into y^e: Bay, makeing use of some of them yo^r: selves if you see Cause for it.

Some of y^e: Soldiers sent out is beleived may have some insite into y^e: trade. Seamen to remaine in India if they marry & have the Cpts: Consent.

6. Wee have (following the ancient method of our Predecessors,) as you know enjoyn'd all our Commanders under severe penalties not to leave any of their Seaman in India, but finding by later experience, how necessary it is for us to preserve an English breed of men, where y^e: Inhabitants of our Towns grow so numerous in natives, & Considering y^t: wee doe allow you, & all our servants in India y^e: full Freedome of Trade with their own Stocks, & that wee have now put you upon some novile experiments for y^e: Enlargements thereof; Considering likewise, as our Captains inform us, that where ever they Come where any Dutch ships are, they can be supplied with what number of Dutch seamen they will, and that their weakness, since they have prov'd so treacherous to us at Bantam, may be our strength, Wee doe therefore give you hereafter permission, notwithstanding the Captains respective Covenants in Charter party, to give leave to any Seaman, that shall marry a wife of any Nation, & become an Inhabitant of our Town of Madras, to live & remain there with his Commanders consent, such Seamen remaining in India, or his Commander procuring another European Seaman to serve in his stead.

7. But in all Cases of such Intermarriages of Englishmen with fforreign women, you must Strictly preserve your method of seeing, that all the Children of such Marriages, be bred up in the Protestant Religion.

all English Mens Children to be bred up in the Protestant religion.

8. Besides sewing thread for which you have musters wee have reason to beleive any sort of Linnen yarn y^t: you can procure to be made in those p^{ts} would turn as well to accompt but it must not be Cross reeled nor great long skeins for fear of entangling but wound up into round balls, as big almost as an ordinary Bowl or a Minion shot or else in short small skeins streight reeled, This we likewise recommend to yo^r. Care, as a matter of great advantage to y^e: publick, whatever it may prove to be to us.

directions about Linnen yarne.

9. The Madapollam long Cloth was 2 Shillings p^{eece} worse than y^t: we had from y^e: Fort, enquire into y^e. authors & cause of that miscarriage & doe yo^r. endeavours to have [right done] us from those that did us that injury.

Madapoll Lo: cloth worse than y^e: sent by us: a p^{eece}.

Wee have not heretofore received any Cotton yarn from y^e: Fort, but in regard y^t is y^e. principle place of our settlem^t. & which we are y^e. most ambitious to improve, (because we have there a right foundation for improvem^t. y^t. is a n^uber of faithfull & prudent Councillors, under an excellent Agent) Wee would have you endeavour to have y^t. sort of Commodity made thereabout, & y^e. quantity

LONDON, 21TH DECEMBER 1688.

OUR PRESIDENT & COUNCELL
AT FFORT S^T. GEORGE.

By our Ships y^t. departed out of y^e Downs the 15th November last; Our Secret Com^{tee}. wrote you at large, & fully answered all your L^{tes} by our last years Shipping. Wee had thought to have sent Cap^t. Heath in y^e Defence, wth. this Ship the Resolu^{cion}, but in regard y^e. Resolu^{cion} is readie to sail, wee think it not convenient to detain her any longer.

All last years l^{tes}: answered y^e: Defence desired to have Come wth: the Resolu^{cion}.

2. You will see by her Invoices, & bills of loading w^t. Treasure, & other goods wee have on bond, all y^e Treasure wee intend for y^e Bay, & y^e lead if you can sell it there, but if you have a Ψ sent good markett for it at y^e ffort, wee would not loose y^e first opportunitie of disposing of it because Cap^t. Heath will speedilie bring you a greater supply of the [same] Com^{moditie}, & wee hope about 40 or 50000[£] in treasure for y^e Bay besides w^t. you are to expect from us directly to y^e Bay in february next by the Eagle, & John, & Marie.

Resolutions treasure designed for the Bay.

A great supply of lead & treasure by the defence.

3. Wee find by Mr Beyers Computa^{cion}, that you have rather too much then too little stock at y^e Fort, & therefore wee would have our President take down wth. him to y^e Bay w^t. Treasure can be spared from y^e Fort to give y^e best countenance y^t may be unto [our] affairs there, before y^e arrivall of Cap^t. Heath, & y^e other ships aforesaid, w^{ch}. are to follow him.

What treasure can be spared att y^e fort to be sent to y^e Bay.

4. By sending our L^{te} to y^e Bay open to you, & our Com^{mission} to o^r Presid^t. & Councell there wee shall save our selves the labour of much repeti^{cion}.

5. You will see thereby, that wee have dismissed Mr. Hedges our Service & have appointed & Constituted our Ψ sent worthy Agent W^m. Gyfford Esq^r. to be Presid^t. & Gov^r. of all our affairs [upon] y^e Coast of Choromandel & in y^e Bay of Bengall, & in case of his death, or absence Mr Jn^o. Bigrig is to be our Presid^t. & Gov^r. afores^d. in y^e room, & stead of y^e said W^m. Gyfford Esq^r our now Agent at ffort S^t. George.

Mr. Hedges dismissed the Honoble: Comp^a: Service. Ag^t: Gyfford Constituted President.

6. And our ord^r. is that upon y^e arrival of this Ship the Resolu^{cion} at ffort S^t. George our now constituted President W^m. Gyfford afores^d. if he be living, or in case of his death, [M^r] Jn^o. Bigrig, & in case of his death Mr Eliu Yale in y^e [quality] of our President is wth. all possible Expedi^{cion} to imbarque [himselfe] upon this Ship the Resolu^{cion} & proceed for y^e Bay of Bengall to Preside there over all our affairs, & over all our ffactories for this years investmen^t. & to cause all our Ord^r. now & formerly sent to our Agent & Councill in y^e Bay, to be honestly & fully executed, y^t at last wee may see a peaceable, carefull, & faithfull settlem^t. of all our ffactories in those parts.

President Gyfford to goe to the Bay.

7. But for as much as our affairs have been much interrupted by the Insolencie of y^e Moors Govern^r. as well as by the designs of our late Agent Hedges to arrive at an uncontrollable Empire, over all our faithfull antient, experienced Serv^{ts}. there und^r. pretence, but really in contempt of our authoritie as appeared by his detaining y^e Gov^r. L^{tes}, & some other darker instances, Wee thinke therefore for y^e better countenancing of that authoritie wee have now given to our now constituted Presid^t. & Councell in the Bay, that our Presid^t. now take down wth. him upon this Ship, & such of our Sloops as shall be then at y^e ffort one Compleat Comp^a of foot Sold^r. wth. their Officers, Drums, & Colours, & Drums, & Col^r. for y^e making up of another foot Comp^a. of such Seamen as can be spared out of this, & our other Ships in y^e Bay to make y^e show of a great guard to our Presid^t. upon his arrivall in y^e Bay.

Agent Hedges discommended.

A Company of Souldiers to attend y^e President & Officers Drums and Colour to make up a Comp^a: of Seamen

8. But as soon as the appearance is over, wee hope the Occasion will be over, especially of our Seamen, & y^t they may return soberly, & quietly to their respective Ships.

Seamen to returne aboard when the appearance is over. only Surged.

9. Wee doe not absolutely enjoin the making such an appearance of seamen as afores^d. but onlie suggest it as a thing w^{ch}. will not displease us, if our Presid^t. thinke it necessarie or convenient.

OUR AGENT & COUNCILL
ATT FORT S^t : GEORGE.

LONDON, MAY-31st 1683.

receipt of
letters ack-
nowledged.
Commenda-
tion.

1. We have with great Satisfac^{on} recd^d : overland & via Surratt yours of y^e : 31st : August & 7 of September 1682 in y^e : whole whereof you give us great cause to praise and Commend your doings & that true zeal and fidelity with which it appears to us you are now carried on in y^e : prudent discharge of y^t : great trust we have reposed in you.

approba^{on}
for not buy-
ing Diamonds
till a certain-
ty whither
y^e : Ships
could be fit-
ted with
other goods.

2. You did exceeding well in delaying to buy Diamonds for us 'till you were certaine you Should have Sufficent of other goods fully to load all our Shipping, which you give us hopes of will be with an overplus and So we would have it every year, because now our trade and consequently, our effects are growne So great, & y^e : time of their departure hence so casuall y^t : we cannot alwaies tell you before hand certainly when & wth : [w^t. quantity] of Tonnage we Shall send you but we Shall do it as near and as well as we can, by our first Ships y^t : depart towards your Place in Novemb^r next.

for y^e : Secu-
rity of y^e :
fort & Towne
against y^e :
Sea, a deep
strong founda-
cion of Qui-
am to be
laid.
y^e : Towne
in all other
respects to be
fortified.

3. We take notice of y^e : great inunda^{on} y^t : indangered our Towne and ffort and we would have you endeavour to prevent Such future Accidents by laying such a deep and Strong founda^{on} of Chinan as you men^{on} y^t : may be Sufficent in all humane probability to p^rvent damage by any Such accident hereafter, and in all other respects we would have you to Strengthen and fortifie our ffort and Towne by degrees, y^t : it may be tenable against y^e : assault of any Indian Prince and y^e : Dutch power of India if we should happen to have any difference wth : them hereafter about this Bantam business, which we shall never suffer them to carry Smoothly off, as they have done things of y^e : like nature heretofore but we must needs desire you so contrive your business (but with all gentleness) y^t : y^e : Inhabitants may pay y^t : full Charge of all repaires and fortifications, who do live easier, under our Government then under any Governm^t : in Asia, or indeed under any Governm^t : in y^e : known part of y^e : World their saying they pay Custome

is a frivolous Objection, and relates only to their Security at Sea under our Passes and under y^e: Guns of our ffort in Port, but y^e: Strong ffortifying of y^e: Towne &c^e: and y^e: raising new works is a Security to their lives, houses wives & children & all y^t: belongs to them.

y^e: Inhabitants to pay y^e: Charge of repairs and fortifications but with gentleness.

4. To inable you to discourse this matter fairly with Such as are ingenious of y^e: Natives or y^e: Portuguez y^t: live there, you may assure them y^t: by y^e: best Acco^t: and informaçon we have now from Battavia y^e: Dutch have not So many Inhabitants or their own native ffreemen there of all kinds as we have at ffort St: George & yet do not allow any trade at Sea to their Inhabitants or their own native ffreemen (as they call them) while notwithstanding they dō raise a revenue from them of above 90,000 £ Sterl: over and above y^e full charge of their Garrison & ffortifications.

Arguments: about Dutch Revenue at Battavia, to induce y^e: Inhabitants here to contribute towards y^e: charge of y^e: Garrison.

We are Sorry your design at Porto Novo did not hitt, tho y^e: Subedar himsele will be y^e: greater looser thereby, as it happens, for y^t: his friend Ally went not out till this year and before he can gett to Porto Novo we hope you will have bought y^e: Subedar out y^e: charge whereof we Shall not regret, being resolved as much as in us lies to Suppress y^e: Interloping and by what we find from our Surratt letters, y^e hand of God seems to be much against them, few or none of their Ships y^t: went out y^e: year before this last being like to come to England againe & if any do with miserable broken and loosing voyages, so y^t: we hope we Shall have little trouble with those kind of people for some years, besides most of them will be greatly impoverished by y^e: money they have taken up at interest, which now y^e: deluded world Seing them improsperous will be instantly demanding & harrassing them for.

concerning y^e: ill Success of y^e: Interloper & y^e: hand of God being much agst:.

6. Sands still continues disquieting himsele and us, at Law, to little purpose while his Ship and goods have lyen at wrack in this river 7 or 8 moneths and is never like to put you to any trouble in India.

about Interloping Sands & his Ship.

7. We have Sent you by y^e: Anne 3 ffactors Viz^t: Mr: Tho: Child, Mr: Hugisson & Charles Carr whome we would have you to employ as you shall find them deserving assoon as they can come to you from y^e: Bay, if you thinke it for our Service by any private Ship or Portuguez Ship of your place y^t: goes to Acheen we would have you Settle a ffactory at y^t: Place upon y^e: best termes you can agree, & send a Small Stock in money and proper goods to buy up all y^e: Pepper or other goods Proper for Europe, they can procure from time to time, that when you Shall understand what quantity they have in readiness you may Send a Ship to take it in or otherwise y^t: we may have it ready there for our China [Ships outward bound.]

3 ffactors Sent out.

a ffactory to be Setled at Acheen. a Small Stock of money to be Sent.

8. That which encourageth us to this Settlem^t: at Acheen is an opinion y^t: whilst wars continue at Bantam or otherwise if y^e: Dutch remain Masters thereof, they will so beat downe y^e: price of Pepper on all y^e: West Coast of Sumatra, y^t: as soon as y^e: Natives Shall hear y^t: money and other goods may allwayes be had for Pepper at Acheen, they will with Prowes and other Small vessells be constantly bringing of Pepper to Acheen as they formerly did to Bantam during y^e: English Residence there.

Reasons why 'tis good Settling att Acheen.

9. But we would not have you Settle there before you have made a firm agreement with y^e: Queen for all y^e: terms of our residence and trade there, y^e: Conditions whereof we Shall leave you to make Instructions for, in y^e: most prudent and frugall way you can, & to take y^e: fittest and cheapest Season for it, for we are not in hast, nor would not do it at all, except y^e: termes be very good and y^t: you Judge it may be worth our expence to Settle in y^t: Place as we thinke it may at this time.

but not 'till agreement with y^e: Queen on good termes.

10. However begin with an easy charge at first, with not above 2^d ffactors & a Writer, limiting their whole expence, within Such narrow bounds, and certaine not to exceed as you Shall thinke most convenient and absolutely necessary.

to begin with an easy charge at first.

11. We having had an Acco^{nt}: both from Persia & Surratt of y^e: great wrong done us by M^r: Jn^o: Feild at Metchlepatam, his Sending a private Ship for Persia consigning her to y^e: Shaubundar, & not to our Chief & Council there whereby we have been defrauded of our Consulage, & otherwise greatly prejudiciall to us, we do hereby dismiss him our Service and Possitively order you to Send for him immediately up to y^e: ffort, and to returne him for England by y^e: first Ship to answer y^e damage y^t: he hath done us.

OUR AGENT AND COUNCILL
AT FORT S^t: GEORGE.

LONDON, 9th: OCTOBER 1683.

We have wrote you more largely by 3 Ships viz^t. the Royall James Beaufort and Rochester now upon departure from Gravesend for your place, and we are the briefer to you in this, because we have Some hopes this Ship may meet S^r Thomas Grantham Comander of the Charles at S^t. Helena, which if She do She is to Sail with & by the order of S^t. Thomas Grantham from S^t. Helena for Surrat &c. and not to come near your Coast this voyage.

We have in our Said larger letters writt you how to dispose of this Ship and therefore Shall not need to Say any thing more of it here. We are

S^a THOMAS GRANTHAM.

In pursuance of the Court of Com^{tees} authority delegated to Us (as you will see by the inclosed fro themselves) We doe hereby order you That if this letter meet you at S^t Helena, you doe forthwith proceed upon your Persia voyage, without going to Hippines Island or any other place in the S^e Seas: Taking with you & to yo^r assistance this Ship the Amoy Merch^t, whereof Robert Bibey is Comand^r, who is appointed to follow yo^r order, if he meets you at S^t Helena.

Sr: Thomas Grantham ordered to proceed for Persia as also the Emoy Merch^t.

As to your Persia Voyage We have noe addi^onal Instructions to give you: But in regard the joyning of this Ship to yo^r ayd is a further charge upon us, you may reasonably stand with y^e Shabunder, or whatever other Persian Minister you shall treat with, upon the better terms for the Comp^a, which must be left to your discre^on, But We must always mind you, that our inclina^on as well as o^r Interest, leads us to affect peace rather than warr.

Referred to former orders. Neither Peace y^e warr.

Difference
between

of Acco^{ts}.

It is a shame to see how you keep your acco^{ts} with your subordinate Factories on your Coast. Madapollam made their remains in former books 51000 pag^a. you made it but 30000. They make it now 4511 : 8 :- and you make it 29.37 : 10 :- which vast difference on y^e Contrary side is occasioned in your chargeing them with 25000 pag^a. which they had not rec^d. at the Closure of their books. But you should settle the former errours and make either your books agree with them or their's with your's. I writ you something about it last year.

Mr. Bigrig's acco^t. of visits &c^a. ought to be cleared out of your books & Mr. Bridger's debt of Pag^a 26: 1: 5 ought to be rec^d. there.

Besides all such goods of new kinds that We writt for in o' Several Letters last year full quantity of what We then writt for, or since by any of our Lett' Overland, such as Pettipole painting Cotton Stockings Shifts ready made, of severall sorts, & what other new kind of goods you can procure in the Ginge Country of which M^r. Lucas gave Us hopes.

Neither would Wee have you forgett to send Us a good quantity of that Indico, made near, y^e ffort, which Wee formerly writt for and you promised, S^r. Jeremy Sambrooke formerly sent some by y^e Loyall Merchant for his owne account which he bought of Verona.

Remember allwayes to put but 150 Pieces of Gulcondah Bettellees, or other fine goods in one Bale, that being enough of a fine sort for one lott, for the proporcioning of this Cargoe from Porto Nova, Connimeers, Pettipole, Gingerlee, and the rest of your new ffactories how much from each place, We must leave to your discretion.

CONCERNING THE MINT & TREASURE AT THE COAST & BAY.

Fort still sen-
sible of y^e
Continued
[prejudice of
y^e Company.]

Wee perceive by the Agent & Council's this year's letters from Fort S^r. George that they have taken right observations of what we wrote them this time two years on this subject and they Expreesse themselves very sensible of the continued prejudice y^e Company susteynes by y^e Coineing their Gold into Pagod^r. which they endeavo^r all that possibly they can with their best skill & care to prevent.

Never soe
badd accot. of
y^e Mint
except y^e
last
prodigious
year.

Yet we never received or have heard of soe bad an accompt (Except that of the very last prodigious yeare) as this now come which instead of 963 $\frac{3}{4}$ Scarce renders 940 New Pagod^r. for 100 ounces stand^d. gold not withstanding some Chests weigh'd more there then & Invoice here.

Abuse of
Gold in
Engl^d.
Strange
Ing^t. No. 38.

They suppose (that which we formerly but onely hinted as possible) that the abuse is altogether or in the greatest part comitted here And we should be more of their opinion (seeing that now againe contra to reason & former example y^e Coynes to produce better then Ingots) if it were not that M^r. Cooke doth owne himselfe to have melted that strange Ingott N^o. 38 in Chest N^o. D. soe much discouraged of the last year then in which there hath not appeared a greater mistery of this nature.

Takeing y^e
assays from
y^e top of y^e
Ing^t.

But as we ought not to beleive it done by M^r. Cooke nor to his knowledge soe then of necessity we must conclude the fraud to be in their Mint and therefore to excuse the inconvenience of outting the Ingotts in two and taking the Assay from the middle we have begun to take them from the top which will make a farr better discovery here then that taken from the bottome being noe other mettall whatsoever can be sunk soe deep into melted Gold.

Coynes pro-
duce less yn
Ing^t.

The Coynes have alwayes more soyle & are more subject to filching & dropping aside in the handling at their weighing & have commonly some false peices in every bagg not easily to be discerned by sight onely a few of which would debase the whole Masse when melted into an Ingott.

There may be as many R^s. of 8 sent them as y^e Company can procure and well spare from their other occasions But it is fit they should know it is cheifly because they for their ease & quick dispatch desire it and that there is a farr greater necessity of them in the Bay where we have noe Mint of our owne & have noe benefit of any other specie of silver or Gold wherewith to make Investm^t untill the ships for that yeare are come or ready to come away nor then without great charge & hazard as they well know.

It may be a greater quantity of R^s. on y^e Coast would lessen their present value there are soe many gone and now going by $\frac{3}{4}$ mission (onely) to Commanders & others (for they register with us noe other species) as may possibly fall them to 20 for 10 pag^r. as in S^r. W^m. Langhorne's time $\frac{3}{4}$ before.

And that here is now a greater dearth of R^s. then usuall & that the advance on them above the rate of Gold is not altogether soe much nor by a puffy a peice

as at first sight it appears by reason of the abatement for want of weight neither are the R^s. 8 alloyed as they were informed with Lead For that soft mettall is as contrary to Silver as brasse is to Gold a very small mixture thereof would sower & make useles a great Mass of Silver.

The Spanish barrs are farr more fit for their's & indeed for any other use especially for coyning into Rupees because they (the Rup^s.) are 14 dw^t. better then any sort of R^s. or stand^t. Silver and it is much easier & cheaper to make fine silver courser, then of course fine because it needs noe troublesome & dear extraction but onely addition of alloy where it is required.

Their books N^o. Z for Anno 1681 being now come we finde the 14 Chests of R^s. which they advised the last year to have disposed at 16½, 16½, & 16½ for 10 Pag^o. to come out at noe better then 18½ R^s. for 10 Pag^o. by reason of the abatement for weight which it seems they make to be equall and the same with 8 Gold Pag^o: and that is almost 17 dw^t. 15 gr^s. whereas the medium of all the \$ we have usually sent is but 17 dw^t. 8 gr^s. & that was alwayes the agreed weight at Bantam soe as this 7 gr^s. allowance for want of weight abates 1^d. upon a peece & that rate & yet [more &] the beforemenconed accompt in the books of 14 Chests. It is like they have noe allowance for the few peeces that may be sometimes found to weigh above 17 dw^t. 15 graines.

The want of one or two penny weight in many of the Ingots & Coine (which they attribute to the badnes of their old beame & overworne wth: is in like maner or more complained of from other parts but this with them we hope is now remedied by a very exact new Beame with a sett of Weights & suitable Scales sent them the last yeare.

But for the differences between their Assaym^t & our Invoices we know not what more to answer then the last year For our Assay Masters (though not infallible) are under their Oaths & their's seem not soe Skilfull nor altogether soe honest as they ought to be but whereever the fault or difference lyes they must be carefull to keep their Mint's reput^e by exact weight & finenes of their Pagodo's.

They advise to have disposed all the R^s. 8 of the last year 1682 for 2 month's time at 15½ for 10 Pagod^s. which though better a little then y^e former yeare yet we still suppose will fall short in accompt above a penny a peece for the reason aforesaid.

Wee have noe other accompt or books of Anno 1682 but their Mint booke & by those of the former 1681 we find noe acco^t. at all of any barrs of Silver but all sent away & charged to Subordinate Factoryes.

Wee neither want as yet nor have they now sent any of their owne Coine or Pollicat Pagod^s. for Samples.

Wee have made inquiry & inspection into that most strange Muster of 6. 10. 12 gr^s. of Gold they sent us last year but can find noe other reason or satisfaction therein but an apparent & abominable Cheat.

Wee are sorry to find them silent about the hoped Pherma[nd] for coyning Silver Rupees at the Fort & desire to know if they make any difference between the severall Coines of \$ & if soe which are most or least esteemed.

Wee writ them soe large & & ticuler on each of these subjects the last year as we have at this time nothing further to add but the reco^mendation thereof to their usall.

Wee finde by the Books Z now received from Hugley y^e Custome & charge upon Barrs of Silver soe great as that one ounce troy produces but 2 Rupees 4½ an^s. which is not above 4^s 9^d & ¾ oz sta^d & R^s. 8 about 4^s 6½ a peece being sold there at 217 Rup^s. 9½ an^s. ¾ Cent^m. There is noe advise or other accompt of any Gold disposed these books being ballanced but to 30 April 1682 before M^r. Hedges time onely they have sent a Certificate of the want of 17 dw^t. in 5 Ingots of Gold that were rec^d. of M^r. Cooke.

The books from Metohlepatam X ballanced to 30th April 1682 have noe acco^t: of Gold as receiving their Pagod^s. ready Coined from the Fort but the produce of 7 Chests of Silver barrs comes out at 21 fan^s. 3 Cash which makes 5^s 2½ & ¾ an^s. stand^t. & 3 Chests of R^s. 8 were disposed at 15½ for 10 Pag^o. without any abatem^t.

for want of weight or other charge that we yet finde soe that both species render there better than any where else.

These are the first books or accompts that we have hitherto imediately received from Metchlepatam or the Bay of any sort of y^e Company's Treasure being they were alwayes heretofore subordinate to Fort St. George.

Upon serious consideration of y^e Company's great losse in the two last years upon their Gold at Fort St. George if it be not by deceit of the Sheroffs there (as we most incline to beleive) nor by the Goldsmith's owne melted Ingots here we can conceive noe other probable way Then that it is by such Ingots as they (the Goldsmiths) receive from Holland & other parts & deliver us againe without any melting or other tryall then meerly an Assay from the bottome of the Ingot.

Or else (that which we are loath to suspect) y^e Cashire may by mistake or favour to the Goldsmiths enter into his booke (from whence the Invoices are transcribed) the Reports of the Tower better then in truth they are.

But this Paragraph we doe not designe to be sent to the Fort unles y^e Committee & directors of y^e Company's letters shall thinke fit to whom we thought it necessary to impart this Conjecture.

[Endorsed:] List of the Pacquet by the Royall James—Rec^d: y^r. 8 June 1684:

OUR PRESIDENT AGENT & COUNCILL
IN THE BAY OF BENGALL.

LONDON, 5TH MARCH 1688/4.

1. With this, Wee send you y^e Copy of our last long Letter by the Resolu^{on}, and the rather because Wee observe their were several erro^r: in transcribing it, by y^e negligence or Youth, of our Clerks in y^e Secretaries Office, which in y^e Copy now sent Wee have corrected.

2. The more Wee think of it, the more advantage Wee apprehend in having a fortified Settlem^t: for y^e residence, of our Agent and Councill of y^e Bay, in such a place as Our great Ships may lye wthin Co^mmand of y^e Guⁿs of our ffort & where Wee may have ground enough to cultivate for y^e sustenance of such a body of People, as Wee have at ffort S^t George, and in our City of Madrass, that Wee might in time create as good a revenue from thence as the Dutch make of Batavia, which Wee have had occasion often to men^{tion} to Our President & Councill of y^e Fort, & should have had great fruit thereof, by this time, but that being upon y^e Maine, they are to much Subject to y^e insolences of Lingapa, y^e King of Gulcondah's Gov^r: of that province, and doe labour under another great inconvenience Viz^t the want of a Harbour or Road for shipping in both Monsoons, which ought to be carefully provided for, in o^r next settlem^t.

3. If you could obtaine a Phirmaund for y^e perpetuall inheritance of such a place, Wee should not think much of your giving 20 or 30,000 Rupees for the obtaining of it, nor of y^e charge of building a ffort to defend it, while Our President and great Shipping are there, not doubting but that our Charter & this Comp^y: is longer lived then y^e youngest of our Grand children, notwithstanding the infrac^{ti}ons that have lately been made upon it.

4. The great & unpresidented frost, which Wee have had in England this year, hath detained y^e Defence so long in the Ice at Gravesend that now Wee suppose, our three Bay Ships, shall Saile directly for y^e Bay altogether, and by them Wee design, to send you a Stocke of £ 1,00,000.

5. The Chyrurgeons Chest's & other necessities on board y^e Defence intended for y^e ffort, you may send up thither by y^e first Ships.

6. The evener sorting of your Mullmulls, Cossaes, Tanjebs, men^{tion}'d in y^e last Paragraph of o^r former Lett^r, is a most desirable thing and better to be effected, that way, then not at all; But if Our President during his stay in y^e Bay, can bring all o^r ffactories there and make our contracts by numbred Musters with Societies of Merchants, after the method of y^e ffort, Wee conceive such a regula^{on} much clearer, certainer & better for our Service, that [than?] reducing the severall sorts unto an averidge or medium, as is directed in our former Letter.

7. By Societies of Merchants, if they can be contrived and brought into use, in y^e Bay Wee promise our selves y^e following advantages [w^{ch}] Wee have not yet arrived at, under that Agency.

1st: That Wee shall never hereafter make any bad Debts. *

2^{dly}: That wee shall not need to be continually & fruitlessly calling upon you to clear our Warehouses, and to put off all our old remains because you may agree, the imposing them upon our black Merch^{ts}: yearly at y^e first making of our contracts with them, as is done at the ffort.

3^{ly}. In such a year as this, when by any accident as now by the frost y^e greatest part of our Stock happens to arrive late with you such Societies of Merchants, if they be any thing rich, may be providing goods beforehand, with their owne joynt Stock, as they may likewise be, at all other times, in y^e absence of our Shipping.

8. The method of sorting at y^e ffort, as well as y^e faithfull performance of it lately, deserves our highest Co^menda^{ti}ons, y^e same method and fidelity Wee hope our President, will reduce, all our ffactories of y^e Bay into and remove those, he shall find slothfull negligent or unfaithfull.

9. M^r Edmond Bugden was some years since dismissed our service and wee are not now Solicited by any of his friends for his restaura^{ti}on, but in regard he hath

made an honest shift to gaine a lively-hood, and hath had time to repent, of what was formerly amiss, as also because, his experience must needs be considerable & that Wee have not heard, he ever did, while he was out of our service co-operate with Interlopers to Our Prejudice, for these reasons, if Our President & Agent Beard and Councill think him fitt, to be trusted Wee shall consent to his resettlem^t: in our Service, in such place, as our President and Councill shall think he may be most usefull to Us.

10. The severall English that are in y^e Bay trading without our licence doe you seize their persons and effects, except they will be content to live as housekeep^r: and free Merchants at ffort S^t: George or Bombay for wee will allow of no English to reside in India, out of our service Except within y^e Verge of our owne Garrison And if you should [apprehend] it an easier matter, to seize our [their in the duplicate] effects, then their persons, In such case seize all the effects you can belonging to any English out of our Service, & send Inventories, and due attestacōn thereof to ffort S^t: George or Bombay, where Wee would have our President cause process to be made against them, as the goods of English trading into India, without our licence before that Court, which is erected there by vertue of his Ma^y: new Charter, to be proceeded against, as therein is directed. The forfeitures being one half to His Majesty & y^e other half to y^e Comp^a: Of which said forfeitures, you are to keepe a just acco^t:

11. Besides which you may otherwise spoile their trading in y^e Country by giving notice, to all Gov^r That they are Persons out of y^e Comp^a: protection; and are not to enjoy any of their Priviledges.

12. The method hitherto directed you, for keeping our servants to their duty, and to that diligence, that all men ought to use that eat our bread, hath been hitherto onely turning them out of o^r: service, and sending them home; besides which y^e Dutch have other methods, and such as are in many cases better, especially for small offences & for persons not wholly incorrigible, such as fining them by y^e Chief & Councill to y^e Comp^a:; sometimes a weekes pay sometimes a month, & sometimes three months pay, according to y^e nature of y^e offence or neglect. The Rule being known & published aforehand, that all persons may know y^e fault, & y^e penalty before they comitt it, of these things pray consider and establish such Rules pro tempore, as you shall think most requisite for our Service sending Transcripts of them to Us for our confirmacon.

13. The Dutch have likewise another way in case of offences which they apprehend deserve not a totall expulcon and are too bigg to be atoned by a small fine; which is by degrading y^e party from y^e Sallary and place of a Councillour to y^e place of a Senior Merchant or from a Senior Merchant to a ffactor, or from a ffactor to a Writer, untill the Company in Europe, think fitt upon the parties amendment and repentance, to restore him to his former degree and Sallary again by meanes whereof, they alwayes keepe experienced men in India, and are not so frequently put to y^e trouble, of sending out fresh and raw men, as Wee have been, Of this likewise, Wee would have you seriously to consider and doe what you think best, for the present, advising Us your opinions, what you think is fittest, for Us to doe, and order herein for the future.

14. Most certaine it is, Our ffactors in y^e Bay have been for a long time very negligent and unfaithfull to such a degree that they are, not to be reduced to y^e good order regularity and Justice of the ffort, by any comon remedies.

15. Our favour intended M^r: Hedges, in our former Letter, is onely, in respect to S^t. Jeremy Sambrooke, not [in the least to M^r.] Hedges himself, whose evill deportment and carriag [e] in opening or detaining the Gov^r: Letter; was such as [renders him] not deserving y^e least kindness from Us, however if he [behaves] himself civilly, without Interrupting or prejudicing [our business] openly or secretly you may lett him have a fair exit, [as we then] writt you.

16. But before he comes away compell him to pay into [our Cash] what ever he owes Us, or may have defrauded Us of; that [you can] have just proof of,

and to give not either to him or any other persons licence to bring home any kind of prohibited goods in any of our Ships.

17. Wee are every day more resolved to prosecute y^e improvem^t: of S^t. Helena by Sugar works, Indigo, Cotton, Saltpetre, and many other wayes which cannot be effected without slaves & therefore Wee must inculcate our former orders to you, to send us by every Ship, either from y^e Coast or Bay 6; 8 or 10 and more when they are cheap fewer when they are dear, you need not send with them much more Rice, then will serve for their food in their passage, because Wee have found out a much cheaper way to sustaine them at S^t. Helena than by paying o^r Comanders ten pound a ton freight for Rice, however order every Comander to deliver to our Gov^r. & Councill, all y^e remainder of Rice which you lay in for our Slaves, which they doe not eat in their Voyage.

18. Among y^e Slaves you send, lett some of them, if you can be such as speake a little English, and some that have been used, in Sugar Works and Saltpetre works, or in planting Indigo, Cassador or Cotton wool, and if you meet with any such, discribe them so to the Gov^r: & Councill, as he may know them; when they arrive at S^t. Helena, or if you can, meet with any used with making Earthen ware Sugar moulds; or Jarrs, Smiths or Carpenters, they will be worth, your giving double rate for them in India.

19. Forgett not to send Cotton and Indigo seeds, Male Cloves a handfull, if you can gett them, from any Dutch Skipper; first putting into boxes or potts of Earth, & keeping them duly watered, untill they Sprout, & if they sprout, before you Ship y^e potts or boxes make a Cage of Wyer over y^m to preserve them from y^e Ratts & give y^e Cap^t: a great charge concerning them, for that such young plants may be of inestimable value to y^e Kingdom y^e nature of clove trees [being] to grow upon high land, such as S^t Helena is, & in much about y^e same latitude.

20. M^r. Charnock having lived long at Pattana Wee desire him to send to o^r Gov^r. and Councill at S^t. Helena, a large and particular discription of y^e manner of making Saltpetre there, and of every thing that is requisite thereunto, and that he send Us a Copy thereof and if it be possible that he would hire one or two men that speake a little English, and know y^e whole process and way of making Saltpetre at Pattana, to goe to S^t. Helena & teach our People y^e way of it besides y^e wages he agrees for, if this design takes effect at S^t: Helena (where Wee know y^e Earth is proper) Wee will give y^e parties a very good reward, and their passage back to y^e Bay as soon as they shall desire it.

21. You may likewise send (so secure by Wyre) three or four young Plants of long Pepper, & if you can procure them a few plants of round Pepper or any thing els, you think fitt to propagate, which in truth Wee o^r selves, as well as o^r ffactors abroad, have wanted Zeal enough for hitherto, but are now quickned to these attempts by y^e late incroachm^t: of y^e Dutch at Bantam.

22. Wee are told by our intended overseer of our Sugarworks at S^t. Helena that we shall want hard wood for some use about our Mills, which is not to be had here or there, wherefore Wee desire you to send Us by every great Ship one piece of 30 to 34 Inches diameter, and 35 or 40 feet long of such wood as is used for fixing y^e rowlers upon in Sugar Mills; what wood is most proper you will easily learn from those you buy your Sugar off, the thicker and longer the better.

23. The 9th instant arrived in the Downs the Persia Merchant from Surrat. She was in Company with the President from Surr^t and the Surrat Merchant from Batavia, and Sillebar 100 leagues to the W. Ward of y^e lands end the 12 Decemb^r. last, but by a violent storm they were parted and drove back to the W. Ward. Since which we have an acco^t: that the President Cap^t. Jonathan Hide in making y^e Channell in y^e night time by a violent storm was cast away on y^e Rocks of Holston in Mounts Bay in Cornwall on y^e 11th Instant, all her men saving two being drowned and most of her Cargo we fear also is lost, if not all of it, tho' all means possible is used to see what can be saved thereof, the Surrat Merchant is not yet arrived but dayly expected.

24. Let noe part of our Tonnage upon any of our Ships hereafter goe up dead freighted to the ffort but contrive y^e filling up our whole Tonnage upon every Ship you send thither with Petre or Turmerick bolts of sail cloth and Canvas for stores to ly by there or else with Paddy Rice Rack Butter Oyle Timber or boards that you know will turn us best to acco^t. at y^e ffort Our intent being to make that place a Magazine from whence you may be ready to dispatch a Ship upon any sudden occasion.

25. Wee have mentioned timber and boar[ds because we] know those commodities are always want [ed in such a] growing town as Madrass and are dear [there, whereas] they must of necessity be both extream [cheap in y^e Bay, And] we reckon the freight from the Bay to y^e [ffort will cost us] nothing especially in such room in any of our [ships, y^e :] would otherwise go up empty.

26. Our President knowes best what sort of Boards [& Timber] are most usefull and vendible at y^e ffort and may if he thinks this notion will do us any good while he is in y^e Bay make a contract with fitting persons to have alwayes ready such a store in y^e most proper place for easy embarqueation in y^e Bay as that a sufficient quantity may be put on board any Ship in two or three dayes time.

27. Your prudence must govern you in leaving rooms for stowage of any goods you shall order to be taken in by any Ship going to y^e ffort upon y^e Coast of Gingerlee or at Madapollam or Metchlepatam.

28. It will bee convenient that about half of the Blacks you send to S^t Helena should be ffemales because those people do not live contentedly without wives.

29. Notwithstanding what we writt in y^e former clauses N^o 15 and 16 about M^r. Hedges yet we do hereby confirme our former order in our Letter sent by y^e Resolution according to our order of Court of 21 Decem^{br} last whereby he hath leave either at y^e Bay or y^e ffort this year or when he shall come home to pay into our Cash what mony he will taking Our President or Agent and Councillis bill of Exch^g. upon us for the same which we shall accept and punctually pay according to our said Order of Court.

30. M^r. Sam^l. Griffith that we intended for Syam before this settlement in his station of our Bay Councill We have now directed to proceede immediately for the Bay y^e late wonderfull frost having retarded that Ship too long to adventure for Syam.

31. We have for y^e encouragem^t of your selves and y^e rest of our ffactors in India made our Order and published it. That what Bullion goods or Merchandizes shall be sent out by any of the Adventurers is to be consigned to our Presidents Agents or ffactors or some of them in India [&] to no others and that the Investments thereof are to be made by our said Presidents Agents and ffactors & to be returned to England on y^e Comp^{ss}. Shipping & no other.

32. And finding that some of our Ships laden by you do greatly break in their Tonnage for want of an equall distribution of fine and gruff Goods to be put on board them, by which also the Owners fall much Short of their accustomed freights, Wee do hereby desire and enjoyne you that when two or more of our Ships are together in port taking in goods you will be carefull that they may have a just proportion both of fine and gruff goods allotted them according to their Tennage, but where you shall think to dispeed an early Ship to us alone in such case we would have you lade as many fine goods on her as conveniently you can, which may turn us to best advantage.

33. Upon further thoughts of the 10th paragraph touching the English not in our service, and trading without our licence, we would have you send none of them home this year if they will be content to live as free Merch^{ts} in either of o^r Garisons, either at Fort S^t George or Bombay And if any refuse this our kindness, give us the names of all such as are refractory by the first opportunity, and you shall have o^r further order.

34. We have freighted y^e John & Mary Joshua Woodland Comand^r burthen 150^{ts} & sent her directly to y^e Fort, with y^e medecins & necessaries provided for y^e place. And from thence she is to sail directly for y^e Bay, to be disposed of for o^r service as you shall think fit; She being obliged as you will find by Ch^reparty, to serve Us 18 M^{os} in y^e Country; We conceiving she may be a proper Ship for lading of Sugars for Persia.

35. Besides, the Factors & Writers sent you by the Resolution, we have further elected y^e persons foll^o, to serve us at y^e Fort & Bay, w^{ch} will take their passage on y^e 3 Ships now designed to you, viz^t the Defence, Eagle, & Syam Merch^t.

P.S.—The friends of Robert Shermar have given us additionall security for the faithfull discharge of his trust of which we think fitt to give y^e notice.

We understand, y^e the Natives in spinning Floretta Yarn & Cotton yarn, doe wynd it off from 3 or 4 bobbins together whereas we would have it reeled off singly from every bobbin apart, in regard our Weavers here cannot wynd y^e same without very much trouble. We therefore desire you will give punctual directions therein accordingly. And let none of it be cross reeled: and by this means that commodity may advance in its price, which now it will not doe.

OUR PRESIDENT, AGENT AND
COUNCILL AT FORT S^t. GEORGE.

LONDON, 18 APRIL 1684.

It hath pleased God to arrive in Safety to Us the ship Kempthorne and having an opportunity by the Eagle being beaten back into Plimouth We thought Fitt to advise you thereof.

We cannot as yet fully answer Our Presidents letter from the ffort by the Kempthorne, onely we would not omitt any occasion to commend you for your great care and diligence God in preventing the Interloprs Ships all along yo^r Coast and hope they will find the same disapointment by Our Servants in the Bay.

We can assure you of his Majesties great kindnes to Us, being resolved not to permitt any Interlopers to goe out from hence, where We have the least Suspicion of their being So intended, and for Security thereof requiring Such Ships to give Security into his high Court of Admiralty, that they Shall not proceed within the limitts of our Charter However We are informed that one or two Ships having given us the Ship, by entring themselves to Ostend &c were gone away from thence, Before his Ma^{ties} Man of Warr, that was Sent over to fetch them back could reach them, and therefore require your diligence in looking after them So as to prevent their designe.

We do intend to Send you two early Ships with a good Stock to be going from hence the latter end of September or begining of October, Intending them for Porta Nova there to await Our Agents order in preventing of the Interlopers, and that one of them after his order rec^d. Should proceed unto the ffort, and So down into the Bay of which We shall further advise you hereafter.

So comending You and Our affairs to the guidance and protection of the Almighty We remain

[Endorsed:].—Companies Generall to Fort S^t. George of 18th Aprill 1684—Received the 5th Feb^{ry} 1684/5—Entred P. S. O.

OUR PRESIDENT & COUNCIL
AT FORT S^t. GEORGE.

LONDON, THE 2^d. OF JULY 1684.

We are now to answer yo^{rs} of 6th September & 8th of October 1683 the former: rec.^d by the Kempthorne that arrived with us the 5th. Aprill the latter by the new London that arrived the 12th. of May last Since which hath arrived with Us the Prudent Mary from Bengall in 5 moneths and the Berkly Castle in 6 moneths from Surrat, for which God be praised.

2. We Shall endeavour to gett the King of Denmarks order to the Governor of Trincombar as you desire.

3. You will do very well to pursue (as soon as you can attain it reasonably) not onely a Phirmaund for the coyning of Rupees &c but also (Since Madrass growes So numerous) Some further enlargment of your bounds in land about our ffort and town of Madrass and if y^e can the inheritance of S^t. Omay and the Precints thereof at a certain annuall rent, that you may not onely prevent the growth of that place, but raise a revenue to the Company out of it, that may in time much Surmount the rent you Shall pay to the King.

4. We observe you have disposed of all our Europe goods in which & in all your assiduous faithfull proceedings against the Interlopers you have obliged us to have aswell a great esteem of yo^r abilities as of your integrity.

5. We are not now So much concerned ffor a ffort in the Ginge Country as we were when we gave you that order, because We hope the Interlopers will in a

little more time be Suppressed here but we are more than formerly desirous of a ffort and Small Territory to it at or near Atoheen or in Some other place where we may have a pepper trade, and hope to induce Some Chineeese to inhabitt under our government as they do under the Dutch at Batavia.

6. We are likewise very much concerned for a ffort & Territory in the Bay by which we may Secure the trade of that place or Some good Share of it, in case of any future breach with the Mogulls Governors or the Dutch about which We wrote yⁿ very largely last year.

7. We observe your request for M^r Scarlett & do condiscend to it not knowing how to deny any thing in reason to you who have deserved So very well of Us.

8. M^r. ffield you may permitt to reside in Madrass as a free Merch^t. at his owne charge and to trade for himself but We cannot trust him again in our Service, till we see him of better behaviour, for besides his first fault (which was insolently Sending a Ship to Persia consigned to a native & not to our Agent or any of Our Councill) nothing was well or honestly done at Madapollam while he was Chief there and therefore we must desire you not to intercede further with us on his behalf untill you have Seen his behaviour out of our Service at least two or three yeares.

9. We have been Shamefully abused by most of our Servants that were lately at Bantam & Batavia and therefore Shall not consent to have M^r Styleman imployed in our Service untill upon full examinaçon, We Shall discover who were the vile and who y^e honest among them, altho' in generall the Sloth injustice & prodigality of that factory was so excessive, that it was enough to Spoyle any well minded young man that came among them, but M^r Stileman may remain at Madrass as a free Merchant and improve his own estate by voyaging to the South Seas or elsewhere according to y^e Companies great Indulgence.

10. We approve of the method you have taken for the procurem^t. of Pegu Sticklac, praying you to contrive all Such affairs wth. that frugality and consideration for the Company as that they may reap Some benefitt by them towards their vast charge abroad and at home, for the preservaçon of the Companies which is in truth the nations interest.

11. Our last yeares letters informs you of the Strange concurrence of accidents that made our Ships So late and our Stock So short the former year.

12. We take notice how our Priviledges have been encroacht upon by the Moors Governors and what you advise as the ultimum remedium, viz^t. making them sensible of Our power which we would not have exerted but in case of absolute necessity, and when you are very well stored and provided ag^t. all accidents, in which case we leave it to you to do what yⁿ Shall upon mature deliberation find unavoidably necessary for the vindicaçon of our just rights, but if you Should be entred into any contest with the Mogulls Governors in the Bay, concerning our priviledges in that place, we must enjoyne you to tide it out and hold a fair correspondence with the King of Gulcondah's Ministers untill the controversy in the Bay be brought to a good issue.

13. That Hemp and Spun hemp you have Sent us can never pay freight, but if you can gett it made into Hollands duck Canvas not to Stand us there in above Six pence per yard, close Struck and half ell wide, it may perhaps pay us freight and our own money again and be a means of Some increase to y^e English navigaçon.

14. We meet with some aversion in our Comanders to go from hence in July or August pretending they Shalbe much obstructed and their Seamen Sickly by reason of calmes at that season, But however we Shall oblige our first Ships to be in the Downs by the first of September, of which more hereafter when We have gone through answering your letters.

15. To the reasons you give for withdrawing Metchlepatam factory We may add another viz^t. That that hath alwaies been an extravagantly expensive

place, and therefore upon mature consideration of all conveniences & inconveniences do what you Shall judge best for our Service therein.

16. Of the Pegu Sticklac, course Tappees & blew Camisaes We can give you no certain opinion till after our sale.

17. We writt you last year to permitt the Jewes to reside at y^e ffort and we Say the like now of Mr Halst they behaving themselves to your Satisfaction but nothing of any value Shall go consigned by our Ships to any of them or any other free merchant, but to our Agent or Some of our Councill, which We hope may prevent their Spoyling our diamond trade, Our resolutions being to continue our endeavours to make your place the mart for that comodity In order where unto we would have you make Such generall rules and orders as you Shall apprehend most conducing to that end, and y^e removing of all obstructions that may impede So good a worke.

18. Now we have briefly answered the materiall paragraphs of yo^r two letters aforesaid We Shall tell you We have freighted the Kempthorne to be in the Downs by the first of September for your place & the Bay, and the Persia Merchant directly for the Bay, the Dragon for Tonqueen, The London & Prudent Mary for Surrat, all which Ships we hope may Sail out of the Downs wth. good Stocks to all Said plces in September, We have not yet determind of y^e remainder of our fleet nor unto what places they Shall goe untill the arrivall of more of them, but as they do arrive We Shall hasten them out again as soon as they can be gott ready, & you Shall have advice of their particular designments.

19. We having now as you know putt all our factories in the South Seas under a Subordinacon to your Presidency, it is necessary that we Should acquaint you that we Shall order the Dragon to Stop at Atcheen to take in there what pepper or Rattans our Chief & ffactors there can of a sudden get ready to putt on board of her about which do you in the meantime give the necessary orders if this comes to your hands in time, as also for about the value of 3,000 £ in Long cloth and other goods procureable at the ffort or at Atcheen Such as our President shall think may turn us best to acco^t. there where he lived many yeares.

20. The Said Ship Dragon We Shall order to return from Tonqueene directly home to us Stopping onely so many dayes at Atcheen as to make her a full Ship with pepper or Such other coast or Bay goods Pegu Sticklac or any other comodity proper for Europe that you Shall provide and have in readiness for her to take in.

21. It must be your great care and the care of our Chief & Councill at Atcheen to See that none of our servants do putt any goods on board our Said Ship Dragon to go from Atcheen to Tonqueen or from Tonqueen back, but what Shall justly pay us the full freight of the Countrey which wee take to be 18£. per cent on fine and bale goods; and one third part, or pepper or other gruff goods.

22. The want of care & honesty in this particular in our late Agent and Councill at Bantam, was that which eat up all the profitts of our northerne factories Subordinate to that Agency and indeed had quite wearied us out of them, but that we were loath to give up Such profitable trades to the nation intirely to the Dutch, while we could hold them, tho' with constant loss to the Company. But now we have placed them under yo^r vigilant care We Shall hope to see them gett roots & prosper to the Companies as well as the Kingdoms advantage.

23. We Send you with this a Copy of our last letter from Tywan with our answer to it, by which you will see the reason of our not Sending a ship from hence thither this year, and why we have appointed you to send a small vessell thither from the ffort, Which we would have you to effect for us in the best manner you can and with a Small Cargo of 5 or 6,000 pounds value in Pepper, woollen manufactures, Sandall wood, Dollars, and any other thing that our President Shall think may turn us to accompt.

24. If this letter come to your hands time enough and you have hopes of pepper at Atcheen the Small vessell you Send to Tywan may Stopp at Atcheen to

fill up with pepper there, and by her you may Send Such Callico and other goods as you Shall think fitt for the Dragon to take in there for Atcheen Tonqueen.

25. Send by her likewise one of the youngest of our Writers that we may maintain a Succession of persons to be acquainted wth the language and people of that place.

26. If ever there should be a peace between Coxhams posterity and the Emperour of China, that place may prove a great mart of trade and if the Chieseese can possibly be induced to reside Some of them at ffort St. George, We hope their numbers would Soon increase there to the great enriching of that place.

27. The Ship or vessel you send thither on this first occasion wee would have to be as near as you can of 80 to 100^{ts} if yⁿ can freight Such a one by the moneth, or by the ton, or when not, you must for this tyme make use of one of our strongest and biggest Sloops that you shall conceive fittest to performe this voyage.

28. And against the next year build for us at Madapollam a strong Pink or burdensome dogger of about 120 or 130 tons purposely for this trade, in bargain- ing for wth, imploy Such persons at Madapollam, as may prevent those cheats M^r Bigrig- discoūd & in building of our last Sloops there.

29. This building at Madapollam if you can have wel'conditioned strong vessells made and fitted there, We conceive is much cheaper to us then building and Sending Small Ships from hence, and yett if you can freight any Such Strong vessells belonging to our Servants or Inhabitants of Madrass by the moneth according to our rule of demorage little more or less, We Shall esteem that the best husbandry of all, because woefull experience at Bantam formerly hath con- vinced us that private persons can or will maintayne ships in India much cheaper then the Comp^a.

30. And that you may be alwaies furnished with Store of Small Ships and vessells belonging to our towne of Madrass, and Our Revenue thereby increased, We would have you give encouragm^t to all builders and owners of Ships whether they be Portugueez Gentues, or any other Inhabitants of our Said Towne.

31. We apprehend our President upon his returne from y^e. Bay will bring with him to the ffort vast quantities of woollen manufactures and therefore Shall Send you few this year and the more Bullion, Supposing that you may furnish the Tywan Cargo out of what you will have from the Bay, and have a great overplus of Colours proper for China, and if it Should prove So you may Send by the Dragon from Atcheen to Tonqueen those few woollen manufactures desired by our Chief & ffactors there according to their letter rec^d. by Cap^t. Knox, of which We now Send you a Copy with a short letter of our Own to them.

32. As we have formerly desired our President to bring up with him to the ffort all our remains of woollen manufactures in the Bay, wth Shalbe unsold in any ffactory there at his leaving the place, So Wee would have him bring up to the ffort, all our old gunns Shott & every thing else, whereof what will not sell at the ffort may be made use of upon our fortificaçons about Madrass, or where-ever you shall determine to build a fort for our pepper trade, which if you cannot obtain leave for at Atcheen, yⁿ must find out Some other Convenient place, for we being fully resolved to proceed with effect in procuring & establishing Such a fortified Settlement, wth. it had been well for this Nation, if had been done many yeares past.

33. If our President should not have brought with him from the Bay our full remains We would have you forthwith give order to o^r Agent and Councill there to Send up to you by our next Ships that come to y^e ffort whatever remains of Europe comodities they have unsold in any of our ffactories of Bengall of what kind Soever they bee.

34. Be very carefull in packing up all things you Send to Tywan and Tonqueen that no mistakes may be comitted therein as was by the Kent from Batavia.

35. We observe by the Sillabar papers y^t. came by the Kempthorne which we Suppose yⁿ have Seen, there is an Island near that place on which the Company had formerly a ffactory as is alledged by M^r: Crockford and M^r: Quick in their letter to us from Sillabar You may consider & advise as you have opportunity whether that be a fitt place for us to fortify upon, but if yⁿ Shall Setle upon any Island we would willingly the Company Should have the entire inheritance of it, as we have of S^t. Helena & Bombay, the lands whereof aswel as the trade & adventure we may hereafter improve.

36. Upon Strengthening our garrisons & fortificaçons in all places we have established a duty at S^t. Helena & Bombay of one dollar for anchorage & one barrell of powder once in every voyage to be p^d. by every Ship that anchors & trades, watereth or refresheth in our roads aswell by our own Ships, as by any other Ship or vessell being of or exceeding 100^{tn} burden : w^{ch}. duty is p^d. at Bar [badoes] Jamaica, & in all places we know, where the English have fortificaçons. Which duty we do hereby order to be paid the Comp^a. at ffort S^t. George by all Ships before you admitt them any trade or refreshment if they do not belong to the Company, and if they do belong to us, or are freighted by us, if any of the Comanders Shall refuse to comply with this just & triviall demand, towards our unmeasurable expence there, We would have you not onely discountenance Such refractory person, but return their names to us, and we Shall Satisfy our Selves here out of their freight before we pay them.

37. ffor fishing vessells & all other Small Ships under 100^{tn}. that have the benefitt of our Port & consequently of our great charge expended there, whether they be Natives or Europeans We Shall not now determine any certain rate for them to pay, but leave it to your discreçons to establish Such rules therein as you Shall judge most for our benefitt, consistent with yo^r own quiet, and least offensive to the Inhabitants of our town of Madrass, whom we would keep in good humor, altho', it is more than high time for us to begin to imitate by degrees & with greater moderation, that wisdome by w^{ch}. other Nations have established themselves So Strongly in India, to the hazard of the totall ruine of the English Interest in those parts of the world.

38. We observe what great Stores yo^r Master Gunner, Smith &c demand, and we Shall take care to have you very well provided with them, but must desire you at Some of your consultaçons to take it often into your most Serious confideraçon how you may prevent wast & imbezlem^t. of Such Stores ; many great estates having leaked out at Such Small vents, and it requiring as much Skill & care to avoid Such kind of losses & abuses as in any affair under yo^r managem^t.

39. One way we would recomend to you is to appoint one of your Councill to make it his especiall busines with an honest assistant of ffactors degree to looke into & Supervise those Officers aforesaid constantly and to cause to be brought before you monethly or quarterly Inventories or Rests of all Such things, that you may observe in what order Such under affairs are managed, how our Stores are preserved, what just expence is made of them, what negligent or wilfull wast or imbezlement.

40. We have formerly wrote you that to the intent our Ships Should come up full from the Bay to you, yⁿ Should order Paddy & other provisions Saleable at the ffort to be putt on board them in the Bay, the like we now desire for long pepper according to what we have wrote Our Agent & Councill in the Bay, which goes open to you, it being our opinion, that Since 'tis but 3 dayes journey more from the ffort to Gulcondah then 'tis from Metchlepatam ; We may afford y^t. comodity cheaper in that country than any others that must pay freight for it from the Bay.

41. We understand you have not onely strengthened our ffort & towne but beautified it with many fair structures, the charge whereof we can ill bear at this time, but in regard yⁿ have performed so well in all other respects, we will not blame yⁿ for what is done but desire you to find out methods to create a Revenue

(in imitacion of the Dutch) that may Support & increase them, keeping in your minds that good old adage Non minus est virtus quam quærere partatueri.

42. If the Queen of Atcheen will not grant you a Phirmaund, wth. competent priviledges to build a ffort where the old Portugal fort Stands or upon the flat point that comands both passages or Rivers to the town, we hope you have settled upon Some of those healthfull uninhabited Islands near the road of Atcheen, w^{ch}: we may retain as the Companies inheritance by the best right pretended to by any people viz^t prime occupancy.

43. Mr. Heath lately at Atcheen hath assured Some of us, y^t. the Orancayes profered him, that if the Company would Settle a trade there, they Should have liberty to build and they would undertake to furnish us with 1500 or 2000^{lb}. of pepper yearly Priaman and Some other places upon the west Coast depending on that government, as Syllabar, Lampoon, Pollumbam formerly did upon the King of Bantam.

44. The Settlement of that place We conceive to be of great concernment and may require the most mature Judgment to lay the foundaçon of Such a Structure as may here after be built upon Such small beginings, and therefore Seeing We cannot Spare our President nor Mr. Bigrig from those great affairs that are now under their respective managements, and that Mr. Lucas is Setled Chief of Madapollam, We would have you Send Mr. Elihu Yale as Chief to adjust all agreem^{ts}. necessary with the Q: of Atcheen, and to lay the foundaçon of our new habitaçon, defence and busines there which we hope in time may become as considerable and formidable as any place, this Comp^y. hath in India. And when he goes it may be materiall for you to give him a Transcript of those papers formerly Sent you, w^{ch}. were intended as direcçons for a Settlement upon Hippins Island from whence he may gather Some particular that may be of use in what we now purpose at or near Atcheen.

45. Mr. Heath tells us that there are some Syamers & Chineses that do inhabitt at Atcheen, possibly Mr. Yale may find meanes when he is there to perswade Some of the latter to trade & reside with you at Fort S^t. George, of whom, if y^e had any considerable number they would in probability greatly increase the trade of Madrass, as 'tis known they have been the making of Batavia. They are excellent well acquainted with all y^e. Crooks & Small places in the Island of Sumatra and the South Seas, and if they were Setled with you would in yo^r. Sloops and other Small Crafts find means to procure great quantities of pepper, and the best Sort of Cassia Lignum if the Dutch had twice as many forts & factories as they have in those parts.

46. We understand by Cap^t. Lake that D^{co}r Douglas hath sent a Small Shipp into those parts for pepper. It must be o^r presidents and Agent Beards care, that Such pepper as Shalbe So brought into any place, where We have ffactories & dear bought Priviledges, those comodities proper for Europe, that Shall be traded for by English ffreemen, be Sold to the Comp^y; or at least that the Company have the proffer of pre-Emption, though we would have you give Such persons a good price for their encouragement, and Such a good price We compute, four pence ꝥ lb may be; Pepper being now to be bought in those parts at Eight dollars ꝥ Bahar as we are informed.

47. When these letters were almost ready to be sent forward arrived the Welfare and kent, for which God be praised, and finding the Gulcondahs Governör encroach So much upon you we find our Selves the more concerned for a ffort in the Gingey Countrey, being resolved to defend our priviledges in all places, and now we Shall write our President & Councill at Surrat, who Suppose are very fair with Sombagee, by reason of Sombagee's warr with the Portuguese, to press him to give you a speedy & favourable dispatch in that your demand of liberty to build a ffort in his Country with ample priviledges.

48. We shall send you Some more Souldiers by our first Ships, and if Lingapa or any other Governor think any more of putting you under a Customer, or say you raise a great revenue, you may tell them, that fst, We compute that place

hath cost the Comp^a. 300,000 pounds Sterl; when they will reimburse the Company that Summe, You will move us to accept of it, and give them the ffort and towne, and to remove your Selves into the Ginge Country.

49. We admire you should give the least Credit to the Dutch or Interlopers Rumors which are alwayes artificiall. Wee have not else to add, But comending you and Our affairs to the guidance and protection of the Almighty We remain

[Endorsed:] Rec^d: y^e 11 August 1685.

OUR AGENT & COUNCILL
AT HUGHLEY

LONDON THE 2^D. JULY 1684.

We find litle to answer in the imperfect letter wee had from our late Agent Hedges &c^a. by the Prudent Mary, but that you give us no accompt how our Stock was disposed, nor how, when, or to which of our ffactories you have proportionably sent it, which are great things, and so essentiall for us to know, and for you to follow our orders in, that whosoever in the head of our busyness there, shall faile in, we cannot reasonably hope to have any good of their management in any thing else.

2. And therefore we doe the less, wonder that the Interlopers found such quiett admition to trade in the Bay, though they were the same persons that were baffled before in all places upon the Coast of Chormandell and in the Ginge Country.

3. Neither for the like cause, do we wonder that our Antient experienced Ser-vants in the Bay have bin so discouraged, and such a raw unexperienced youth as M^r Johnson made Sorter of Hughly, but of these things no more at present till we see M^r Hedges, who we hope may be comeing to us, before this reacheth your hands.

4. We hope now to see the Bay flourish, and that Righteousness and truth to the Company shall prevail against Artifice, private interest, and the old faction that have so long deceived the Company but their Dusticks and Dustores, and other notorious abuses, to our excessive loss, and the hazard of the loss of the best trade of this Kingdome.

5. And that all those factions which have so long molested our affairs, may be att a full end, we confirm our Commission to our late President Agent and Councill, none of which we will have suspended, or removed out of the Stations wherein we lately put them, but by our selves. And if it be not done already, we do hereby restore Mr Ellis and Mr Watson, not approving the manner of their suspension; which we understand to be, in effect, by Mr Hedges himself. Neither do we like the design of displacing them at that time, which looks more like a purpose of engrossing the disposall of all the Comp^{as}. Stock by a few persons, that gave us such ill proof of themselves the first year of their arrivall, by opening and stopping the Governors letters; that he must be very dark sighted that could not foresee all would be worse the next year.

6. We doe likewise hereby give to our Agent and Councill of Hughly (which hereafter we shall alwayes understand to be our Councill of the Bay) full power and Authority to reform all other Councils and ffactories in the Bay according to their discretions, as they shall think best for our service, putting in or out, or suspending any person from our service, untill such person shall be restored by our selves, or President and Councill of ffort S^t George.

7. We have formerly given order occasionally in our letters as well as printed Rules, for the well government of our ffactories; which we desire you to cause to be observed punctually in all places.

8. When our President return'd to the ffort, we hope he took with him all your Remains of old Guns, Cloth, and all other Europe goods. If any be left unsold in any factory of y^e Bay, We enjoyn you not to fail of sending them up to the ffort by the first opportunity; that you may not only clear our Warehouses of them, but that we may find them all cleared in your Books.

9. We would have you send us not only Cotton wool, but $\frac{1}{2}$ of our Cotton yarn pressed with our Screws; being lately well informed that the screwing will not damnify the yarn.

10. And if you can procure any quantity of ffathers, and can press the quantity of 12c : wth or more of them into the bulk of 4 Hogsheads, send us what you can of them for a trial.

11. Encrease all that is possible your manufacture of Plain Taffaties & if you can come to winde or throw that fine Silk (which you know our Silkmen, as it comes raw, care not to buy) it may turn us well to acco^t: whereas formerly we alwayes lost mony by it.

12. Our list of Goods to be provided shall go by the Persia Merchant which we hope may sail directly for your place from the Downs, the first week in September next.

13. We can hardly hope for it, Though if it could be attained we should be glad if you had obtained leave to build a ffort in some convenient place for the Security of that trade, that we might have not only a fort, but a Town and small territory of our own as we have at Bombay, and if you are possessed of any such place by vertue of what we ordered you to doe last year, in case of Extremity, we hope you will be soe wise as to secure your Selves in it, by good words &c^a. untill you hear again from us.

14. Having provided you so easy, we may say lazy a way of clearing all our Warehouses in y^e Bay of all Europe goods, by putting the labour and burden of disposing them upon our President and Council at the ffort as aforesaid, we do peremptorily require you to doe itt forthwith, as well to putt our dead Stock into life and motion, as to sett our selves upon the clearer and freer terms, that we may the bolder insist upon our rights from the Nabob.

15. ffor y^e same purpose we must likewise press you earnestly, to gett in all our debts as well old as new in that Country, and compell those Pikars that plaid the Knaves with you, while the Interlopers were there to pay interest to you for our mony, which they had in their hands and failed to deliver your goods for according to their agreem^{ts}.

16. We had made a good busyness of our Sugars the last year by Captain Wildy, but that you dispatcht him so late for Persia, that he could neither have gold (which is best) for returns nor any freight goods or Passingers, for the future we must enjoyne you to correct this error by providing timely a quantity of Sugar before hand, that the Ship or Ships you send for Persia may sayle from the Bay early in Decemb^r to be at Gombroone by ffebruary or y^e beginning of March.

17. If you say the disappointment happened by reason that you could not sooner get in your Sugars, We reply 1st. that, that will alwayes happen so, if you have not Sugars ready at Ballasore as we have often ordered you, 2^{dy}. that when ever it falls out, that your Sugars come in so late, we would have you, not to send any such backward Ship loaden wth Sugars to Persia, but direct such late Ship to Bombay where we shall order our President and Councill of Surratt to land them, and put the ship upon some further imployment that may turn us to a better account, and in the mean time, the lyeing of our Ship in Bombay Road while she stays there will be some reputation and security to our Island.

18. We wrote you last year that our Ships from the Bay to ffort S^t George shall not hereafter goe up empty or with litle goods besides Petre but that you should fill up our tonnage with Rice Butter Oyle &c^a. to be sold to the numerous Inhabitants of our Town of Madrass since we understand that longe Pepper (w^{ch} is alwayes cheep in the Bay) is a Commodity in all parts of y^e King of Golcandaes country but especially in that City and in regard the difference by land to our ffort to Gulconda is but three dayes more then Metchlepatam, and that our Cafela's that came down to the ffort may carry goods up cheap, since likewise the freight upon our own Ships from the Bay to ffort S^t George will be no charge to the Company upon our own ships, Wee think our President & Councill of ffort S^t Georg with your selves may make long Pepper a profitable Commodity to the Company, and are told that two or three hundred tons thereof yearly may find a Vent in all the Kingdome of Gulconda, and that we shall be able to afford it cheaper then any more Gentu or Private trader that must pay freight and therefore we desire that yearly such a quantity thereof may be sent up by our Ships, as our President and Council shall advise you may sell, and the mean time till you have their advices send by the first ship, you have spar'd tonnage for to the ffort 50 tons thereof.

19. Besides Paddy and rice there is another graine called Gram—that growes plentifully in the Bay and will sell well at the ffort of which you may likewise send some quantity to help fill up our ships. We have not else to add, but commending you and our affairs to the Guidance and protection of the Almighty, We remaine

[Endorsed.] Companies Generall to the Bay of Bengall dated 2^d. July 1864—
Over land—rec^d 11th July 1685—Entred \mathfrak{P} S. H.

OUR PRESIDENT & COUNCIL AT
FORT ST. GEORGE.

LONDON, 30TH. SEPTEMBER 1684.

1. With this you have transcripts of all o^r former l^{tes} since y^e choice of this Governor \mathfrak{P} Committees. Since y^e last whereof hath arrived with Us y^e following Ships, viz, Kent, Welfare, George, & Josia, from your place; Prudent Mary, & Herbert from y^e Bay; Scipio, Success & Charles from Suratt; for which God be praised,

2. You give us great encouragem^t for y^e vent of Europe goods; but we shall not overstock you with them this year, until all o^r Factories in y^e Bay are discharged of all old Remayns by bringing them up to y^e Fort, where you will have opportunity of putting them off at better rates than if we should presently clog you ageⁿ with a burden of fresh goods. Which opportunity of being troubled but with few goods and plenty of money we hope you will improve for o^r advantage, not only at y^e Fort, but in all yo^r subordinate factories.

3. You may see, as we have ordered the matter, the Jews may happen to improve the trade of that Place, but shall never prejudice you in your Comission.

4. We are yet of opinion y^t the Phyrmaund for coyning of Rupees & Pice & Cash may be of great advantage to us, & would have you pursue y^e obtaining of it as soon as you have a fit opportunity. We have hastened out this Ship y^e Kempthorn with all y^e earnestness we could, & y^e Captⁿ did promise to be in y^e Downs by 20th September instant: And we think did endeavor it as really as any will. But y^e heats in July & August doe so endanger their Beer & Flesh y^t it is very difficult to get any Comand^r to comply with so early a departure for India, except their Flesh be killed & Beer brewed in April, w^{ch} we shall endeavor to have done next year, becaus those y^t promised have failed us this year.

5. We have ordered, as you will see by y^e copy of o^r Bay letter sent you herewith, the Persia March^t to be sent up to the Fort in Novemb^r with a full loading of Saltpetre: What ever els is necessary to be directed there, will now be incumbent upon yo^r selves, our Servants in y^e Bay being enjoyned to follow yo^r Orders. We have formerly left it to yo^r discrecion, to withdraw or Not, from Mechlep^a: It is & ever was a very expensive factory, as well as a very mortal place to o^r Servants: Consider well of it, & particularly Whether it be advisable to doe it before you hear y^e Result of next Term, lest you should open a door for Interlopers.

6. The pot of Pegu Musk you sent us by the London, proved but indifferent; some Cods very dry, & some falsified; and at y^e price you paid for it, viz^t. 25 Pag^m \mathfrak{P} Catty, there is noe profit on it. We used to pay for Tonquin Cod-Musk noe more. However if you can't get it cheaper send us 1,000 to 1,500 Oz. But if to be had at 20 Pag^m. \mathfrak{P} Catty, you may send Five to six thousand Ounces: Pray let great care be had to its goodness.

7. Of course [*lacuna*] & blew [Camerars] of Codilore, you may send us the^r q^{ty} expressed in o^r List.

8. Yo^r abatem^t of prices at Mechlep^a & Pettipolee is very well, if a strict hand be kept in y^e sorting. Otherwise those pretended abatem^t are but specious cheats; which we say only in respect to y^e persons formerly intrusted in those Out-factories.

9. For at y^e Fort o^r goods have been well sorted those last two years, tho' we think something more to our advantage y^e former year than this.

10. When you send any Goods for Sale to any of our subordinate ffactories if they doe not sell that Monsoon, let them be sent back again to you, for we would continue noe stores at any place but at out ffort S^t. George ; where we reckon our Estates much safer then in any of y^e Out-ffactories.

11. Tho' you cannot but be sensible of our great charge, and that during this competition with y^e Interlopers, we drive a great trade for litle or no profit, yet we would not be wanting to our Country in making provision for futurity by building of a ffort in the most convenient place you can procure in y^e Gingee Country : but at first we would not mount above six or 8 Guns, nor maintain above 16 English Soldiers for y^e defence of it which will give y^e less Umbrage of jealousy to Sombajee, may cost us the less mony to obtaine a priviledge for and be as good a curb to the insolencies of y^e Gulcondah Gov^r ;, as if it were more considerable, because you can strengthen it with Guns and hands from y^e ffort when you see cause.

12. We hope yo^r next will advise us of Good Returns of our Manilla Adventure.

13. And to encourage other hopefull private trades, you may adventure for us one thousand pounds or two in each year in any Country trade that you shall reasonably judge may turn us well to account for which our Presid^t & Second may take their allowed Comission ; they haveing given us great proof in y^e case of Diam^{on}. that y^e Comission will not tempt them to engage us in any trade y^t they doe not believe will turn us to Acc^t.

14. If you find when our last years Sloops are arrived with you, that you shall yet have need of those two Small Vessells of 70 or 80 tons each, w^{ch} you write for, or one of them, you may build one or both if you have occasion at Madapollam taking great care that the charge of them be defrayed to us by their good and constant employment, that our Stock be not consumed by charge, as y^e Dutch have theirs in a great measure ; altho, they can bear a charge in many respects w^{ch} : we cannot, 1st. Because they are not troubled with Interlopers ; 2^{dy}. They know how to levy revenues in their Towns and Conquests which we never yet had y^e art of. 3^{dy}. Their spice and Japan trades, are as Good as two rich mines of Gold to the.

15. We are not able to advise you peremptorily what to doe as to Acona's insolent demands upon you ; the Inconveniences of yeilding to their demands, are very great, and not less in refusing. But when you have fair quarter or a ffort in y^e Gingee Country, are rid of interlopers, and have settled our Affaires in y^e Bay and at Atcheen, we think you may be bolder upon them then at present, In the mean time give that Kings Ministers good words but keep your money, paying onely what is justly due, and tell them you will write to us, and represent y^e cause of their demands fayrly to us, and when you have our answer, you will perform our Orders faithfully : In the mean time request their patience &c^a. But upon y^e whole matter we must leave it to yo^r discretions to doe what upon any exigency you shall judge most expedient for our Service.

16. But it seemeth y^e most equitable thing in y^e world to us, that whether we defend our priviledges by Piscashes or otherwise, those that participate of them, Viz^t yo^r black Merch^{ts} and other Inhabitants of Madrass should one way or other contribute towards the charge of them.

17. We have at present so many Competitors in our trade, that it is a plain case nothing can support our trade, but great thrift great stocks, diligent care and circumspection, with truth and integrity in all those we imploy at home and abroad, by w^{ch} only we may come to bear down our Competitors, in which we must give you the just commendations, and out Presid^t of Surratt, you having both worthily done yo^r endeavours in a difficult time : And now we must desire you to suspend putting us to any further charge in building, untill we see a litle fayrer weather, except you can have leave for erecting a small ffort at Atoheene or in y^e Gingee COUNTRY, as we have formerly wrote you.

18. We shall doe what we can for yo^r. Black Merchants as well in the case of M^r Masters as when we come to a treaty with the Dutch about satisfaction for losses at Bentam: But if M^r ffreeman and M^r Brown would deal candidly with you and them, they could help them more certainly and speedily to satisfaction then is possible to be attained here, by y^e slow methods of our Court of Chancery, especially in regard we are not a Constitution properly framed for the prosecution of law suits. Some of us have read over the papers of difference between M^r Ramsden, and M^r Dujordain: and upon y^e whole matter we cannot say M^r Ramsden is in any fault by what appears to us: But if you find he is, you may deal with him accordingly: However it is most manifest that M^r du Jorlain is a notorious insolent and very ill man, not fitted to be trusted in any employm^t. under us: which doth appear as plainly by his own papers in which he makes the best defence he can as well as by M^r Ramsdens accusasion of him: So we hope you have before this dismissed him our service, and left him, as you found him, a free Merch^t. residing at ffort S^t George.

19. Those persons you mention to have deserved well in our service we believe have done so, and many other of our Servants that are not named in yo^r. l^{re}: For y^e truth is you have all deserved soe well, except M^r Dujorden, and M^r Ramsden, if he be guilty of any unfaithfulness, that we are loth to commend any in particular except our Presid^t. and Councill, lest we should discourage others that deserve an equall measure of our favour.

20. M^r Fleetwoods Indentures we cannot alter the terms of: if we should begin to doe, that there would be no end of it: for the Relations of severall others would be giving us perpetuall trouble by soliciting us for the like irregular favour, w^{ch} is, what we have writt to Surratt upon y^e same occasion: But if M^r fleetwood or any other have deserved better then ordinary, you may consider them by putting them into the best employments their degree will admitt of.

21. M^r Edward Dutton you may entertain as a ffactor, and we shall take that security for him which he proposed, when it is offered to us.

22. M^r Wilks we have bid welcom home, with that kindness y^t is due to an Old and faithful Servant, with which he is well pleased.

23. We have now answered as well as we can to all the materiall paragraphs of yo^r. severall l^{res} by this year Shipping viz^t. of y^e 6 and 10th Septemb^r. by the Kempthorne, 8^o Octob^r. by the New London 19^o Janu^{ry}. by y^e Kent, and Welfare, 2^o ffebru^{ry}. by y^e George, and 6^o. Ditto by the Josia.

24. Now in regard we are in y^e midst of our Sale, and may possibly want time, by this Ship, to make out a compleat list of what we would have you provide for us against next year, with that circumspection as we intend to send it you, We think it necessary in y^e mean time to let you know that y^e Commodities in your parts in most request are Morees fine Bettellees of all sorts, and Cotton Romalls; of w^{ch} last you cannot send us too many if they be well bought: Of these 3 sorts we would have you immediately make provision of all you can gett to send us by our first Ships, and by the next Ship we send you, you shall not fail of the promised list w^{ch}. will better ascertain you of y^e particular q^{ties}. of each sort that we except for y^e whole year, which will be considerable.

25. We know not whether it may be for better or worse, that Tywan is taken by the Tartars, because if the Tartars will admitt us to a trade at Tywan as we had before, it may probably be better then it was under y^e Chinese Government, because y^t Island having a communication with the Mayn may afford more commodities and of more various kinds now then it did formerly and take off a greater q^{ty}. of English Manufactures. But untill it be certain whether they will admitt us trade or not, we doe not think it adviseable to send any Ship thither from hence, but rather that you should send some small vessell with our l^{re} to y^e Vice King of Tywan and send by the said Vessel a small Cargo of 4 or 5000£ value to dispose of there, if we can be admitted trade, Or if not, to bring off our people from thence. We think the Cargo were best to consist

of 5 or 600£ value in English manufactures 2 Chests of dollars the rest in proper Callicoes; and y^e Vessell to be filled up wth Pepper, if you have it at y^e fort, or can order it to be put on board in 3 or 4 dayes time at Atcheen.

26. We think you had best upon y^e said small Vessell to send one ffactor, and one Writer to dispose of the Cargo at Nankeen Islands or y^e Lampico Islands, in case they should not be admitted to a Trade at Tywan; and if our people at Tywan be permitted to come away you may join them in Comission with y^e said ffactor and Writer you send, to see our Cargo soe disposed of.

27. If y^e Tarters shall refuse to admitt us trade, or permitt our Servants to come off the Island, you may order our ffactor as soon as y^e Vessell is out of the Harbor or out of danger, to send if he can by any fishing boat, or otherwise, a Protest against y^e Tarters for deteyning our Servants, and effects in their hands, who were there in y^e Chinese Country only upon y^e peaceable acco^t: of Trade and no Enemies to the Emperor of Tartary or any of his Subjects.

28. Our President having seen the Customs of those Countryes, knows that the Tartars like the Chineses are a sligh crafty, treacherous people and therefore we hope will give such instructions to the Comādr. of the small Vessel and the Merchants he sends, that they keep as far as may be out of danger untill they have reason to conclude they shall be treated as friends and permitted trade.

29. We think you may doe well likewise to send with our lfe a translate of it in the Portugall language, if you have none that can doe it in Chynese.

30. Ally in the Lumly Castle arrived on Saturday proceeding our Sale which was to begin on Monday: And at first his employers gave out that she was come a full and very rich Ship: but the contrary appears, she being about $\frac{1}{2}$ part dead freighted, and the rest of her Cargoe such as we have reason to believe Money will be lost, by the whole Adventure: Another small Interloper from Surratt, sold all y^e Goods she brought home for 3,000£ which we suppose will not pay y^e ship's freight, and all the Stock lost: The William and John sold for 36,000£ and will do the best of any of them, but we think may not make 14^d of a Shilling, soe that wee think few of them will have encouragement to goe againe, if they might have leave, besides we thinke they will have a great reckoning to pay hereafter to his Majesty, for their great misdemeanor and affront to his Authority, and may likewise be compelled to pay us something for our damages, when Judgm^t. is passed for our Charter which we have great hopes may not be suspended longer then till next terme.

31. We intend to send you by this Ship in Bullion 70,000£ and as much by the Chandois one halfe whereof we would have you send to the Bay.

32. The George and Josiah will not be long after the Chandois by every Ship we shall send you a quantity of Bullion and could send you more now, but that we are unwilling to adventure so much upon one Ship as we did last year by the London and Herbert because we know you would be upon a straine with the Interlopers, which now we think you will not.

33. By our List of Tunnage sent you herewith you will see what Ships we have designed for yo^r. parts, not doubting but you will have goods enough to load them with an Overplus.

34. If you do obtain permission for a fort at Atcheen, or some of the Islands in that road we would not have you ingage us presently into a deep Charge of building or Souldiers, but doe onely what is necessary for our Security at first contriving soe that we may here-after enlarge or Strengthen as we see cause ye rather because the wintering of yo^r. private Ships there may add much to the Security of the place.

35. What English manufactures we send you shall be by our latter Ships because we would give you the more time to dispose of those remaines, you will have from the Bay which while you have no other Goods to sell you may putt off

at the better rates and the old Guns from the Bay, which you cannot sell may serve to mount at Atcheene or in y^e Ginge Country, if you have such occasion for them

36. For what is aboard this Ship we refer you to the Bills of loading and Invoice.

37. His Majesty hath been graciously pleased to take effectually order for the reducing of Bombay of which you will hear more hereafter yo^r. great Satisfaction that busyness being at present reserved as a Secret by the Kings special orders.

38. We have great assurance given us by S^r Josia Child of the Integrity and fidelity of M^r fraser, who goes over factor in the Kempthorne, Therefore we do appoint that he be constantly employed in the Sorting Godowne as assistant to our Sorter, that Officer being the Key of our profit or loss, what ever Contracts are made. But M^r fraser is to doe any other busyness at all leisure times, when he can be spared from Sorting. We would have you likewise in all our subordinate ffactories to take especial care whom you trust in those Employments and let them alwayes be such in whose fidelity and care you can have a more then ordinary Confidence.

39. When our Sale is over, [we] shall give you the most impartiall Acco^t. we can of the better or worse Sorting in every ffactory which now we cannot doe with so much certainty as we may after y^e Sale.

40. And now we do not write for so many Goods, neither will you meet with that Comission as last year. Yo^r. Sorters in all subordinate ffactories may hold our Merchants more strictly to the full Goodness of yo^r. Musters.

41. We so well like yo^r. black Merch^{ts}. carriage in our affaires these 2 last years, that we think they may deserve y^e favour of a few Lines from us which we have sent with this packet.

42. You may let them know it will much encrease their trade if they can invent or procure new Sorts of Goods, which they say they were about, and it seems to us easy for them to doe especially in severall sorts of Chints of various works, grounds, and Colours, y^e more Variety the better, and in regard Cotton is as Cheap with you as in y^e Bay, we can see no reason, why you should not make Cotton Yarn of Severall Sorts as Cheap there. It may be workmens wages may be dearer at the ffort then in the Bay, but up in y^e Country, where Rice is Cheaper we know not why workmanship should not be as cheap as in any part of India.

43. The use of our Screws in pressing of Cotton Woole is a matter of great concernment to us, because if by that means of crouding a great weight of Cotton Wool into a little room we can bring that Comodity but to pay freight and make us Savers, we have acquired a great thing for our Country by the Enlargement it will make of y^e English Navigation and therefore we must desire you never to give over trying and attempting untill you have perfected that worke and because we think it may take up time to be done well, we would have you set about it early and employ a Gang of men in a convenient place for y^t purpose constantly in pressing packing &c^a. (who will grow expert by Custome) untill you have 2 or 3 Tons by you with part whereof you may easily fill up and dispatch a Ship for Europe w^{ch}: otherwise might fall into demorage before you could compleat her loading.

44. To what you write concerning the affaires of our Mint, we shall give answer by a paper apart w^{ch}. the Comittees of the Treasury will draw up upon y^e whole matter.

45. You will see what we have writt to the Queen of Atcheen and governe yo^r. selves accordingly, and we would have you to send M^r Higinson with M^r Yale to settle that place if you can obtaine the liberty of an Island to settle upon, which after many thoughts we do much more incline to, then to any Settlement upon the maine land, and it will be yo^r. prudence soe to consult, and [direct] those two prudent Persons that in yo^r. first Settlement, you lay the foundation for a future revenue

after the Dutch Methods, but begin very low at first Custome 2 p C^t. Coinage $\frac{1}{2}$ p C^t. Excise a $\frac{1}{2}$ p C^t. ground rents, Shopkeepers and boatmen one Cash p mensem or any triviall matter which hereafter we may enlarge if the places should grow strong and great in trade and Chineses and others should resort thither as we hope they may, Punch houses &c^a. you may rate as at ffort S^t. George.

46. You may do well to consider ad [and ?] advise us what Blacks our people may have need off to cultivate the Island, and what the Overplus may yield upon Sale, If you should give us Encouragement hereafter to order any of our Ships to stop at Madagascar and take in Blacks in their way to Atcheen.

47. We shall order the first that can be ready of our Ships Georg: or Josia to goe directly to the ffort, and thence to the Bay; and y^e latter to goe directly to the Bay, and thence come up to you with Petre, Rice or any other provisions you shall write for upon the Comp^{ss}. acco^t. of which you may doe well to give them in the Bay timely advice and order.

48. We think likewise to Order all our Ships that goe directly to the ffort, when the wind serves to fall in with all Southern ffactories and bring to you any remainder of Goods that may be left of the former years provision, w^{ch}. peradventure when we are in the way of, may make yo^r. want of small Vessells the less, and save part of that charge to the Company.

49. Our Originall lre to y^e Queen of Atcheen we have inclosed in yo^r. paquet, that you may take such order for the delivery of it, and give such instruction with it, as you shall judge best for o^r. Service.

50. Among other disorders in y^e Bay, one hath been the giving of Diet mony to some of our Servants unmarried, and therefore have noe honest reason to be absent from our Publick table, which disorder we hope our President did observe and correct when he was in the Bay; And now we have writt them to correct that disord^rly method we would have you keep them up to their duty in that respect.

51. We have for a further Supply of yo^r. ffactories on your Coast entertained the Persons undernamed for 5 years, The ffactors at 15 £ p Anⁿ. and the Writers at 5 £ a year Viz^t.

Some of which take their passage on the Kempthorne, the rest will goe by the Chandois and Josia.

52. In the year 1st82 We sent out (amongst others) One M^r Gabriel Roberts as a Writer, fitly qualified for our Service, He was well recommended to Us both as to his Ingenuity and diligence, but was casually omitted to be named in our List; By which means probably he hath wanted that Encouragement, which otherwise might have been given to him, He is Nephew to S^r Samuell Dashwood, Sheriff of London and a Member of this Court, We would therefore have you employ him in such busyness and Station, wherever you will find him most capable.

53. What fine Goods the Ship Dragon shall bring from Tanqueen proper for o^r. Europe Marketts, if upon his Arrivall there be any of our 3 deekt Ships with you, homeward bound, we would have you take out the one halfe of the said fine Goods and put them on board such 3 deekt Ship, for y^e better securing of them [from] damage, and the remainder is to be brought us by the Dargon.

54. To give M^r. Wilcox, & M^r. Ord their due Commendations we must own y^e their Goods from Conimere are y^e best in their kinds, and best sorted of any we have this year received from any place within your Presidency. And they have done extraordinarily well in bringing their Dustore to y^e Comp^{ss}. Credit towards defraying y^e Charge of their Dubash Braminees Peons &c^a: w^{ch} we recommend to yo^r. care to bring into use for the Comp^{ss}. right and interest in all our ffactories as well in y^e Bay, as upon the Coast, and in the Gingee Country.

55. If Cotton Wool be above 3^d p^p lb with you, send not above ten tons thereof from y^e ffort for a Tryall, and be very carefull, that it be cleane drest & of y^e best sort. And from y^e Bay in such case send us but 20 or 30 tons of y^e best sort very cleane drest, and fitt for present use.

We have not else to add but commending you and our affaires to the Guidance and Protection of y^e Almighty We remaine

OUR PRESIDENT & COUNCIL OF FORT ST GEORGE.

LONDON, 24TH OCTOBER 1684.

This addition to you which wee intend by y^e Kempthorn is principally concerning the affairs of our mint which have occasioned us many debates & consultations for indeed y^e abuse therein is run to such an exorbitancy that it is high time to reform it which wee are resolv'd to effect one way or other.

Our method here in all times hath been to acco^t. with the Goldsmiths here by essays made by the Mint master of the tower & altho it is possible (tho wee do not know it) that he may of late years bee more favourable of the Goldsmiths part then he ought to bee or formerly was wee cannot imagine any mistake or favour of his here as aforesaid could exceed a grain or $\frac{1}{2}$ a grain ¶ ounce w^{ch} is inconsiderable with y^e respect of its disproportion from you.

The Remainder of our adjourned Sale comes on y^e beginning of next month which may hinder our book keeper & y^e Committee that takes care of that business from drawing up a table or abstract of y^e Produce of all Sorts of Bullion in Coinage every year at Fort St George Since wee had a mint there but we shall endeavour to get it perfected & well examined before the departure of our latter ships & send it you with this resolution that wee will have for y^e future as many Pag^s. made out of every oz of standard Gold as hath been upon a medium of all the foregoing years of which with that table or abstract wee shall write you more fully being resolved never to give over this enquiry untill wee have made our Selves ¶ fect Masters of the truth of the fact & have found out remedies for y^e Prevention of the like abuses either here or in India for all times hereafter.

But in regard to do this exactly may take us up more time & many more thoughts in regard the first thing wee are to have a care of is to see y^e bullion wee Send you bee right according to y^e essay here wee have for y^e present thought fitt to give you y^e following directions viz^t.

That for what gold is now loaden on board y^e Kempthorn before you suffer any alloy to bee mixt with it to prepare it for coyning you do make an essay of every Ingott cut through in the middle & cut an essay off a penny w^{ch}. thereof to bee returned for England takeing off another essay of the same Ingott to bee tryed by your selves there after which melt down every particular Ingott & Parcell by itself & cast it into a thin flatt Cake then break the said Cake in the middle takeing thereof y^e like essay aforesaid & returning it to us wth y^e former. This is to bee done in the presence of y^e Agent & second when they can bee present and 2 of the Council at least & 2 factors who are to see y^e said Ingotts & other Parcells of Gold & put into y^e Melting Pott [&] new cast into Cakes & the said Cakes broken & essayes taken off of each of them which are to bee returnd for England & that each sample for a future essay to bee made on what returnd by them for England bee made up by it self singly in a Paper bearing y^e name of y^e ship [it] came upon y^e N^o. of y^e Chest & the N^o. of y^e Ingott or Parcell of forreign Gold coyn which when they have done the said Part of y^e Council & Factors which shall bee 3 at least shall deliver all y^e Said Parcells or Musters for Essayes to bee returnd for England numberd & markt as above directed noting which essay was taken out of y^e middle of the Ingott when cutt & which essay was taken after y^e whole Ingott was melted down with a particular acco^t. in writing also of y^e weight of each muster returned and shall under y^e said writing subscribe their name thereto, with a declaration by the Oath they have taken of fidelity to the Company that all y^e above mencond musters returnd are truly numbred according to y^e Invoice from England & y^e each Particular Ingott & Parcell was melted down in their presence & the Musters [as] now N^o. are true Musters taken off of them after their first melting down into Cakes.

The remainder of y^e Committee of y^e trearers report conc[erning] this affair which wee would have you pursue with all y^e [exactness] you can wee shall give you in their own words viz^t.

That y^e Presid^t & Council to bee also enordered after they have taken y^e Essays off which are to bee returnd for England to take y^e like samples off for themselves to make an Essay there viz^t. of each Ingott to make 2 essays one of y^e middle of y^e Ingott after tis Cut w^{ch} Essay is not to bee taken off from y^e top or

bottom of middle so cut but out of y^e very middle of y^e Ingott & another Essay to bee taken off after both y^e Pieces of y^e Ingott are melted down & broke in y^e middle & that y^e essays bee taken off as near y^e middle as can bee both that which is taken off to bee tryed there & y^t which is taken off to bee sent for England to the Comp^a.

And y^t Presid^t &c^a bee enordered to send a particular acco^t home to y^e Comp^a. how many matt fine every particular essay comes out a[ll] which they will see by a Paper herewth. sent what it should hold out at according to the standard they are invoiced at & at which fineness wee have rec^d. & Paid for them to the Goldsmiths here and they will thereby see whether according to the tryall there it holds out y^e fineness it is invoiced att.

And if at their making their first essay out of the piece w^{ch}. is taken out of y^e Ingott after it is cut in two (before they melt down both together into a cake) which essay wee would have them make before they melt down both pieces of y^e Ingott together they shall find that any Ingott doth considerably differ from y^e fineness they are Invoiced at wee would then have you send home to y^e Company One half of that Ingott which shall differ most in fineness from y^e Invoice & melt down only the other half part thereof in order to coyning.

That all y^e Parcells of Musters so to bee returnd for England & y^e declaration above required bee put up in the Presence of the President &c^a & Sealed with y^e Comp^{as}. Seal & with y^e Seals of each of y^e severall persons that make & sign y^e declaration & returnd to the Company by the first ship.

That y^e Presid^t &c^a take especiall care to look over all y^e Gold in forreign Coyn before they melt it down and finding any pieces false to return them for England.

That y^e Chiefs of y^e Fort & Bay & Surratt bee orderd to advice the Company what is y^e highest Standard in each place that they Compute their gold & Silver by and in what proporçon each standard declines as wee in England do from 24 Carr^{ts}. fine for Gold for 4 gra^s. & $\frac{1}{4}$ of a graⁱⁿ in each grain & from 12 oz fine for Silver by penny w^{tes}. & gr: to 11 oz 2^d weights our English standard for Silver to lower if it bee worse then standard.

And that they send us an exact acco^t. of all y^e severall weights from each place by which they sell their Gold & Silver by w^{ch}. their severall denominations from the highest weight to y^e lowest viz^t. as in England wee sell Gold by y^e ounce 1 lb is 12 oz 1 oz is 20 dw^{ts}. is 24 grains that so they denominate their lowest weights & that they advise how their severall weights hold out & in what proporçon they are to the weights they use here in England.

That they return y^e Company a perfect acco^t. of all the Gold now sent on the Kempthorn what fineness each particular Ingott or Parcell comes out at as the She[r]offs shall make it according to their Matt & also from M^r Mell what hee finds it by his Tryall according to our English standard & this acco^t. to bee sent by a Paper apart by y^e first ship & entred in their mint book which they have been wanting in not sending home this year save only by y^e ship London.

Wee send you with this a table drawn by S^r Jer: Sambrooke who by his residence at y^e fort hath obtaind y^e best skill of any of us in this affair by which table you make tryall of all y^e Gold you receive by the Kempthorn of the proportions between our standard Gold & your matt & may make a like use of it in all future occasions.

Wee have likewise sent you enclosed a Copy of M^r Mells letter to S^r Jer: Sambrook that you may make y^e best use you can thereof for preventing our further loss & discovery of the causes & persons who occasiond our former loss.

There goes by this ship y^e Kempthorn one M^r Whitby a writer of whose conversation wee heard an ill report after hee was in the Downes & therefore sent for him up with a purpose not to imploy him in our service but upon consideration of his fathers great charge in fitting him out & suspition that part of y^e accusation might arise from malice of some that hee had inform'd against & his promise of more care & circumspection hereafter wee gave him leave to return again to y^e ship & would have you send him to the Bay by the same ship.

Wee would have not only our Presid^t. & Second but all our Council at y^e fort as they have leisure & opportunity to make themselves throughly Masters in that knowledge of y^e exact propor^on between our Sterling & your Matt & as near as well as they can to gain an insight into y^e mistery of essaying Gold & silver that it may not bee hereafter in the sheroffs power to abuse us in that respect & that wee may not rely singly on the skill and care of any one man in any affaire that so much concerns us wee remain

I have wrote you both severally by this ship y^e *Kemphorne* since w^{ch} in y^e progress of our sales I have observed some things not inserted in o^r Generall l^{tr} w^{ch} are very materiall for you to know for y^e Comp^{as} service of w^{ch} I intreat yo^r Speciall Care viz^t.

(1) I finde y^t: Golcundah Bettellae are much out of use.

(2) Betellae in most request are of y^e: sorts N^o. 25: 26: 28: 29 of w^{ch} provyde great quantities but a sort much finer yⁿ any of y^e aforesaid numbers would doe much better yⁿ either of y^m, tho they cost proportionably dearer 3 or 4000 peices of such super fine goods & if they bee made full Ell wide, they will sell a great deale y^e: better & to more profit.

(3):—Superfine Morees N^o: 1 & 12 not above 2000 peices of each sort will doe exceeding well & yo^r: black Merch^{ts} I know will bee forward enough to provyde y^m.

(4):—Especially you must not omitt to provyde in time 2 or 3000 peices of stript Betellae some wth stripes $\frac{1}{2}$ inch wide & some wth narrow stripes $\frac{1}{4}$ of y^e quantity to bee full Ell wide y^e: rest of y^e: usuall bredths to bee washed very white.

(5):—The Vizaccapatam Comm^{on} are good in their kindes & y^t: is a ffactory y^e will require honest men & ought to bee encouraged.

(6):—Yo^r: package at y^e: ffort is nothing soe good as at y^e: Bay or as it was formerly at y^e: ffort yo^r Gunneys are bad y^e: wax Clothes have little wax in y^m but are coloured wth Turmarick & dipt in oyle, besides y^e. wax clothes are so scanty & doe not fould many of y^m about halfe an inch over whereas they ought to fould over halfe a foote.

(7):—The Mitchlepatam goods are likewise very ill packed in y^e: former respects & much more loose yⁿ yo^m at y^e: ffort, & by y^e: Connimeere goods y^t: wee have scene I doubt all yo^r packing stuffe at yo^r Southerne ffactoryes may bee as bad or worse yⁿ yo^m at y^e: ffort.

I hope to preserve patternes of y^e stript Betellae to send you enclosed in this l^{tr}.

This whole letter concerns the Mint.

shall bee very serviceable to y^e Hon^{ble} Comp^a in these parts, in this Chest of Gould y^e came by y^e Josia there were 8 Ingots ready melted, w^{ch} I had a peice of Each, and y^e Brammin^s had y^e like soe I essayed y^m & when wee came to compare I made some Ingotts better yⁿ they by 7 p c^t soe they seemed to bee very confident that they were in y^e. right, & I had Essayed it twice, because I would bee sure, soe yⁿ wee went to looke in y^e. Invoice where I was exactly right except in N^o: 58 where I made it about 3 p c^t better yⁿ in y^e. Invoice, soe yⁿ I gott ord^r: y^t: it should bee melted & alloyed, as I ordered it, w^{ch} being done, I essayed y^e same againe, and it proved better in y^e 8 Ingotts then Pag^o: Matt by 6^{oz}: 3^{dwt}: 9^{grs}: w^{ch} was a considerable improvem^t: in y^e Gould w^{ch} sattisfyed mee very well, y^e oy^r: 3 parcells lyeing in y^e: Brammines handles for at first they were all weighed & delivered to y^m soe when they came to melt y^m I was sent for one parcell being N^o: 41 Dutch Gould I thinke N^o: 42 y^t: I know very well being Spannish Pistoll w^{ch} I putt yⁿ Alloy to it y^e: oy^r being N^o: 43 w^{ch} had 12 small Ingots, some Dust Gould some rings w^{ch} when they were melted I made an Essay found N^o: 41 and N^o: 43 worse yⁿ: Pag^o: Matt 1 p c^t which I came to looke on the Invoice I found 1 to be 9 p c^t better & y^e. oy^r: about 5 w^{ch} I am hartily troubled y^t: y^e Comp^a should have such a losse, but to prevent this for y^e future any Gould y^t: is sent out unmelted lett it bee Committed to my charge & I will melt it my selfe & to bee sure keepe a muster of it by mee unmelted y^t: if it should not prove soe good as y^e invoice to send it back to you againe for in these two parcells y^e Brammines have taken out Gould & putt in Copper instead, y^t: made it soe bad, or Else you are mightily cheated in y^e buying thereof, for when once I have melted any parcell of Gould they can noe wayes cheat mee for yⁿ I make an Exact Essay & if it bee better yⁿ Pag^o: yⁿ I compute wth alloy must bee putt to it soe yⁿ y^e full weight must bee produced in Pag^o allowing y^m y^e Charge of y^e Mint & I hope y^e Hon^{ble} Comp^a will consider mee & allow mee better sallery yⁿ 15 £ p ann for I gett not one farthing but wth just they allow mee, wth out I should side wth these fellows to Cheat y^e Hon^{ble} Comp^a w^{ch} by Gods Grace I will bee faithfull & just in all my undertakeings whatsoever soe praying for yo^r prosperity hoping to finde some encouragem^t: from y^e Hon^{ble} Comp^a I crave leave to subscribe

a complaint
of Neckcloths
by the
Kempthorn.

We have litle to add to the foregoing copy, but to tell you that we have seen a parcel of fine Neckcloths bought by y^e Presid^t & sent to S^r Josia Child, M^r Papillon, M^r Edwin, &^{ca} w^{ch} cost in India 32 for a Pag^o, & those sent us N^o 40 & 41 by y^e Kempthorn cost 35 & 40 for a Pag^o being not half so good, nor selling for half y^e mony as those sent to S^r Josia Child &c w^{ch} are besides y^e fineness $\frac{1}{4}$ \mathfrak{p} t broader than y^e Comp^{ns}, & y^t you may see y^e difference we have returned you paterns of each sort, keeping y^e like by us here.

said
complaint
continued.

We cannot but much wonder y^t we must have y^e trash & refuse goods, when private \mathfrak{p} sons can have returns in much better, though prohibited that year by us, & y^t cost not more than $\frac{1}{4}$ ^d & $\frac{1}{2}$ ^d more than ours, & yet did sell for more than double what ours did at the Sale. We doe therefore expect y^t satisfaoⁿ be made us for y^e overrating of the [coarse] Neckcloths you sent us, & cannot but blame you for sending us such trash goods at so high a price; & y^t you doe exⁿion yo^r Sorters about it & compare these paterns now returned by y^e Musters on w^{ch} you made yo^r Contract. However if for y^e future you receive any more of those coarse ones, we expect not to pay above $\frac{1}{2}$ the price of what now invoiced Coarse Neckcloths as well as fine sell generally well if they be not over-rated in y^e cost; & we ought to be provided for all sorts of persons, y^e poor as well as y^e Rich, but we ought not to pay y^e same rate for a mean sort y^t a better may be obtained at.

Bengall.

We have entertained into o^r service as ffactor M^r Samuel Cudworth brother of M^r John Cudworth formerly of o^r Co^mittee. We have an extraord^y opinion of him, he having with great com^menda on served out his time to a Merch^t of this City. He desires to go for Bengal to be placed there in some of y^e subordinate Councils in that Agency; which wee have consented to, & doe accordingly desire you to give y^e like direc on to o^r Agent & Council in y^e Bay.

Shifts.
directions
about them
encrease of
the Investmt.

We have not men^tioned any Shifts to be sent us in o^r list; but in regard we conceive they may be (being sold cheap in y^e Drap^s shops) a means to introduce into more general use y^e wearing of Callicoe in stead of ffrench Holland, or Flanders Cloth, which we apprehend to be a National benefit; we are willing yet to continue sending for them; & therefore we desire you til further order to send us yearly about half the quantity you sent us last year; but let y^e fyner sort be made four, 5 & 6 Inches longer.

And in regard we are like to send you a great Stock this year in mony & goods, w^{ch} may enable you to enlarge o^r Investm^t beyond y^e contents of that list we sent by y^e Kempthorn, we would have you for as much as you shalbe able to encrease o^r Investm^t to make such encrease principally in Such goods as turn us best to acco^t. for profit; w^{ch} you may see what they are by y^e printed paper of our Sale.

We have given strict orders not only to Cap^t Goodlad Comand^r of y^e Adventure, but to our Chief & Council on board that Ship, to get you, if it be possible, some Clove & Nutmeg plants, & also some male Cloves to sow; y^t you may nurse them up carefully in o^r garden at the ffort, w^{ch} the litle Gardiner we sent you last year knows how to doe. And we would have you give him a great charge to propagate & encrease them as much as possibly he can, that you may in time have plenty of them, to spare to yo^r Neighbo^r in that Country; where we have noe reason to believe but they may grow and thrive as well as in y^e Islands wherein they grow naturally.

Having ordered Mr. Cheney the Chief & the rest of the Council on board the Adventure to settle a factory at Mindanao in y^e S^e Seas we sent you an excellent collection of Plats for sailing in & to those Countries, that if you should have occasion to send any small Vessels that way for yo^r own acco^{ts} yo^r Masters may find the way thro' the streights of Ballio, or the streights of Tymore.

We find by an acco^t. from Our Warehouse Keepers at Leaden hall which We herewith send you, that many of our goods received from your Agency this last year are very much damaged and ill packed and some of them rotten Which We would have you take notice of and See for the future that our goods be well packed, evenly Sorted and kept up to their goodnes as to their Strength, length and breadth.

This comes by the Ship Chandois Captⁿ James Bonnel Comand^r on whom is laden the treasure & goods menconed in her bil of lading & Invoice, whom you are to dispatch as speedily as possibly you can for y^e Bay, and let her carry thither all the Silver on board her, if you have not urgent occasion for some part of it, being of infinite advantage to us that our Stock should be early in the Bay. The George is speedily following & shall bring you a large supply of Gold.

Besides M^r Samuel Cudworth before menconed, we have [selected] M^r John Hannam, M^r Joseph Loe & M^r Joseph Staveley, Factors, whom we would have sent into the Bay to such of o^r ffactories where they may be most serviceable.

We have also entertained M^r Jonas Hinde and Abraham Ward his Appren- tice to serve us in the Bay as you will find by a lfe apart from y^e Com^{tee} for secrecy, to which we referr.

We also send M^r Henry Watson a Surgeons Mate; who is to serve us at Hughly or Cassambuzar, (where there is most need) for 5 years at 25^s a Month for y^e first two years, and 30^s a M^o for the 3 last years.

We have permitted M^r Joseph Bullock to take his passage on the said Ship to be employed as a Pilot, as there is occasion.

And so we comit you & our affayrs to the protection of the Almighty, & Remayn

AT FORT S^t GEORGE.

Upon the humble petition of Alphonso Rodrigues and others, for permission to unfreemen of this Comp^a to transport bullion for India in our Shipping, & leave to consign the same onely to their own friends in India; We have resolved to adhere to our former order. That all bullion shalbe consigned to Our Presid^t & one of the Council of Suratt or Fort S^t George, and one or two of their own friends, and not otherwise: But that being rec^d by you Our Presid^t & one of the Council aforesaid, it shall immediately be delivered to the Exporters own friends in India, if the Exporters order it so to be by their own letters: (You Our President & such one of the Council to whom the said Bullion shalbe consigned first deducting yo^r half Comission of 2 & $\frac{1}{2}$ % Cent, and also 2 % Cent for freight & permission) to return the proceeds thereof in our Ships: For which bullion, paying Two % Cent for y^e homeward freight & % mission in East India, We will demand noe more upon y^e landing & delivery of it here. And if the said Returns or any part thereof that hath paid y^e homeward freight & permission of 2 % C^t in East India as aforesaid, shall happen to be lost, We will repay y^e said 2 % C^t. permission to the Proprietors or Consigners here. An Acco^t. rec^d from the Warehouse at Leaden-hall the 27th. of Novemb^r. 1684 concerning the ill package of Goods &c^a. that come from y^e Coast.

All the Goods from Conemero are very illpacked; some noe wrappers at all, and litle or noe Cotton: the Gunnies very slight and loose, so that the Goods suffer damage though no we^{ll} come at them: they are soiled and rumpled to the Companies loss.

Then from the ffort, and other places, we find in y^e middle of a bale of long Sallamp^o. &c sometimes a peece that outwardly seems good; but open it, and within have found them perished and rotten. More particularly, this last Shipping & the London, y^e white Gingham. from Madapollam generally Outwardly seemed good, but opening the peeces, & in the midle they were rotten. I cannot judge but this must come from foulding and packing them up before they were dry.

And much of the Red goods, as Allejaes, Callaway poos &c come spotted and mildewed, which the Comp^a. are forced here to allow for. let them all be thoroughly dry, before packed.

OUR PRESIDENT & COUNCILL

AT FORT ST GEORGE.

LONDON, 29th FEBRUARY 1684.

1. With this you have a Copy of our former by y^e Resolu^{con}. This we send open in o^r Pacquet for y^e Bay, because Wee hope it may meet our President there, whome Wee doe hereby desire to send this forward to you, with some paragraphs of our Bay Letter, relating to y^e future regula^{con} of our Factories, which tho' intended principally for y^e reforma^{con} of those in y^e Bay, may not be impertnent for you to know And if you think convenient to put in practice with respect to some of y^e ffactories more imediately subordinate to y^e Fort, that performed very ill with Us last year, of which you have been often advised.

2. Our President & Councill in y^e Bay will with this advise you what toffage you are to load upon y^e Ships he intends to send up, to you, and of everything els he conceives necessary for our service So that untill Wee hear from you, Wee have noe cause of enlargement.

3. The wonderfull great frost Wee have had in England that kept our Ships thus long in y^e Ice, in this River ; & put us upon y^e necessity or [of ?] ord^r'ing all y^e 3 remaining Ships directly for y^e Bay from whence you are to expect y^e Medicam^{ts} : & other necessaries Wee have Shipt for y^e ffort on board y^e Defence ; & wee have reason to doubt these N : E winds which have held during this long and great ffrost may keepe out our East India Ships & many other Ships now bound into y^e Channell.

4. Wee would have you send by every Ship to S^t. Helena So many Slaves as o^r President shall direct you from y^e Bay, some Males & some females, as you can meet with them Cheap, And send in every Ship so much Rice, and noe more than you think may serve sufficient for their passage. Order our Cap^t : to deliver y^e overplus (if there be any) to o^r Gov^r & Councill at S^t. Helena. It will be of advantage to Us if you can procure some of y^e Males to be Carpenters Smiths or Potters, or of any other manuall trade tho' Wee pay double price for them And it would be very convenient, if some of them could speake a little English, or if not that, Portuguez.

5. Give our Gov^r. &c. of S^t Helena notice of y^e particular qualities of any of them that are of Trades &c^s.

6. Wee would have you with all imaginable dilligence to procure from Zeilon, or Goa, Pepper Plants Cinnamon Plants, & seeds, & from some Dutch Skippers Male Cloves, & if it be possible Nutmeg Plants and bring up a small nursery of such Plants in yo^r owne garden. M^r. Bigrig knows how to give direc^{ti}on to yo^r Gardners to keep seed Bedds cleane of weeds, & set out y^e young plants in Rows after y^e manner of nurseries in England.

7. This is a matter of vast concernm^t : to Us & y^e Kingdome in generall that from yo^r nursery Wee may from time to time supply our Planta^{ti}ons ; & y^e young Gardner recomended to Us by y^e Bishop of London that went to you by y^e Resolu^{ti}on, is an extraordinary youth for such curiosities

8. Advise Us what you can doe in this : and what you can doe from time to time.

9. Any Junck that goes to Zeilon for Beetle Nutts may bring you Plants, & seeds of y^e Cinnamon Tree as well as Pepper plants, which grow plentifully in y^e woods there, as Cap^t. Knox who was many years a Captive upon that Island, hath assured Us.

10. Send what you can of such plants to S^t. Helena, but make cages of Wyer over all y^e boxes of Earth that containe them, or els the Ratts will eat or bark them round in y^e Voyage, as they did two Cinnamon plants by Cap^t. Nicholson from Batavia.

11. The male Clove (which is y^e onely prolific sort) is not like others but thick without any head ; & as big as 4 ordinary cloves.

12. Wee are sending a Ship of 300^{tn} : to Syam, which wee hope may be with you from thence, about this time 12 M^{os} : with his loading of Tutenage & Copper, Cap^t : Wouldhane is Comander of her and by her Wee have ordered our Chief and ffactors at Syam to become Subordinate to your Presidency.

13. Wee have ordered them likewise to endeavour to gaine conveyance for some Lett^{rs}. Wee have now writt to y^e Emperour of Japan and the Govern^r of Nangeseck, & to send you y^e answers they receive, which if be encourageing Wee would have you send a small Ship with a small Cargoe from y^e ffort, & Presents, with 3 or 4 sufficient P^{er}sons as Ambassado^{rs} to y^e Empero^r : & to settle a ffactory for whose deportm^t : you may gather sufficient instruc^{ti}on from y^e Dut^{ch}, their former proceedings ; which you may read at large in y^e two printed histories of China & the History of Japan.

14. If our said Letters should have better success then Wee hope for & you should have occasion to send to Jappan as aforesaid you were best send away y^e Ship with y^e first of your Westerly Monsoon in Aprill, that she may have time to

stay at Syam to fill up her loading of Deer-skins; which is y^e onely proper commodity Wee know for Japan from Syam. What is most proper from your place you will be better informed there than wee can tell you, but Wee suppose most kinds of fine Callicoes, Pepper, Bengall raw Silke & some English cloth & Lead; both which are Commodities at y^e Lampaco Islands if wee should faile of admission at Japan.

15. Wee have likewise given order to our Chief & Councill at Syam to get that Kings Chop for a fortified Settlement: at Pollo Ludda, or some such Island near Syam, & for y^e inheritance of such a place & if they obtaine to send you a Copy of y^e Chop with a discription of the place, number & quality of y^e Inhabitants, & what ever els is requisite at large Which if you like wee would have you make a small fortification upon; as soon as you can, that may secure our People from danger, without staying for o^r further ord^r. concerning it.

16. Whereever we settle, if we can once secure o^r selves, and the Country be our owne, Wee doubt not but Wee shall dayly grow stronger & be resorted unto by y^e Chineses & many other Inhabitants All wee aim at is a fitt place for Pepper, & for a Capitall residence for our Agency, & security of our South Sea Trade, that may be our owne, as Batavia is to y^e Dutch.

17. Study all y^e wayes you can invent with our Stock & by Portuguez & particular Merchants, to fill your Warehouses with Pepper, which is risen 2^d φ pound already in Europe, & will abroad be engrossed by y^e Dutch if they can effect it.

18. Wee have for y^e encouragement of your selves & y^e rest of o^r ffactors in India, made our order and published it; That what Bullion goods or Merchandizes shalbe sent out; by any of the Adventurers, is to be consigned to our Presidents Agents or ffactors or some of them in India, & to noe others, & that the Investments thereof are to be made by our said Presidents Agents &c ffacto^r. and to be returned to England on y^e Companies Shipping and noe other.

19. And finding that some of our Ships laden by you doe greatly breake in their Tonnage for want of an equall distribucon of fine and Gruff goods to be put on board them, by which also y^e Owners fall much short of their accustomed freights Wee doe hereby desire & enjoyn you, that when [two] or more of our Ships are together in port, taking in goods, you wilbe carefull that they may have a just proporcon both of fine & gruff goods allotted them, according to their Tonnage but where you shall thinke fitt to dispeed an early Ship to Us alone, in such case Wee would have you lade as many fine goods on her as conveniently you can, w^{ch}: may turne Us to best advantage.

20. The 9th instant arrived in y^e Downes the Persia Merchant from Surratt She was in Comp^a: of the President from Surratt and the Surratt Merchant from Batavia and Sillebar 100 Leagues to the Westward of the Landsend the 12th December last, but by a Violent storme they were parted and drove back to y^e Westward since which Wee have an acco^t: that y^e President Cap^t: Jonathan Hide in making the Channell in y^e night time, by a violent storm was cast away on the Rocks of Helstone in Mounts Bay in Cornwall on y^e 11th instant, all her men saving two being drown'd and most of her Cargoe Wee fear also is lost, if not all of it, tho' all means possible is used, to see what can be saved thereof, the Surratt Merchant is not yet arrived but dayly expected.

21. Since y^e writing y^e foregoing, Wee have appointed the John and Mary burden 150^{ts} Cap^t Joshua Woodland Comander (designed at first directly for the Bay) to Saile to the ffort, and on her have sent the Medicines and other necessities for your ffactory, which being taken on Shore, you are to dispeed her for the Bay wth: direccons to follow the orders of our President Agent and Councill there.

22. These comes to you by the ship John and Mary burthen 150 tons Cap^t Joshua Woodland Comander on whom We have sent Medicines & other things necessary for your ffactory, which being taken on Shore, you are to dispeed her for the Bay with direccons to the Comander to follow such orders and instruccions

as he shall receive from our President Agent and Council for his further proceedings.

23. We have taken security for M^r Clement Jordan in 1000^e, for y^e faithful discharge of his trust; & have sent herewith his Cov^t & bond for performance: w^{ch} being signed & sealed before witnesses, are to be returned to us.

So commending you & o^r affayrs to y^e protec^{on} of y^e Almighty, We remayn

The Ship John and Mary being in y^e Downs bound for your Port and the Bay when the Kempthorn arrived, who this day brought us yo^r l^{res} of the 6th & 10th of Septemb^r, we have only time to advise you of their receipt and of our approba^{on} of yo^r discreet managem^t of o^r affayrs & particularly yo^r indefatigable pains & care in preventing the designs of the 5 Interlopers, & the good success of those endeav^{rs}. OUR CHIEF & COUNCIL AT TYWAN.

LONDON, 2^d JULY 1684.

We have a copy of yo^r l^{re} of 31th Jan^y 1683 by y^e Kent, unto o^r late Agent & Council of Bantam then resident at Batavia. And by o^r general Rules & orders it being declared, y^t all disorderly & debauched p^{ersons} should be discharged from o^r service; We having certain informa^{cion} of y^e misbehavio^r & dissolute carriage of M^r Tho: Aungier, & of his excessive intemperance in drinking, doe hereby dismiss him from o^r service, & from all salary & benefit accruing thereby; & doe appoint M^r Tho: Woolhouse to be Chief of o^r factory at Tywan, & M^r Solomon Loyd to be second to him in Council. And in regard we are not yet restored to o^r possessions at Bantam, We doe appoint you here after to be subordinate unto o^r Presid^t & Council of ffort S^t George, & to follow all such orders as you shall receive from them.

We have yet seen noe letter from y^e King of Tywan, & we wish Tunsinko may prove a better Gov^r or spie upon yo^r affayrs than his Predecesso^r was. You must often press upon him & y^e Hoquoh the necessity of treating us better, & giving quicker dispatch to o^r Ships & o^r busines; & ye great advantage they would gain by o^r trade, if they would but take o^r goods & let us have theirs at such prices y^t we might be Gainers by them: whereas now having noe profit to [answer] o^r charge, we doe but peddle on with them, just enough to preserve o^r acquaintance & friendship with them, until they may have a peace with y^e Tartars: In w^{ch} case, & upon their better usage of us, we could as well send them ten ships as one &c. And you must be always complaining & lamenting (as they call it) to their great men, or they will never believe you are in earnest; being (as you have reason to know) y^e cunningest & most subtil Dissembling people y^t are to be mett with in any part of y^e World.

Finding to o^r repeated loss, y^t the long lying of an Europe Ship in yo^r Port does more than eat out all y^e profit, we have now ordered o^r Presid^t & Council [at Fort] S^t George to send you a freighted Ship from thence & o^r factory at Atcheen, with such a q^{ty} of Pepper, peeces of $\frac{1}{2}$ Rs, Callicoes, & other goods of Europe & India, as they shall think may turn us best to acco^t: Of w^{ch} make speedy sales & send y^e full returns, with whatever you can get in of o^r old Remayns, in any China Commodities you can procure, consigned to o^r said Presid^t & Council.

You may acquaint y^e King & y^e Hoquoh, y^t we have at Madrass a great city, in w^{ch} doe inhabit many thousands of Inhabitants, & otherwise as you shalbe, directed by o^r Presid^t & Council: & be very urgent wth y^e King, y^t some of his Subjects may go thither on y^e Ship to see y^e place, be acquainted with y^e Presid^t &c. And to bring him a true acco^t. of all things. To which purpose you may let: y^e Merch^t he sends have freight on o^r Ship for his goods on moderate terms to & from Madrass: And you may engage yo^r selves for y^e return of y^e Merch^t y^e King shall send to y^e ffort without any lett or hindrance of o^r Governo^r or any of o^r people.

For what more is fit to be advised you, we refer you to such orders & instructions as you shall receive from o^r said Presid^t & Council.

You did well to return to Batavia those Europe goods y^t would not sell there; & if you have any Bayes or other Goods yet by you, & will not sell, & there be room in y^e small Vessell y^t brings you this, we would have you send them by her to o^r Presid^t & Council aforesaid: For we would have nothing ly dead in any Out-factory, but returned to o^r general Magazin at y^e Fort.

We have not els to add, but comēding you & o^r affayrs to the guidance & protection of y^e Allmighty, We remayn

Your loving friends

RIGHT WORPth & OUR HON^{ble} EMPLOYERS.

TONQUEEN, Y^e 26 XBER 1682.

Yo^r Hon^{rs} advises by the Tonqueen Merch^t. we have reced; & used our endeavo^{rs} to invest her Cargo in such goods as were this year procurable: Since we were sensible y^t notwithstanding o^r utmost diligence it would be impossible exactly to comply with yo^r Hono^{rs} injunctions for Pelongs died in y^e Silk before woven: Flowerd Peneascoes & Geelings are not to be had at any rates: Velvets we forbear, not being able to get them made according to direc^{ions} reced by y^e Barnardiston as formerly advised.

Yo^r Hono^{rs} are pleased to take notice of several sorts of Silks y^t should come from this Port, strong & good, such as are usually worn in England; But we crave leave to acquaint yo^r Hono^{rs}, y^t it hath been o^r hard fortune never to see any such & with submission doe presume it wilbe impossible to persuade these people to imitate any new fancies of playn or strip'd Silks; since we & y^e Dutch could never yet prevail with them to alter y^e breadth & length of their Pelongs, tho' we spared noe charge or labo^r to effect it: The reason, we suppose may be, because their first & surest trade, was & is still to Japon, & all their peece goods are just a fit patern for y^e garb in fashion there.

China Cod-Musk it has been o^r good fortune to meet with almost all y^t came down this year, w^{ch} we now remit for yo^r Hon^{rs} acco^t: Otherwise we could not have made full Investm^{ts} in any time; ffor y^e Tonqueen Merch^t, arrived not before y^e Barr till the 19th July, & it was y^e midle of Augst before we could make an end with y^e King Prince & Mandorins, w^{ch} was too late for us to hope to give her an early dispatch in this troublesom Country especially in so unhappy a season; the last years famin having swept away according to y^e modestest computa^{ion}, one fifth part of the people; and so impoverished y^e rest, y^t it was not safe to give out yo^r Hono^{rs} treasure; & without it were first distributed amongst y^e Weavers, there was noe hopes of procuring any q^{ty} of Goods: Soe y^t we yo^r Servants here resident, are in great p^lplexity how to act. We were satisfied it was safest to employ those private Merch^{ts} Domingos Hieu Tho &c substantial & responsible Men, as M^r Tho: James formerly very prudently did; & we had at last prevailed with them to undertake it. But M^r Keeling contrary to o^r sense, & without asking any of us advice, did publiquely in their p^rsence demand of y^e Pelang Merch^{ts} (being then mett at our house to make y^e prices of goods) whether they would trade immediately with yo^r Hono^{rs}, or thro' a second hand? pretending, y^t tho' we made a price with them, yet they should receive, noe monys without paying so much per Cent; which with some other dirty language he gave Domingos, was y^e cause y^t he refused to stand to his word: So were forced to employ y^e Pelang Merch^{ts} themselves, or

make noe returns which yet we did with as much caution as possible we could devise, joyning 3 or 4 in each obligacon, & making them joyntly & severally lyable for the whole. Notwithstanding all which caution, y^e miserable affliccon this Country lay under last year, has so impoverished y^e Merch^{ts} y^t about y^e latter end of 9^{ber} last, finding they could not comply in any time most of them absconded & fled into y^e Country: Some we did prevail with to return & have paid us part of their debts; but there is yet about 4000 Tail standing out; the major part of w^{ch} we fear wilbe lost; tho' assure yo^r Hono^r there shalbe noe diligence wanting in us to get in as much as we possibly any ways can. The Dutch were forced to trust y^e same men we did & are under y^e same Premunire, & all private Merch^{ts} are losers by them, more or less. How to act next year we shalbe wholly at a nonplus: To give out yo^r Hon^{rs} mony before hand without a positive order, we shall not dare; & if it be not given out, there is noe hopes of getting any goods so as to dispatch y^e Ship in any reasonable time. What M^r Keeling designed by this we cannot readily fathom: for yo^r Hono^r will find he has excepted ag^t a clause of M^r Tho: James last lre in 81 wherein said M^r James endeavo^r to show yo^r Hono^r his fears lest you might sustayn a loss by yo^r mony being scattered amongst the poor Weavers: he does there declare we had noe reason to fear, since those two private Merch^{ts} were bound to make good all losses; & yet he will not allow us to make use of the same means to secure yo^r Hono^r concerns. This we are sure of, He has given us a great deal of trouble & vexation, & been y^e cause, y^t yo^r Hono^r are like to sustain a great loss if not the total ruin of yo^r trade to this Port; for we fear, never any man wilbe perswaded for the future to run so great a hazard as Domingos &cⁿ formerly did.

We observe yo^r Hon^{rs} injunctions on us, & yo^r demands on this King, to be better used in the prices of Goods &c. First, as to o^r selves we have always used o^r utmost endeavo^r to further o^r Masters interest; & know y^t when y^e prices are made, (which is always done publiquely for all Strang^{rs} & has been done by y^e Dutch for these several years last past) There is noe buying one cheaper than another. As to the goodnes of y^e peece goods, we are very sensible to o^r great trouble, y^t they grow yearly worse & worse.

Tho' noe trade be more beneficial to King & Country than this of Tonqueen, for we bring litle in except ready mony, & carry litle out but y^e manufactures & superfluties of his Country, & doe employ near half his poor people in making peece goods & Raw Silk; yet he is so farr from desiring or encourageing trade, that he endeavo^r nothing more than to drive all Strangers from his Port; & will certainly in a short time effect it, things continue in their present posture. The Dutch who have been so beneficial to this Port by their long trade, had noe further reward this year, from y^e old King, than to be ordered out of the Country, onely for misplaceing some words in a letter y^e General of Batavia sent him in China characters desiring redress of some grievances. But he departing this life y^e. 12th. 7^{br} last; by a considerable Present in Gold to his Son, & feeing some of his Courtiers, they at last obtained respit til they can receive answer from Batavia.

When we desired y^e Kings leave to dispatch o^r Ship, he ordered us to bring a good q^{ty} of Saltpetre, Brimston, & Longcloth next Shipping, which if we failed to doe, ye Mandorins had order to tell us y^t we must expect noe better usage than y^e Dutch had this year: Of which have now advised y^e Council for y^e Agency of Bantam.

Yo^r Hono^r lre to y^e King, with another to y^e Emperor of Japon, we did deliver: Concerning that to himself he sends noe answer; neither doe we find him anything kinder to us for what you write. As to that to the Empero^r he onely says, he had noe correspondence with him, so cannot assist us in that: Neither will any China Jounk adventure to carry it, tho' it were to a private Man, much less to the Empero^r. But we presume it may be done from Syam, that King having a yearly correspondence to Japon, & being a great Encourager of all Trade.

We are much surprized w^{ch} way yo^r Hono^r should be assured y^t there is a constant trade carryed on between Manhillas & this Port, whereas to some of

knowledge here has been noe Vessel from thence for these 6 or 7 years last past; & y^e two last y^t did trade hither were both lost in returning. So y^t we are forced to remit y^e Colchester Bays, or let it lie here & rott, having noe hopes ever to send one ell thereof: for the Tonqueen^r would not so much as look on it; Otherwise we should have thought o^r selves happy in being any ways serviceable to yo^r Hono^r, or o^r native Country.

The King of Syam has sent several Jounks to this Port, of which he never yet saw any returns; for their Cargoes being small, & y^e fees Presents &c charges of this Country so great, y^t tho' they spent all, yet they scarcely found enough to satisfy y^e avarice of these unreasonable people. M^r Sam: Baron being y^e last year in Syam, did perswade that King, contrary to his own inclinaçons, to adventure once more, consigning y^e Cargo to him; but with noe better success, for he has already run out y^e whole Stock, & hardly yet free from trouble.

Chinaware this Port affords none; & as to lacquered ware, tho' we could not comply with yo^r orders, yet have filled up y^e Ship with such as were at present procurable. We had bespoke a great q^{ty} of Skreens; but finding y^e boards bad & subject to worms, & y^e workmen not able to comply with yo^r order & o^r desires, have sent only ten payr for a trial: And if for y^e future you think fit to order more, judge it necessary to send us boards ready made to what size yo^r Hono^r shall think most convenient, with patterns drawn on papers, of what figures & fancies you please to have on y^e borders; for without such instrucçons, we see litle hopes to bring those people to make anything y^t is ingenious & curious.

In obedience to yo^r injuncçons we have endeavoured y^e consumption of y^e woollen manufactures, & have sold more Cloth since this Ship arrived than in y^e two years last past: But y^e q^{ty} rec^d is (we fear) greater than this Port will vend in 2 or 3 years; & some of y^e Colo^r altogether improper for this market. For y^e future as wel Broad cloth & Cloth Rash as Perpetuanaes, yo^r Hono^r may send Scarlet, Red, Green & Black; & noe other colo^r whatsoever.

We must now advise yo^r Hon^r with o^r present condiçon, having neither Hous nor Goodown y^t is fit to venture o^r P^{er}sons or yo^r Goods in: And Trade is so discourageing y^t we dare not sollicite for what is convenient; yet shalbe forced this year to rebuild o^r houses at Hien, for they cannot possibly stand another year. And y^e Goodown in so bad a condition y^t 'tis beyond our expectaçon it yet stands. We shalbe as frugal in o^r expences as possible, ffor if yo^r Hon^r find noe encouragem^t in y^e expence of y^e known manufacture of this Port in England, from hence we can give none: And then if you should withdraw this factory, all o^r expences wilbe quite lost. And truly, with submission to yo^r Hon^r judgm^t, we cannot apprehend this trade worth following any longer.

Thus having laid before yo^r Hon^r the present state of o^r affayrs in this unhappy Country, humbly referr it to yo^r judicious consid^{con} & remayn

Your Hon^r most humble & obedient Servants

WILLIAM HODGES.

This goeing to you by way of ffort S^t George we shall only informe you, that we on further consideration of o^r affairs have put your ffactory under the Government and direction of our President and Councill of ffort S^t George whom we have appointed; if they have time to gett a Cargo of Pepper and some Goods of the Coast of Chormandel as well as of those small quantityes of Europe Goods you desired ready to be suddainly put on board the Dragon att Atcheene Captaine ffern

Comander, whom we have freighted for your place to depart the Downs in September next, and to make but a Short stay for refreshment and to take in there what our President and Council aforesaid, shall order our Chiefe and ffactors at Atcheene to put on board him for your place. So that from us she is like to bring you only such a proportion of Treasure, as we shall designe there.

By the Ship we shall write you more largely and give a particular answer to all the materiall paragraphs of yo^r letter by Captaine Knox.

The said Ship Dragon we intend shall return from Tonqueen directly back to us, stopping only at Atcheene in her return for refreshment, and to fill up her vacant tonnage with Pepper, that we may pay no dead freight upon her home as we did upon Cap^t. Knox by reason of the loss of Bantam.

We having by our generall rules appointed all debauched & disorderly persons to be discharged our Service & understanding that M^r Henry Ireton is a person much addicted to excessive drinking, we have therefore thought fitt to dismiss him from his present Employment & from all Sallary & other advantages thereto belonging and do order him to be sent home by y^e first opportunity. OUR AGENT AND COUNCELL

AT HUGLY.

LONDON, 3^d: OCTOBER 1684.

1. The premises of the 2^d: July are copy of our last to you; w^{ch}: we Confirme since which hath arrived with us from your Place the Prudent Mary and the Herbert; with meane Cargoes for the great Stock we sent you; tho in the meane time we have Received 6: Shippes from Fort S^t: George and the Subordinate Factory's thereunto.

2. Your Letters by the said two Shippes are as disatisfactory to us as those we formerly Rec^d: haveing in them no Perticular Acco^t: concerning the most essentiall part of our business Viz. How and when you disposed of our Stock; how much to Cassimbazar; how much to Dacca; Maulda, and the rest; when it was Coyn'd and when delivered into the hands of our Respective Cheifs'; of which we expected a Perticular Acco^t: in your Letter of the distribution of our Treasure to the severall factoryes.

3. The puting off our Europe Goods at Ballasore was well, if Mr. Fitzhugh had not sent us so many deare Sannoos in the Roome of them; by w^{ch}: we shall be very great loosers, as we have been formerly upon the like trucking occasion.

4. Cap^t: Lake did very ill in bringing home that woman, but he did so worthily and like a brave Englishman, in Rescuing M^r. Ellis out of the hands of those Barbarians and in preserveing the Berkeley Castle at Sea, that we have overlook't that great fault and some others in him, which otherwise we should not have done.

5. Notwithstanding what you say of the Persia Trade we intend yearly according to our former oder [*sic*] that you shall provide two or three hundred Tonn's of the very best Suggar; of which Sort if it be, we are satisfyed it will not all Runn to Syrass in the times of the Raines as you say; besides it is no small conveniency to our affayres; that you should be allwayes in a Condition to give one Shipp an Employment in case we should at any time send you more Tonnage then you can possibly Lade home.

6. Wee have now we hope so just and Prudent a Councell in the Bay that we shall more then ever expect you should buy our Goods Cheap in the time of Raine; and sort better and when you have occasion take up money upon cheaper tearmes then hath been formerly mean Performances will not now serve from such men as you are; our expectations are great from you; great promises made by your Peticular friend's that we shall see an evident perspicuous and demonstrable melioration of all our affayres in those ffactorys now we have submitted them so entirely to the conduct of M^r: Beard M^r: Charnock and M^r: Ellis and those honest Gentlemen we sent from hence to be of our Councell at Hugly.

7. Wee are very well satisfyed very fine Goods may be had from Bennarrás and of all sort's that have not been seen in England w^{ch}: will turne to an extraordinary Acco^t: and therefore we would have you improve that Manufacture, and we expect that M^r: Dodd should deal faithfully by us in that trust without makeing any sinister Advantage to himselfe which hath been too much practice in the Bay; and it must be your infinite care to prevent our new men from taking up those vile old Custom's by imitation of their Predecessors.

8. You say the English freemen in the Bay are Ready and willing to pay us 2 \pounds C^t: Consolage provided we could protect them; wee answer we shall protect them as we doe our selves and admit them to a Participation of our Priviledges w^{ch}: they doe enjoy so as they carry on their Trade with their owne Money and Good's without collouring any of the Natives Good's or Merchandizes; but for Petty Bribes now and then you know we are forc't to undergoe for avoyding of trouble and so must they; and therefore we say Possitively as you have any Regard for our Service we require you to compell all that live in the Bay to pay us the said 2 \pounds C^t: Consolage and for such as doe refuse so Reasonable and just a Proposall seize their Persons and effect's wherever you can finde them and send them us to ffort S^t: George to be proceeded against & try'd in our Court's of justice there as Interlopers tradeing contrary to his Maj^{ties}: Charter; and in the meanetime expose them to the Native Governours as men that have no Right nor are to enjoy any benifitt of our Priviledges.

9. Wee shall endeavour to Persuade our three Deck't Shipp's to goe as high as the Island of Ingerlee.

10. You are now a Councell consisting of a competent number of discreet Sober knowing men that have had experience of the affayres of the world and as we have given you great Powers over all the rest of our Factory's if you will be accordingly obey'd and Reverenc't such Reverence from your inferiours must be obtain'd by your owne just faithfull and sober conversation that as you are above all our Servant's at Bengall you may be an example to Lead them into the way of Righteousness and faithfullness to the Company and Sobriety in their lives that after many essayes wee may at last see a flourishing settlem^t: of the Comp^{ny}: business in that Principal Part of India w^{ch}: for above twenty yeares hath labour'd under distraction and knavery of one kind or other.

11. We hope likewise that for the future in stead of filling our Letters with complaints and invectives you will give us cause to change our stile into Encomium's and Commendations of your wise honest and Regular Proceeding's as we have in all our letters to our present Generall and Councell of Surrat and our President and Councell of Fort S^t: George.

12. With this we send you the printed Cargo of the Interloper W^m: and John and intend to send the Print of her sale if we can procure it; to the intent that you may see what kind of new Goods she brought and how they sold here for your Government in provideing for us such as you finde turn'd best to Acco^t.

13. Upon this occasion we must tell you that the Interlopers have in nothing juster cause to boast then this; that notwithstanding our Councells are constantly Resident upon the Place and have alway's our orders and Money beforehand and time to provide new and fine sorts of Goods; and they come to the Bay but for a short time and as it were by stealth and yet they bring home more in proportion of those new desireable Good's by farr then our Shipp's which is such an unanswerable Reproach to those that mannaged our affayres formerly that we hope you will Remove it from your doores.

14. Wee find among your Silke N^o: A some small Skeynes of Silke packt; w^{ch}: small Skeynes are of a meaner quallity then the long Skeynes by about 3^{os}: & [lb:] pray enquire perticulerly how this happens and where it was done that those that are in fault may beare the blame for we are exceeding loosers by it; In Generall all your Raw Silk by the Herbert and Prudent Mary comes so excessive deare [that] there is little or nothing got by most of it; in so much that tho all [your] Silke bee Invoyc't among Cassimbazar Good's some of us are in great doubt whether it were all bought at Cassimbazar and sent you from thence by M^r: Charnock and whether a great part of it were not bought at Hugly or some other place contrary to our orders; about w^{ch}: make strict enquiry and let us know the certainty; it being hard for us to beleive that such deare and false Packt Silke could come from Cassimb^r: because we never observed so apparent neglect or abuse in the Package formerly.

15. Plaine Taffatyes of all sorts are certainly the most staple Commodity that India affords and it is impossible for you ever to send us too many of them let it be your constant care to procure all that Possibly you can and if for want of Dyer's you cannot have so many as you would made of dy'd Silke; get however what you can of them and send us the rest Raw Taffatys w^{ch}: our drapers have found a way to dy and gloss here much better then formerly.

16. The Cloth from Dacca proves well this yeare the only failure is we have too little of it let that ffactory be constantly and largely supply'd with money and send us from thence and Maulda all the Mullmulls and Tanjeebs you can possibly procure to the full extent of our List also strip't Mullmulls some large but most small stripes; Cossaes what you can get, and a good quantity of flower'd Mull-mull's the flowers to bee wrought upon the finest Mullmulls and 5: or 600 peeces to be wrought variously some with Silke and Silver some wth: silke and Gold; and some wth: Gold and Silver.

17. Of fine and orderly Nillaes send us at least 30,000 ps; of Collour'd Ghing-hams a Large quantity; Gulpombaes as many as can be gott deep Yallows the same as by the Herbert; of Gotboscoes Likewise such as by the Herbert all you can procure of Adethaes 5000 ps; Junoes strip't 4 or 5000 ps; of Neckcloths flowered as many as can be gott fine and middleing and some wrought at the ends with Gold and Silver; of Romall's ordinary and all other sort's of Romall's as many as you can procure possibly, Dooreas small strip't upon fine Mullmulls 4 or 5000 Peeces; of broad stripes Ditto 1 or 2000 ps of fine Shellac w^{ch}: you can get these are the Principall Commoditys in Request which occur [to] our memoryes on a suddaine being now entring on our Sale after w^{ch}: we shall form a compleat list of whatever we would hav provided in your parts which you may expect by the next Shipp in the mean time be stirring early for the provision and increase

of our Investment in the Commodity's aforesaid that you may send us a fuller and Larger supply of them then ever we had w^{ch}: can never be obtained except you doe in the very first Place supply Cassimbazar Dacca and Maulda with large Stocks of money and give them order to take up more at a moderate Interest before our Bullion be Coyn'd at Rajamahall for the just performance whereof we shall have a principall dependance upon Agent Beard because he hath seen w^t: excessive damage hath accrew'd to us these two Last yeares by the late and meane Supply of those ffactoryes.

18. Altho our Cargoes must consist of Course as well as fine Goods to supply all buyers yet take it for a Generall Rule that the finest Goods of all Sorts doe generally turne us best to Acco^t: and for the proportion of each you will have sufficient light from our intended list.

19. We shall send you by this or our next Shipp likewise an intire Booke of this Michaelmas Sale which may be of great use to informe your judgement's in severall Perticular's which we may forgett to write of; by which likewise you may see what help it is to us upon a dull Markett when Europe is so glutted with Indian Goods to bring home severall Sorts of new Commodity's wherein we hope our Present Agent and Councell will be studious to outdoe all their Predicessors wherein wee think they have a Large field to walke in there being not yet knowne to us one half of the Commodities that the Bay of Bengall afford's especially toward's Bennarra's and the higher Parts of that great River of Ganges.

20. Wee have often wrote to you to cleare all our ffactory's of all old Remaines of Good's for Sale but by that we doe not meane to give them away for so dull a Commodity as Sannoos which are like to Ly upon our hands for some yeares Rather would wee have you according to the expedients we proposed to you last yeare to send whatever lyes by you old Gunns Anchor's unsaleable Cloth or Stuff; Cordage Pitch or Tarr or what ever it bee to send up all to ffort S^t. George and y^t: that Presidency may not be overburden'd wth: such Lumber we shall send them this yeare the more money and less Goods.

21. Of what we have sent you by this Shipp the Persia Merchant the enclosed Bill of Loading and Invoice will informe you; by the [Kempthorne] that goes with her wee shall send in money 70,000 ^s: and by the Chandois 70,000 £.: in money which latter may sale from hence in October; one halfe of w^{ch}: two Summ's we shall order our President and Councell to send downe to you these two Shipp's being to touch at ffort S^t. George. Enclos^d: you have a list of the Shipping we intend out this yeare it is possible that upon farther Consideration or advice from the Indies we may alter the designe of some one or two of those Shipp's which if we doe you shall be timely advised.

22. You may doe well in the meane time to be provideing a good quantity of severall Sorts of Cotten Yarne and other Bulky Commodity's that you may be ready to give our Shipp's a speedy dispatch with Respect to the Directions in our List sent you.

23. Besides other improvements which we hope to Arrive at by the settlement of our affayres under such a just and prudent Agent & Council we hope to finde generally our Good's to come from Bengall much better bought; better sorted and better conditioned in all Respects then formerly.

24. The Interlopers we hope will trouble you no more; if they should we are satisfied by what some of us have seen from Agent Beard and M^r: Charnock that they can doe us little hurt and themselves no good while we have such a stanch Agent and Councell; but it must be your great care not only to doe well your selves but to compell all your Subordinate ffactory's to doe their duties wth: the like integrity and dilligence the only meanes for effecting whereof are first your owne good example as aforesaid; 2^d: exact and constant corrispondence by Letters &c^a: 3^d: severe decipline in rewarding those that deserve well by Preferment; disparageing abaseing and turning out all that are negligent and unfaithfull for which purpose we have sent you some supply of hands by those Shipp's of

which you will have a List inclosed and have ordered our President and Councell of Fort S^t. George (who best knows your wants) to send you as many more as they can spare.

25. For all other Matters you are to follow the directions and orders of our said President and Councell of ffort S^t. George ; who have demonstrated themselves in all their Courts of our business there since the new settlement of President Gyfford &c^a : to be men worthy of great trust and such as will maintaine an upright impartiall strict and Prudent correspondency with all persons subordinate to their Government.

26. Send us 50 Silke quilts of severall Sorts according to our former orders and your owne fancy's in the choyce of Lively and acceptable collour's ; send us likewise of every sort of Good's 100 Peeces superfine by which wee meane finer then ever yet you knew bought for Europe Marketts.

27. Our President and Councell of ffort S^t : George will from time to time acquaint you what Tonnage they shall be able to Supply to fill up our Shipp from the Bay and it will be allwayes Prudence in you Rather to have too many Good's beforehand then too few Because tis probable now our trade is so vastly encreas't wee may allwayes send you a Latter Shipp or an early Shipp in the Spring that may allwayes bring away the Remainder of Good's of the former yeare so that you need not feare any Goods takeing damage by lying too long upon your hands.

28. Wee hope you have adjusted that business of the Customes with the Nabob or Mogull in an amicable way for that trade of the Bay is too Considerable to bee lost or throwne away in a Pett but if wee must quarrell at last with the Mogull for our Previlidges wee must bee content tho in Prudence if wee could have any Reasonable quarter with those Governour's for a Little money it would be our Interest to let the Dutch begin to quarrell first with that Prince for then of necessity hee must court us.

29. But if you could obtaine from the Mogull a Phirmaund to fortify in any convenient Place on the Ganges for Security of our trade in future from such attempt's and Surprizes as the Dutch lately made at Bantam and formerly at Maccasser wee should not grudge the charge of beginning so Noble a Settlement for our Country notwithstanding all the Losses wee have lately Sustained by meanes of the Interloper's.

30. Wee suppose you may have heard of the Rebellion at Bombay which is thought to proceed from the inspiration of Interlopers and wee hope you will soone heare of the Returne of those deceived People to his Majestyes Obedience.

31. This Shipp the Persia Merchant we would have you not to faile of sending up to Fort S^t : George with her full Ladeing of Petre and what other Goods proper for Europe may bee Remaining by you of the last year's Remaines and as shee goes up to the Fort order the Commander to take in whatever bales shall be in Readiness in any of our Northern ffactory's Subordinate to ffort S^t : George.

32. Wee observe that some of our unmarried Servants at Cassimb : and wee have too much cause to feare at other Places likewise doe absent themselves from our Publick Tables and crave an Allowance of Dyet money which wee will not allow to any unmarry'd which keep not houses by themselves ; and to such no more then may serve for the Dyet of a single Person at our Publick Table which wee know is very Little in that Countrey and therefore wee expect that our Present Agent and Councell should Retrench our Charge in all Places by Reforming that Notorious abuse.

33. There is one John Hilman a Weaver that takes Passage on this Shipp and is listed for a Soldier he hath laid our 30^s : in provideing 4 brass Rodd's and two Trewatt's necessary for the weaveing trade, he being Skill'd in makeing Plashes if he bee employed by you and bring those Rodd's and Trewatt's into our Service you are to Reimburse him the 30^s.

34. Wee send you on the Persia Merchant M^r : Thomas Mackerath whome wee have entertain'd as our ffacter ; and M^r : W^m : Marshall as one of our Writers whome wee would have you dispose of as may be most for our Service.

35. Wee have entertain'd Edward Dean Sowton an able Artist well quallified in Dying Black Silkes for 5 yeares certaine at the Sallary of 50 £ : a yeare to Commence from the time of his Arrivall in the Bay and have taken Bond of him not to desert our Service before the expiration of that tearme hee is to Receive 25 £ : of his Sallary from you the Rest is to be paid to his wife here ; and he is to have his Dyet at the Company's Charge ; Wee have not else to add ; but Commending you and our affayres to the Blessing and Guidance of the Almighty Wee Remaine :

Herewith wee send you a Perfect list of the Good's wee would have Provided.

LONDON, 24th : OCTOB^r : 1684.

We have very much to write concerning the disposition and Coining of our Bullion wherein we have cause to apprehend we have bin infinitely Injured for many years in the Bay, and most of all in the last year of M^r Vincent, whether it be better or worse since his time we must suspend our Censures till we have yo^r next books, but most certainly there is noe one thing deserves soe much yo^r essentiall care & reformation as that we are writing to you off.

We cannot now give you the perticulars of the Abuse nor by what steps it hath grown upon us in that Agency but in Generall by the nearest computation we can make our Dollers in exchange or Coyning into Ru^p^a : makes us there Communibus Annis at least 3^d : in each doll^r : of w^{ch}. we shall write you wth : more certainty, & more at large as soone as our Booke-keeper can draw out those Abstracts we have ordered him to prepare for y^e purpose ;

In the meantime we would have you not to faile by y^e best means you can & to advise us by y^e first what is the lightest Standard that yo^r Sheroffs in the Bay compute their Gold and Silver by and in what proportion each standard declines as we in England do from 24 Carr^{ts}. Fine for Gold to 4 gr. in each Carr^t : & $\frac{1}{4}$ of a gr : in each gr : and from 12 oz fine for Silver by penny weights and gr : to 11 : oz 2^d : our English Standard for Silver and lower if it be worse than Standard..

Send us likewise an Exact acc^o. of all the Severall weights by w^{ch} : yoⁿ sell Gold & Silver wth : their Severall denominations from the highest to y^e : lowest

viz^t. as in England we Sell Gold by the Oz, 1 lb. is 12 oz, 1 oz is 20^{dwt}, 1^{dwt} is 24 gr: and advise how yo^r: weights hold out in proportion wth: the weights we use in England we remaine

RESPECTIVE COUNCIL.

TYWAN, JANUARY, y^e: 31th: 1684.

S^r

Yo^r: of y^e: 6th: of June by y^e: Kent wee received wth: y^e: sad Relation of y^e: ruine of Bantam, Wee through a mercifull providence having escaped as yett y^e: like Calamity that befell us in Amoy in May & June last, daily expecting it by y^e: great preparations then made by y^e: Tartars to fall on y^e: place w^{ch}: soe affrighted y^e: King & Grandees that they sent all their Soldiers to y^e: Piscadoes and Keylong to defend those places, & did arme as many of y^e: Strangers & other y^e: Inhabitants as reached from Tankoy to Wankan to oppose their landing there who according to expectation did sett out but came no farther than y^e Piscadoes, w^{ch}: they found soe well guarded y^t: they did not attempt any thing there & returned again for China. Last year at arrivall of y^e: Jappan Junkes, Wee were not wanting to press Sinkoe to pay y^e: Kings Debts as hee promised before M^r: Mountagues departure, of whom after often soliciting & many delayes could procure but two hundred chests of Copper, saying Wee must rest satisfied for y^t: was all y^e: King would pay us this year, alleading y^t: we having no ship here could tarry untill next Jappan Junkes did bring more Copper, for w^t: came on these Junkes they could make more advantage of it by sending it to y^e: Southward, then to pay it us to keep it y^e: year round in our houses, soe y^t: if had dispatched y^e: Kent for Bengall as ordered, should doubtless have been delayed this year in y^e: same manner & must have sent her away without any Copper from hence, for soon after Ship arrivall, y^e: King sends his Chop for y^e: two hundred chests of Copper hee paid us last year pretending hee wanted it to cast into Guns, but really was laden on board some Junkes bound then for Maccoa, there to be disposed of to raise mony to supply his then urgent occasions, all w^{ch}: considered we concluded it to be more for y^e: Hon^{ble}: Comp^{ss}: Interest to detain y^e: Ship here untill y^e: arrivall of y^e: Jappan Junkes in expectation of paym^t: from y^e: King on v^e: former & this years acc^{ts}: & soe dispatch her back for Batavia.

In landing our Cargoe have found severall mistakes Viz^t : N^o : 59 Invoiced fine green cloth w^{ch} : proved Scarlett, 2 bales of red cloth instead of 2 of Cloth rashes, six of y^e Christaline glasses less then Invoice, two peices of long Cloth in Bale N^o : 11 wanting, no note appearing in y^e : bale by whom packed, severall pieces damaged quite through perfectly rotten though y^e : bale of w^{ch} : they were taken seemed well conditioned, y^e : Surplace being intire soe y^t : suppose them to be repackt after first damaged, y^e : Musketts likewise came in such a miserable condition, that wth : great trouble & expence could make but foure hundred of them Merchandable ; One Chest of treasure 22 proved Sivill mony w^{ch} : should have been Mexico, y^e : rest came out according to Invoice. Not finding any probability of vending y^e : red Cloth, green & red Cloth Rashes have returned them, y^e : reason y^t : induced us thereto, is because some of our Scarlet Cloth was touched wth : y^e : worme, fear they may be in y^e same Condition, they being no Comodity here may be sent to some other place where they may be speedily disposed of, upon y^e : arrivell of y^e : first Japan Junke w^{ch} : was y^e : 22th : December, Wee waited upon y^e : Hoquoh wth : Sinkoes obligation on acco^t : of w^t : y^s : King hath since had of us, were after an hours attendance, M^r : Chapple was admitted into his presence, who after had declared y^e : intent of his coming, w^{ch} : was to desire his assistance in procureing us paym^t : for w^t : is due to us from y^e : King, to w^{ch} : hee replyed that there was another Junke at y^e : Piscadores, & two more daily expected, who as soon as did arrive would certainly clear y^e : Kings Debt, that we must rest satisfyed untill y^e : other Junks did arrive, ten daies after came in another then wee gott Tansinkoe to give in a paper to y^e : King to desire paym^t : for w^t : was due to us from him alleadging y^t : y^e : season was far spent & y^t : it was time our Ship was dispatched of w^{ch} : y^e : day following hee came to our house, & said y^t : y^e : Kings answer to our request was y^t : we could expect but six hundred chests of Copper from him this year, without y^e : other two Junks did arrive, that is two hundred on acc^{tt} : of those he borrowed of us, & four hundred on acc^{tt} : of his debt, that we must be therewth : content untill hee was better able to pay us, after we had received y^e : six hundred chests seeing soe many more remain in y^e : House from whence wee had those wee complained, alleadging y^t : y^e : King could if hee pleased pay us, there being soe great quantity of Copper in his Merchants house, to w^{ch} : they said it was none of y^e : Kings but belonged to particular great men, w^{ch} : if would have could buy wth : our money, this being a contrivance of Tan Pumpo & Punowey, who caused all Copper as well as y^e : Kings to be lodged in his Merchants house, where they suffered none to be sold untill their owne was disposed of, for w^{ch} : would abate nothing of \$ Sixteene ^{pp} chest, neither would they permitt those y^t : were indebted to us to pay us any Copper, without would first buy theirs of whom after wee had bought two

hundred & fifty chest, Wee made a Second complaint, & pretending y^t: our money was gone, & y^e: Ship not ballasted, & y^t: if y^e: King would not pay [us] more goods, Wee must of necessity carry off our Lead to make y^e: Ship saileable, wth: w^{ch}: & all y^e: Arguments wee could use could gett but 50 chest of Copper more, and 71 Pec^l & 91 Catts of Camphire y^e: latter have adventured on without order, w^{ch} should not have done if could have gott Copper in its roome, upon delivery of w^{ch}: they said Wee must be content for it was all y^e King would pay us this year, if we were not & if wee thought their debt to great they would to lessen it refund y^e: Musketts, Broad Cloth, Cloth Rashes & Perpetuanoes, w^{ch}: this year they tooke out of kindness not having occasion for they being still by them of all w^{ch}: seeing no remedy wee desisted from buying of Gold, of w^{ch}: this year there was no want beleiving could have invested ten Thousand dollare more therein, intending wth: w^t: mony had left to purchase Copper, & if possible therewth: to put off some goods, of w^{ch}: after wee had made our intentions knowne to Tan[s]inkoe, hee acquaints us y^t: Punowey if would buy a hundred chest of Copper of him, would lodge two hundred taile in our hands, to take out in goods as had occasion for, if not to be paid at next Ships arrivall, Tan Pumpo & other great men have done y^e: same, soe y^t: last wth: great trouble & difficulty have made our Cargoe amount to Dollars 43350: 39^d: $\frac{1}{2}$

M^r: Chapple continuing his Resolution of leaving Tywan takes his passage herewth: for Batavia, & seeing wee are disappointed of M^r: Geo: Griffith whom you have ordered to succeed have agreed y^t: M^r: Thomas Angeir & M^r Thomas Woolhouse doe act joyntly in y^e manageing y^e Hon^{ble}: Comp^{as}: Affaires here untill yo^r: pleasure be further knowne therein.

Doctor Norrington for these six months last hath been in declining condition w^{ch}: hath reduced him almost to an Anatomy, thinking y^t: Alteration of air & going to Sea might doe him good, hath made his request to take his passage upon this ship for Datavia, his pretence being soe just y^t: we could not in reason well deny him have given him leave whom if recovers hope you will returne us againe y^e: next year, if not, some other, if you continue y^e: ffactory, Since y^e: ballance of our bookes have paid M^r: Chappell \$ one hundred & Eighty on acc^t: Sallary and Doctor Norrington his Sallary to y^e: last of January.

The two bales of red Cloth N^o: 22 & 26 have invoyced back cloth Rashes as they came hither not knowing y^e: Contents of them, in makeing up our Invoice have found a mistake in y^e: Raw Silke w^{ch}: is ffive Catts in Chests N^o: 1: 2: 3 more then y^e: Notes therein doe mention, w^{ch}: has been soe entred in our bookes these 2 yeares Viz^t: ffive Catt less then y^e: money for w^{ch}: was accounted, & paid for in a parcell of Ohankoes w^{ch}: we thought good to advise you of, having not discovered it before twas too late to be rectified.

In returne of our Presents have received from y^e: King forty p^s: of Silke, twenty flowred large Pelongs & twenty Panches, ten Chests of Copper, & twenty pec^l: of Sugar Candy w^{ch}: hee hath mentioned in his letter, besides w^{ch}: hath given us four Beefs, four Hogs, foure Goats, & twenty Geese, y^e: Beefs have disposed of to y^e: Ships, y^e: rest shall expend in our house, Wee are doubtfull w^t: to advise as touching w^t: goods might be proper to send by [next] Shipping, here [being] an Embassadour lately arrived from y^e Vice Ro[y] of Hokean about a treaty of peace, w^{ch} if succeeds then our Europe goods will be most in esteeme, if not Coast & Surratt goods, soe y^t: we conceive it will be most for y^e: Hon^{ble}: Comp^{as}: interest to send a Cargoe of both sorts, consisting of y^e following particulars Viz^t: broad Cloth Scarlet six bales, D^{to}: Violet 3 or four, y^e like of black Cloth Rashes black four bales but no other Colours, Perpetuanoes 200 p^s all black Violet, & blew but no other Colours, twenty bales of long Cloth Sallampores 10 bales, y^e like quantity of broad Bafts, 2 or 300 p^s of Chints broad 3 or 400 pec^l: of Iron & a hundred barrells of Powder y^e: Iron & Powder y^e: King hath desired, but forbids us bringing any more Muskets, Our Necessity requires a Supply of Paper, Inke, Quills, & Wax.

Wee are much troubled for y^e; soe late dispatch of y^e Ship w^{ch} hath not been occasioned by any neglect of ours y^e: Northerly winds rageing soe violent y^t: it was y^e: twelfth of January before could send off w^t: Copper was needfull to put on board a Ship before she came into y^e: South Road, after w^{ch}: it was four daies before could gett permission to let y^e: Ship goe over y^e Bar, ordering y^e: Cap^t: in y^e mean while to be in readiness wth: a Pilot, w^{ch}: he procured by y^e: assistance of a Tekoe y^e: Kings Interpreter whom as soon as had leave granted ordered wth: first opportunity to goe into y^e: South Road who in Compliance thereto falls to y^e: Barr foot where they waited seaven daies for a Slatch, w^{ch}: they endeavoured to make use of, but by y^e unskilfullness of y^e: Pilot were prevented by grounding y^e Ship on y^e: Barr whereby she was in great danger of being lost but by y^e: assistance of divine providence got off wth: out any great damage only loosing y^e: opportunity and soe were forced to come back againe to gett another Pilot, w^{ch}: wee soon procured & sent off, but y^e Winds continuing soe violent y^t it was y^e first of february before it ceased at w^{ch}: time y^e: Ship got over y^e: Barr, but by a strong Southerly wind & a Curr^t: was drove soe farr away to y^e: Northward y^t: it was y^e: 3^d before she came into y^e: South Road.

This is w^t: at present we have to advise w^{ch}: wth: Copies of our bookes & Consultations & our prayers for a blessing on yo^r: & our faithfull endeavours in our Hon^{ble}: Masters affairs Committ you to y^e Protection of y^e Almighty Wee remain

IN TYWAN

AT A CONSULTATION THE 15TH : AUGUST 1682.

After serious perusall of our Hon^{ble} : Masters Generall from Amoy and likewise their Generall from Batavia, both w^{ch} : being soe positive for y^e : dispatch

of y^e: Kent for Bengall y^t: should have complied therewth: had we not thought it more for y^e: Hon^{ble}: Comp^{rs}: Interest to detein y^e: said ship here in expectation of obtaining our old & new Debts from y^e: King being last year when urged paym^t: as Sinkoe had promised as before M^r: Mountagues departure, at arrivall of Jappan Junks should be performed, when y^e: time came could not procure more than two hundred Chests of Copper w^{ch}: Sinkoe said was all y^e: King would pay us without wee had a Ship here, adding y^t: y^e: King could make better use of his Copper than we, by keeping it in our house soe y^t: if should dispatch y^e: ship as ordered, shall doubtless be delayed in v^e: same manner & not be able to gett a Chest of Copper.

About 10 daies since Tan Cinquoe came to us as he said from y^e Generall to know if we would lend him y^e: two hundred Chests of Copper we had in y^e: house w^{ch}: he would repay us at returne of Japan Junks to w^{ch}: we replied it was more then we could justifie to our Masters, wth: w^{ch}: hee seemed satisfied & went away, yesterday came again & informed us y^t: now y^e: King had sent to borrow y^e: Copper, having present occasion of it to cast it into great Guns w^{ch}: hee would repay us, to whom wee replied y^t: although wee wanted them to stiffen y^e: Ship w^{ch}: was soe light y^t: if any violent winds should happen as is usuall about this time of y^e: year y^t: then y^e: Ship might be damaged for want of them, yet if y^e: King would send his Chopp for them wee would obey his Comands, & deliver them, w^{ch}: this day he brought & required one hundred chests to be presently delivered him w^{ch}: was accordingly performed, & shall deliver y^e other hundred when he comes for them, condescended & agreed to in Tywan y^e: 4th: of Sept^r: anno Domini 1682

OUR PRESIDENT & COUNCILL

ATT FORT S^r: GEORGE.

LONDON, 1st APRIL 1785.

The foregoing Letter was on the 28th March last, Sent unto you by the De-
puty Gov^r: & Committees, Since which we have not onely seen the Prices of your
China Goods as Invoiced to us, but have compared their prices with the Same Sort

Compared
y^r: In-
voiced of
China
goods with

Carolinan
& find
much
Dearer, &
much
Worse.

of Goods that came Invoiced to us by the Carolina, & opened your Goods for view, which are rather worse then the Carolina's. To instance in some of them.

s: d:

Your Silk comes out at 19s 9d the pound. y^e: same by
y^e: Carolina cost but ... 5 8½ p lb.
The Pelongs at 54^s a ps ... 20 a ps.
The Geelongs at 27^s a ps... 11 6 a ps.
The Musk at 18^s an oz ... 11 10½ p oz.

Disapprove
of your
sending
these
goods.

Wee wholly disapprove of your sending us these Goods & will not accept of them for our acco^{ts}: However we will Sell them by the candle for the most wee can, & remitt you an acco^t: thereof, & shall expect that the overplus of their Cost as Invoiced by you more then what they will Sell for be made good by you unto us with interest & insurance.

This gives
some
Cause to
question
your: fidelity.

Wee are extreemly Surprized that^a these Goods (which wee beleive came in your own acco^{ts}: from China, when our own Ship Carolina could not have that full trade there, as you had) to be Sent unto us by you at such extravagant prices, being at present unwilling to tell you, that it do's in Some measure give us cause to question your fidelity to us. Wee remain

Wee have by the Royall James rec^d: a Small parcell of Cotton Stockings in pursuance of former directions, but finding the Same is an English manufacture & that itt may bee a great discouragment to the poorer Sort of people, which are very numerous & imployed in that trade, wee think itt advisable, & accordingly do direct that no more of them, nor Cotton Gloves be Sent us, but dispose of them the best you can, though they Should be provided for us, neither lett any more Shirts or Shifts be bought or laden on any of our Ships for our acco^t for the future, nor any Persian Carpets of any Sort, they being very dear bought & lying upon our hands wee remain

OUR AGENT AND
COUNCILL IN BENGALL.

LONDON, THE 20TH JANUARY 1685/6.

Our former lre from this Committee of Secrecy, directing you in treating & if cause be in managing a Warr wth the Nabob, especially & principally in Secureing that important place of Chyttegam hath been approved by his Maj^{ty} & we have by us y^e Copy of the said wth his Maj^{ty}s owne hand to it, testifying his Maj^{ty}s approbation of y^e contents thereof.

Maj^{ty}s approbation of making Warr wth Nabob.

But in regard upon further thoughts we find it may happen, to be necessary for you to have Justice nearer to you then Fort St. George in a time of Hostility, we have by vertue of his Maj^{ty}s last Charter (of w^{ch} we send you a Copy Inclosed) appointed Capt^a Nicholson to be Judge Advocate for this expedition while he is in the Bay of Bengall, & in y^e absence of Capt^a John Nicholson we doe appoint M^r Thomas Lee, or whom soever else our Agent & Council shall appoint, & our 3d & 4th of Council of Bengall for y^e time being, to be always assistants, to fill up our said Court of Judicature according to his Maj^{ty}s s^d late Charter, & that you may Govern yo^r selves & o^r affaires accordingly we doe herewth send you a duplicate of our Comission to Capt^a Nicholson for the purpose afores^d.

Capt. Nicholson to be Judge advocate in bay, or who soever appointed by Agent & Council.

And in regard the King of Raccan we hope may graunt you some considerable Territory round about or near Chyttegam we would have you among other improvem^{ts} thereof imploy some persons in making Some quantitys of Sugar upon Such termes as, as you can agree, letting them have the Land rent free on condition to furnish you wth such a quantity yearly of the best Sugar, as you shall thinke fitt to contract for, for our Use, w^{ch} if you can have it at easy termes, may be as much as will load annually one of our biggest Ships for Persia.

Imploy Some Persons in making of Sugar att Chyttegam.

We have Said in our former letter that you Should not proceed for Chyttegam untill Capt^a Nicholson arrives wth you, wth y^e Additionall forces he will bring you from ffort St. George, & that is yett o^r meaning if he arrives wth you in any convenient time, but in regard he may be Dead, or may be prevented from arriveing wth you in time, by Some accident impossible to be foreseene by Us, we must therefore in such & all Unforeseene occasions, leave to you to proceed according to y^e best of your Judgm^{ts} for y^e Hono^r of yo^r King & Country as y^e Emergency of the Case shall require, Soe Praying God to bless & prosper yo^r endeavo^r we rest

not to proceed to Chyttegam till Capt Nicholson arrives (if in seasonable time).

VOLUME VII FOR THE YEARS 1684-1686.

[ORIGINAL LETTERS.]

LONDON, 13th: FEB^r: 1684.OUR PRESIDENT AND COUNCIL AT FORT S^r: GEORGE.

With this you have copy of o^r l^{tr}e of 26th Novemb^r last sent by y^e Shandois; And now by o^r Invoices &c you will see what a considerable Stock in Bullion & Goods we have sent you by this Ship the George, w^{ch} we pray God to send safely to yo^r: hands.

2. This is y^e last Ship we shall send directly for the Fort; & we would have all y^e Silver upon her to be sent to our Agent & Council in y^e Bay by this Ship if you have time enough for it, or els by some other safe Conveyance. But we rather desire it may go by the George. To which purpose we desire she may be dispatcht down to y^e Bay within three dayes after she arrives, which is not so extraordⁿ an expedi^{on} but what is possible to be effected: And we may tell you, y^e: greater expedi^{on} than that we now propose to you, was made at Suratt this last year, otherwise we could not have had home o^r late arrived 5 Suratt Ships this year, there being litle or noe goods on any of them at the begining of April by reason of y^e late arrival of Two, and three of their lying so long before Bombay. And after they were come from thence, some of them were hurried out of Swally to Suratt Rivers mouth to retake the Comp^{ss} Ship Return, which was a further impedim^t to their dispatch.

3. If you send the George to Bengal, limit o^r Agent & Council there a certain time for her return to you, with what they can put on board her.

4. Let every Ship you load either in Bengall or from y^e Fort be sure to bring their full propor^{on} of Callitore wood; And if you can perswade any of o^r Com^{mand}^{rs}: to take in more than their propor^{on} at £10 ^p ton, to stiffen their Ships, you may send us yearly among all o^r Ships 100^{ts}: of that wood, over & above each Ships respective p^{por}on thereof by Ch^{re}party.

5. Wee have only now the Josia to dispatch of all y^e Shipping designed for yo^r intire presidency including y^e Bay; and her we intend to send directly to Bengal with 80000 £ in Bullion, & what other goods we can get in a readiness: All the goods by her, We shall order o^r Agent &c., in y^e Bay to send up to you, except what he can im^{me}diately dispose of, So you may doe well to keep so much in arrere with yo^r Merch^{ts}, as you may put off our goods to them when they arrive to balance their acco^{ts}: of what you may before have rec^d of them.

6. You have now such a number of ffactors & Writers, that We justly suppose you may be overstock'd with them: and therefore We hope & desire you to be so wise for our interest, as to sift out y^e worst, & retain only such to eat our bread as may doe us good & real service for it, And discharge from our service all y^e are idle, insufficient, debauched, or unfaithful; In w^{ch} you will doe an acceptable, & but your reasonable service to Us.

7. We have ordered o^r Gen^l & Council at Suratt constantly to maintain a consid^{ble} brisque Vackeel at the Moguls Court, & to give you notice who y^e Person is, & how you may correspond with him about o^r affayrs in y^e Bay, & therefore we would have you put o^r Agent & Council in y^e Bay in a way of manageing their busines at Court by y^e same Vackeel & noe other, to avoid a double charge: As also because We hope y^e person o^r Gen^l of Suratt sends thither, wilbe an abler man & of a bolder temper, & fitter for o^r purpose, than any you have or will meet with in y^e Bay.

8. M^r George Gosfright, formerly of o^r Council at Bantam, having served us well, & being now at Suratt, where we ordered him likewise to be of o^r Council:

But his friends here rather desiring he should be settled in the Bay of Bengal; we have ordered him to be of o^r Council there, according to his station in India; which we suppose is next after M^r Trenchfield: Of which give notice to o^r Agent & Council in the Bay; that upon his arrival there, he may have y^e place we have appointed him untoo.

9. Wee understand by Captⁿ Harding, y^t you have a profitable trade to China, w^{ch} we doe not grudge you, but rather wish it may encrease, & y^t you may gain by all honest ways as much as yo^r selves can reasonably desire: But we would have you in all places in the Bay & otherwise within yo^r Presidency, utterly to beat-out & destroy those detestable old cheats of Piscashes from o^r black Merch^{ts} Dubash mony & Dustore; & make it yo^r busines effectually to see, that all monies arising from such old cheating names & practices (where y^e names are fit to be continued) be honestly & faithfully brought to the Comp^{ts} acco^t:

10. In regard Thea is grown to be a Comodity here, & we have occasion to make presents therein to o^r great friends at Court; we would have you send us yearly 5 or 6 Canisters of y^e very best and freshest Thea. That w^{ch}: will colour y^e Water in w^{ch} it is infused, most of a greenish complexion, is generally best accepted.

11. In all yo^r trades to China & elsewhere we would have you, (as becomes worthy publique spirited Men, such as we take you to be) to have as wel a regard to the gen^l good of y^e Comp^y by encreasing y^e trade & Revenue of Fort S^t George as y^e increase of yo^r profits: And therefore we desire you y^t in such adventures you would admit to joyn with you not only such small stocks as o^r own servants have, but likewise all other Inhabitants of our Fort & Town, whether they be English, Portuguez, or Natives. This generous liberty & frank encouragem^t to all your Inhabitants indifferently, will make your place great & famous in a short time, strong & defensive, And that place being become by such indulgence a Mart for Nations, it must consequently flourish & prosper exceedingly, That being the means to which God Almighty of old promised to make Jerusalem great, viz^t, that it should be a Mart for Nations.

12. And if by such generous self-denial, & y^e just & equall administration of good Laws to all persons, you can bring that place to be a Center of trade from all places of India, wherein it is not convenient for us to establish Factories, it may give you y^e opportunitie to buy for Us upon reasonable terms, Pepper, China, Pegu, & it may be in time, Nutmegs, Cloves, & many other Comodities, which otherwise you can never hope to purchase for Us.

13. You have now a larger field to work in, for the honor of yo^r King the good of your Country, & the profit of this Comp^y (that you know hath suffered so much of late years) than ever any of yo^r Predecessors had: But if your minds be not as large as yo^r Province, the success will not answer our expectation, Narrow selfish souls are not framed for such work; But we have reason to hope better of you.

14. You must never give over contriving easy methods for raising Revenue in that place until you have arrived by y^e Dutch wisdom, to such a measure of constant Income as may sufficiently serve the keeping in repair & enlargeing your fortifications, & y^e constant maintenance of 500 European Soldiers, most part English, the rest Portuguez, which are cheaper by one half. Such a formidable posture of defence will make more rich men trust to yo^r governm^t & protection; & will make yo^r terms easy with y^e King of Gulcondah's Governors, who we are sufficiently sensible, by their late base compliance with Interlopers, will doe more for fear than Love of us.

15. Notwithstanding which until you are stronger, & o^r Dutch controversies are at an end, keepe as fair as you can with those people, without parting with any of our mony more than what was anciently accustomed.

16. If you could perswade all y^e rich men in Fort S^t George to y^e number of 100 English, Jews, Portuguez, & Gentues, to keep each of them a Horse & Arms at their own charge, as M^r: de Pavia here hath promised for himself that he will, it might be a brave addicional strength upon any sudden occasion, And you may

appoint Captain & Officers to exercise that Troop once in 2 or 3 M^{os} as a Militia or Citty Troop.

17 The Riders by right should be English, or at least $\frac{2}{3}$ ds of them.

18. You know our Stock hath much declined these last 2 or 3 years, & ye reasons of it: It's high time now to study all possible Methods to better y^e Advent^r Stock, y^t they may at last reap some fruit of their adventures labour & patience these last 2 or 3 declining years: And therefore we must enjoin you to improve y^e trade of Rice, Paddy, & Provisions from y^e Bay, y^t none of o^r Ships may come up thence to you with any dead toⁿage, which likewise is necessary for y^e security of our ffort & Town. It being very Impolitiq in such a frontier Garison to be at any time unfurnished of a sufficient store of Paddy, which being bought at y^e best hand in y^e Bay, & y^e freight thereof costing us nothing to y^e Fort, must of necessity at one time of the year or other, turn us to a good acco^t:

19. You must always keep your Officers & Soldi^{rs} in strict military discipline, & to y^e frequent exercise of their arms, not failing to inflict condign punishm^t upon Offenders, according to y^e: Rules of Martial Law, For yo^r: informa^{ti}on where-in, we have sent you Copy of a Book now of use in y^e modern Armies of Europe.

20. We have just now, & you have long since (as we suppose) had intima^{ti}on that y^e Emperor of China hath granted free liberty of trade to y^e English & Dutch at Tywan & Amoy; So we hope you have effectually dispatcht a small Vessell with a proper Cargo to Tywan for o^r acco^t: And we would have you take care as soon as possibly you can, to send another small Vessel & right honest & fit P^{er}sons to settle a factory at Amoy. We suppose two Factors & writers may be sufficient at first for Amoy; & y^t 5 or 6000^{lb} Cargo may be enough for Tywan the first voyage, & about 10000^{lb} for Amoy. And it must be yo^r great care to see y^t we pay freight neither Out nor Home for any more than o^r own goods, Or if you freight y^e Vessel wholly for o^r acco^t, you must see y^t all private goods whatsoever y^t: go or return in any such freighted Ships for o^r acco^t doe pay a full & just propor^{ti}on of freight, y^t we may be rather gainers than losers by such great indulgence to our Servants and Inhabitants. And we make you y^e sole Judges & Determiners of all such matters between Us & them. In which Respects if o^r former Agents & Councils at Bantam had been faithful to Us, those Northern trades had turned us to great profit; whereas by reason of unfaithfulness (w^{ch} will destroy y^e most hopeful things of this World) all those trades proved to o^r loss.

21. Amoy is a place of depth of water sufficient for a Ship of 300 or 350^u So y^t if upon fresher advices from China, you shall have hopes of getting a sufficient loading of Copper or Tutenage, you may order y^e Shrewsbury, Persia Merch^t or some other of y^e smaller of o^r Europe freighted Ships thither. But consider well & doe onely That w^{ch} you shall judge safest for us, to avoid dead freight which is an irreparable loss.

22. In y^e Cargoes you send for Tywan or Amoy, One half at least must be p^{er}s of $\frac{2}{3}$; the other moiety proper goods of India, & but very litle of English Manufactures if it be true which we hear, y^t the Emperor of Japan hath prohibited English Cloth.

23. Wee wrote by y^e Chandois about a great parcel of Neckcloth bought for private persons on board y^e Josia: Since w^{ch}: we understand there were 27,000 more sent to M^r: Portman & c^a: We much wonder y^t notwithstanding our prohib^{iti}on of them you should send such great q^{ties}. It is a very great offence & we strictly charge you to take care for y^e future y^t our Orders be better observed.

24. The suit at Law commenced in y^e Court of Kings Bench by Us ag^t M^r: Sandys y^e Chief of y^e Interlop^{ers} for trading contrary to our Ch^{ar}te, was ready for judgm^t y^e last Term; Argum^{ts} having been made on both sides by y^e most learned Council of y^e Kingdom. But such was y^e weight & importance thereof y^t the Lord Chief Justice deferred y^e same til y^e last of Jan^{ry}, On which day y^e four Judges being mett they unanimously gave judgm^t for us ag^t M^r Sandys, Declaring that o^r Ch^{ar}te granted us by his Ma^{ty} for y^e sole trade of India exclusive to all others his Ma^{ty} Subjects, was a good grant in law, The Power of making such

Grants having been always in y^e Crown, Besides which, this had also the sanction of Parliam^t.

The Judges, amongst other things (for they were above 4 houres in delivering y^e reasons of their Opinions, & answering all the objections y^e had been made by M^r Sandys's Council) were pleased to observe y^t this Comp^a had been in possession of this trade for above 100 years past; & y^t: in all y^t time none ever durst presume to call y^e right of y^e Crown in [question till Now, But] they believe M^r Sandys may be the last y^t will ever attempt any thing of that kind any more.

25. And now judgm^t being given & entred, we hope you wilbe noe more troubled with any private Ships for the future.

26. Wee are informed y^t the Bristol [Interloper] whereof Hand was [Command^r] is seized at Goa for a Pyrate, & [will be] confiscated; & therefore we think [fitt to] tell you, That if y^e Dutch or any other people of India, should seiz any more Interlopers, We would not have you countenance, own, or aid any of them in such a case; They being persons engaged in attempts ruinous to their common Country, in direct opposicon to, & Contempt of his Ma^{ty} Proclamacon, and as hath been lately confirmed by the aforesaid sentence in the Court of Kings Bench, contrary to y^e Common Law of England.

27. You did very well the last year, in sending us y^e copies of your Cash book to y^e time of y^e departure of y^e last of our Ships from you. For y^e future we would have you with y^e copy of yo^r Cash book, send us also copies of your Journal & Ledger to y^e same time, tho' they be not balanced: And give order at Hugbly, y^t they doe by y^e last Ship from thence send us y^e copie of their Hugbly Cash book, & y^e transcript of their Journall & Ledger to y^e Day of their said last Ships departure; that we may have as full a prospect as may be, of our future affayrs.

28. It hath pleased Almighty God on the 6th of this instant Feb^r to call to his Mercy o^r late Sovereign Lord King Charles the 2^d of blessed memory, by whose decease y^e Governm^t: is descended unto his Brother his present Ma^{ty} King James the second, as you will find by y^e enclosed prints, to which we refer; who was proclaimed ye same day with great solemnity, & the generall acclamacons of the People; And y^e affayrs of y^e Kingdom (blessed be God) continue in a very peaceable quiet posture as before, His Ma^{ty} is an Adventurer in y^e present joint Stock, & is graciously pleased to vouchsafe us all possible encouragem^t in the carrying on of our trade. And so we comit you & our affayrs to the guidance & protection of the Almighty & Remaine,

We send you enclosed a list of the most proper Goods we can think of to be provided at y^e Coast and Bay for the year 1686, which we judge for o^r service; that you should be timely possessed of; Although peradventure y^e new Com^{ts} after o^r next Sale may see cause to make some addition or alteracon therein. Our order for permitting y^e exportacon of Corral beads, we send herewith, which you are to observe.

OUR AGENT AND COUNCIL
IN THE BAY OF BENGALL.

LONDON, THE 13TH FEBRUARY 1684.

Wee have wrote severall Paragraphs relating to yo^r Agency in our letter to our President and Council of ffort S^t George, which they will communi-

cate to you; and unto which we require yo^r conformity equally as if they were contained in this life.

We hope to hear our affairs in y^e Bay are now in a better condition then ever they were since this Stock began; And that those old cheats of Dustore, Piscashes from o^r black Merchants, & all other abuses of [y^t] kind wilbe utterly abolished and eradicated by the vertue of our present Agent and Council: And therefore we doe give you full power not onely to govern all our ffactories by our former rules and Orders, but to make such new rules and orders as you shall find necessary for preventing of all frauds and abuses; And to suspend or expect from our service (or otherwise to fine, according as we wrote you last year for small offences) any that you shall find unfaithfull to us, disobedient to you, or idle, or debauched after admonition.

The false packing of our Silk last year, we must again mind you of. It was so wicked an abuse, that we will never pardon any that had a hand in it, or connived at it: And therefore we would not onely have you without favour or affection to turn out all such Offenders, but to arrest their Persons, and send them up to the ffort, to be proceeded against there by our Attorney Generall in that Court, which is appointed by his Maj^{ties} last Charter of the 9th August 1638 to try and adjudge all Mercantile or Maritime Causes. With such [Delinquents] send up in writing y^e proofs you have against them upon Oath, that is [Corpus] cum causâ. The want of such Courts formerly hath been the great cause of all the cheats and abuses which have been practised especially in the remote ffactories of India.

You know we have established a duty of 2 p^{er} cent Consulage upon all English freeman (not being the Comp^{an}: servants) that drive any trade in India; unto which Constitution [those freemen] (th^{ro} the corruption and connivence of our own servants) have not yet given obedience. We doe therefore hereby impower [and require you] to demand the [Arrerages] of that [Consulage from all such English as have traded] under our priviledges ever since that [Establishm^t: by us:] And if any doe [refuse] to arrest them in our Attorney Generals names, & send them up to the ffort to be tried there, [sending wth: them the] nearest computation you can make of the value of [what they have] traded for. In which if you should committ any mistake by reason of the incertainty of such private trade, the parties in arrere shall have liberty for what is past, to cleer themselves of any overcharge of yo^r: by their own oaths.

But for such as shall be willing to compound with you for what is past, and promise to be conformable to the Comp^{an}: Rules hereafter, you may compound with them on reasonable terms, and ease them of the trouble & charge of going up to the ffort.

We have wrote our Generall of Surrat to maintain alwayes a bold brisque Vaqueel at the Mogul's Court, that will speak freely to y^e Courtiers upon occasion. With him and no other we would have you to correspond for the future.

If M^r Littleton refuse or neglect to give obedience to his Ma^{ty} Privy Seal, seiz his person as a Rebel, and send him prisoner on board some of our Ships for England, by force of Arms.

You will hear many wayes what a full sentence passed in his Ma^{ty} Court of Kings Bench on the 31th January last against all Interlopers, & for the legality of his Ma^{ty}: grants to the Comp^{an}: which is such an establishment in Law, that our Adversaries would never generally understand before, th^o we had alwayes reason to beleive it would be found so upon tryal.

The Josia, we suppose, cannot sail from the Downs before the midle of March: All the Bullion on board her you are to reserve to the use of yo^r Agency, but none of the goods more then you are sure to put off presently. It being our positive resolution never to have any remaines lie by the walls in those ffactories as they have most shamefully done formerly: And therefore we doe require you to send by the Josia, or some earlier dispatcht Ship to the ffort, all y^e Europe goods, that you are not sure [instantly] to dispose of as aforesaid.

We have formerly intimated to you, that our Worthy Presid^t: & Council of ffort S^t: George have most prudently and honestly reduced the black Merch^{ts}: in

almost all our ffactories in the Ginge Country, and upon the Coast of Choromandel to take in payment for their Callicoës &c^a: $\frac{1}{3}$ ^d φ C^t: in goods and we are yet to seek for a true cause why you should not be able to doe the same thing in most of our ffactories of Bengall, except Cassumbuzar and Pattana, especially now that you are freed or sure to be [from the Competition] of Interlopers.

Wee observe by the Cassumbuzar Diary, that they took up mony there at [12 φ C^t: φ anfi:] which rate we would not have you exceed in any case [now y^t: you are stockt soe sufficiently,] and you will be the easier [able to hold all persons] to that certain rate, because after this year we shall be so crowded with India goods here, that we shall not burden you [with Tonnage, as we were] forced to doe while we were striving with Interlopers, as also to sell our India goods here, one with another almost as cheap as they cost us wth: freight and charges. But now as it must be o^r work after a litle time to raise the price of o^r Commodities here, so it must be yo^r: to pull down the rates of all goods in India, wth the corruption of our servants, or the presumption of Interlopers hath kept to higher prices in India, then they might otherwise have been afforded at.

Raw silk and Taffaties are alwayes the most noble and Staple Commodities yo^r Agency affords: Provide all you can possibly of both kinds, and of the specifical sorts which you have been often informed by our l^{tes}, Lists &c^a: doe turn best to acco^t here.

It hath pleased Almighty God on the 6th of this Instant february to call to his mercy our late Sovereign Lord King Charles y^e second of blessed memory by whose decease the Government is descended to his brother his present Ma^{ty} King James the Second as you will find by the enclosed Prints to which we referr, who was proclaimed the same day wth: great Solemnity, and the generall Acclamations of the People. And the affaires of the Kingdome (blessed be God) continue in a very peaceable quiet posture as before. His Ma^{ty} is an Adventurer in the present Joynt Stock, and is graciously pleas'd to vouchsafe us all possible Encouragement in the carryng on of our trade.

On this ship comes M^r: Daniel du Bois ffactor, and George Vernon, and Thomas Jordan Writers whom we have chosen to serve us in the Bay, one at 15£ a year, and the other φ 5£ a year a peice, they are under good Characters, and you may dispose of them where they may do us best service.

Inclosed we send you our order made, touching 5 bales of broad cloth formerly sent on this Ship for which we have made an allowance to the Owners, we would have you, take a strict examination as therein is directed, and cause Satisfaction to be made to us for the same, and give us an acco^t: of yo^r: proceedings. And so committing you and our affairs to the guidance and protection of the Almighty, We remain

Yo^r: Loving ffrinds.

OUR PRESIDENT COUNCIL
AT FORT S^t: GEORGE.

By the Chfeparty of the George, you will find y^t: for her better stiffening, y^e Owners are obliged to lade & carry out Fifty seven tons of Iron kintlege: And in regard it was not procurable here in London, We have agreed, y^t the like q^{ty} of kintlege in our Lead shall be deteyned on board her for y^e: accomodation of her voyage homewards w^{ch} you are accordingly to permit. The said 57^{tn}: being to be accounted as part of y^e 700 Pigs of Lead mentioned in her Invoice, w^{ch} he is to bring with her for o^r acco^t, unless you have other kintlege goods by you besides Saltpetre to supply her in lieu of y^t 57^{tn} of Lead.

Herewith cometh our new list of Goods, which we intend you should provide for o^r next years Shipping: In w^{ch} we have wholly omitted several sorts of

Goods, loseing considerably thereby, being provided of other sorts from Suratt y^t will answer them, & turn us better to acco^t. We would therefore have you after y^e arrival of this list with you, to forbear buying any more, (than what you have already agreed for) of any sort of Goods omitted in this List, thô we wrote for them in o^r former. And after y^e departure of this years Shipping from you, to set yo^rselves on providing Goods for us, according to this enclosed list for to be in readines for o^r next years Ships, w^{ch} to yo^r parts & y^e Bay, we compute may be about 2500 tons.

We send you o^r printed Sale book, by w^{ch} you will see how much we lost by some sorts of Goods, & get litle by others: It must be yo^r endeavo^r therefore now, to bring down y^e prices of them with you, w^{ch} we hope you will, being free from Interlopers Ships, And y^t you be more careful in y^e sorting of yo^r goods than you have been of late years. Send copy of this lre & o^r list down to o^r Agent &c^a: in y^e Bay.

Upon receipt of y^e Proclamaçon herewth sent you, you are to cause our dread Sovereign King James y^e 2^d to be proclaimed in yo^r Fort & Town with all due solemnity; & to send one of y^e said Proclamaçons to S^t: Helena, wth direcçons to o^r Gov^r & Council there to doe y^e like. And so comēding you & o^r affairs to the guidance & Protecōn of y^e Almighty, We remaine

OUR PRESIDENT AND COUNCIL
OF FORT S^t GEORGE.

Wee have but little to add to what wee writt by y^e George but to tell you that wee have and shall continue to have a super abundant quantity of Suratt and coast goods by us althô by reason of the ill mannagement of our affairs last year in Bengall, wee have a present want of those sort of Bay goods mention'd in our last list & therefore wee enjoyn you to use your utmost endeavo^r to have all our Factories in the Bay very well supply'd wth: Stock & those investments enlarg'd especially in the right kind of raw silk, and wee shall think it an acceptable Service to us, if you can enlarge the Bay investments, though at present you something lessen your own from the Coast and Gingeel Country, especially if you have been so fortunate by the trade of your private ships, as to stock yourselves

well wth Pepper and China goods which will not only serve to fill up o^r: tuffage but if well bought by you there, will turn us to a better acco^t then coast goods, untill this glut bee off our hands.

Your Package in all places upon the Coast and in y^e Gingee Country, is so miserably bad, that wee can't too often tell you of it, your wax clothes are too scant, made of old worn cloth only colour'd with Turmerick very little appearance of wax in them, not half enough for security of the Goods, so that there is a necessity if you cannot make your people do that business honestly, that you do take care in time, to gett a full supply of better wax clothes and Gunneys from the Bay, where their Package is much better, as wee suppose our Presid^t: hath seen at his late being there.

Wee would have you cause all the Sailcloth you send to bee whited, which would render it much more vendible here, and to have regard to what is mencon'd in our list.

Wee have writt you often about the use of those screws wee sent you, which wee would have you set up in Some convenient place, and make some tryall of them, to packe our Sail cloth or other Course goods closer then they have been, Cap^t: Haddock that saw them us'd at Surratt assures us, they may bee of great benefit in packing of other goods as well as Cotton wool, when you have the right art of using them, which you must not expect to attain without some tryalls.

Your Cummm betellees and Gulcondah Betellees sent us this year come out so extreemly dear, and bad that wee cannot apprehend it possible, that they should cost such dear rates as they are invoiced at, but do rather incline to believe y^t some person trusted by you defrauded you in their quality, pray inquire strictly into this abuse & if any of our own servants were guilty of it, trust them no further in our service.

Wee find that the Wax cloth you make use of in packing our goods, being green and not throughly dried, soakes into the pieces that lye uppermost, and spoiles many of them, great care must therefore bee taken, to prevent the like dammage for the future. So commending you and our affaires to the guidance and protection of the Almighty We remain

OUR AGENT AND COUNCILL
 IN THE BAY OF BENGALL.

What we have writt our President and Councill of ffort S^t George, you may understand by the inclosed which we send you open for that purpose, and it must be your care constantly to supply the ffort with a sufficient Store of Wax Clothes and Gunneys, that they may never again be put to such Shifts for packing Stuff as they were last year.

Do you likewise take care to make the same beneficial use of our Screwes as we have recommended to them, and be as circumspect as you can possibly in the close and safe package of all o^r goods, That the Commanders & Owners of o^r Ships may not have such just cause of complaint in y^r kind, as they have had these two last years.

By the Defence in 1683 We received the Hughly Generall books, Z beginning the 1^{mo}: May 1680 and ending the 30th April 1681 which have been compar'd perus'd, and the Accompts here settled accordingly, But of late they have been missing, and though a strict search hath been made for them, Yet are not found, and are almost out of hopes to find them any more, wherefore desire that you will send us by the return of these Ships a duplicate, for that we have often occasion to use them, We remaine

Yo^r: loving friends.

1. Wee are now to answer yours of the 31th: July & 28th: August rec^d: & the Royall James, which arriv'd in the Downs the 10th: Instant for which God bee prayed.

2. Wee like very well your disposition of our stock and Ships, and particularly your sending M^r Ord & M^r Cawly to be 1st and 2^d of that new factory of Atcheen, whom wee do confirm in those stations, hoping they will get y^e liberty of fortifying at some convenient place, which would bee greatly to our satisfaction. But wee are against any other new factory, much more against any new fortification at any other place, but where wee shall design to make our future settled head ffactory for the South Sea and Pepper trade, for which purpose wee know not yet of a better then Atcheen or Hippines alias Princes Island, which S^r: Thomas Grantham took possession of, but whether hee withdrew his men from it again, after he had our order to forbear hostilities with the Dutch, wee are not yet satisfy'd.

3. Wee shall consider of the Conveniency or inconveniency of admitting rich Merchants to go to our fort as free Merch^{ts}, but in y^e: mean time wee are resolv'd to have our black town of Madrass wall'd round, & competently fortify'd at the charge of the Inhabitants, whether it please, or displease them, or anybody else, and therefore wee require you to go about it forthwith, and take Compass enough, and as you proceed, to levy y^e full charge thereof, of and from the Inhabitants by a pound rate, according to the respective value of their houses, which after this is done will be worth 3 times what they are now, so that wee shall do them good against their wills, which when they are older, and wiser, they will thank us for.

4. Your design of Inviteing rich Banians, & China Merch^{ts}, to live at the fort, is prudent and generous, and wee shall further you in it, all wee can, but the making a joynt Stock for y^e Inland or Country trade of India, here is impracticable, when they are upon the place, and have leisure to talk it out one with another, they may do what they will, with the approbation of our President and Council.

5. Notwithstanding what wee have said before, wee leave it to your discretion, whether to settle a factory at Pegu or not, but pray do nothing in that, but upon mature advice, and information, good priviledges, and all the morall assurance you are capable of attaining, that the charge of the factory will bee maintain'd by the profit of that trade, over & above what wee may hope to gett, by the same Stock imployd therein, if it were mannag'd at the fort singly, or else wee do but rise up to fall, and make a noise for nothing.

6. Wee are glad to find the trade of rice may be profitable and now wee are full of goods at home, and y^e Interlopers suppress, wee hope you will in few years, bee in such posture of defence, as not to fear a war from the Natives, but rather to make them fear you, or at least deal justly with you, according to our priviledges, otherwise wee have spent our money vainly for many years past.

7. M^r Bigrigs losse wee justly lament, but hope it may in some measure bee repair'd, by the Vertue and integrity of our President, and our second M^r Yale, whom wee do appoint to succeed our President, in case of the death, or absence of our now President M^r William Gyfford.

8. Wee have & do appoint, our Tonqueen, Atcheen, Amoy, Tywan and all other South Seas Factories, under the Conduct, & governm^t of you our President and Council of fort S^t George, because Surrat is more out of the way, by y^e trouble of doubling y^e Cape of Zeilon.

9. Wee would have you stand up on your terms with Lingapa, & make no investments in his Country, till wee are repossess'd of our 7,000 Pag^{os}:

10. The souldiers wives shall come to their Husbands, if they can find means to satisfy, or pay the Owners for their passages, and for such soldiers, as are single men, if you could prudently induce them to marry Gentues, in imitation of y^e dutch polliticks, and raise from them a Stock of protestant Mestizees

11. M^r Ivat never dealt well by us, so you are not to depend much upon his information, when your private ships come to you full loaden with Siam pepper, we will believe these stories, till then we shall be doubting, haveing been deceiv'd by them 2 or 3 times already.

12. But your design of bringing Pepper to the fort, from the Muzoar Country, and by degrees encouraging the Planting of it nearer to you, is a noble design, and worthy of your endeavo^r, and therefore wee would have you encourage it, though it bee at first a little to our loss, for wee are not so dismay'd, by three hard years, but wee have yet as much zeal for y^e publick good of our Country, as ever wee had, or can have for our own private advantage.

13. Your better modelling of the dustore to the Comp^{ys} just advantage, is likewise worthily perform'd by you, if your vertue at the fort, and your just circumspection, and severity, be such to all inferiour Factories, as that you can keep out Piscashes from creeping into the room of dustore, which wee will not doubt from such worthy persons as you are, that are and may bee rich enough, by the great indulgence of trade wee give you, without such base sinister Contrivances.

14. Your designed methods of improving our Customs, & buildings of Shops in the Bazar, as likewise sufficient storehouses for Paddy, and Rice, are much to our content.

15. You need not now take care for dwarfs, the Duchess of Portsm^o intending suddenly for france.

16. Wee shall furnish you with English Plants, roots, flowers, and seed, by our winter ships, now wee have not time, and it is too late in the year.

17. You must by noe means, bee thinking of settling at Gulcondah which is but putting a pawn into the hands of those, that are already dispos'd to suppress your power.

18. You may draw any bills upon us, when you think it for our service, but not at above 9th Ψ Pag^{os}:

19. M^r ffreemen, and M^r Brown, are able men, but except their goods come better sorted, wee shall have no opinion of their integrity; M^r Wilcox &c^a as you do well observe have deserv'd exceeding well of us, as we hinted to you in our former lres.

20. We are providing another Artist, to send you to Essays of Bullion.

21. Faulcon of Syam will certainly prove an ill man, by what wee have seen of him, wherefore wee advise you, to have no Confidence in him.

22. Wee would have you forthwith settle a factory at Amoy, if you find there is leave given you for a trade, and wee shall send a ship, or ships, that way as soon as the season of the year permitts, of which you shall bee farther advis'd, by the Josia, that is to proceed directly for the Bay, in 8 or 10 days time, This being but

a brief & hasty answer, intended by the George, now in the Downes; if it can be sign'd time enough to Goe by her.

23. Since it hath pleas'd God to deprive us of M^r Bigrig, Wee would have you forthwith send for M^r Lucas from Madapollam, to take his place in our Council at y^e fort, we having a very good opinion of him, and we would have you put in his stead as chief of Madapollam M^r Ja Wheeler of whose ability, sobriety, & sincerity to us, wee have great expectation.

24. Enclosed is y^e copie of a Letter we have now wrote to o^r Agent & Council in Bengal, which we judge may be for our service that you should see & consider of; To y^e end you may likewise advise them what may be most conducible to our service in all respects, as Circumstances shalbe in India when these l^{tes} arrive there: and for y^e same reason we have ordered o^r Secretary to enclose to you all copies of o^r this years l^{tes} to y^e Bay.

And so comending you & o^r affairs to the guidance & protec^{on} of the Almighty, We remayn,

OUR PRESIDENT AGENT &
COUNCILL IN THE BAY OF BENGALL.

Herewith you will receive Copie of our last of 3^d October w^{ch} y^e Persia Merchant unto w^{ch} wee have little to add but to inclose an Acco^t given Us by our Warehouse keeper of the ill Package, & sortm^t of divers of our goods to our great prejudice, w^{ch} wee would have you take notice off, & see y^t for the future our goods be sent Us in better condi^{on}, & wthout Errors in their marking.

Wee have entertained M^r Sam^l. Cudworth as a factor he is Brother to M^r Jn^o: Cudworth formerlie of our Com^{tee}: He is und^r: an Extraordinary Character, having wth great Comenda^{on} served out his time to a Merch^t of this Citty, He takes passage on the Chandois Cap^t: Bonneel Com^{mand}: & desires to be placed in some of y^e Subordinate Councils in yo^r: Agencie, w^{ch} wee have consented to, & would have you dispose of him accordingly; There alsoe comes with him M^r Jn^o. Hannum, M^r Jos. Loe, & M^r: Jos. Stavely, ffactors who are to be ym^ploied in y^e Bay.

M^r Jonas Hind, & Abraham Ward his Apprentice are taken into our Service, as you will find by a L^{fe} apart from y^e: Com^{tee}: of Secresie to w^{ch} wee referr.

M^r Henry Watson is likewise entertained to serve as a Chyrurgeons Mate at Hugly, or Cassumbuzar (where there is most need of him) for 5 years at 25th a month for y^e first two years, & 30th a Month for the three last years.

Wee have ym^pmitted M^r Jn^o: Bullock to take his passage on y^e s^d ship for pilot- ing of ships either on y^e Coast, or in y^e Bay, as there is occasion. Wee remaine

Yo^r loving freinds

[Endorsed:] List of Goods to be provided :—No. 14.—Rec^d of the George the 11th Augst 1685—Entered of S.H.

For yo^r Long Cloth ordin^{ry}. N^o: 1: 2: & 3 we have found it of late years generally thinner than formerly ; which you must endeavor to have remedied, & those y^t shall prove so, tho' they be fine threaded, you must put them to the lower N^o:

For yo^r browne L. Cloth, let them be all thick & close struck, & none thinn Cloth.

For y^{or} fine L. Cloth, N^o 4 & 5, We have not of late rec^d any N^o 5 nor have you kept them up to Musters of former years for their goodness, w^{ch} we are willing to excuse for the time past, when you were opprest by y^e Interlopers. But now shall expect y^t you will reduce yo^r Merch^{ts} to y^e keeping up of all yo^r Goods to their former goodnes, both for length, breadth, fyneness, & thinness.

ffor those Long Cloths we write for without stiffening, we would after whitening have the Congee to be wholly washt out of them & beaten up without any Congee, they being intended for Dying for Spain &c^a And we cannot here wash y^e Congee out of them ; Nor will they when y^e Congee is in them, take so good colors as without it.

We have rec^d great dam^a by y^e blew L: Cloth, being beaten up before it was through dried, whereby whole bales have come to us Mildewed, w^{ch} you must take[care?] of for the future.

ffor yo^r ordinry Sallampores N^o: 3 & 4 Congeroon Cloth yo^r N^o 7, 8 your Pullycherry Cloth N^o: 9 & 10 have not of late years been so kept up to the Musters goodness as formerly, w^{ch} we hope you will take care to remedy ; & for their sorting.

Yo^r Sallampores N^o: 1 from Pettapollee proved very dear, we being but just Savers by them. Those PP. N^o 2 made some advance but those PP. N^o 3 None at all. There must be great carelessness in the buying or sorting of them. For all the fyne Sallampores LC. & Parcallaes both from thence & Mechlep^a were very dear bought.

ffor yo^r Sallampores N^o 18, 19 & 20 & Parcallaes N^o 14, 15, 16, we would have you take care in y^e well buying of them, keeping them up to their full goodness, & true sortment.

ffor yo^r Book Parcallaes, they will not turn to acc^o here, having a great many upon o^r hands, therefore wrote for none of them: but if you can buy them for y^e future, 20 % C^t cheaper, advise us thereof, & this by that time we have disposed of what we have remaining, we shall give you further order about them.

ffor what Morees we write for, let them be as cheap bought as you can, and even sorted.

Yo^r Izarees is a sort of Cloth will sell well here, if they could be bought cheaper: but at y^e last prices, we are losers by them.

Yo^r: Bettellees of 40 & 50 Coveds, have much lessen'd in goodness of former years, being coarse & thick struck. If they were made fyne, even & thinner, they would doe much better.

Yo^r: Conimere Betellees C N^o 25 were very near as good as those C N^o 26 & your C N^o 28, though they all cost y^e same price as C N^o 25, yet sold for above 6^s a ps more, though this sort be not named in o^r list, yet let some be sent.

Oringal Bettellees not like what in former years sent, & refer to our list.

A quantity of yo^r Dimothies & Dia^{ps} would sell if bought cheap, but we were losers by those sent Ψ London; & those bought at Mechlep^a th^o they cost more, yet yeilded less by 12^d Ψ Ψ s than those from Pettipollee: referr to the list.

The white broad Ginghams from Pettipollee P N^o 1 & 2. were very ill whited & drest; Many of w^{ch} had rec^d dam^a, & washt up agen in y^e Country with you; But the great defect of them is, y^t the warp & yⁿ woof are not alike, one being wove with one thread & the other with two threads, which you must remedy, & give order for the weaving of them both warp & woof with Double thread.

For the 500 Ψ s of double threaded white Ginghams w^{ch} we write for of such as were sent home in Agent Foxcrofts time, they must be close struck & thinn, & you must endeavor to buy them cheap, y^t an increase of their Vent may be procured here; for at y^e former prices with you they will not turn to acco^t.

Yo^r fine Neckcloths formerly were used to be kept up to y^e full goodness of your 40 or 50 Cov^u Bettelles, but have much decreased therefrom of late years. Take special care to reduce them agen to their former goodness, & let not each Neckcloth be longer than 1½ yd, w^{ch} is 16 Neckcloths in each peece.

Send no Gulcondah Chints, Carpets, Betelles Gunapore from Metchlep^a:
[*Lacuna*] Shirts of Moorees & L: C.

The Medapoll^a L. Cloth N^o. 2 fyne, did but just make us Savers, & by y^e N^o 3 we are losers 6 Ψ C^r.

The Dungarees N^o: 1 from Metchlep^a: we lost above 40 Ψ C^r: by them.

These preceding Notes concerning o^r Goods you must not read, or pass cursorily over, but take circumspect, & effectuall care y^t we may have noe cause of y^e like Complaints hereafter.

ATT FORT S^T GEORG.

We have by the Royall James received a small parcell of Cotton Stockings in pursuance of former directions, but finding the same in an English Manufacture, and that it may be a great discouragement to the poorer sort of people which are very numerous and imployed in that trade. We think it advisable and accordingly do direct, That no more of them be sent us though they should be provided for us, but dispose of them elsewhere the best you can, neither let any more Shirts or Shifts be bought or laden on any of o^r Ships for o^r account for the future, Nor any Persian or Golcondah Carpetts of any Sort they being very dear bought and lying upon our hands. OUR PRESIDENT & COUNCELL
OF FORT S^T GEO.

Wee can now but briefly tell you, y^e wee are amazed at the prices you have Invoiced to Us yo^r Owne Goods from China, being 50 & Cent (as neere as wee can guesse) more than they will yeild here. But for a more &rticular inspec^{co}n into this matter, Wee have appointed a Select Com^{ee} to drawe up a &rticular report therof which shalbe sent you. In y^e mean time wee require you to recover from the Proprieto^r in your China Pincke Cargo, or to detain in yo^r hands for our use So much as may make us satisfac^{co}n w^{ch} wee compute at 50£ & Cent of y^e Invoice price at ffort S^t : George as aforesaid.

The Rubarbe is not worth y^e freight, The Thea, generally trash. Captain Harding brought better w^{ch} cost him but [twelve pence] & y^e [sic] & pound in China. The Thea Cups are [dear at] 1^d a peece at y^e ffort, breakeage considered. But after our Sale you shall have a just acco^t of every &rticular; that each interested &rtson in yo^r Pinck, may refund their Proper Quota of our losse unto us. [Wee depend upon our President & M^r : Yale as they are chiefest in authority & in] our favour to be the first & forwardest in doeing us this just right, It being more than Sufficent that wee have been out of our mony for, & runn y^e Risge of yo^r Goods from ffort S^t George hither.

We are not only willing to indulge to you, an unlimited trade in India, [with] yo^r own Stocks, but to encourage you in yo^r Said Trade, But thus to trade & [put] Comodities upon Us at double their [Value] is intolerable.

Wee shall at more leisure, think of proposeing a method unto you, wherein wee may be safe from losse, & you may [be] Supported in all laudable attempts [for the] enlargem^t of Trade, w^{ch} you may expect from us in a few daies, if [these] Westerly winds keepe y^e Josia longer in y^e Downes. OUR PRESIDENT & COUNCIL
 AT FORT S^t GEORGE.

Wee have rec^d: your severall letters by the Beaufort and Rochester, which we shall not now give any particular answer unto, with the former two ships arrived the Nathaniel y^e 7th: Instant, and about 8. dayes before ship Charles the 2^d and Asia for which God be prais'd.

Wee very well approve of that agreement you have made for a settlement at Priaman, and shall cultivate from hence y^t foundation w^{ch} you have laid there, as soon & in y^e best manner we can.

Wee are now so full of all sorts of Coast goods, and in expecta^{co}n of such a further supply, that we must for a time lessen our trade thither, wherefore we desire you to make provision of no other goods for us, but what we have positively [advise] for, untill you have rec^d: our further orders by our next shipping. In the mean time you will have leisure we hope, not only to putt off all our old ends and remains, but to buy the Commoditys at least 20 ꝓ Cent cheaper, or at least so much better sorted than ever they were, since that year M^r Bigrig had the care of our warehouses, which hath not been since paralleld, This affair of sorting is of most principall concern to us, & therefore wee must desire our President himself, as often as possibly he can, to inspect the sorting and see right done us therein.

Metchlepatam is such a chargeable & useless Factory to us, considering the nearness of Maddapollam & Pettipolee, that we do hereby require you forthwith to dissolve it, and bring away all our remaines & moveables from thence to ffort S^t George.

And by our shipping we will write you how to dispose of M^r freeman and our other servants reduced from y^t ffactory, in y^e meantime they may bee assistant to you in any service att the ffort.

Wee are so well satisfy'd in M^r Ords acting for us in all places where he hath been lately imploy'd, that we resolve he shall continue Chief of our Factory at Priaman, & M^r Cawly 2^d, without being Superceded by any other person of w^{ch} you are to take notice.

Pegu will never be a place for us, worth y^e charge of a factory, so we would have you proceed no further therein.

Wee hope you have not resettled any Factory at Syam, wee having found by long experiance, that place will never doe us any Service especially while that wicked fellow Phaulkon hath any authority with the King; by y^e: perusall of all the Syam Bookes and Papers, we finde that M^r: Potts M^r: Strangh and M^r Crouch did Serve us worthily, and were true to Our Interest according to y^r: abilities, in y^r: respective capacities; but they were Overpowerd and intollerably abused by Phaulkon; and therefore we doe desire you by the 1st: Oppertunity to demand and Recover if you cann, Sattisfaction of that King; and that Phaulcon may be punnished according to his deserts, in Order whereunto recall that ffactory as soone as you cann.

OUR PRESIDENT AND COUNCIL
AT FORT S^t GEORGE.

Wee have writt you already overland, and to be plain with you we must now tell you, we are not Satisfy'd with the Sorting of any years cloth, since M^r: Bigrig did that work, neither will it be endured to have that work slighted in any place, it being our most principall concern, and therefore we shall by our ships write you, to displace such sorters, as we judge may have been unfaithfull to us, in any places (after we have taken a thorough examination of all goods) and now M^r Lucas is in that employ at our ffort, we shall expect, that all our Cloth should be of full goodness to our Musters, and if we find it otherwise we shall trust no more nor believe him to be an honest man, what ever excuses are wrote us, and therefore that he may have no pretence, to lay the blame on any other in his absence, we require you and him, that he bee alwaies resident at the ffort, and not sent upon any other business to any other place.

Wee hope M^r: Gyfford during his Presidentship will have adventured by some reasonable waies to encrease our Revenue there, to such a degree, as may fully

answer the whole charge of Government, Garrison, Factory, Shops, and other contingencies, which certainly is not a thing of such monstrous difficulty, as to be so long a hammering out, after such a place as that is grown into so great a trade, and shipping, and such multitude of inhabitants. We think most certainly if the Dutch had that place, under those circumstances you are, and those libertys we give you, and all our Inhabitants, they would raise from it twenty shillings for every single shilling we raise, what hinders but that we may in some proportion imitate their wisdom, (tho [wee hate] their injustice and oppression) you have from our Sovereign, and from us, as much power as the [Generall] and Council of Batavia have from y^e States Generall, and we do now as little fear the King of Gulcondah's displeasure as they can, the Chingee Country being sufficient to supply us with what goods, we shall have occasion for, for some years, wherefore now is the time (despising all base compliance with the natives of the place for private benefitts) to encrease our Revenue by some means or other (except by encrease of Customes, which we would not raise as yett) and we shall be glad that our President Gyfford, (who we must alwaies own hath done well for us, in most other things) should have the honour of deserving alike from us in this Kind, which he hath not as yet done, the reason we know not, unless it be too much compliance with the Natives, but we will not have any further delay in this matter, And therefore we do hereby require our President forthwith to put in execution all we have formerly wrote him, touching that revenue, and that he do encrease it considerably, to what it now is, by such ways and means, as he and our Council shall think most expedient, and least burthensome to our Inhabitants (except Customs as aforesaid) and that your next letters after the receipt of this, may inform us, not what you intend to doe but what you have actually done in this matter, it is our ambition for the honour of our King and Country, and the good of Posterity, as well as of this Comp^y: to make the English Nation, as formidable as the Dutch, or any other Europe Nation, are or ever were in India; but that cannot be done, only by the form and with the methods of trading Merchants, without the Politicall Skill of making all fortified places repay their full charge and Expences.

We have considered of the liberty you have wisely artioled for coyning of money, at Priaman, but in regard you have a Mint already, and your place is the Residence of our Presid^t, We do not think itt conven^t presently to send instruments or Coyners from hence, but have resolved that our Chief & Council there, shall proclaim all the species of Coynes following curr^t in rec^d & payments at Pryaman viz^t: Pag^o: at 10^s a Spanish Dollar at 6^s a Dutch Dollar 5^s at which rate it goes at Atcheen, & all the South Seas over, y^e Rupee att 3^s a fanham at 4^d Pice at $\frac{1}{2}$ of a penny & Pettys at the rate they formerly went in Bantam Viz^t [lacuna] to a peice of $\frac{8}{10}$ Ryalls, and accordingly we would have you forthwth to get stamps, & immediately goe in hand with coyning Rupees, the motto whereof may be, the English Rupee on one side, and the Comp^y. armes on the other and use your own fancies in y^e impressions of y^e small money, make your Rupees as near as you can, constantly of the fineness & weight of y^e Bengall Rupee, & your Dutch Dollars as near as you can, of the alloy and weight of the Dutch dollars usually coyn'd by the Dutch East India Comp^y. currant in Batavia & all the South Seas, but let y^e inscription of it on the one side be, the English East India Dollar, & on y^e Reverse this Comp^y. Armes.

It is not unlikely but that y^e King of Gulcondah having many years permitted your Pag^o: to pass throughout his Country, may likewise allow of your Rupees, although our present direc^{on} to you is not to impose them on his, or any other Kings or Rajas subjects, without their Phirm^d first obtained for that purpose, but only to send such a quantity of your new & old coyne to Pryaman, as you think they may have occasion of.

We shall dispatch 2 great ships to you in November or Decemb^r next, & upon them some souldiers, but our 2 ships shall not stay with you but proceed as soon as is possible for Bengall to take in what goods can be procured there, and from thence to return again to you to fill up &c^t taking in goods by the way, at

such of your Northern ffactories as you shall direct. So committing you & our affaires to the guidance & protection of the Almighty. We remain

OUR PRESIDENT & COUNCIL AT FORT ST. GEORGE.

1. We have been so particular in all our letters to you overland this year of all w^{ch} We send you Copies herewith that. We have not occasion to write to you So largely by these Ships as we had formerly, when we Sent you more Shipping and Stock.

2. The reasons We send so little now for the Coast and Bay are,
first, Because We know not in what Condition Our affairs may be now in the Bay.

2^{dly}. Because We have vast quantities of very many sorts of goods upon our hands, and now that y^e Interlop^rs are perfectly subdued, and you will in all probability be troubled with none of them, it wilbe in vain for us to clog our selves with multitudes of goods here untill part of our Stores lying dead by us (under hazard of fire and other accidents) be disposed of, and the markets become a little quicker in Europe, than they have been of late years.

3^{dly}. Though we hope we have made provision for the worst that can happen in the Bay, yet We Shalbe very glad that those differences there between our Servants, the Nabob, & his inferior Governors may be amicably composed.

3. What our Stock is wth we have now Sent for your Presidency you will understand by the bills of Loading and Invoyses accompanying this paquet, & we hope you will find it Sufficient wth. what you have of Ours already to dispatch those 3 Ships to us in due tyme especially considering that you will not be now under the confinement of one Single years demorage, We having contracted with all our own Ships Sent out this year, to serve us if there be occasion for it 2 years in India upon demorage, notwithstanding w^{ch}: when once our affairs are well Settled in Bengall, We would have yⁿ dispatch these Ships to us as soon as you can, or two of them, if you can have such an advantageous freight for one of them to Persia from Metchlepatam, as M^r freeman procured for the Syam Merch^t. last year, in w^{ch}. he did the Comp^a: very good Service, and we hope may do the like this year for one of the best of our Ships, altho' Our Factory at Metchlepatam be dissolved according to our former orders sent you overland.

4. We then writt you that by our Ships We would direct yⁿ how to dispose of M^r ffreeman and the rest of our ffactors of that dissolved ffactory of Metchelapatam, and now We do accordingly appoint M^r ffreeman to be of our Council of ffort S^t. George next above M^r. Littleton untill we can provide otherwise & better for him, and for the rest of Our ffactors late of that place We must leave them to the disposi^{ti}on of our President and Council to dispose of them where they may be most Serviceable unto us, according to their Seniority and Meritt, We say both Seniority & Meritt, for we shall alwayes reckon Seniority no title to any preferment in our Service where there shal be found Sloth profanes, Infidelity or other defect of meritt, as there Seems to us apparently in M^r du Jardin & M^r Ramsden both whom We do hereby dismiss our Service & require yⁿ to cause our Attorney imediately to prosecute them, and proceed to Judgment & Execu^{ti}on against them for y^e debt w^{ch} each of them do ow us of w^{ch} We send you an acco^t under M^r Heyers hand inclosed.

5. It is in vain for us ever to make laws and orders if our Servants may So Shamefully break them Impunè, and if we cannot, (or our Governors will not) punish the offenders according to law in that Country where their offence was comitted as the Wise Dutch alwayes do, and We and you must if we will discharge uprightly that trust which his Ma^{ty} and [the Adventurers] have Comitted to us, We say his Ma^{ty}: as [well as the] Adventurers, for tho' y^e Adventurers have trusted us wth the managem^t of their Stocks, It is the King that hath intrusted us, and We, you, wth y^e governm^t: of the English Colonies, and wth. a power of making laws and constiti^{ti}ons Military & Civill to punish all Offend^r according to their demeritts, where the offences are comitted as afores^d. without the weake chargeable and ineffectuall remedy of Sending them home for England for that purpose.

6. We observe in yo^r of severall complaints of the ill Sorting of our cloth at Codalore, M^r. Davis Chief, and the like about M^r Wheeler, you have not yet fully informed us of y^e truth of the Complaints, and where the fault lyes, but We are Sure our cloth is ill Sorted, therefore wherever the fault is, displace any such unfaithfull Servant, and putt in their roome another more honest and Sufficient.

7. A list of what goods we would have you provide for these ships you will receive wth. this packet, Subscribed by S^r Jeremy Sambrooke to whom We have left y^e principall care of that busines.

8. Our Custom at your place, at Bombay & Pryaman We have established inward from the Sea at 5 P^{c} and So we would have you exact that duty punctually from all persons whatsoe^r from & after the arrivall of these ships, it being of absolute necessity to us to levy Such duties from the Inhabitants of our fortified places protected by us, as may defray those excessive charges w^{ch}. you see we do freely ingage in for the Hon^r & Interest of Our King & Country as wel as for the good of all P^{c} sons y^t live und^r o^r protec^on.

9. Some other laws We have likewise made for the good order, Security and governm^t: of that place, of w^{ch} y^u shall have a Copy, Subscribed by the Sec^y, when we have fully agreed the words of them.

10. We hope you have begun the walling in of the Black towne and taken [in a] Competent quantity of void ground, for We do expect that [towne] will yet much Increase in the number of Inhabitants and that our ground rents may improve to a very considerable value hereafter, the great liberty we give of all trade in India, the resort of our own Shipping, the strength of the place, and that great Justice We would have you Impartially exercise towards all Inhabitants, being Such founda^ons as must in tyme induce a great & famous Superstructure, and therefore We would have you be alwaies most kind and indulgent to the Inhabitants that observe our laws & protect them in the Same uninterrupted liberty of their severall Religions in w^{ch} they were born & bred as you do those of our own Church and Nation.

11. But all mankind enjoying such protec^on, assurance and property in their Persons and Estates, must & do defray the Charge of their protec^on & preserva^on in all P^{c} of y^e world wherever the Sun or Moone Shines, w^{ch}. is an undeniable argum^t. whereof you may make use as there shalbe occasion. And consequently the duty of Murage is incumbent upon all freemen (for such Wee acco^t our Inhabitants of Fort S^t. George to be) and y^u must exact it from them in Such manner as may be least offensive to any, So, the Danes at Trincombar with very little trade, & none of y^e best Governm^t. as you know, built their Bastions at Trincombar wth voluntary contribu^ons from the Se^vall Casts living under them & with a little kindnes Shewn, as Small Piscashes to y^e Cheifs of their Se^vall Casts to Sweeten their Concurrence when the Danes had little or no force to compell any Such Compliance (where reason would not prevail) w^{ch} God be thanked is not your case.

12. We have much more to impart to you touching this whole fleet and the disposition of the se^vall Ships w^{ch} compose the fleete & y^e se^vall Cap^{ts}, Lieut^{ts} Officers and Souldiers on board them, w^{ch} for Secrecy Sake we Shall not men^on in this letter, but referr you to our Secrett Comitte appointed for that purpose.

13. We are very carefull to cultivate that hopefull Setlem^t at Pryaman, unto w^{ch} place we have Sent near 800 Soldiers and 49 pieces of great Ordnance by two Ships the Herbert & Royall James, in company of the former went the Rose a Small Ship of 120 " whereof M^r. Thomas Lucas is Master & Sole Owner, wth. libty to trade in India, & have the freedom of our Ports, if he arrive in any of them, paying each tyme his Custom & Port Charges of one Barrell of Powder & one Do^l for Anchorage, w^{ch} we resolve all Ships whatsoe^r English or Strangers that have any benefitt by any of our fortified ports Shall pay us every voyage as they do at Barbadoes & all other English Colonies in America and accordingly We enjoyn you to exact it from all Ships, & if any freighted by our selves refuse it, upon yo^r returning us the Comand^r Names We shall stop it here out of their respective freights.

14. That you may understand upon what terms Cap^t Udall is freighted & that you need not make any provision for him, We have Sent you wth this packet a Copy of his Charterparty as also Copies of the Charterp^ties of 2 or 3 Small Ships that go along wth. this fleet for the Coast and Bengall, w^{ch} are not to return

for Europe untill nor except they Shalbe freighted for that purpose as you will See more particularly by the Said Charterparties.

15. We have bought a new Ship of 150 Tons w^{ch} We have named the Pryaman & She is now going thither M^r Unkettell Master, whom we have appointed to leave her there to the conduct of his Cheif Mate M^r Hobson, & He M^r Unkettell is to remain there Our Engineer, Master Shipwright and youngest of Our Council, he being a great Artist in most Sciences, prudent, Sober, and we have reason to beleve of exact fidelity.

16. We intend he shall there make a Carpenters yard and bring up Slaves for workemen and furnish the yard wth timber & all Necessaries fitt for building & repayre of all kind of Ships as the Island of Unrust is used by those of Batavia, of w^{ch} M^r Styleman can give you a further acco^t.

17. In order to the perfecting this worke and Security of that important place Pryaman We would have you send our Gov^r. M^r Ord whatever he shall write for, and if need be a Supply of Musteez and Gentue workemen and Soldiers also a good Store of Gunpowder (of w^{ch} you have enough) that he may not want for Defence of the place, and for Sale to the Chyneses or any other that shall come thither to buy it.

18. Though We have established 5 p Cent to be Our constant Sea Custom hereafter, Our meaning is all goods Shipt out or landed, but that any goods that have once paid Our 5 p C^t Custom inward from the sea Should be permitted to be Shipt out again freely without paying new Custom.

19. We know it may be objected that this Increase of Custom may lessen the trade of Madrass, and raise again that of S^t. Thoma, but against that We have provided laws, W^{ch} we will have Strictly executed, and for further prevencon, We do hereby empower you to take a ffarm of S^t Thoma & all parts near thereunto, by the growth whereof y^e conceive our ffort & town of Madrass may come to be prejudiced, and when you have done that, since We have laid out Such vast sum^s of money upon the securing & improveing that place, We will rather make use of our Arms to defend our dear bought Right, then Suffer our selves to be cheated by any Trick or Contrivance of the fruit of So many years disbursements.

20. ffor now you have So Strong a Garrison and so many Ports to buy our goods at to the Southward, you may at any tyme, (by forbearing Trade in Lingapa's Country, and by filling our Stores with Rice from Porta Novo and Bengall) compell Lingapa to give you fair quarter, and So we would have you to do, and Show a Martiall countenance to him, if there be cause for it, especially in that most essentiall matter of S^t Thoma, Tho' if by witt and a little money you can gett a Phirmaund for the ffarm of it for years, it wilbe the best way, and then you will have a just ground, defend or destroy all buildings there by the force of Arma, as you shall find most conducent to our Interest and the support or encrease of our Revenue at Madrass.

21. Lieutenant Thomas [Child at] his going out owed Some money to persons that were [civill to] him in furnishing him out, for w^{ch}. he gave bonds, authentic copies whereof our Secretary will send you with this, and We do require you monthly to detain in the Companies Cash 20^s p month untill the debt be paid, advising us by our Shipping how much you have detained that We may pay it here to the Proprietors.

22. We have often writt you formerly that you should cause some quantity of yo^r fine Beesteelles to be Strip'd part with Small Stripes of a Straw's breadth, and part with broader Stripes, and Some flow'ed like the Bengall Doreas, w^{ch}. now especially if there Should happen any Interrupcon to Our Bay trade is more Necessary then ever, and therefore We do hereby enjoyn you, as soon as you receive this to Send for yo^r Merchants and cause them to go in hand with providing Such Sort of goods according to the patterns inclosed, and the quantities mentioned in our list, and contract not with any Merchants at the ffort for other goods, that will not engage to furnish you wth a Suitable proporcon of these.

23. You will know certainly before we can here, whether our Bay trade wilbe much interrupted this year or not, and if you find it be, you must in your

providing goods for us, run especially upon those sorts of goods, which in kind and use come nearest to those sorts, that We have usually had from the Bay, or to Such of them as you can come nearest unto (our President knows the sorts in Both places) which We have had some respect to in drawing this List.

24. We have proceeded very farr in a Treaty with the Dutch Deputies here, about the restitution of Bantam, and in words they Seem willing to admitt our demands, except that of giving us possession of the ffort there undemolished, upon that the Treaty Seems to be at a Stand, and they pretend their old Comission is expired the 10th Instant, and now they Stay for a new One, which is an old Method of theirs, w^{ch} you understand.

25. But if our principall Governors and Servants in India could once arrive at the wisdom of making fortified places in India defray their Cost and charge, the Dutch Should have no Joy of their [taking] Bantam, but rather repent that wisdom which their Injustice hath forced us to learn of them. Pryaman certainly when well secured, if it be So managed, as not to eat us up with the charge, may be a better place for Pepper then ever Bantam was, especially considering that we were there Sojourners only, that paid the King one way or other 50 p^{c} Custom, but We must confes Pryaman nor Tecoe are comparable to Bantam for the Japan or China trade, and for refreshm^t, if you should hereafter Send Ships towards Borneo or the Spice Islands, but there is a place in the world, and as easy to be Setled as Pryaman that Answers better to all those ends then ever Bantam did or could if we had it again upon our own Terms, of which our Secrett Committee will give you Some further informaçon and nothing will bauk us from, but the fear of your defect, of that politicall science of creating Revenues, where you make Garrisons, which defect can proceed from nothing else but want of Custom and a pittifull narrow Spirit in Some, of not being content with protecçon and the freedom of trade, except they may likewise in effect be free of Customs and duties which is against nature and the universall reason of all Nations. It may be said why cannot the Company now Subsist with as Small duties, as they levied formerly, the Answer is easy, they may Subsist as they did, having their ffactories generally at the mercy of the Heathens among whom they lived, but then they Shalbe So weak in India as the Dutch when they please may rout them out of all India in one year, as they have already out of all the noblest parts of India. And if it should be asked how the Dutch can maintain 170 forts and fortified places in India, while 2 or 3 can hardly be Supported by the English Company, the Answer is the same, All the Dutch Stock would not maintain their 170 forts one yeare, but for their engrosment of Spice and their Skill of making their Natives pay the charge of their fortified places, and this last We say is all the foundaçon of their greatnes and power, for how have they engrossed Spice, but by fortificaçons, and how have they maintained their fortificaçons, but Singly by that Skill w^{ch} we now recomend to yo^r Imitaçon.

26. In answer to what you write about M^r Jearsey, We did formerly in Agent Masters tyme write him to make a full end thereof, and through whose neglect it was not done We know not, We would therefore have you peruse all those papers sent, and then adjust the acco^t. with him, giving him credit for what is duely brought to Our Cash, but not for any demands of underprizing of his goods or Selling them at under rates p^{c} any of o^r ffactors (against whom in particular he must have his demand) & whatever mistakes he hath made in acco^{ts} to o^r preju- dice, of bad debts brought to our acco^{ts}, not properly belonging to us, or any over charges placed by him to our acco^{ts}, let him make them good to us, and the Ballance Soe Stated between him & us by you that must be as equall Arbitrators between both, with what is justly due thereon, let be paid or received, and discharges taken, Sending us Copies of your proceedings.

27. What we have further to direct you in y^r prosecuçon of the voyages of these Frigots and Ships now Sent out to you, We have left it to a Secrett Committee to manage viz^t: Our Governor S^r: Joseph Ashe S^r: Josia Child Dep^y, S^r: Benjamin Bathurst, S^r: Jeremy Sambrooke and M^r: Joseph Herne or any three of them, whose

direcçons & orders under their hands, or from them under our common Seal, you are to follow.

And So commending you and our Affairs to the protecçon of y^e Almighty We remain

This List of all our Remains of Coast & Bay Callicoes & Stuffs Wee send you, that you may thereby see y^e Reason why Wee totally forbid you at present sending us any more of some of the sorts, & have lessend y^e Quantity in others, for what goods not herein mencon'd Wee referr you as to your providing of them unto our former list, but send us no more turmerick untill further order.

[Endorsed:] A list of what goods are remaining in the Comp^{as} warehouses &c—Entred Ψ H.M.—N^o. 10.

LONDON 27th JANUARY 1685/6.

OUR PRESIDENT & COUNCIL
AT FORT S^t. GEORGE.

We do not now Send you a particular list of what goods We would have you provide for us, for the ensuing year, but referr you to our last list Sent per Ship George in our letter dated the 18th. of february 1684, with Such further observatons, as was made thereon, Sent you the 16th of March following.

And Shall now onely add to you, that We do require you wholly to omitt
• Sending us any of those Sorts of goods, w^{ch} We have in that former list ordered you to provide none of. And whereas We therein wrote for

10000 p^s of fine longcloth, We would have y^e now provide but, 5000 ps &
 10000 p^s of fine Sallampores— Send none at all till further order, &
 10000 p^s of fine Percallaes— Send none now, &

31000 p^s of all Sorts of Betelees—Send none of any plaine Sorts till further order; We having upon Our hands unsold 125000 pieces, but We would have you indeavour to procure Some of those Sorts of 20 and 25 yards, to be made in Small Stripes, as Our Doreas are from the Bay, and Some more to be flowred as Our Mullmulls from the Bay, & this Wee chiefly doe, fearing Wee may not have that provision of those sorts w^{ch}: Wee have wrote for from thence, But you must take care that the advance in the price of their Cost may be but little, otherwise they will not turn to acco^t.

Send us no more Salpicadoes, Carpets, Setts of Curtains, Snocatums, Gulcondah Chints, Shirts nor Shifts, nor any other Sorts that We have forbid in our former list, nor of any Sorts of Goods therein wrote for, wherein you are limited to Send none, unless upon Such abatement on their Prices, as therein mençoned.

Lett all y^e Neckclothes from Metchlepatam be twisted well at y^e ends, and those from y^e Fort to be made finer, and better then of late, let them be of y^e full goodness of y^e 40. Covid Betellees.

Whereas we wrote in our last list but for 20000 Nillaes, if you can buy them good, and cheap you may increase to 30000 pieces, let half of them be small stripes, and half large stripes.

Send no Branpore Chints.

Whereas we wrote in our last list for 8000 Mulmuls, and but 3000 Tanjeebs, you may encrease our Tanjeebs to 6000 pieces, provided they bee well whited, even & free from Fraies.

Instead of 4000 p^s of Adethaes wrote for, Send but 2000 p^s, among the Taffaties of yard wide, and ten yeards long, lett there be 2000 p^s. of Crimson, and none of y^e narrow sorts call'd Gutburrows to be crimson.

Send but 2000 Seersuckers instead of 4000 in y^e List.

Wee have with much difficulty procur'd Patterns of sevⁿ sorts of stuff, silks, & strip'd Bettellees, chiefly made in y^e Bay and brought home by y^e Interlopers, great quantitys of w^{ch} would sell here, if they be true made, even, without Rowes, and good Collours, most of which must be of Cloth Colours, and few light Collours, as you will find y^e Patterns to be, As We are inform'd they were Chiefly procur'd by M^r Littleton. Use all your Endeavours to procure us some quantities of each sort.

These direcçons, with a List of all the Remains of our Coast and Bay Goods unsold, You must transmitt to our Ag^t. &c^a in y^e Bay, with y^e Patterns, that they may thereby take notice of w^t belongs to them in y^e Provision of our Goods.

By order of the Court of Committees
 JEREMY SAMBROOKE.

OF THE MINT AND TREASURE AT FORT S^t. GEORGE.

We have this year rec^d from thence a far more reasonable acco^t of y^e Comp^{ss} Gold, than any other in 3 years before, for all the Species produce from 948½ to 964 Pag^{as} for 100 oz Standard Gold, which for y^e said last 3 years, rendred but from 904½ to 948½ (as in Particular here under neath) The Ingotts also now producing almost equall with the Pistol's &c^a, w^{ch} heretofore fell 3 or 4 ^p C^t short thereof w^{ch} is another plain evidence of the late unsufferable abuse, & yet we expect a better acco^t y^e next year.

There was one Chest N°. R y^e made but 915 Pag^{os} for 100 oz because there was some course, and some sand gold, and rings, that came from Amoy, and could not be essayed, But another Chest N°. E, wherein there went some Ducketts produced 964 Pag^{os} a little above its due p^{ro}por^{ti}on to standard, because y^e Ducatts are finer.

Their Mint book is ballanced to y^e 11th August 1684, We find no acco^t therein of any R^o of $\frac{3}{4}$, or any Barrs of silver, nor have they yet sent any other Books, of y^e acco^t : & affairs of y^e last ye^r. But in their letter advise to have put off all y^e silver & Europe goods at advantageous Prices.

They are very large and particular in vindication of their Innocency, and endearing their great & constant care and diligence to prevent or remedy y^e late fraudulent practices on y^e gold Ingotts, which they still alleage, and presume have been rather committed here than there, for y^e y^e loss has fallen for y^e most Part on y^e faulty Ingotts, much more than on the Coynes, which in reason should be, and in former experience alwayes hath been quite contrary.

They have sent another certificate of that remarkeable abused Ingott N°. 38, but no further acco^t of M^r Mells discoveries, and observations, only they lament his death, and desire such another Artist may be sent them, and 100 oz Stand^d gold, exact in one Ingott, We have for their better satisfaction and Possibility of Miscarriage, provided 2 such Ingotts [to goe] by severall ships.

Silver turnes better to acco^t. there, then in any other factory, but their silver Merch^{ts} are very troublesome, & the Produce comes not so soon into Cash by 2 Months as gold from y^e Mint.

They acknowledge that silver can't be alloy'd, but only refined with lead, and y^e Barrs of fine silver are more proper to be coyn'd into Rup^s, then R^o. $\frac{3}{4}$, but cannot convince their Merch^{ts}. therein, and therefore as because they are more easily, & sooner disposed, they rather desire p^r $\frac{3}{4}$.

They say nothing of y^e Phirmaund for coyning Rupees, w^{ch}. they formerly put us in hopes to p^rcure.

In Answer to our Demand they say they gett allowance for over as well as abate for short weight R^o. $\frac{3}{4}$, w^{ch}. is very well, & we are satisfy'd upon their ascertainment, y^e their R^o $\frac{3}{4}$ produced (Anno 1681) better than those dispos'd at Metchlepatam, or than what wee computed here, and needs no further reply to that Article, but they are wanting to advise what difference, or if any at all, in the species of y^e R^o. $\frac{3}{4}$ as they doe at Suratt.

And We desire they would return us every year an Essay of sev^{ll} Ingotts of Gold, of 1. dw^t or 2 dw^t each, taken off y^e Ingott, before they are melted down, especially of any such as they shall suspect, or find short or differing from y^e Reports and Reductions of the Invoice.

And this is all we observe from thence at this time, to w^{ch}. we find no occasion of further intimation, than was largely and particularly sent them last year, wth. good directions for discovering and preventing of frauds, and manning y^e Mint hereafter, w^{ch}. they may be now desir'd again to peruse and putt in Practice.

Anno 1681-Produced but 937 $\frac{1}{2}$, one wth. another, y^e Ingotts but 930 to 932 $\frac{1}{2}$
1682-Produced one wth another 940.

1683-Produced y^e Coynes 948 $\frac{3}{4}$ & y^e Ingotts but 904 $\frac{3}{4}$

Whereas in 3 & many years before, the Comp^{ss} Gold produced alwayes at least 958 (and sometimes 963) one with y^e other, the Ingotts alwayes most.

One of y^e Ingotts q^t just 100 oz & standard goes in Chest N° A, and is Marked N° C. The other Ingott of just 100. oz standard N°. H goes in Chest N°. B.

Honoured sirs

There hath been a Treaty on foot between Commission^{rs} appointed by his Maj^{ty} on behalf of our Comp^{ss}, and the like number on the part of the Dutch East India Comp^{ss}: about the busines of Bantam. But after Eight months time spent in

debating that affayr, (which was all done in writing ;) the Treaty ended without success. And our Dep^{ty} Gov^r : being willing you should be thoroughly acquainted with what passed in this busines, directed me to transmit copies thereof unto you ; which when you have read, or caused to be transcribed, you may please to transmit to the Agent & Council in the Bay, for their informaçon also. LONDON : 17TH : JUNE 1685.

Wee have only to advice you of y^e : arrivall-of y^e : Fleece y^e : 3^d : instant for wth God be praised, wee expect next month some other shipp from you & yⁿ : shall answer all y^r : letters together, by an early shipp wth : wee designe you from hence. Wee understand by y^e : Mexico Merchant from Surratt, y^t : y^e : Dutch Fleet in y^e : gulph of Persia have made an absolute warr wth : y^t King, they had seized upon & fortified y^e : Island Kismish ; but were beaten out of itt by y^e : Persians wth : great losse, & are now in a very sickly poor condition, being forced to have their whole supply of provisions from Surratt ; wee have very great grounds to believe, that if they had succeeded in Persia they would have immediatlye have fortified att Bengall, stopt y^e : salt boates, & thereby endeavour to force y^e : Mogulls to deprive us of all trade in y^e : Bay, wee doe therefore take this occasion by way of Surratt to inculcate our former desire to you, y^t you would indeavour to procure a Phirmaund from y^e : Mogull for the Inheritance of some of those Uninhabited Islands in y^e : Ganges y^t : may be fittest for our occasions, & y^t : wee may have leave to build a Fort there for our security against y^e Dutch, if they should attempt to doe y^e : same violence in Bangall wth : they have done in many other parts of y^e : world, y^e : Island of Ingarlee wee suppose may be fittest for our occasions, because unto that, there is water enough for our biggest shippes ; you may covenant with y^e : Mogul or Nabob y^t : wee will never mount more guns in itt yⁿ : they shall give us leave viz^t : 10 : : 12 : or 20 : & wee hope y^t : they having had such long experience of our peaceable temper & disposition, will be soe farr from thinking we should use that force against them, that they will rather conclude (as y^e : truth is) y^t : y^e : force wee shall have there, will alwayes be a guard & a defence to y^e : Mogulls subjects from any violence y^t : y^e : Dutch may intend against them.

Wee are well assured by Cap^t : Udall, Capt^o : Wildy & others y^t : there is water enough for our biggest shippes to goe over y^e : Braces, y^t : wee do resolve y^e : next shippes wee send you of w^t : burthen soe ever they are, shall goe as high as Ingarlee, & so wee will condition wth : y^e : next ships we send thither by Charter party ; in y^e meane time itt must be y^r care to secure & have in readinesse in Ballasore good Pilotts to carry our ships over y^e Bar for a continuall supply whereof you cannot doe better yⁿ : to imitate y^e : Dutch methods in y^t : place, wth : as near as possibly you can wee would have you to observe, as well for y^e :

encourrigement of our English Pilots, as for ease of y^e : Comp^a : charge, wee shall nott need to recite att length here what those Methods are, because you being on y^e : place cannot be ignorant of y^m : M^r : Charnock being now free & att ease from y^e : incumbrances he hath so justly (as we apprehend) complained off; wee hope wee shall find y^e : fruit of itt, in haveing from him greater quantities of y^e : right sort of raw silke, & none of those kinds wee have so often complained off, as also that wee shall have from him a double proportion of taffaties w^{ch} : are alwayes y^e : most staple comodity that Country affords.

Wee have reced such iterated Complaints of y^e : great abuses & wrongs of Constant Phaulcon of Syam, y^t : wee are resolved to have justice done us upon his person by y^t King & satisfaction for all our damages, or otherwise to reprice ourselves upon him & his subjects, wⁿ wee see our fittest time, w^{ch}. wee mention to you that our servants may be cautious how they trust anything of their concernes in that Kings Dominions, and also y^t : if those Syamers that went from hence by y^e George be nott gone from you, you should seize upon their goods for our use, untill satisfaction be made upon y^e : demands wee have ordered our Generall & Council of Surratt to make upon & from that King. So commend-ing you & our affaires to y^e : protection of y^e : Almighty wee remaine

LONDON 12TH AUG^R: 1685.

Our President & Council at the Fort will advise you of the late arrivall of our five Ships Viz^t: Charles the Second, Nathaniel, & Asia from Surat the Beaufort & Rochester from the Fort for which God be praised.

We have not yet opened your Goods by the Henry & William, but all our Bay Goods in the Fleece & other Ships before her were Shamefully sorted to our irreparable damage.

We have now by the Beaufort & Rochester the Copy of your letter to the fort of... that came thither after the returne of President Gyfford to his station there, by which wee see how intolerably you are abused every day worse & worse by the avaricious Governours of that Country & how sheepish you are in submitting to Such unreasonable & unjust affronts & after serious perusall of all your Consultations (tho we must confess in the generall) We do not know whether you have done well or ill, in forbearing to make an absolute breach because it is impossible for men to judge of futarities yet we cannot but admire at your niceness & scrupulosity to leave that place in debt as if you never intended to returne and be resettled there again. Whereas We apprehend as M^r: Charnock wisely observes that nothing would tend more to your resettlement after a breach then the importunity & interest of your Creditours which is enough to write you upon this subject by an overland conveyance We Shall be more particular by our Shipping.

We would have you by every conveyance to write to our Generall & Council of Surat letting him know your circumstances how you are used what trouble & charge you are put to, who you imploy as Vakeel at Court & what returns you have from him. So committing you & our affairs to the guidance & protection of the Almighty We remaine

[Endorsed:] Copie Generall from London to y^e Bay 12th August 1685—rec^d from Bengal 3 Octo^r 1686—Entred & H. M:

LONDON THE 14TH JANUARY 1685/6.

OUR PRESIDENT & COUNCILL
OF FORT ST GEORGE.

The Governour and Committees haveing had such good success with their Committee of Secresy last year in yo^r: settlement of Pryaman without any noise made thereof before hand, And it being likewise his Ma^{ty}'s pleasure that our Martial affaires should be kept as private as may be for a time, The said Governour and Committees have left it to us to give you such Instructions as we should think fitt with his Ma^{ty}'s approbation which you are to observe.

Though these Instructions are to be observed by our President, and all our Council, yet we have Superscribed them onely to our President, Cap^t Yale, and Cap^t Lucas, who are the three first of our Council, to the Intent, that if you find it requisite for our service to conceale from the rest of our Council some paragraphs of this L^{re}, for a short time you may use your discretion therein, and

satisfy the rest of our Councill of the reason of your forbearance to publish the whole Life, by reading to them this paragraph.

Our maine designe in sending this warlike Fleet, and so many Companies of Soldiers, you will see by our inclosed L^{rl}, to our Agent and Councill of Bengall, which designe we require you to promote by all the means, which lies in your power as a matter y^e more eminently concernes the honour of our Sovereigne and his Kingdomes, then any advantage that can accrue thereby to the Company, during our lives, save the hon^r of preventing the Dutch from their great designe of expelling the English Nation from the trade of India.

Captain Nicholson by reason of his prudence and great Experience in Bengall, we have appointed Vice Admirall for this expediçon & accordingly we appoint him to be of our Councill dureing his stay at the Fort or in Bengall & to take his place next after y^e third of either of our said Councils.

It is of great concernment, that you should immediately dispatch our said Admirall and Captaine Mason his Rere Admirall with all the Ships, Frigotts and Soldiers that appertaine to this Fleet within 6 or 8 dayes at furthest after their arrivall at Fort St George, and that some of yourselves doe see that each of them carry down as much water in their Ships and vessells as they can conveniently stow.

Send downe with them all the Companies Sloopes and small vessells, and two at least of our old Companies of English foot Soldiers and Drums and Colours to make three or four Companies of ffoot Soldiers more out of our Seamen (if there be occasion) to land out of our Ships, that with your two Companies of old English, three Companies that we send by these Ships, four Companies of Seamen, & one Company intire of Portugueez, and Mesteeses which we would have you likewise send out of our towne of Madrass, our whole force to land may consist of a Compleat Regiment of ten Companies, and of 100 men in each Company besides Officers.

Such of our Soldiers that goe from hence, and shall be sick upon their Arrivall with you, you may take on shoar at the Fort in our Hospitall for recovery of their health and put others in their stead.

Let the Portugueez and Mesteeses you imploy in this expediçon be such, of whose fidelity you have experience or such as you have obliged by former imploy^{mt} or kindness.

For the better Discipline of our Officers and Soldiers, you must governe them by Martiall Law, And we hope with this likewise to send you his present Ma^{ties} Charter for exercising Martiall law in all our Ships in time of war.

And for the Encouragement of the Commanders and Owners of our Shipping we send you herewith an order of Court, made for that purpose, when our Fleet was designed out, for the Recovery of Bantam, which we declare shall stand good and availeable to all Owners of any Ships that shall be imployed in this expediçon.

If you shall find that such a number of men, as wee have appointed to goe to Bengall on our Ships should too much pester them, we would have you imploy two or three of your own Country Ships to help to carry down our soldiers into the Bay, and to make the first appearance of a numerous Fleet to increase the fame and terrour of our Fleet among the Natives, And the Dutch who will be ready to lessen and undervallue our power in their reports as they have alwayes done.

Yourselves being Owners of most of those Country Ships, we hope will have so much Zeal for this publique Service for the hon^r of your King and Country, as that you will contrive, they shall be as little charge to us as is possible because being early dispatched with the Monsoone they may goe to the Bay with our Admirall, and to increase y^e Number of our Fleet, and may after their Soldiers are landed at Chyttegum, load from thence for Atcheene, & make a better voyage there, or otherwise then they could hope to doe, if this warr had not been, and peradventure may buy Salt, Rice or other Provisions cheaper by the purchase of such Commodities, that may happen to be taken, then otherwise they could expect them, and may alsoe find much better Markets, by the obstruction this warr will give to the Bengall and Tenassary Junkes goeing to Atcheen.

Your Fort Officers and Soldiers after the Chittagam busyness is over, may returne to you to the Fort, leaving that place strongly fortified with about 200 pieces of Ordnance mounted upon the Bastions and well supplied with rice and Paddy, Powder and Ammunition of all sorts and a sufficient Garison in it.

At the departure of our Fleet, encourage all o^r Officers and Soldiers with such good words as you shall think fitt, letting them know, how much the hon^r of their Sovereigne, and their nation is concerned in this undertaking, and what fatall consequences might happen to the whole Navigation of this Kingdome by y^e designs which the Dutch have upon us and have perpetrated lately at Bantam, and were now attempting at Persia and Mallabar, and if they had not been prevented, would have done the same thing next in Bengall, as their owne Chiefs have had the Confidence to brag that they would doe.

Order our Commanders to entertaine in Bengall all Europeans which proffer them their service, and that they can have confidence in, And our Agent and Councill in the Bay to doe the like, and as many Mestees Soldiers as they think they shall have occasion of, and can trust, and if our Engineer at the Fort M^r Fowler can bee spared let him goe down with our Admirall to the Bay to assist at the fortifying of the place for which end, let him carry downe all sorts of necessaryes, Materialls, Tools and workmen that you and our Admirall shall think convenient.

Ensigne Wavell is a man more expert with his [penn] then in Millitary affaires, having been bred a Merch^t and therefore we would have you detainee him at the Fort to be our Register, for which Office of Register, lett him have his Dyet at our Table or the usuall allowance, if he keeps house by himself, We suppose any of your Ensignes, that are meere Soldiers will be ready to change Births with him for this expedition in hopes of the Advantages, that Soldiers sometimes make on such occasions, He is also o^r Factor, & his Sta^{cion} is to be youngest in Councill at the Fort.

The fast Friendship of the King of Raccan, from whom Chyttegam was taken by the Moores is of vast concern^t: to us not onely towards the Surprisall, but towards the perpetuall preservation of that place against the Moores and Dutch, and therefore, if your Country affords anything proper to enlarge our Present to him or his Chief Ministers, which we have not sent, or is not to be had in the Bay, you may send what you think fitt of that kind by our Vice-Admirall for that purpose.

We have men^{tioned} in our Bay Lfe of small Ships goeing up to Decca after they have secured Chyttegam, if the warr continue so long, And to take to their assistance as many of the Reccaneers Warr boates as they can, and if they should come before Decca on a sudden by Surprise we have reason to believe y^e Nabob and all his Court and Army would fly out of the Towne and leave the place desolate, in such and in all other cases of that nature, it must be your, Our Agent and Councill in the Bay, and our Vice-Admirall's care, that a competent share of whatever shall be taken there, or elsewhere may be preserved to the Companies use towards their excessive charge.

But if when our Vice-Admirall or Captaine Bromwell, or whosoever else shall be appointed Commander in Chieff of that Squadron that goes up to Decca, shall have gott possession of the Town, or have it in his power to possess himself of it, if then the Nabob will pay the Company what our Agent and Councill in the Bay shall think requisite towards the charge of this Fleet and secure the payment of the Companies debts; confirme to them and their Successors for ever, the Citty and Territory of Chyttegam, and all their ancient priviledges in Bengall. In such case, on payment of the mony we would have peace made and proclaimed, without offering any violence to the Town of Decca, or any of the inhabitants, And without staying for any confirmation of y^e Nabobs peace from the Mogull, and in such case we would have, for the encouragement of our Officers Seamen and Soldiers $\frac{1}{3}$ part of what shall be received from y^e Nabob distributed among our Commanders, Officers, Seamen and Soldiers, according to the discretion of a Councill of warr, giving most liberally to such as have suffered any maim or wound or that were most forward in any dangerous enterprize.

We appoint, that all of our Councill of Bengall and all Captaines and Commanders of Ships be of all ordinary Councils of Warr, but none in degree below a Captaine, but that our Generall and Admirall in Bengall may when he thinks fitt call a select Councill of Warr of the Commanders of our flagg Ships onely, and the second and third of Councill of Bengall.

Though we have appointed Captaine Nicholson to be onely Vice-Admirall in this expedition, our Agent in Bengall for the time being, being to be our Captaine Generall Admirall and Commander in Cheiff by Sea and land, as well as Governour of Chyttegam, yet at Fort S^t. George Road, and in all places where our said Agent of Bengall is not present, Captaine Nicholson is to carry the Union flagg in his Main top as Admirall.

For the expedition of our fortifications at Chyttegam we doe much depend upon the prudence of said Vice-Admirall, and all our Captaines of Sea and Land forces. That they will by perswasion, their own example, and some little rewards in Rack or otherwise, encourage all our Seamen and Soldiers to work hard upon our Fortifications untill they are finished, for untill a Citty or an Army be intrenched out of danger of the enemy, no man ought to think himself too good to give his helping hand, to make all sure, although after the danger is over, such work is onely proper for Pioneers or such as you call Coolyes.

But our Admirall, Vice-Admirall &c^a. must never think the danger over till they have about 200 good Ordnance mounted upon their Bastions as aforesaid, for though a less strength might be security against all the power of the Natives, who can bring no Army by Land against Chyttegam nor otherwise approach, we know not how soone (they having mony enough) may hire the willing Dutch to assault us.

The Company in their Generall Lfe have intimated some thing to you, concerning a proper place to bee agreed for, as you did for Pryaman for the future Security of y^r Chyna and Japan trades, and where the China Junks might come to our Factors safely without passing by Batavia or Mallacca, that place we mean is Jahore near the streights of Singapore, about which when you have a convenient opportunity by any of your own or Country Ships goeing that way, you may treat with the King of Jahore, but it must be done very privately, before the Dutch gett any aire or mistrust of yo^r intention, which if they should, they will certainly prevent you, whatever it cost them, as they would have done at Pryaman, but that your agreement was finished, and your force gone thither before they knew any thing of it.

For your Encouragement in this, we can tell you, The King of Jahore many years earnestly invited us, to a settlement and to build a Fort in his Country, but the Comittees then were averse to the charge of Fortifications as we should be now, but that the Dutch have now convinced us, that we must either doe as they doe or leave all India to their disposall.

If you could perswade the King of Jahore to send Embassad^r to the Fort, the sight of your regularity numbers of Inhabitants and force there, would the sooner engage him to make good termes with you, and it may be the same we have with Pryaman, then which we desire not better.

You must not forgett to send to Bengall some of y^e bookes of Millitary discipline & Martiall Law, now in use in his Ma^{ties}. Army, and to give them strict orders for keeping all our land Officers and Soldiers constantly to live and lodge in Hutts or Barrocks wth in our Fort according to y^e usage of y^e moderne Garisons in Europe, and that they may know how y^e more decently & conveniently to contrive them, we have ordered all our Comanders and Lieutenants bound for Bengall, before their goeing to sea, to take a view of y^t regular ffortificaçon of his Ma^{ties}. The Blockhouse at Gravesend.

In o^r secrett Instructions sent to o^r Agent Beard in y^e Bay, we have left it to his liberty, according as he finds our affaires in a good posture there, either to remain there as our Chieff, or to come up to the Fort to you to be our 2^d wth you, but we had then some thoughts y^t o^r Agent Gyfford might have been comeing

for England, (tho our hopes are, & desires to him that he will continue, as least 'till he gives us timely notice of his intentions') & so intended M^r. Beard to be Second to o^r succeeding President M^r. Yale, therefore if our President M^r. Gyfford be there, our intention is not, that M^r. Yale shall be displaced, but y^e M^r. Beard shall take [his] place next to him, & accordingly we have explained our meaning to our said Agent Beard in the Bay.

Upon recollection & conference together about y^e great Concernment of this Expedition to Bengall, we have thought fitt to deferr sending you those Lawes we designed for Fort S^t. George; & notwithstanding what we have writt, about our Customes there to be raised to 5 ³/₄ Cent, we will not absolutely enjoyn you thereunto at present, But if upon reasoning with the Portugueez, and the Chieffs of the severall Casts, you can perswade them to consent freely to such additionall Custome, you may doe therein what you judge most seasonable for our service at this time, with a promise that we will never raise y^e Customes there or any part of India more, Our purpose being never to exceed 5 ³/₄ Cent, at which rate, it is already settled in all other English Garisons in India, except Fort S^t. George.

The Governour & Committees in their Generall letter to their Generall & Councill at Surratt, overland, bearing date the 17th June last (among other things) write as followeth viz^t:

"As we would have you give no affront to the Dutch, So we would have you, by all just means & force to defend yourselves in case they attempt by any hostile means to deprive you of the Pepper trade on y^e Coast of Mallabar, and that if they shall presume first, to take any of the Native boats loaden with Pepper for our Acco^t that you doe reprice your selves by takeing the like of theirs.

"In regard we have given you direction to reprice your selves for any Pepper Boats, the Dutch may take from you, as is directed in the preceeding Paragraph for y^e purpose, We now think fitt to order you, in case the Dutch upon such Bickerings concerning the Natives pepper boats aforesaid, shall proceed to prosecute you with any further Warr, That you not only defend your selves manfully by Arms, but also reprice yourselves upon them. And in such case of a warr, we doe for the strengthening yo^r selves & weakening of the Enemy, order & require you to proclaime (in all the usuall Languages of India) protection to all Dutchmen or others in their Service that shall repair to Bombay to your Assistance, with promise, that such people resorting to you as friends or Assistants, shall be not only defended and protected by you, but shall enjoy freedom of trade to any Ports or Places in India whatsoever, and all other immunities equall with the Comp^{ys} own English Servants, & such as are (under his Ma^{ty}) Subjects to his Ma^{ty}'s East India Company in India, And we would have you immediately send a Copy of this Clause to our President and Councill of Fort S^t. George, requiring them to make y^e like Proclamacon and provision for their defence."

Which Clauses or Paragraphs before they were subscribed by our Court of Committees, were presented to & approved by his Ma^{ty}. And if any consequence happen thereupon between our People and the Dutch upon that Coast, You must pursue such Order as our Generall shall give touching the Proclamation therein mentioned We remain

[Endorsed :] 14th January 1685/6—Letter from y^e Committee for Secresy to y^e Fort & Nathaniell—Rec^d y^e: 28 July 1686.

AT A COURT OF COMMITTEES HOLDEN THE 20th OF JANUARY 1685.

Whereas by a Clause in his Ma^{ty}'s Commissions under the great Seal of England granted to the Captaines of all Ships employed by his Ma^{ty}'s East India

Company against the Mogull, and his Subjects in India, there is to be reserved for his Ma^{ties} use, one tenth part of the proceed of all prize Ships and goods taken from the Enemy, This Court notwithstanding for the encouragement of all Officers & Seamen & Soldiers, that shall be imployed in this present expedition doe declare, that one sixth part of all prize Ships and Goods taken as aforesaid, shall be reserved for the reward of such Officers Seamen & Soldiers as shall behave themselves valiantly towards the Enemy, and dutyfully towards their Superior Officers, And for such especially as shall be wounded or maimed in fight and y^e Widdowes and Orphans of such as shall be slaine, of w^{ch} said sixth part of the proceed of all prize Ships and Goods, there shall be kept an acco^t. apart in the Companies bookes, by the Agent and Council of Bengall, and shall by such person as the Agent and Council shall appoint, for that purpose, be distributed, & paid out to the severall persons concerned in India by the Order & direction of any Council of Warr, that shall be summoned for y^e purpose, of which Council of Warr all the members of the Council of Bengall, & all Captaines of Ships or land Soldiers, or so many of them as shall be within reasonable distance, shall be alwayes members and summoned thereunto, when the Companies other busyness will permitt their attendance.

And likewise for y^e further encouragement of the Owners and Commander of Ships imployed in the present service, this Court doe declare, that they will secure to them their reimbursement for any Ship, that shall be lost in fight wth the Mogulls Subjects, or the Dutch in India, in case the Dutch there shall make themselves partakers in this warr against the English, or shall themselves make any Warr upon this Company, Alsoe any damage that any Ship not lost shall sustaine in fight either in their Hulls Masts or Rigger.

[Endorsed:] Order for encouragem^t of Officers Seamen & Soldiers—No. 5—
Rec^d: y^e 7 July 1686 Ψ Beaufort.—Entred Ψ H.M.

INSTRUCTIONS FOR OUR AGENT AND COUNCIL OF BENGAL.

The Governor & Committees haveing for Secresy Sake left it to us to give you Such Orders & Instructions as wee should thinke needfull for reducing our affairs in Bengall to a better temper & condition then they have been in of late years, by Such waies & means as wee should thinke best, wee must tell you, that wee have often & ever Seriously considered the misery & thralldom in which you have lived ever Since the beginning of the Interloping times, & the ingratitude of the Nabob & those heathenish Governors that tooke the advantage of that unnaturall Division betwixt the English themselves, to oppresse us all, & deprive the Comp^y of those ancient privileges which for long time they have injoyed, and wee purchased with infinite Cost, & repeated great Presents, Besides the vast charge of erecting their ffactories & buildings in that Countrey, Wee have likewise considered all that pass'd in your Consultations for remedy of those Grievances while Presid^t Gyfford was in the Bay, and allso your Generall & Particular Letters, & the Generall and Particular Letters from our President & Council of Fort S^t George, & have examined Seriously the opinion of the most prudent & experienced of our Commanders, all which doe concenter in this one opinion, (& to us Seeming pregnant truth) Viz^t. That Since those Governors have by that unfortunate accident & audacity of the Interlopers got the knack of trampling upon us, & extorting what they please of our Estates from us, by the besiedging of our ffactories, & stopping of our Boats upon the Ganges, they will never forbear doing So, till wee have made them as Sensible of our Power, as wee have of our Truth & Justice, and wee after many deliberations, are firmly of the same opinion, and resolved (with God's blessing) to persue it.

To which purpose [we have ordered] this Bearer Cap^t. Bromwell in the ship Rochester mounted with 65 guns, and furnished with a competent Number of able Officers, Seamen & Souldiers, to make the best of his way for Ballasore Road.

in company with the Rochester friggatt, of 12 guns, where wee hope hee will meet you & the most part of our Servants on board our small Vessells & Sloops ready to receive him, according to intimation wee have formerly given you to prepare your Selves.

As soon as our Agent & the most considerable of our Councill are come on board the Rochester, wee have ordered Captain Bromwell Rere Admirall for this Expedition, forthwith to make Stay of all Ships, Salt Vessells, and other Vessells belonging to the Mogull or any of his Subjects, and to compell them to anchor in Some convenient place, where hee may keep a guard upon them, that they doe not escape, untill you see whether our differences with the Mogull will Settle in a firme peace, or come to an open Warr and that will depend upon the Answer you will receive to the Letters wee have writt to the Nabob, and Such other Letters as you shall find cause to write to him, which you may send by any Native or other Messengers as you shall thinke fittest, but without Presents which you may tell him plainly wee thinke you have been too liberall of already, except hee had made you better Returnes.

Our own Letter to the Nabob gives you the state of the Quarrel, & the causes of the Warr, (if it prove One,) and therefore wee shall not here enlarge upon that, but proceed to direct you, how to prosecute the Warr, leaving the issue to God Almighty.

The force wee have designed you, besides the Rochester, and the Rochester frigmat, & our small vessells in the Ganges, will consist of viz^t:

| Ships. | Guns. | Seamen. |
|----------------------------------------------|-------|---------|
| Beaufort John Nicholson Admirall ... | 70 | 200 |
| Nathaniell John Mason Vice Admirall ... | 50 | 150 |
| Royall James John Wetwang Capt ... | 50 | 170 |
| Tonqueen Rob ^t . Knox Capt ... | 24 | 50 |
| Loyall Captain, Eldred Capt ... | 16 | 30 |
| Priaman David Hobson Comand ^r ... | 16 | 30 |
| Beaufort friggott ... | 12 | 20 |
| Nathaniel friggott ... | 12 | 20 |

Besides Six compleat Companies of land Souldiers with their Lieutenants, & all Inferior Officers, & all the Comp^{as} Sloops & Small Vessells at Fort S^t. George & Priaman which wee have ordered to bee immediately Sent to your aid from both those places, well mann'd & Arm'd, knowing they may be of great use to you in the River of Ganges.

Wee have appointed no Captains of our Six Companyes of Souldiers because wee resolve to keep to our ancient well grounded Custom of keeping allwaies our Souldiers under the Command of our Cheif and Councill and therefore wee doe appoint that our Agent for the time being bee allwaies Lieuten^t Gen^l & Comander in Chief of all our forces by Sea and land, in or near the Provinces of Bengall & Orixia, and in all Seas harbours Creeks & places near unto those Provinces, or either of them, & that hee bee Collonel, & Capt^t of the first Comp^a of English Souldiers in Bengall, that the Second of our Councill bee allwaies Lieuten^t Collonell, & Captain of our Second Company of ffoot Souldiers, That the Third of our Councill bee Major of the Regiment, & Captain of the third Company and that all the rest of our Councill, according to their Stations in Councill, be respectively Captains of the Succeeding Companies of ffoot Souldiers.

If you thinke any greater fforce of Land Souldiers be necessary to carry on this Warr, and to Secure any place you shall Seiz or ffortify, wee give you leave to hire what number more Shall thinke necessary, of any nations you shall thinke most convenient, allwayes observing not to have too many of any one nation.

When you have waited for the Nabob's answer, or treated with Commiss^{rs} from him, & cannot, or are not agreed untill Captain Nicholson our Admirall for this Expedition doe arrive with fforces from ffort S^t. George, Wee would then have you loose noe longer time after his arrivall, for fear of loosing the Monsoon, which would be almost as fatall to us, as a defeat, but immediately Send our

Admirall with so many of our Land Captains as you can Spare, with all our Land Souldiers, & Such Recruits as you shall hire in the Countrey all our Ships Save one, & all our Small frigatts & Sloopes, that you can Spare, directly to the ffort of Chittegam, where after Summons, if the ffort Town & Territory thereunto belonging bee not forthwith delivered to our Lieut^t Coll. Job Charnock or in case of his death or inability, to the person that may command in chief in this Expedition, wee would have our forces to land, Seize, & take the s^d Town ffort & Territory by force of Armes, & the same to seize, take and keep for our use, & to kill Slay & destroy as Enemies to his Maj^{ty} all such persons whatsoever as shall oppose your Entrance and Possession of the S^d Fort Town & Territoryes thereto belonging.

But if the Said ffort Town & Territory Shall bee peaceably delivered to our s^d Lieut^t. Collonell or other Comander in Chief, for our use upon his Summons as aforesaid, wee would have you in Such case, give the Inhabitants fair Quarter, & not to kill any of them, or take anything from them, but to Suffer them to remain in their own houses with their Estates entire, saving to our Sovereign L^d the King, their faith & true allegiance from thenceforth due, and themselves to live in Subjection to his Maj^{ty}. East India Comp^a under Such Lawes as the s^d Comp^a by virtue of his Maj^{ty} Royall Charters Shall make & ordain, for the Government of that place, & the Inhabitants thereof, but whatsoever did formerly belong to Mogull or his Governors, is for the future, after surrender and Capture of the place, to belong and to be improved for the use of the said Comp^a & their Successors for ever.

You are to allow to all the Natives the liberty of their Severall Religions, as those Subject to the Comp^a have at ffort S^t George.

Above all things wee would have you very carefull, that no Violence or Injury bee offered to Women Children or any innocent people, that doe not hostilely oppose you, & particularly, That you doe not Suffer any prejudice to be done to Churches Mosques Pagodas or other publick places, where God is worshipped or pretended to be worshiped.

The Warr being thus begun, wee would have you take all the Advantages you can to annoy & take purchase from the Enemy by land as well as by water, after you have well Secured that important Port & place of Retreate of Chittegam, which wee understand is Strong by Nature, and So Scituate, that the Mogull cannot March an Army by land to it, And wee would have you add Art to Nature, by makeing it as much Stronger as the Witt or Invention of man can extend to, for which purpose wee have Sent you Ordnance & Ammunition Sufficient, and wee know the place abounds with Canes Provision & Timber, and wee would have you immediately after you are in possession to Summon in all the Inhabitants & Countrey people near thereunto, to worke upon the Repairs of your ffortification, and erecting Such new fforts or buildings as you shall find convenient for our Service, paying the Inhabitants for their work in Rice or money one third part more than was usually allowed them by their own Princes or Governors upon Such like occasions.

You will easily understand that this fleet & fforce of Souldiers at such a great distance from England must needs bee excessive chargeable to the Company, and therefore you must study all the possible means you can, to raise Such a Revenue at Chittegam, as may in Some measure repair their Charge, and particularly it must bee your especiall care to make the most you can of all Prize ships, & Goods that shall bee taken from the Enemy in this Warr, the Proceeds of all which you and all under you are faithfully to bring to the Comp^a. acco^{ts}. But out of the Profitts of Such Prizes, wee hereby give you liberty to reward at your discretion (with the Advice of our Admirall Cap^t Nicholson) any Officers Souldiers or Seamen that Shall doe us any Signall or extraordinary Service, or shall receive any maim or wound in our Service, which latter kind of Rewards, & the former likewise, if you can wee would have you So contrive, that if Such rewarded persons be married men, their wives & children in England may receive Some benefitt thereby, and for Such Serving us, as shall happen to be Slain in this warr, wee Will make a

competent Recompence to their Widows or Orphans here, all which upon a proper occasion you may if you see cause, make publication of in the Comp^{as} name.

Wee doe appoint our afores^d Second of our Councill Job Charnock Esq^r. to be Governor of our ffort Town & Territory of Chittagam in the absence of our Agent & Collonell John Beard Esq^r afores^d But when the sd Coll Beard shall be present at Chittagam, hee is to bee our Govern^r and Comand^r in Cheif if hee likes to continue there. But in case the s^d Coll Beard with the change of the Monsoon had rather goe to ffort S^t George to bee our Second of Councill there, wee hereby give him leave So to doe, & in Such case wee doe appoint our sd Second Lieut^t. Coll. Job Charnock afores^d to bee our Agent in the Bay Coll. & Capt^a of our first Comp^a. of English Souldiers & Comander in cheif of all our forces by Sea & Land in or near the Provinces before mentioned, requiring all our Merchants Factors Officers of what kindsover Servants Seamen & Souldiers in Such case to yield him obedience accordingly, and wee desire that the s^d Lieut^t Coll Charnock may proceed upon the Beaufort on the Chittagam Expedition with Capt. Nicholson while Agent Beard Stays in Ballasore Road, with Such assistance as hee shall make choice of to proceed in any treaty, as shall bee on foot for accommodation of all differences with the Nabob, as also to take care of getting off from the shore any Remaines hee can of our old Effects or Debts, & principally for disposing of our Prize Ships, & Goods by Sending Such of them onely as are proper for ffort S^t. George to that place with Salt, and what else is proper for Sumatra, to Priaman, & whatever is proper for Europe as Cowries Drugs &c^o. to be put on board our Europe ships, at Chittagam, Rice likewise & all Sorts of Provisions, more then Sufficient to store the ffort at Chittagam for 12 moneths, wee would have putt on board the Royall James for Acheen, the rest of the Salt boats old Juncks & other Vessells, that you know not what to doe with wee would have you sell at moderate Rates. But what you cannot Sell, or will not bee of use to us, at any of the aforesaid places, or to you at Chittagam, you must destroy or give away to the King of Raccan his officers or Subjects for Services they will probably doe you in this or other Expeditions, if the Warr continue, and that is the best way wee can thinke of, for the disposeall of any Elephants you may intercept coming from Tenassary to Bengall.

Now wee have named the King of Raccan, wee must note to you, that hee is the old Enemy of the Mogull, & the best & most powerfull Ally you can have in that part of the world, & therefore wee would have you, Soon after reading these Instructions upon mature Consultation, & with as much privacy as you can, to send an Embassy to him, with a Present desireing his aid, & that hee would come into a strict alliance with us, against the Mogull and all other Indians or Europeans that shall take part with the Mogull against us, for which you may promise him all Elephants taken in Warr, & all Junks & other Vessells with Convoies to his Warr boats, & halfe the plunder of Dacca, if the War continue, & it bee your good fortune to take it, after you have well intrenched & Secured yourselves in Chittagam, which you must first doe So Securely, that you need no lesse feare the Dutch, then the Moors, if the Dutch be so treacherous as to make themselves partakers in this quarrell, which wee doe not now in theirs at Persia, nor ever did in any other of theirs of the like kind, neither doe wee thinke they will hostilely doe in this, untill they have order ffor it from Europe, or at least from Batavia. But however it's Safe to provide for the worst, & wee shall not grudge any Reasonable charge too much for your Safety.

There are likewise two or three ancient Gentus Princes that live in Bengall under great Slavery to the Nabob, which you may doe well to draw into your alliance, by Such good means as you shall thinke fitt, & for Presents for all Our occasions, wee shall send you what is Sufficient by this Ship.

After you are well Secured at Chittagam, if you doe not immediately ingage in Some designe against Dacca, you must bee thinkeing how to dispose of our severall Ships in this fleet, that they may not lye too long burthening us with

the charge of Demorage, which will eat very deep into our Stocke (if what you take in recompence prove not considerable) but you cannot expect any direct & particular Orders from us at this distance, not knowing under what circumstances you may bee 12 or 14 moneths hence. But to give you as much light as wee can, as to what wee would have, wee desire the Royall James may bee laden with Rice & Provisions for Acheen, & that you send 2 or 3 factors & 2 writers, Such as you thinke fittest to remain there in the Comp^a house as a standing ffactory, & wee would have the Royall James instantly dispatched from Acheen with her Returnes to our Govern^r & Council of Priaman there to take in her lading of Pepper, which wee have ordered to be provided for that purpose.

The Tonqueen & the Priaman you may likewise Send to Acheen with Provisions & order them to return again to you for another loading of Provisions for the same place, or else to goe to ffort S^t George, to be disposed of there, as our President & Council Shall thinke fitt for their future employment.

Capt^a Eldred's Ship is to bee discharged by us in the Countrey as you may perceive by the Copy of his Charterparty Sent you herewith.

Capt Mason in the Nathaniel you may Send to Bombay with Copper Tootenague & Cowries, filling up his Ship with Rice for the use of that Island, which the Mogull will have an aching tooth at, after the Warr breaks out in Bengall, but Wee have & shall prevent him as well as wee can.

The Beaufort & Rochester with Such of our Small ffrigatts as you shall thinke necessary you may retain at Chittegum while you thinke them needfull for your Security. But while you ride there you may bee loading them with Petre and what other goods you have or can procure proper for ffort S^t George or for Europe, filling each of them up before they Sail with Rice for the use of our Garrison at the ffort, our small ffrigatts likewise & Sloops which you shall detain in the Bay, need not at all bee idle, but kept Cruiseing for Purchase & voyaging as the Monsoons Shall Serve for their Speedy Returne to you, to & from Acheen, Priaman, Fort S^t George or Bombay, where & in Such manner as you shall judge they may bee most Serviceable to us, either as to Purchase Sale of their little Cargoes, or Intelligence, our new little ffrigatts being So contrived for Sailing, that wee hope upon necessity they may performe any Voyage between Port & Port, in India against the Monsoons.

Besides the Strength of the ffortification at Chittegum, & of our ships in the Road, wee thinke it may bee necessary for you allwaies to have rideing in Some convenient Station near you, 2 or 3 Prize Junks, turned into fireships to burne any Enemies Ships that may come into the Road to annoy you, Wee thinke likewise if you take any great Junks of 800 or 1000 Tuns, you may doe well to make a Hulk of one of them, to keep rideing constantly in the Road of Chittegum, to clean & careen our ships by, which will be of the greater use & necessity, Since you will probably have allwaies Ships in that Road, But wee onely mention these things, that you should not forgett to Consult our Commanders concerning them, and doe therein what they Shall advise for the best.

After you have taken Chittegum, if you thinke you have no further need of the Pryaman Company of foot Souldiers, you may returne them thither, If you keep them at Chittegum, they must by the Rule of Armes bee the Govern^r Comp^a being first raised.

You are to encourage all you can the Natives to plant Indigo & Cotton & to make Salt Petre, if there bee any proper grounds for it near Chittegum, which wee cannot doubt, as also the planting of Mulberry Trees, for Silke wormes, Wee haveing the greater hopes, that Some of these particulars may take effect, to our advantage in a little time, because it is within the Memory of Some of us, that [Cas]simbuzar itself, w^{ch} is now the most famous Markett for [fine Ma]nufactures, was an inconsiderable place of Trade, It was [our] Money & trade that first raised it to that Reputation it now hath, Lett no endeavors bee wanting to invite any usefull Natives in all Professions from Pattana Dacca Maulda Cassimbuzar, Rajamaul Hughly Ballasore and all places where you have any acquaintance to resort to you at Chittegum, & Settle with you.

If M^r Beard resolve to stay in Ballasore Road and from thence to proceed for ffort S^t George wee leave it to his own choice which of our Councill Factors & Writers to detain with him, & carry up with him to ffort S^t George to bee employed there, whereof wee would have M^r Higginson to bee one, whom wee doe hereby appoint upon his Arrivall at the ffort to bee last of our Councill there next after M^r Wavell that wee are now sending thither from hence.

And wee doe leave it to our S^d Agent & Councill before M^r Beard's departure for the ffort, to make up the Number of M^r Charnock's Councill to Seaven, our intended Agent M^r Charnock included.

But notwithstanding all wee have Said if M^r Beard our present Agent shall desire rather to continue our Agent at Chittegum, with the other authority & Commands before mentioned, which are to bee held & exercised by whoever is or Shall bee our Agent there, wee doe conferr upon him, and appoint him, to proceed with Capt Nicholson for Chittegum as afores^d & that M^r Charnock doe goe along with him, as his Second & Lieut Collon^l whose assistance in that place wee would by no meanes want, in regard of his fidelity & long experience in the Languages & Customes of that Countrey. The like wee say of M^r Pownsett whom for the reasons afores^d wee would have upon his leaveing Dacca to bee made one of our Councill at Chittegum in Such Station & in Such Command as may bee to his Content, hee being a most usefull man to us.

Wee have named Rajamaul amongst other places aforesaid, from whence you Should invite people to settle with you att Chittegum principally for the Sake of the Sheroffes, Because wee doe intend after a little time to sett up a Mint there of all Sorts of Coins that commonly passe in Bengall, & for Small change wee Suppose Cowries may bee of that use at Chittegum as they are in other parts of Bengall, for which purpose you may reserve some for our use & Sale at Chittegum, and Some part of the Prize Copper & Tootenage, of the rest that you Shall not need your Selves at Chittegum, Send two-thirds to Fort S^t George, & $\frac{1}{3}$ thereof to Bombay.

If any of the King of Syam or his Subjects Goods shall come into your hands, or you can take coming from Tenassery, you may give his Comanders a Receipt for, on acco^t of damage done the English East India Comp^y. by his wicked Minister Constant Phaulkon, & write Phaulkon what you have rec^d & what it produceth on Sale, But sell the Goods & bring the proceed into our Cash, adviseing our Generall & Councill of Bombay what it amo^{ts}: to, because wee have ordered our s^d Generall & Councill to make up Acco^{ts} with the Said King whose charge in our Books amo^{ts} to [*lacuna*] a Coppy whereof you have here inclosed.

You are to exercise Martial Law as well in our Ships as in our Garrison, according to his Maj^y last Charter of which wee Send you an authentic Coppy & also 12 Books containing the Military discipline & Martial Laws now in use here, unto which wee would have you conforme, and to make your Selves knowing & experienced in, now you are to have the Comand of Souldiers.

Our Customs wee have now established at ffort S^t George, Pryaman & Bombay at 5 pCent. to be punctually collected, of & for all Goods Shipped or landed by our own Servants & other English & Natives & all people whatsoever, wth you are accordingly to leavy at Chittegum, either upon valuation in Money or in kind, as you shall judge most for our advantage, All other Duties you are likewise to collect there after the Same manner, & in the Same proportion, as wee have directed to bee done at Priaman, for your clearer Insight whereinto, we send you with this Coppy of our last Letters [to] Priaman.

And in regard this is the first time any of you [have had] the command of an English Garrison & Colony in India, Wee have desired Capt. Nicholson to take in writeing at the ffort (where hee is to bee of our Councill while hee stays there) whatever hee thinks needfull for your knowledge in Relation to the Rules Laws & Orders of that place, relating to our Revenue, & the Government of our Souldiers or Inhabitants there, & to informe you not onely thereof, but of the more politic & better Studyed Methods of the Crafty Dutch at Batavia, who are never to be outdone, but by a people as wise as themselves, in makeing all conquered or fortified places pay their own charge &c^t. And wee doe appoint

him the sd Capt. Nicholson our Admirall in this Expedition, to be third of our Councill at Chittagam, and the Bay dureing his Stay in Bengall, & to take that place & charge immediately upon his first arriveall in Ballasore Road. But hee is not to have any Company of Land Souldiers, as one of our Captains of Chyttegam (being but a temporary Councillor) which are all to bee of our standing resident Councillors.

But you must allwaies understand that thô wee prepare for & resolve to enter into a Warr with the Mogull (being necessitated thereunto) our ultimate end is peace, for as wee have never done it, So our natures are most averse to Bloodshed, & Rapine, which usually attend the most just Warrs. But wee have no remedy left, but either to desert our Trade, or wee must draw that Sword his Majⁱ hath entrusted us with, to vindicate the Rights & Honor of the English Nation in India.

Now in order to peace wee must briefly tell you, that thô in our Letter to the Nabob wee doe demand Satisfaction for this great ffeet, and fforce, which wee compute at 200000 £ Demorage of our Ships these three last years & other Damages, Sustained by his beseidging our Factories & obstructing our Trade which wee likewise compute at 200000 £ And for new Impositions and Piscashes extorted from us contrary to our ancient Phirmands these three last years, which wee compute at 50000 £. For all our ffactories Buildings, Goods & Debts, which his Tyranny has forced to desert & leave in his Countrey 170000 £, yet wee are not onely So desirous but fond of peace. That if hee will agree to leave us the Inheritance of Chittagam & the Small Territories thereunto belonging, upon Such Termes as the Princes of Priaman have voluntarily without any occasion, given us that Citty of which wee send you a Coppy inclosed, Wee shall upon those Terms relinquish all our forementioned demands, & resettle in his Countrey in our old ffactories, & upon our old Privileges, hee agreeing that our Rupees & other Coines Coined at Chittagam of equall alloy & weight with his owne rupees, shall passe Curr^t in all parts of Bengall, and that all debts due to the Comp^a from any person or from any persons, being the Mogull's subjects, shall bee duely & justly paid on both Sides. But no Interest on either side dureing the time of Hostility, Whatever advantages you may gett by the Warrs, wee would never have you insist upon excludeing any Nation from any part of that Trade, which you may Signify to the Nabob, the Dutch & all other persons.

But in regard without Such a ffort as wee design at Chittagam, on that side of the Moguls Countrey, yourselves and our Estates would never bee secure, after this Breach from the Dutch, or the Moors Separate or conjunct, wee are resolved never to part with it, on any Termes, So wee would not have you by reason of or in hopes of the Successe of any Treaty to deferr one Moment the sending of our fforce thither to surprize it, as Soon as you have Capt. Nicholson with you from ffort St George, nor to agree to relinquish any of the land reputed to belong to Chittagam, or within 10 miles or Some certain bounds distant from our intended ffort, for thô land bee little or nothing worth in Bengall under that Tyrannicall Government, it will in a few years become of great value under the mild Government of the English & therefore upon your agreement with the Nabob, gett as large a Circuit of land included in his Phirmand as you can.

For Damages or Losses Sustained on either side during the Hostility, wee can give no certain practicall Rule or Medium of restitution, and therefore wee thinke on makeing peace both nations must bee content to Sitt down with their own Losses, dureing the Hostility, as the Daues & the Mogull's Subjects did after their last war in Bengall.

And allthough wee know no peace the Nabob shall make with you, can bee good & firme, untill it bee confirmed by the Mogull, yet not doubting of the Mogull's confirmation, when you are once Strongly posted in Chittagam, you may forbear all further Hostility, in those parts as soon as you are agreed with the Nabob, which agreement wee hereby empower yourselves to make, & Shall order our Generall & Councill of Surat to confirme what you shall agree unto for that side.

of the Mogull's Countrey. Nevertheless wee would have you constantly to advise our sd Generall &c & our President & Councill of ffort S^t George of all your Proceedings.

Wee leave it to your Discretion whether or not to make use of both or either of those Letters wee have writt to the Nabob, or the King of Raccan, or any others that you shall thinke more proper in our or your own names. But wee would have you to commence your Treaty with the King of Raccan and those Gentue Princes in the Bay as soon as possibly you can, after you are safely gott on board the Rochester.

You must take notice, that wee have freighted all Ships that Serve us this year in India, to stay two years in the Countrey, if you have occasion to keep them so long, which wee have done as [well] to give you the oportunity of Sending first home all our Ships, that went out last year, as to defend our new Settlement & our Interest in all parts of India dureing the time of Hostility, nevertheless wee would have you allwaies bear in your minds the vast charge of their Demorage, and provide So, that while they stay in the Countrey, they may bee earning what is possible towards it.

Our new ffrigatts are so contrived for the sea, that they may as well goe about the Cape, as the best ships wee have, So that upon any occasion of Consequence to be knowne unto us, you may instantly load one of them with any kind of Goods & dispatch her home to us, for Intelligence, but if the occasion bee not Extraordinary, it will not bee well to doe it, Because Such little Ships make but Inconsiderable freight for Europe.

Chyttegam being upon the Raccan Shoar we doubt the Nabob has but [little] Territory there, to give you any right unto, But you may condition for a Small matter with the King of Raccan, to have as many miles round it as you desire, & as many as you will of those little uninhabited Islands near it, which doe abound on the Raccan Shoar.

You are to take notice, that if at any time, there should bee any of his Maj^{ty} own Ships of Warr in India, the Comander of Such Ship must Command in Cheif at Sea, & wear the fflag, notwithstanding any thing mentioned in this Letter. Wee remaine

Your very loveing friends

OUR CHIEF AND COUNCIL
AT PRIAMAN.

LONDON 21th. OCTOBER 1685.

1. We shall be y^e briefer to you by this ship the Herbert, because another [ship] will follow speedily, by whom we shall write you the more largely, and send you a stock sufficient for her loading consisting of money, woollen clothes, nailes, lead, Powder, shott, firearms, and other particulars.

2. For what wee send you by this Ship, we referr you to y^e enclosed Invoyce & Bill of Lading, & at the foot of this letter you shall have an acco^t. of y^e Number of Officers & Souldiers w^{ch} we have sent you.

3. We have likewise thought fitt to enclose to you an authentick Copy of his Maj^{ty}. last Charter to us, by vertue whereof we doe appoint you to govern that place by such a Court of Judicature as is therein directed, and to govern our Officers & souldiers by the law Martiall, to give you some light wherein, we have enclosed with this Pacquett a little treatise of those Martiall laws, that we have appointed to be used in all our Garrisons in India being the same that are in use in his Maj^{ty}. other Garrisons beyond the seas, and that you may have some light into the Civill law or law Merchant, we send you a treatise lately writt upon those Subjects, the best that we know [is] extant, and in regard we are satisfy'd that you M^r Ord are learned, besides what late experience may have informed you, we do appoint you to be our Chief Judge in all Causes occurring in that place, and that your Assistants be (untill our further order) your 2^d & 3^d of our Council there.

4. We know the Dutch will if possible interrupt your Settleme^t there, which hath caus'd us to perswade Cap^t Udall to touch first at your place to strengthen your Garrison, as well with y^e Souldiers as the great guns and carriages he brings you to be mounted upon your works, which we hope you have made strong as well as much larger & more spacious than fort S^t George, y^t you may have room enough to lodge 500 Souldiers in Barrocks within y^e fort, besides all other conveniencies.

5. A Copy of Cap^t. Udalls [Chre ♡ty] we send you y^t you may [take] notice thereof, & observe y^t he keep to the contents of it.

6. That you may know w^t we mean by Barrocks, we have ordered Cap^t Udall Cap^t Wetwang, Lieut^t. Chetwind & Ensign [lacuna] to take a view of those in y^e Blockhouses at Gravesend & return us an information in writing, how they are built contriv'd and scituated, to y^e end they may be able y^e better to direct you in [the] contrivance of them at Priaman, w^{ch} we would have instantly gone in hand wth. y^t you may begin your Garrison, with a better order & method, than any we have yet had in India, w^{ch} is y^e most certain way to continue well. A Copy of y^e return of Cap^t Udall Cap^t Wetwang &c^a we send you likewise herewith.

7. By y^e Royall James we shall send you 40 great guns & 120 souldiers more if we can procure so many, by w^{ch} you see how carefull we are for your security, & y^e honour of our King & Country hoping you will have such an ingenuous sence of our great expence, as to create at first such a Revenue, as may recompence our charges in a short time, as y^e Dutch do most wisely in all places where they fortify, & their methods you cannot long be ignorant of in a place, where you will have converse wth so many people y^t know y^e Laws & Customs of Batavia w^{ch} wee recommend to your imitation in every respect as to y^e matter & manner tho^t not in.

y^e same measure, for whereas they take 10 ^p Cent Custom on some goods & 10 ^p Cent at least on all we do hereby establish our Customs of Priaman upon our own goods, our Servants & all other Europeans & Natives of India whatsoever at 5 ^p Cent, it being our Resolution y^e all persons whatsoever shall pay us a like & equall custom at Pryaman, & for Pnachhouses fishing boats, Prows, Wyans, other boats, shopkeepers Excises Ground rents and other duty's of all sorts, we would not have you exceed y^e one half of what is constantly paid at Batavia, & if you find it of necessity, to go a little less, or lower than our limitation till you are stronger & better settled, we leave that to your discretion. But [we would not] have you lett any of our ground wthin or without our [Intended Towne of Priaman] in lease for above 21 [years, because noe man can foresee] to what value ground may arise [in a Place] where you will probably be strong enough in a little time, to give protection to Chineses, and all other trading Nations of India, besides y^e y^e resort of shipping from fort S^t George, to winter & repair must needs render your place very populous in few years, and y^e rather because we design upon those Islands (that make your harbour) a Carpenters yard, like Unrust near Batavia, always replenisht with good quantitys of timber (wth which we understand y^e Country abounds) smiths shops, Masts, Yards, tarre & all other Materialls, fitt for y^e building or repairing of ships, of w^{ch} we shall write you more particularly ^p Royall James.

8. The goods we now send you we would have you diaspoe of, to our most advantage & return us our next ship wth her lading of Pepper, as soon as you can, y^e if it be possible shee may not lye in your Road above 2 months at Most, [after her first arriveall wth you,] & if she sh^d arrive when your Circumstances are such, y^e you cannot be confident to give her a dispatch fully laden wth Pepper for England within 2 months after her first arrivall with you, we would have you in such case, as y^e wind shall best serve at y^e time to dispeed her for Bengall to be laden with Rice & Provision for Atcheen or Priaman, or else for Porto Novo to be laden there with Rice as the Rochester was, & at her returne to you to be instantly dispatcht home for England with Pepper, [but it will] be much Better, if you [could] dispatch her home to us as not to need to make any trip in the Country.

9. If you should be necessitated to send her for Rice [either] of y^e ways before mention'd it will be necessary you should [send] Copy's of y^e Paragraph of this [letter] relateing to this business [to] our Presid^t and Council of y^e Fort, or to our Agent & Councill in y^e Bay, which [we doe require them] respectively to observe [& dispatch] as there shall be occasion.

10. We [have considered of] our Priviledge of Coining [at Priaman] but in regard that [we would not encumber you wth too much] business at y^e first settlement we have [rather] thought [fitt to order] our Mint at fort S^t. George to serve for your place likewise [& for] y^e regular keeping of our Books, and making some advantage of our money as the Dutch have always done, we have [appointed] y^e sevⁿ. species of money to be coyn'd at fort S^t. George, & to pass Curr^t. in all paym^{ts}. at Pryaman, at y^e severall rates mention'd in our letter to fort S^t. George of w^{ch}. you have a Copy herewith, and also in y^e Title of y^e Officers and Souldiers subscriptions, now going to you, of which we send you y^e Originall, requiring you in all payments to proceed accordingly, which will not at all affect y^e Natives of Pryaman, because our Contract with them for pepper is to be paid in Spanish P^o. of $\frac{1}{2}$ & it matters not to them at what rate we value y^m.

11. If your Officers and Souldiers y^e came from fort S^t. George are entertain'd at any higher terms, than we have entertain'd these now sent, and are not willing to come to these terms, you may by the first opportunity returne them back to y^e fort, & entertain in their stead, so many Portugees, or 5 [Pardemen], as you have occasion of them after y^e Royall James [arrives].

12. We will alwayes have our Chief of Pryaman to be Governour of our Town and fort there, & Captain of our first Company of English foot, y^e 2^d: of o^r Council, Captain of our 2^d: Company of English foot & y^e 3^d: of our Council to be Captain of our 3^d: Comp^y of English foot, and that it be a standing Rule for all Lieut^{ts}.

& Ensigns to give place & precedency to all of factors degree; and that all Writers give place & precedency to all Commission Officers.

13. We send you herewith all our Printed Rules & orders, wth such in writing as we have made since printing y^e former, requiring you to see them put into exact execution, without favour or affection to any person, and that you punish the least appearance of disobedience or sedition in any Officers or souldiers by y^e strict Rules of Martiall Law.

14. We shall contrive as soon as we can y^e sending you some Madagascar blacks, to be bred up ship Carpenters, Smiths and other Handicrafts Trades, as the Dutch do to their great advantage at Batavia.

15. We doe establish the Sallaryes of our Chief & Councill of Priaman as followeth Viz^t Our Cheife and Governour to have 100^e p Anⁿ and Captaines pay. Our second [50^e] p Anⁿ and Captaines pay, our third of Councill 50^e p Anⁿ Our 4th of Councill 40^e p Anⁿ. Factors 15^e p Anⁿ. Writers 5^e p Anⁿ. Our Cheife and Second aforesaid to doe Captaines Duty as souldiers in all respects in their turnes, and not to trust their Lieutenants wholly with their Companies, but y^e Cap^{tn}. to make themselves able [&] to accustome themselves often to Exercise their own Companies, that both Cap^{tn}. and Soldiers may arrive at exact expertness & readiness in y^e exercise of their Armes.

16. Our Captaines neglect of this duty at Bombay, lost their power and interest among the soldiers, and [was a] great cause of that Rebellion last year.

17. You must charge each Cap^{tn}. with y^e valew of all Cloths Viz^t Coates, Hatts shooes & Stockings delivered their Companies reckoning 40 p Cent advance upon the Invoice price as is customary at S^t. Helena and Bombay, (though the Dutch in such cases take alwayes 70 p Cent) and the Cap^{tn}. are gradually to reimburse themselves from their inferiour Officers and Soldiers, by stopping in hand one fourth part of each mans pay, untill all Cloaths are paid for, which is now practiced in all the Kings new raised Army in England as Leiuten^t. Chetwind and all old Officers know, but if any Officer puts himself into a proper and sutable equipage at his own charge, nothing is to bee deducted for his Cloathes.

18. Though a Drummers Cloaths cost us more then a private Soldiers by reason of the Ciphers imbroidered upon them, as also the Granadeers, yet we would have no more deducted for their Coats and Caps, then for every other private Soldiers Cloaths. The Granadeers we designe for a life Guard for our Govern^r M^r Ord alwayes, or as often as he pleaseth to attend his person, and therefore we give him leave, to choose them all himselfe out of the properrest, and nimblest of our Soldiers.

19. If at the first arrivall of our officers & Soldiers, before publick houses of entertainment and Subtillers are licensed, and before they are settled in their Quarters in Barrocks within our Forts, you should be forced to accommodate them with Rice or other Provisions of the Companies, it must be your care to reimburse the Comp^{ty}. for such charge out of their pay.

20. It must likewise be your care to build within your ffort convenient and regular storehouses for Rice & Paddy and allwayes to be well stored therewith to hold out a Seige of 12 M^{os}. if need should be as also to sell as the Dutch doe to that Comp^{ty}. considerable advantage.

21. In setting out the bounds of our Towne of Priaman we would have you designe it large, strong & regular in all its Streets, and fitt places for Busars, or Markett places, Churches, Hospitalls, a strong Prison, Custome houses and ware-houses for all occasions, whereof you may proceed in the building by degrees, after you have first provided for your security as well against the ill nature of Sumatreans within, as the enmity of the Dutch without you.

22. Wee presume besides the benefit we shall have by our Madagascar Blacks, learning and working in handy Craft trades, they will be some kind of ballance in case of need against an Enemy, they being as much Strangers to the Sumatrians as they are to us, and we suppose 5 of them will not cost us so much to maintaine as one English soldier, [soe] that if upon Consideration you find it convenient you may [enure] some of them to keep Guards & Watches in their Courses, at

convenient places there, & under such officers as you shall appoint them, with Lances, Darts, & Swords, or other weapons of India, but teach them not the use of fire Armes.

23. We observe by the ffort Consultation book y^t Priaman, Orankeys stood pretty stiffly to reserve to them[selves,] y^e profitts of the Datchin, or weighing Beame, and we must note to you y^t y^e Dutch farme out the profitts of their [Datchin] at 10000 Doll^r. ¶ Anñ, we would have you farme out ours at Pryaman to some of the great men there at y^e most you can get at present, Though but 4 or 500 Doll^r ¶ Anñ at first or 1000 Doll^r., but never farme that or any other of the Companies Dutyes for above one year, because if it please God to continue your healths, we doubt not but the trade and Inhabitants of our Town of Pryaman will more then double every year.

24. You know we allow noe Cap^t pay at Fort S^t. [George] though we now doe it to you, the reason whereof is our President and Second there, which are the Capt^s are not accustomed to Soldiers duty but leave that to their Lieuten^{ts}: which we would not have you doe, but as you are the founders of a new English Collony, so you should begin upon new and better Methods, which is not difficult since our Chief M^r Ord having long observed all the order of our Government and œconomy at the ffort, has an advantage at Pryaman of our and his experience there, to mend what is capable of melioration & to add some things that are wanting, according to the Old Proverb *Dies Diem Docet*.

25. Tho we have said before, we think it not convenient, that for your defence you should enure any of our Madagascar Blacks to fire-Armes. Yet we think, if you had 50 of our old Peons from Fort S^t George, that have been used there as Musketeers and Pikemen, they might doe good service, and having been our old servants, would be faithfull, and a good ballance against the Sumatrians, Madagascar Blacks, or Mutinous drunken English, if we should have the misfortune to entertain any such, as we have formerly been troubled wth. The true art of Government being the ballancing of power, & that still not any where more necessary then in Settlements of India.

26. When you have considered the preceeding Paragraph, what you find occasion of from Fort S^t. George you may write to our President & Councill for, and we shall now give them order to supply you with any people they can perswade to goe that you shall write for or anything else they can spare.

27. Anything we have sent you now or shall send you hereafter of English Com^{ds} that you cannot or do not sell within ten months after its arrivall, we enjoyne you, after such ten months tryall of your Marketts, to send all such remaines of goods unsold to Fort S^t. George, (which shall be our only constant magazene for Europe Goods) and we require your observance of this, as a constant rule, as also not to trust out, any of our Commodities to the Natives without present pay or other goods in trucke except you could create a sound responsible Company of black Merchants as at Fort S^t George, which we doubt is not presently to be done, among such a cast of people as you are settled with.

28. If you have a loading for this Ship the Royall James, it is the best thing, that can happen for our service, and in such case, we would have you dispatch her home to us forthwith, but in case you shall not have pepper to dispatch her in less then two months time as afores^d, we would have you in that case, after a speedy taking on shore of our mony, Soldiers, and what else we have sent by her, to dispatch her with all possible expedition to Ballasore road, if y^e Winds searve, (& not to Porto Nova.) but in case of Unsafety of Passage to y^e Bay, to take in a full loading of Rice Butter Oyle & other provisions for Atcheen, except o^r Agent and Councill in the Bay, shall think fitt to detaine her longer there for our service, in case they be not better used, by the Mogul's Gov^r. in Bengall then they have been lately.

29. With the Royall James, or presently after the receipt of this Lre, if you can spare them without hazarding the security of our Fort of Pryaman send all our Sloopes that shall be with you at the arrivall of this Ship to Ballasore to load back with Salt to Pryaman, to which purpose, We have wrote to our Agent and

Councill in the Bay, and herewith send you our letter open, which we would have seal'd & forward'd to them by the first opportunity.

30. And in the mean time we would have you be providing of large Godownes for the reception of great quantities of Salt.

31. The bill of loading & invoice will informe you, what you are to receive out of this ship. The Olibanum, & Sapan Wood, we hope you may have occasion to sell to some Chynamen at Pryaman or at Atcheen the rest of our goods, we would have you dispose of, as soon, and as much to our Advantage, as you can, and you shall be soon resupplied.

32. Wee shall send you goods & dollars, by the next ship, sufficient for loading two ships, besides w^h you have recd: from Fort S^t. George, soe y^t. wee hope you may be in condiçon, to dispatch 3 or 4 good ships yearly to us, wth pepper, w^{ch} will be much more to our advantage to come directly to us from yo^r place, then to send yo^r pepper first to Fort S^t. George, to be reloaden frō thence to England, & therefore wee shall write to o^r President &c^a at y^e Fort, from time to time, to supply you wth shipping from thence, y^t shall come directly from Priaman hither, w^{ch} y^t that they may doe wth y^e more exactnesse you are by all opportunityes, to give y^m advice w^h pepper you have in store, or may have in a short time.

33. If this arrive time enough wth you, notwithstanding w^e wee have said before of yo^r sloopes, wee would have you if you can, immediately to dispatch one of o^r most burdensome sloopes, wth a loading of pepper, to o^r Chiefe & Council of Tonqueene, adviseing y^m to make sale thereof to o^r most advantage, & to make o^r returnes by y^e same sloop to Fort S^t. George, in Japan Copper Tutenag, or oy^r.wise in w^elce they can procure, most propper for y^e Fort, or o^r Europe marketts.

34. By y^e Sloop you send to Tonqueene, forward o^r Pacquett theither.

35. Cap^t. Udall carryes wth him two sloopes, wth when he has done wth, if they are for o^r. service, & in good Condition, you may buy of him, but wee thinke hee may well affoord y^m you, for halfe they cost in England, when they have served his turne this voyage.

36. That you may know w^h these Sallaries, w^{ch}. wee doe now appoint shall begin, & how to acco^t wth o^r Officers & Souldiers, wee must tell you y^t all Sallaries &c as they were establisht at y^e Fort, shall continue as they were, untill y^e arrivall of y^e Royall James wth you, then you are to begin upon y^e establishm^t now appointed, & to reckon all Sallaries & souldiers wages, by y^e Callendary month as wee doe at Fort S^t. George, & wee appoint a Cap^t. pay of an English Comp^a. to be 10^s p^r month y^e oy^r Officers pay as stated, by their owne subscription, now sent you, our Souldiers are not to be oblidge to receive new cloaths above once a yeare, as is customary in y^e Kings guards here, y^e number of o^r Granadeers for a life guard to o^r Govern^r. we intend shall be twenty, & there is a Serjeant entertained purposely to Command y^m, as you will perceive by y^e list, but if hee or any oy^r. Officer bee drunke, or misbehave themselves, you are to Cashier y^m & punish them according to y^e Law Martiall, w^{ch} now (since writing y^e former paragraphs of this lfe) is together wth y^e order & exercise of all sorts of armes compiled into one booke, & printed by his Maj^{ty}. ord^r. of w^{ch} bookes wee send you twelve by this ship, injoyning you not to part wth any of y^m out of our Garrison, though you may Lend y^m to any of o^r Officers for their information and direction.

37. Wee expect y^t each Captaine should exercise his Comp^a. three times in each weeke, or as often as weather will p^rmit, untill they are as p^rfect as it is possible for Souldiers to bee, & p^rforme all their exercises readly & decently, by beate of drum as well as Vocall Command, y^e manner whereof as it is now used in y^e Kings guard here, o^r Lieuten^t. & Serjeants now sent, can soone informe you, & very easy it is, after men are a little accustomed to it.

38. If you happen to have any novice, or dull block headed fellow in either of yo^r Comp^a, you must see y^t yo^r. Serjeants or his file lader bee constantly tuting of him untill he can performe all his postures, as readly & gracefully as y^e best.

39. The very sight of y^e Compleat exercise, of two such Comp^{as} of a hundred & twenty men, each, besides y^e it is very beautifull in it selfe, will make you feared & admired by all y^e hate you.

40. Serjeant James Edge, & Serjeant George Smithurst, wee had wth leave out of y^e Kings guards, under y^e: Charecter of Sober men, & expert Souldiers, w^{ch} if they prove to bee, as wee have reason to thiinke they will, you may prefer one or both of them to be Ensignes as soone as any Vacancy happens, by death or absence of their superior Officers.

41. Wee are now resolved y^e y^e Rainbow w^{ch} wee intended should have stopt with you shall not doe it, to hinder her passage out but shall make y^e best of her way for Tonqueene, but from Tonqueene we have obliged y^e Owners & Comander by Charter party & y^e Comander by our Instructions y^e y^e ship shall touch at yo^r place in her returne home to fill up with pepper She may with god's blessing be with you from Tonqueene by y^e last of January come twelve moneths & we give you this timely notice of it, y^e you may not faile before y^e time to be provided wth & keepe in store for her abt 100 tuns of pepper w^{ch} must be put on board her wth all possible expedition, in 3 or 4 dayes time to prevent her making a winter voyage home, y^e avoyding whereof depends singly upon yo^r giving her instantly a dispatch w^{ch} extreamly concernes us as well in respect to y^e Safety of y^e Ship & goodes homeward as her Seasonable ariveing here before our Michaelmas Sale following. So Commending you & our affairs to y^e Guidance & protecōn of y^e Almighty, we remain

Your loving friends

LONDON 24th FEBRUARY 1685.

OUR PRESIDENT AND COUNCIL
AT FORT S^t. GEORGE.

We have writtⁿ you at large by the Beaufort Rochester and Nathaniel, and remember little to be now added to you, but to inculcate our orders, respecting the increase of our Revenue, W^{ch}. we require you to improve by all the methods we have directed, and Such others as your own Ingenuity Shall invent, by conference with Cap^t. Nicholson, M^r Stileman and others that have Seen the practice of the Dutch wisdom in Batavia in that respect, w^{ch}. was certainly the foundation of their greatnes in India, & is now the Support of it.

We have very particularly in our former letters directed your making provision of Some Sorts of goods resembling Our Bay goods, which you must necessarily enjoyne our Black Merchants and all persons of whom you buy our coffin Sorts of goods to provide you of each, Some little quantity of the new sorts now desired, and at moderate rates, which you may easily convince their understandings, wilbe as much their own Interest as Ours. Because if we have the Same Goods from the ffort upon as easy terms as we buy them elsewhere, it wilbe evident by our Interest to make the greatest Investment at that place, where we have So great a Strength.

We hope with this to Send you an Authentick Copy of Our new Charter, wherein you will see his present Ma^{ty} hath been pleased to grant and confirm to us

all the powers We can possibly desire, and all that the Dutch have or can pretend to from their Sovereigns, So that now our Constitution Stands upon the Same foot of power with the Dutch Comp^a. And if we [you ?] do not manage it aswell and as much to the publick advantage as the Dutch do, the fault must be Ours, that We do not direct you well and wisely; or yours, that you do not effectually, prudently and faithfully pursue those direcons We give you; W^{ch}. We hope you will never give us cause to Say of you.

We understand by conference with Captain Andrews, that there is up within the land of Sumatra, a great King called the Monant Cabo, which is the principall & paramount King of that Island of Sumatra, and that the Dutch keep a constant correspondence with him, and two or three ffactors alwayes at his Court; designing without question, the Same kindnes to him, which they have done to the King of Ceilon, now called King of Canda. Because they have gott all his Sea Ports, We think (to prevent their design thereof at Sumatra) it may be convenient for our President to write a Civill letter to him, and send him such a Present in such kind and Manner as M^r Ord (upon his better experience of that country and customs) Shall advise, and with your present to make Such request to that great King, as shall tend most to the Companies advantage, settlement and security of that important place of Pryaman, w^{ch} we would have you Strengthen and cultivate by all means within your power, and that you would constantly Supply them with such Portugeez or other Native Souldiers, as you think may be faithfull to us, which we hope any will, that have been bred under the English, and Such peradventure may have their healths at Pryaman, better then fresh men Sent from England, besides w^{ch}. they are cheaper, And We are assured, the Dutch in their fforts upon that Coast (for the causes aforesaid) do make very much use of Macassar and Bugga's Souldiers.

Whenever you renew any Treaty, or obtain any Phirmaund from the King of Gulcondah or Sombajee or any other Prince or Nation We would have you endeavour in all Such cases to obtain an article, that any Englishman or other Subject or Subjects of our Sovereign Lord the King abiding or being in any parts of their respective dominions (without Our Presidents leave or consent) Shall upon demand be delivered up unto you. And the like order We would have you give to Our Agent and Council in Bengall with respect to any new Treaty, that they may have occasion to enter into with any Prince or Nation hereafter, ffor altho' We design great liberty for free Merchants aswell as ffree Ships to go for India, and trade there without prejudice to the Company, yet we resolve that no Englishman shall ever abide or Stay in India without giving constant and due obedience to all our Rules and Orders, and to respective Chiefs and Councils, among which rules and orders of ours, you must not forget, that one Rule is, that whatever Englishman hath liberty to trade in India, is to keep house or reside with his ffamily at ffort S^t. George, or in some other of our fortified towns or places, and there to pay (as we usually say) Scott and Lott to the Comp^a as Lords Proprietors and Protectors of that place under his Ma^{ty}.

And whereas it hath been a fruitles Custom of our Predecessors to send for Criminalls and ill men home, where We have not tyme (nor are indeed a fitt constitution) to follow the law effectually against p^articular persons especially in triviall cases, We would [have you] hereafter, now you have all Sorts of law in yo^r Selves, punish all Offences and Offenders there by ffines to the Company, or other punishm^t. as the merits of their case Shall require, as the Dutch do, ffor any Englishman in India (how bad Soever) is a Strength to the place, If our Government there be wise and Sharp enough to force him to be of good behaviour or keep him in Goal til he be So, or otherwise punish him, if his Crimes be of an higher nature.

We have ordered the Captain of the Pryaman to take in a quantity of wine at Madera of which half is to be Sent you from Pryaman, which we think may amount to ten or fifteen Butts. Part for the use of Our ffactory as you shall See. cause, and the Overplus to be Sold for our acco^t and We have ordered a less

proportion to be sent to Bengall of which you may give intimaçon to Our Agent and Council there.

Wee remaine
Yo^r loveing friends

OUR PRESIDENT & COUNCIL
AT FORT S^t GEORGE.

We have as you will find by the inclosed order of Court continued the giving leave this year as we did the last to Merchants for Sending out Severall quantities of Corral Beads upon their payment of 10 per Cent to us, and have therein provided, that upon their arrivall there, You and Our Council (if you find it for our advantage) may take them for Our use, Paying the Proprietors the full cost and value as Invoiced, with 10 [¶] C^t. advance for the Same, and the permission of 10 [¶] c^t. rec^d. here w^{ch} is to be paid them in Dollars at 5^s. 4^d [¶] ounce.

We desire you will view every particular parcell & consider whether our permitting or prohibiting this comodity will turne us most to acco^t. and in case it be advisable for us to restrain it for the future, that then you would advise us what Sorts of Beads and the quantities are best to be Sent from hence, and w^{ch} of the Sorts that are now come out yield the best price.

In the Beauforts Invoice we have deducted 228 Small Piggs of Lead, as returned out of the Ship, but upon exaçon find that the Lighterman rec^d but 225 So that y^e ought to receive out of that Ship 440 Small piggs, tho' there be but 427 Invoiced. Wee remain

[*Endorsed* :] Companies Generall to Fort St. George dated 10th February 1685—rec^d & Rebecca 25 Dec. 1686—entred & H.M.

AT A COURT OF COMMITTEES HOLDEN Y^e 13th JANUARY 1685.

On reading an Order of Court of 21th January 1684, touching the Exportation of Corral Beads, and a Question arising thereupon, whether y^e same should be still continued in force upon a long and serious Debate thereof had, It is order'd that permission be granted to all Merchants to export on y^e Companies Ships for India Such quantities of Corral beads, as they shall think fitt, paying ten & cent permission for y^e same, according as they are valued in their Invoice, So as they goe consign'd to the Comp^{ny} Generall or President and one of y^e Comp^{ny} Council at Surratt or Fort St. George, and to one of y^e Said Exporters Correspondents in either of y^e afores^d. places; and So as upon the Arrivall of the Said Beads at Surratt or at y^e Fort, The Comp^{ny}. Generall President, and Councils there respectively, may have y^e Same for y^e Comp^{ny} use upon payment unto them or their order, y^e full Cost and Value of y^e said Corral Beads mencon'd in their Invoice wth ten & Cent advance for the Same, as also y^e permisson of ten per Cent, which the Company have receiv'd here, before their Shipping, which money is to be paid by y^e President & Council in Dollars at y^e Rate of 5^s. 4^d. 2^{oz}. And it is referr'd to the Committees for y^e Treafy, to view Such parcell of Corral Beads, as y^e. s^d. Merch^{ts} shall desire to enter, & their Bills of Lading & factorys to y^e end y^e Comp^{ny}. may receive & mission according to y^e full value of y^e s^d. Beads.

OUR CHIEF & FACTORS

AT TONQUEEN.

Wee Send you with this Ship copies of our lett^{rs} of the 20th Septemb^r. 2^d & 4th October by the *Smirnaote* and 2^d July 1684 overland, by w^{ch} you will see w^h our thoughts then were of that trade, & y^e wee did then reestablish M^r Keeling according to his degree, in the Chiefship of y^e Factorie, w^{ch} we do Still confirme if he be upon the place, but if he be removed to Syam or any other remote

Countrey, We do in Such case ord^r M^r Hodges to continue Chief thereof and in case M^r. Hodges bee dead or absent, We appoint M^r. George Task to be our Chief there, And we do hereby totally remove from our Service M^r. Ireton hee being as we are Severall waies informed wholly given up to Sottish Drunken course of life & consequently unfitt for any trust in o^r Service.

2. What money and goods we have Sent you by this Ship the Dragon you will und^rstand by the Inclosed Invoice and bill of Lading, Wee have ordred y^e Com^{mand}^r Cap^t Fenn to Sayle directly for Tonqueen, Stopping only five dayes at Acheen, where we have ordred our Chief & Factors to fill up y^e Ship with Pepper if they can possible effect it in y^e time.

3. And now we have Setled your Factorie in Subordina^{cion} to our President and Councill of ffort S^t. George, you are to ffollow such ffurth^r orders as you Shall from time to time receive from them theirs not being repugnant to our own orders.

4. You will See by the Invoice y^e we have Sent you (to help fill up y^e Ship) Some quantity of Joyners ware to be Lackred there, w^{ch} we have done upon conference wth Cap^t Knox and M^r. James, who both assure us, you may with care and circum- spec^{cion} procure them to be bett^r lackred and painted then ordinary wherein we can give you no particular directions, they being things of Fancy, but we would have them all well done and Substantiall that may hold for many yeares and with as much variety as may be, Some plain black, but most to be adorned with birds, fflowers or Imagery Such as you Shall with the advice of M^r. Clyve Purser of the Dragon, think may be most acceptabl^e in England, the Said M^r. Clyve was formerly a Cabinet maker, and kept a great Shop of Such wares in this City, and by his former profession and his observa^{cion} now, he Should pro[b]ably be able to make the best Judgment w^t sort of workes may be most in request here, and therefore we desire Cap^t Fenn to take him for his Purser, that he might be upon the place, to assist your fancies, and direct the workmen you Shall employ in the Lackring of those Joyners wares in the most comly and agreeable manner to the humour of this place, and we have promised him at his returne a reward Suitable to the Service he Shall do us therein, and would have you accordingly to make use of him, while the Ship Stayes there.

5. We can give you no bett^r directions for the Investment of this Cargo into proper goods of Tonqueen, then w^t we did in our former lett^r, but it will very much Import us, that this Ship Should Speedily return to us, and therefore if it be possible We would have you Dispatch her from Tonqueen, Some time before the end of Decemb^r, that Shee may Save her passage through the Streights of Malacca to Acheen, and from thence to London, w^{ch} if you could effect would be most acceptable Service to us, & give us a proffe as well of yo^r Sufficiency as of yo^r zeale for our Service, but if it Shall be utterly Impossible to procure neare the full returns of her outward bound Cargo, before the last of Decemb^r, it will not be Saffe or convenient to Send her through the Streights of Mallacca, but rather through the Streights of Sunda, and in Such Case we would have y^{ou} consign^e o^r Said Ship and Cargo to our Presid^t & Councill of ffort S^t. George, Sending by her a Copie of this lett^r, by w^{ch} we do ord^r them to take out of our Ship Dragon onely Some of her Tonqueen goods as are proper for India Viz^t Gold Vermilion or Tutenage, if you can procure any, but they leave all our Silkes, lackred and China wares to come home in the Ship for Europe, aft^r they have filled her up with So much goods of Fort S^t. George as She can conveniently Stow.

6. M^r. James hath given us his oppinion at w^t rates y^e Severall Sorts of Lackred work may be well p^rformed at Tonqueen, but in regard you have So long resided there, and we would not limitt yo^r fancies, w^{ch} Shall leave y^e to yo^r Discreet bargaining with the workemen, but in generall we would have at least three quarter parts of those things, we have Sent you well adorned with gold haveing observed the guilding of such wooden wares is as Strongly & cheaply performed at Tonqueen as in any place.

7. Musk is alwaies a certain Commodity if you Send it good, & not adulterated, and therefore we have long Since made that intirely the Companies comedit^y, and we doe require you to Send us all you can possibly procure, without Shipping

any thereof, or Suffering any thereof to be Shipt upon this or any other Ship or Vessell, for the acco^t of any English w^t soever.

8. Tho we liked not the putting M^r. Blackmore Into our Councill aft^r the old Loose Bantam fashion without our consent, yet we have So good a Charracter of him otherwise, and beleive he must now have arryved to So much experience of the trade and Language of that Place, that we do now confirme [him] One of our Councill of Tonqueen.

9. Wee have not displaced M^r Hodges for any fault we finde in him, but only because we know it is M^r Keelings right, and though we would have M^r Hodges continue Second there, yet we Shall be content he Should remove to Fort S^t George, and we Shall take care for his preferment there.

10. Wee are very desirous to procure Some Chinese Merchants to live at Fort S^t George, hoping if Some few were there first, our Presidents good usage of them might in a Short tyme, Invite more of there countrymen, to inhabite there, where they might be Instrumentall to begett a trade to Some part of y^e South Seas, and consequently much encrease y^e Generall inland trade w^{ch}. we permitt at the Fort & be a means to augment the generall trade of y^e Place, as they were the first rise of Batavia, wherefore if M^r Hodges Should resolve for that place, we would have him if he cann preswade [*sic*] some experienced Chineses to go with him thither, where we have ordred that they Shall [be] treated and encouraged by all kind of Civilities.

11. We have had thoughts this yearé and formerly, that our Tonqueen Ship after delivering all her Cargo to you except onely four or five Chests Silver and aboute 40 tons of Pepper, might with the Said four or five Chest of Sylver & the Said Pepper, make a tripp to the Lampacoa Islands, and trye to obtain an Investment in Chyna goods, and fromthence returne in December, time enough to take in the Tonqueen goods, and Save her passage through the Streights of Sunda ffor ffort S^t George that Same Monsoon.

12. The Objections against these Notions are 1st that it may cost no double presents to y^e Capen Mandarins to have leave for this tripp 2^{dly} That it is very uncertain wheth^r we Shall meete with any trade in the Lampacoa Islands, it being affirmed by our Servants now come hith^r from Batavia, that the Portugeez of Macoa, had prevailed with the Tartars to prohibit all trade aboute the Lampacoa Islands.

13. Whether this latt^r discourse doth hold true or not, you will be better able to Judge, being nearer the place then we are here, So that upon the whole matter, We leave it to yo^r Discretion, So do what shall think most Safe and convenient for us, with this Limitaçon, that you do send the Ship to try for a trade in the Islands aforesaid, you Send one of our Councill to go and returne upon her, consigning the remaind^r of the Cargo aforesaid to him, to be desposed of at the Said Islands, to him you Shall so Send & the Cap^t of the Ship Dragon, for the Cap^t care therin, we Shall reward him accordingly on his returne hith^r.

14. M Warren our Chururgeon with you, who at his going hence was entertained at the Sallary of 27£ p^r anum, haveing (besides the one third $\frac{1}{3}$ thereof paid here to his wife) received onely one other third part of from you on the place, w^{ch} (as is alleaged) is too litle for his maintenance, We think fitt to ord^r and direct that you pay him w^t is due to him in arreares for the other third $\frac{2}{3}$, w^{ch} hath been detained in our hands, and that for the future he be allowed the two full thirds of his Said Sallary as it becomes due.

15. M^r Clyve who was designed to go on this Ship, being unexpectedly deteyned here by a Suite in law, we have discoursed him at Large touching the lackred workes before mençoned, and would have you give ord^r that the Inclosed Instructions may be observed in the performance of w^t we write for to be Sent us as neare as may be.

16. We have as you will see by the Invoyce provided a parcell of fyne woollen cloth, Callicos Prospective glasses and other Rarities in two Chests Marked A B which upon advice with M^r James we find will be most acceptable to the King of

Tonqueen, we would therefore have you present the Same to his Majesty from us, as they are without opening, and the 8th Case to the Mandarens.

We have not else to add but commending you and our affaires to the guidance and proteccion [of y^e] Almighty. We remain

Your Loveing Friends.

Of which fourteen Shippes 2 are mentioned in y^e foregoing List, because the Rose is to returne to you from Sumatra, and the Nathaniel from Bengall as aforesaid.

And in Regard we doe not know but our Generall and Council, or Some of our Principall Servants may be detayned by the Mogulls Governors at Suratt by reason of our differances in Bengall, as also because on Such occasions as these, it is good to Ride the fore horse if wee can, wee have orderd all our Captains to Bring to Bombay any of the Mogulls or his Subjects Shippes or Junks that they can meet within their passage, but not to take y^e Value of a penny from any of them, as they will answer the Contrary at the Perill of his Majestys Displeasure, untill they are condemn'd at Bombay if it proves a War, but that they Shall bee released, without looseing the value of a penny, if our differences with the Mogull may bee compounded in any Amicable way.

Wee would have you if it proves a warr, reserve one Sixth part of the proceed of all prize Shippes and goods at Sea for the reward of Commanders, Officers, Seamen & Souldiers, and for relief of Wounded and Maimed, and the Widdows & Orphans of Such as shall bee killed in this Servis, according to the order and discretion of any Council of Warr to that purpose to which Council of Warr, Wee would have all Captains Summond, and Soe many of the Members of our respective Councils of Suratt & Bombay, as can be present, and to have Suffrage, and that in all Councils of Warr, our Generall for the time being Shall preside if he be present, and in his Absence, his Second of Suratt M^r Zinzan and next to M^r Zinzan our Dep^y Gov^r S^r John Wyborne, and after them our Captains according to their Seigniorities and degrees.

You See by the Bengall papers before mentioned what Orders we have given for making peace, and Compounding those differences in the Bay, but as to the Breaches that Shall happen in your parts of India, wee are Soe well Satisfied of the fidelity, & great Abilities of our Generall, by his Thirty years experience of, & residence in India, That wee shall give you noe particular directions, but leave all to his and your Prudence, to doe whatever you think is most for the Honor of Our King, & Country, and for the Companys Interest, remembering that wee are Merchants, and must live by trade and not by a long Warr.

Wee have often wrote you (according to the Order of his late Majesty and Council after many years conference concerning that) to pay noe more Customs at Tannah & Carinja, both which places doe of Right belong to his Maj^{ty}, but that if the Portugalls attempt to exact it of you by force, you Should resist force with force, and if that business brings you into A Warr with them, it can never happen at a better time then this, now you are Armed for other purposes, and therefore if you are put to it, and the Portugalls bee aggressors wee would have you doe your best to recover from them those Adjacent Islands to Bombay, which belong to his Maj^{ty}: and were formerly dependances upon Bombay (especially Sallsett), and ought to have been delivered up to his Majesty when Bombay was Surrender'd, for want whereof that Island instead of being a benefitt hath been a dead Charge to this Company, first and last of at least 300000 pounds Sterling, and cannot possibly subsist for want of provisions if you Sho^d: at any time be Block'd up by Sea, without Supplis from the adjoyning Island Sallseatt.

It will be necessary for you to make and always to keepe A Strict Confederacy with Sumbaiee Raiah who is a Warr like Prince, and thō he bee not the most

carefull of his honor, or of keeping his Leagues, all those Indian Princes will keepe their confederacyes, So long as they agree with their Interests, and it is possible for you to make Such terms with him, as Shall bee now and for many years his Intrest to preserve, to Sweeten him wherein, you may among other things agree to furnish him Constantly with So much Powder, Great Gunns & Shott, and Small Arms, on reasonable terms as he Shall desire annually, for which purpose we have now sent you a double proportion of Powder, and if you Should want more you may wright for what you will to Fort S^r : George, where we have 2600 Barrells in Store which it is full time were dispos^d.

You may likewise wright to President Gyfford for 100 Topasses Souldiers, if you want them, which may doe you good Servise under English Officers, and be Some Ballance to your Canoreens and Rashpoots, it being never good to have too many of one cast in Arms under us.

Our letter to the Mogull you may send him by the Conveyance of his Governor of Suratt or otherwise as you shall thinke best, without the Ceremony of Presents, and if you think it necessary for our Servise by any alteration of affairs, which wee cannot foresee, you may Alter this letter, or forme any other letter or letters to him in Our names, and sett our Governor S^r Joseph Ash his hand thereunto which you are hereby authorised to doe.

Wee have Superscribed this Letter onely to our Generall S^r Jn^o: Child, Our Second of Suratt M^r Ch. Zinzan, our Deputy Governor of Bombay S^r John Wyborne, & Cap^t Vaux Second of Bombay, to the Intent, that if you think it for our Servis, you may keepe the Contents of it for some time Secret from the Rest of our respective Councils wee are

East india house 26th June 1686.Jos^a CHILD Gov^r.[Endorsed:] Copy Comp^{as} Generall to Priaman Dated the 26th June 1686.LONDON 19th NOVEMBER 1684.M^r. JOHN CHENEY.CAP^t W^m. GOODLAD.M^r. [AMBROSE] MOODY.M^r. [FREDRECK] BAGWELL.

1. We have appointed you four to be a Council for y^e managem^t of our affairs & disposi^{ti}on of our Cargo loaden on this Ship the Adventure, whereof you Captⁿ Goodlad are Comand^r, & to you M^r Cheney, M^r Moody & M^r Bagwell, we have appointed salaries to be paid according to your sealed Indent^{rs}.

2. The Particulars of o^r Cargo you will observe by y^e Invoices & bills of loading given you herewith, & consigned to yo^r selves to be disposed of at y^e Island of Mindano in y^e East Indies: Unto w^{ch} place (some of you know) we formerly have been invited to settle a factory by y^e King of that Island; Unto whom we have written a letter, w^{ch} you are to present with y^e best ceremony you can invent, according to the mode of those Eastern Countries: And if you find that place fit for y^e establishm^t of a residing factory, you may agree with y^e King upon y^e best terms you can for a constant residence there, viz, That he will build you at his own charge, a ffort of six Guns, & also a house for you in the said ffort. That you shalbe always free in yo^r persons & estates living & dying: That all misdemeano^rs comitted by any English shalbe judged & punished only by o^r Chief & Council: That you shall always be free of Custom & all other Duties: That y^e King shall always protect you while you [are] upon his land ag^t all y^t shall be Enemies to you, whether they be Europeans or Natives: That you shall have liberty to take into yo^r custody & punish at yo^r discretion any y^t shalbe yo^r Debtors; or doe any wrong or injury to any English man, Of which o^r Chief & Council to be o^r constant Judges.

3. If you cannot obtain all such beneficial terms as aforesaid, Get y^e best terms you can & settle a factory there by all of you y^t shall survive, (except Cap^t Goodlad) if you find y^e trade of y^t place may possibly, in time countervail Such a chargeable settlem^t. But if you find it doubtfull whether y^e place will answer such a charge, in that case we would have you leave only M^r Moody Chief, M^r Bagwell Second, & M^r Stephen Mabb Writer who goes along with you & is to succeed & be of o^r Council in case of y^e death of M^r. Moody or M^r Bagwell.

4. But if there be noe encouragem^t for y^e [settling] of a factory upon that Island, we would have you all proceed with y^e Ship from Mindano, first to y^e Islands of Nankeen in China, & thence to y^e Lampaoa Islands with y^e change of y^e Monsoon, & at either or both of those places endeavor to dispose of o^r Cargo for o^r most advantage, investing y^e proceeds of it in Copp^r. Tutenag, Vermilian, Gold, China Raw Silk, Pelon [. . . any] other China Silks w^{ch} you judge may turn us best to acc^t. [All w^{ch} you are] to consign to o^r Agent & Council at Fort St. George where we shall [. . . M^r. Cheney] youngest of o^r Council upon his

arrival there, & M^r Moody in some of o^r. Subordinate Councils to y^e Presidency, & leave it to o^r Presid^t & Councils discre^{et}ion to dispose of M^r. Bugwell & M^r Mabb according to their sufficiency.

5. We would have you outward bound for Mindano to go thro' y^e streights of Ballio, & have given instrucc^ons to Cap^t. Goodlad accordingly. And tho' before in this lfe, & by o^r Invoices & bills of loading aforesaid, o^r Cargo is to be disposed of at Mindano, yet if you shall find a vent for any part of o^r Cargo to yo^r. liking upon y^e. Island Ballio, Macassar, Seram & Celebes, Ternattee, or any other Island or place where you may have occasion to touch in this voiage, you may dispose thereof to o^r most advantage in truck for Cloves Mace Nutts Sapan, or Sandall wood, Tortois shells Fine Cassialign^d, or any other Com^odity y^e you shall reasonably judge may turn us to acc^o at y^e Nankeen or Lampacoa Islands, ffort S^t. George, or in Europe.

6. The only danger we apprehend in this voyage is, lest going too late in y^e year, you should fail of getting farr enough to y^e Eastward to arrive at Mindano with y^e next Westerly Monsoon. To prevent w^{ch} inconvenience, you must always make y^e best of yo^r way & stay as litle a time as is possible at S^t. Jago for yo^r refreshm^t. After yo^r departure from whence, get as soon as you can into a high latitude & keep in it as farr as is convenient for yo^r most speedy going to y^e Eastward.

7. But if after all yo^r endeavo^rs y^e Monsoon should so fail you y^t you cannot possibly obtain as farr Easterly as y^e streights of Ballio; In such case we know noe remedy but to direct you with y^e change of y^e Monsoon in y^e begining of May or thereabouts to go thro' y^e streights of Sunda & make y^e best of yo^r way for y^e Nankeen Islands, & from thence to y^e Lampacoa Islands as aforesaid, & get what trade you can at either of those places, & with y^e next change of y^e Monsoon to stand away for Mindano: Get what trade you can there; & if you find cause for it as aforesaid, make a settlem^t there, and from thence order y^e Com^omand^r to proceed with y^e said Ship & all o^r goods on board her, directly for ffort S^t. George thro' y^e streights of Ballio or Tymore, & deliver o^r Effects to o^r Presid^t. & Council there, w^{ch} Invoices & bills of loading of whatever you shall ship for o^r acco^o on board her.

8. Send likewise to o^r selves & our Presid^t & Council, a full acc^o of yo^r voyage & all yo^r proceedings therein & all y^e observa^ons you can make concerning Trade for y^e better improvem^t of it in any future attempt of this nature; & whatever els you shall think further requisite for Us or them to know concerning those Eastern parts of the world.

9. Send likewise to o^r Presid^t & Council of ffort S^t. George, a copy of these Instrucc^ons, & write them p^ticularly what English woollen Manufactures may be disposed of at Mindano, or other places near thereunto.

10. In all yo^r [debates and consulta^ons in w^{ch}] you shall not all concur in the same opinion, Our Order is y^t the greater number of Votes shall prevail, and be esteemed the result and Order of our Council; But when ever the Votes shall happen to be equal, Viz^t two of one Opinion & two of another, that Opinion shall prevail and be observed which is agreeable to the sense of our Chief M^r Cheney, and let such as dissent from the Majority of Votes express the reasons of their non-concurrence therein.

11. During the whole Voyage, we would have every thing done by Consulta^on; and an exact Register kept of all yo^r Consulta^ons, & sent us yearly, & y^t all y^e miscarriages w^{ch} you have formerly observed in our Agent and Council at Bantam may be carefully avoided, Viz^t. vain, unnecessary expences, Idleness, prophaness, empty and careless advices, for prevention whereof our principall Reliance is upon our Chief M^r. Cheney, who hath seen the extravagancies of Bantam, and the ill consequence and losses that ensued, there upon.

12. You know the great liberty of trade we give in India, being willing our Servants, should grow rich by honest Incomes. But in regard We have been at great charge in freighting this Ship it must be our Chief & Councils care, & particularly Captaine Goodlads, that no Goods be carryed in her from any Port to

another in India, but what shall duly pay us freight, Viz^t. all Spices 20^s & C^d wth all other goods according to Custom. And altho' we doe prohibit you from bringing any Spices [whatever for] Europe for yo^r own or any & p^{ar}tic^l. acco^t. Yet y^e you may not want due encouragem^t in this Undertaking, We shall order o^r Agent & Councill at ffort S^t George to pay you for y^e best Cloves, One Doll^r & p^{er} pound for y^e best Nutts & ^{the} of a Doll^r & p^{er} pound for y^e best large mace two Doll^rs & p^{er} [lb] for y^e inferio^r sort & p^{er} rata According to w^{ch} prices we have consented & we [doe however order] you to deliver what you have for yo^r own or friends acco^t. to o^r Presid^t. & Councill at ffort S^t George, God sending you safely to arrive there.

13. We have only to add, for yo^r encouragem^t, God assisting you to make Us a very good voyage, we shall order o^r Presid^t. & Council to give a very good gratuity to all y^e are of o^r Council for this voyage; besides y^e salary agreed; & for Cap^t. Goodlad, to whom we have assigned noe certain salary for serving us in a Mercantile way this voyage, We shall not only doubly reward him for his cares & pains therein, but shall take care for his future p^{er}form^t in o^r service.

14. If beyond o^r expecta^{ti}on you should meet with sales for y^e most part of o^r Cargo at or before you come to Mindano, & competent returns, in such case you may wholly omit going to China, & return y^e Ship with o^r Cargo immediately to ffort S^t George, repassing thro' y^e streights of Ballio, or some other streight to the [a few words lost] with the Dutch, if they should have Ships riding in or near y^e streights of Ballio against your return homeward.

15. Tho we have before [.....for a Fort] to be built at Mindano (if that Island prove a place of trade) we would not have you engage Us in any kind of charge of that kind this voiage, or out of this small Cargo. But if y^e King be rich & powerful, you may perswade him to doe whatever may tend to his own defence & security, & give him y^e best advice you can; but let all be done at his own charge: for you may tell him, o^r custom is not to bear any charge of building & until we have had 4 or 5 years experience of y^e trade of any new place.

16. What presents you think fit to give to y^e King of Mindano, having a respect to y^e Comp^a. interest, We doe hereby leave it to yo^r judgm^t & frugality for disposal of what o^r Cargo offords.

17. We have often ineffectually wrote to o^r late Agent & Council at [Bantam] to procure Nutmeg plants, & Clove plants, & also Male Cloves for Seed, w^{ch} we think would be of vast advantage to this Kingdom if we could [cultivate] in some other parts of India. We doe therefore desire you to get w^t you can of those Plants or Seeds, preserving y^e Plants carefully in boxes of Earth & sometimes watering them with fresh water: And keep y^e Male Cloves dry in small boxes, but not too thick for fear of [holding] together which may destroy their vegetive quality.

18. Prick likewise in boxes of Earth, some of the Male Cloves, & water them as y^e Plants, y^t they may sprout & grow in y^e Boxes. But over all y^e [boxes of Earth] you must make a cage of wyer to preserve them from the Rats, w^{ch} otherwise will destroy them before you get to ffort S^t George at w^{ch} place we would have you deliver all y^e said Plants & Seed Cloves, to our Presid^t. & Council.

19. You may doe well before you go, to provide yo^r selves of 30 feet of [wyre Gaze] for preserving the Plants aforesaid. We remayn,

Yo^r loving friends

[Endorsed:] 19th November 1684.—Instruc^{ti}ons to the Factors & Com^{man}d^{er}s on board the ship Adventure.

LONDON THE 3^d SEPTEMBER 1686.

OUR PRESIDENT & COUNCIL
AT FORT S^t. GEORGE.

The 25th ultimo, arrived wth us the Eagle, a very rich Ship from Bengala for which God be praised.

Our Coast Ships we daily expect, and wth them y^e good newes of a strong Settlement at Pryaman, and then we shall give you larger Advices then we can at present, for want of your Letters, This being principally to tell you, That we freighted the Adventure Cap^t. Goodlad, purposely to goe for Mindano, And sent on board him M^r. Cheney, and M^r Moody &c^a Council to negotiate such affaires there, as you will perceive by the secret Instruccions w^{ch} we gave the said Commander M^r Cheney &c^a. of which we send you a Copy enclosed, & likewise a Copy of said Cap^t. Goodlads Ch^reparty, to the intent, You may see, what our purpose was in that Voyage, and what y^e reason was, that we gave so considerable Sallaries and Priviledges to M^r Cheney and M^r Moody, And likewise gave a promise to M^r Cheney, that performing this Voyage faithfully and acceptably, he should be youngest of our Council upon his arrivall at Fort S^t George; But by some L^{tes}, We have seen from Cap^t. Goodlad and M^r Cheney, to particular friends, dated in the Latitude of the Island of Tristan de Achuna, We have cause to mistrust, that they intend to goe to Batavia, to sell their own Liquors, and from thence to Chyna, neglecting to go to Mindano, to contract with that King, and bring us Intelligence from thence, and of their passage thrô the Straights of Balleo, which we required them to make, in order to our better knowledg of y^e naviga^{ti}on, and for which purposes only we undertooke that Voyage and therefore in punishment of the said M^r Cheney for agreeing with the Cap^t. to neglect the principal part of his Voyage, we do hereby actually displace the said M^r Cheney from our service, Upon his arrivall at Fort S^t George requiring you to give him no entertainment, as a Servant of ours, nor any of the promised priviledges to him, except he have absolutely been at Mindano according to our orders, and has navigated thrô the Straights of Ballio, The Straights of Tymore or Solor, or some of those Straights to the Eastward of Java, and that no excuses [or pretences] be allowed for his not doing thereof, [After y^e] punishment of the Cap^t. for his neglect, we would have you load his Ship home with the coarsest and meanest of your Goods, And when he returns hither, he shall shew us better reasons for his neglect, then any we think he can, before ever we will employ him, or that ship again, It tending to the destruc^{ti}on of all Government, if we should let pass such notorious breach of order unpunished, whatever other good Success my attend the Voyage.

M^r Moody is a plain hearted, bussling hardy man, and we think diligent, and one that would have adventured according to his undertaking, If his craftier Leaders had not misguided him, and therefore we would have you prefer him in our service, according to his Sta^{ti}on in India.

kept with you
and not else.

A further ground of our enjoyfd Expediçon in this affair is, Wee cant tell but our differences in Bengall wth: y^e Moors Gov^r: may have causd hostilities between our Generall & Council of Bombay & y^e Mogulls Gov^r: at Suratt, in w^{ch} case Bombay may happen to be Straitned of Provisions & otherwise to Stand in need of y^e Countenance & aid of a Ship of Such great force as this is, and therefore (as you may perceive by our letter to Bengall) Wee are as earnest to have her dispatchd wth: provisions from Bengall to Bombay, as wee are to have her dispatchd from you with Pepper to our Agent & Council in y^e Bay.

if occasion
requires then
y^e Shipp to
be dispatch'd
for Bengall
with provis-
ion to B. B.

Wee doe not possitively order you to send any of y^e Souldiers on board this Ship to Bengall, because Wee know not whither o^r: differences there with y^e Moors, be grown to Such an Heighth y^t: our Agent and Council there, will have any need of recruits, Neither do we know yett whether you have one Garrison on y^e West Coast of Sumatra, or 2 nor consequently what recruits of English Souldiers you may Stand in need of, but you must have fresher Intelligence from the Bay, then it is possible for us here, and therefore if you find by your Intelligence, that our Agent & Co^s: may stand in need of more English Souldiers, and that you can Spare them for the Present, wee would have you not only Send them halfe y^e Souldiers on board this Ship But also 60 or 80 Buggess: or Maccassar Souldiers more to encrease our Strength in y^e Bay.

What Sould-
iers can be
Spared
from y^e
west coast
as well
maccassars
as others to
be sent to
assist at
Bengall if
they are in
want there
off.

Wee would have you as you have oppertunity to be sending some Maccassars and Buggesses or of other casts different from those usually employd at ffort S^t.

Maccassars
and natives
to be sent

to y^e fort
till Contra-
dicted by
